## GENERAL INFORMATION

Founded in 1857, the univ. continued to be an examining body till the early part of this century, when it took up also res. and teaching functions. This was given an impetus by the report of the Sadler Commission, and later by the Madras Univ. Act of 1923, which clearly laid down that the univ. would take up the devel. of res. and teaching depts. The univ. is federal, catering for postgrad. studies, and exercising control over the quality of the teaching given by its constituent and affiliated colls. Colls. within a radius of 10 mls. of the univ. are known as constituent colls. ; the affiliated colls. are spread over the different parts of Madras State. The univ. at present has

30 teaching and res. depts. comprising almost all the facs. Postgrad. teaching has also been organized on an inter-collegiate univ. co-operation basis.

CONSTITUTION. The authorities of the univ. consist of the senate, academic council, syndicate, facs. and bds. of studies. The senate is democratic in constitution and is representative of the colls., registered grads., legislature, local bodies, and certain learned socs. and assocns. This is the supreme governing body which considers the annual report and budget and frames statutes. The academic council is the supreme authority

which regulates courses of studies and standards of exams., and in general deals with all academic matters which emanate from the syndicate or the bds. of studies. The facs. consist of members of the academic council who are assigned to them, and the hds. of the univ. depts. These facs. generally advise the syndicate on matters referred to it. The bds. of studies form the primary academic body. For each subj. of study, a bd. is constituted consisting of the univ. hd. of the dept., and profs. drawn from the different colls. These bds. meet twice a yr. and advise the syndicate and academic council on courses of studies, prescription of textbooks, and the panel of examiners; they report also on matters academic referred to them. These recommendations invariably come up before the academic council and before the syndicate. The syndicate is the executive authority which consists of the vice-chancellor, the dir. of public instrcn. of Madras State, certain members elected by the senate and the academic council, and 3 members nominated by the chancellor. It meets monthly to consider matters pertaining to the admin. of the univ. The vice-chancellor, a full-time salaried officer, is the chief executive officer of the univ. The registrar is sec. of the syndicate and the authorities of the univ., and carries out the various decisions of the authorities.

## GENERAL INFORMATION

The region comprising the districts of Aurangabad, Parbhani, Nanded, Bhir and Osmanabad is known as Marathwada. It formed a part of the former Hyderabad state and subsequently a unit of the reorganized Bombay state. For nearly a decade there was a demand for a separate univ. for this region from the citizens of Marathwada. On the eve of the reorganization of states in India, the govt. of Hyderabad recommended to the successor govt. of Bombay the establ. of this univ. The govt. of Bombay accordingly appointed a cttee. on whose report the legislature passed the Marathwada University Act, 1958, to establ. and incorporate a teaching and affiliating univ. at Aurangabad. The act received the assent of the governor on May 5, 1958, and the univ. was inaugurated by Mr. Nehru, the prime minister of India, on Aug. 23, 1958.

**CONSTITUTION.** The main authorities of the univ. are the court, the executive council, the academic council, the facs., the bds. of studies, the bd. of univ. teaching and the bd. of extramural studies. The court is a body with wide powers, which include the taking of decisions on questions of the affiliation of colls., the establ. of depts., hostels and instns. of res. and specialized studies, the conferment of degrees, the instn. of teaching posts such as professorships, readerships and lectureships. The executive council is the executive authority of the univ., which is in charge of the day-to-day admin. The academic council has the control and general regn. of the maintenance of the standards of teaching and exams. within the univ. The duties of the bds. of studies are to recommend text-books, draw up courses of study in their respective depts., and panels of examiners, etc. The bd. of univ. teaching reports direct to the executive council regarding the conduct of all instrcn., teaching, trg. and res.

**INCOME (1959-60).** Rs. 1,051,563 (exam. & other fees, 19 per cent.; state govt. grant, 54 per cent.; grants from U.G.C. & govt. of India, 26 per cent.; misc., 1 per cent.).

**FACULTIES AND DEANS.** *Agric.*, .....; *arts*, Dr. M. G. Deshmukh; *comm.*, Prof. V. K. Pande; *educn.*, Mir Abu Talib; *law*, Principal Vish-

wanath Das; *med.*, Dr. P. M. Bhandarkar; *sci.*, K. A. Thakar.

**UNIVERSITY PRECINCT.** A portion of the site called the Soneri Mahal site, of about 700 acres, has been acquired for the univ. campus near a historic monument called Bibi ka Maqbara, which is a replica of the Taj Mahal, at the foot of hills. At present, the office of the univ. has been temporarily housed in a govt. bldg. in the town.

**LIBRARY.** 48,000 vols. (mainly lit., hist., art)

**LABORATORIES.** No univ. labs. at present, postgrad. teaching in scis. being conducted in affiliated coll. labs.

**ADMISSION.** Pre-univ. courses, conducted in the affiliated colls., of 1 yr. after the H.S.C. (high sch. cert.) exam. or an exam. approved as equivalent, admit to the degree courses in arts, sci., comm., and to the pre-professional course leading to 1st MB BS and civil engin. courses.

**FIRST DEGREES.** 3 yrs. after pre-univ.—BA, BSc, BCom; 4 yrs. after H.S.C.—BScAgri, 2 yrs. after 1-yr. pre-professional course (with phys., chem., biol.) taken after pre-univ.—1st MB BS, 2 yrs. after 1-yr. pre-professional course (with phys., chem., maths., drawing) taken after pre-univ.—BE.

**HIGHER DEGREES.** BEd, 1 yr., and LLB, 2 yrs. from 1st degree; MA MSc, 2 yrs. from 1st degree; PhD, 2 yrs. from postgrad. degree.

**EXTERNAL DEGREES.** BA. External students (women, and persons gainfully employed within the Marathwada Univ. area) may appear as private students for the pre-univ. (humanities) and BA exams. without attending lectures in a recog. instn. of the univ.

**RESEARCH.** Depts. of econ. and Marathi provide res. facilities for students and themselves undertake res., e.g. the compilation of a Persian-Arabic-Turkish-Marathi dictionary and a study of the socio-econ. effects of the Poorna project.

**STUDY LEAVE.** The exec. council may grant study leave to univ. profs., readers or lectrs. on such terms as it thinks fit.

**FEES.** Annual tuition fees: MA classes, Rs.

200; MSc classes, Rs. 300. (Undergrad. classes are conducted by the affiliated colls.).

ACADEMIC YEAR. June to April, 2 terms : June to Oct., Nov. to April. Vacation of 14 days in winter (Dec. 24 to Jan. 6).

USUAL LANGUAGE OF INSTRUCTION. English.

ADULT EDUCATION. With object of giving univ. educn. a rural and social orientation by taking univ. educn. to men and women denied opportunities for higher educn., the bd. of extra-mural studies provides adult educn. to students registered at centres opened by the bd. in rural areas (at present there are 10 centres : 2 in each of the 5

districts of Marathwada); lectures are given by univ. or coll. teachers.

PRINCIPAL 'OPEN' AWARDS. Merit scholps. awarded to students who obtain at least a 2nd class pass in the last qualifying exam. for the 1st degree; value : Rs. 15 p.m. for sr. classes, Rs. 10 p.m. for jr. classes.

NATIONAL CADET CORPS TRAINING. 4 platoons and 1 girls' troop at Aurangabad, 2 platoons at Nanded.

PUBLICATIONS. *Annual Report*; *Univ. Handbook* (Vol. I, pts. I & II); *Prospectuses* of all univ. exams.

## GENERAL INFORMATION

The Univ. of Mysore was the first univ. to be founded in the Indian states. The two state colls. (Central Coll., Bangalore, and Maharaja's Coll., Mysore) which had long been affiliated to Madras Univ. formed the nuclei of the new univ., and the establ. of the univ. received the sanction of H.H. the Maharaja of Mysore in 1916. A regn. amending and consolidating the provisions of the Mysore Univ. Regn. V of 1916, as amended from time to time, received the assent of H.H. the Maharaja in 1933. Further amendment in 1956 made the univ. an autonomous body.

There are two univ. centres, Mysore and Bangalore, at each of which there are univ. colls. (see p. 528).

The univ. is empowered to affiliate colls. under conditions prescribed in the statutes and ordinances. Inspection of colls. is made by profs. deputed by the syndicate.

**CONSTITUTION.** The principal univ. authorities are the senate, the syndicate, the academic council, the facs., the bds. of studies, the bd. of appts. and the cttee. of finance. The vice-chancellor, who is a full-time officer, is the *ex-officio* chairman of the senate, the syndicate and the academic council. He is also the principal executive officer and the academic officer of the senate and of the council. The executive govt. of the univ. is vested with the univ. syndicate which consists of 14 members. The senate, with a max. strength of 60 members, is in charge of the general organization of the univ. and its admin., incl. the instn. and conferment of degrees. The academic council is the academic authority of the univ. and is responsible for the maintenance of the standards of teaching and examination in the univ.

## GENERAL INFORMATION

The univ. was establd. in 1923. Teaching is provided partly through the affiliated colleges and partly through the teaching depts. of the univ. itself.

**CONSTITUTION.** The court is the supreme governing body with power to revise the acts of the executive and academic councils. The executive council is the chief executive body ; it controls univ. funds and, subject to certain limitations, it makes the ordinances. The executive council consists of the vice-chancellor, the treasurer, the deans of facs., 5 members elected by court, 2 principals of non-govt. colls., 4 members (elected by academic council) who are not principals of non-govt. colls., and 3 members nominated by the state govt. The academic council, the chief academic body, constitutes facs. and depts. of study, prepares syllabuses and recommends ordinances relating to admission to exams. and degrees. The facs. (*see below*) recommend subject syllabuses to the academic council on the recommendation of the bds. of studies ; no ordinances relating to courses of study, exam. standards and other academic matters are made by the executive council unless the opinion of the relevant fac. has been obtained. The facs. constitute bds. of studies which prepare courses of study. There is also a statutory finance cttee. with power

to examine receipts and expenditure, to allocate funds and to sanction expenditure.

## GENERAL INFORMATION

In 1924, the Setalvad Cttee. on University Reforms, which recommended the establishment of regional univs. in the province of Bombay, pointed out the suitability of Poona as such a univ. centre. It was not until 1942, however, that the provincial govt. appointed a cttee. to report on the form, constitution, jurisdiction and financial implications of a univ. for Maharashtra. Although the cttee. submitted its report in the

following year, difficulties created by the second world war prevented its implementation and it was not until 1948 that the Univ. of Poona was establd.; it occupied the old Government House, at Kirkee, which was provided by the Bombay govt. Though situated in Poona, the univ.'s activities are spread over the 12 districts inhabited by the Marathi-speaking people. It is intended, as the report of the cttee. which framed its scheme

observed, that the 'univ. will keep in view the special needs, interests and traditions of Maharashtra and its people without losing sight of its essential character as a university, i.e. a seat of universal learning which recognizes no frontiers except those of the human mind itself'.

The univ. is neither a purely affiliating nor a purely unitary and teaching univ. It combines the features of both these types. It aims at creating for the Poona area a central teaching organization beyond the inter. stage, and the whole of the postgrad. teaching and res. work in the entire univ. area is conducted under its direct control. But up to the inter. stage in the Poona area and the grad. stage in outside places, instruction continues to be given by the constituent and affiliated colleges subject only to the general supervision of the univ. It is not contemplated that all the staff, equipment and bldgs. of such post-inter. colls. in Poona will belong to the univ., which will, however, be able to draw freely on these resources. The univ.'s library, labs. and full-time teaching staff are used mainly for postgrad. teaching and res. in selected subjects.

**CONSTITUTION.** Among the distinctive features of the constitution of the univ. is its provision for the widest representation of the various elements in the life of the region in the composition of the court, the general legislative and deliberative univ. body. Linking academic and non-academic sides is the executive council, which possesses complete control over the finances and routine working of the univ. Apart from its general direction of policy, the court has no control over the day-to-day business of the univ.

**INCOME (1958-59).** Recurring : Rs. 4,263,850 (incl. govt. grants, 28 per cent., exam. fees, 34 per cent., tuition fees, 30 per cent.). Non-recurring govt. grants : Rs. 2,716,887.

**FACULTIES AND DEANS.** See p. 566.

**LIBRARIES.** Univ. libr. : approx. 68,005 vols. Librs. of affiliated colls. and institutions : total of approx. 575,000 vols.

**ADMISSION.** The univ., which does not hold an entrance exam. of its own, admits students who have passed the matric. or entrance exam. of any other statutory univ. in the state of Bombay. The univ. conducts the pre-degree exam. which precedes the 3-yr. integrated degree course leading to the BA, BCom and BSc exams. There is no discrimination on the ground of sex, race, creed, class or religious or political belief.

**FIRST DEGREES.** Yrs. of study after S.S.C. : 4 yrs.—BA(general), BA(spec.), BSc(general), BCom, BSc(Agri), LLB ; 5 yrs.—BSc (hons.), BE(civil, electr., mech., metall., telecommn.) ; 6½ yrs.—BAM&S(Ayurvedic med.) ; 7 yrs.—MB BS.

**Note**—The univ. has now adopted the 3-yr. integrated degree course leading to the BA, BCom and BSc degrees.

**HIGHER DEGREES.** 1 yr.—BT ; 2 yrs.—LLB (if taken after 1st degree), MA, MSc, MSc(Agri),

MCom ; 3 yrs.—MEd (only 2 yrs. if taken after BT), MD, MS ; 4 yrs.—LLM. Also PhD, 2 yrs. after MA or MSc ; DSc, 2 yrs. after PhD ; DLitt.

**EXTERNAL DEGREES.** BA(External), MA(External), MSc(External) (maths. only), BCom(External), MCom(External), LLM(External). Gainfully employed persons, and married women, residing within the univ. area, are eligible to appear for these exams. externally, i.e. without keeping terms at any of the affiliated colls. The duration of the degree course is 6 yrs. from the entrance exam. as compared with 4 yrs. for regular internal students. A candidate appearing for the 3-yr. integrated degree course externally can complete the course within 6 yrs. incl. the yr. of pre-degree exam. He qualifies for the master's degree after a further period of 3 yrs. For any of these 6 exams., students have to pay a registration fee of Rs. 16 in the yr. previous to yr. of exam.

**DIPLOMAS.** 1 yr.—TD, libr. sci., French (lower), German (lower) ; 2 yrs.—French (higher), German (higher), music, oriental learning, DPH, DCP.

**CERTIFICATES.** 1 yr.—French, German.

**POSTGRADUATE RESEARCH.** While the univ. depts. (see above) are mainly meant for postgrad. study and res., the three constituent recognized institutions (see above) also undertake postgrad. res. through their staff as well as through postgrad. students registered with the univ. and working in those institutions. The subjects of res. at the institutions are as follows : Bhandarkar Oriental Res. Inst.—anc. Sanskrit and Prakrit lit., Mahabharat epic and anc. Indian culture. Deccan Coll. Postgrad. and Res. Inst.—Sansk., compilation of Sansk. dictionary, sociol., anthropol., Arabic, Maratha hist., anc. Indian hist. and culture. Gokhale Inst. of Politics and Economics—econ., pol. and stats.

**FEES.** Fees charged up to first graduation are about Rs. 100 per term (extra lab. fees for sci. students). Postgrad. students : Rs. 125 per term for arts and Rs. 150 per term for sci. Besides these tuition fees, students have to pay about Rs. 25 to Rs. 30 p.a. for gymnasium, library and other facilities.

**ACADEMIC YEAR.** 2 terms : June to mid-Oct. ; Nov. to mid-March (med. & Ayurvedic med., mid-April).

The USUAL LANGUAGE OF INSTRUCTION is English, except in mod. Indian lang. classes, where the lang. concerned is used. Steps are being taken to replace English by Marathi.

**EXTRA-MURAL WORK.** The bd. of extra-mural studies was set up in 1950. Lectures on topics of general interest are frequently arranged under the bd.'s auspices, and profs. of the constituent and affiliated colls. and other experts are invited to

deliver lectures which are open to the general public.

**RESIDENCE.** The univ. maintains a hostel which has accomm. for 126 male postgrad. students. There is a sp. hostel for women students; accomm. 60. The affiliated colls. have their own hostels, accommodating a total of 3700 men and women students.

**UNIVERSITY PRESS.** The univ. maintains a small press.

**PUBLICATIONS.** *Handbook* (4 Pts. : Pts. I, III and IV annually; Pt. II quinquennially); *Annual Report*; N. C. Kelkar memorial lecture series, annual vol.; Dr. P. D. Gune lecture series, 1 vol. every 5 yrs.; Ashtekar Vedic lecture series, 1 vol. every 4 yrs.

## GENERAL INFORMATION

Although the idea of a univ. at Jaipur can be traced to the 1920s, it was not till Jan. 8, 1947, that the act for a federal univ. for Rajputana was promulgated. The univ.'s jurisdiction extends over Rajasthan, the ring-shaped region comprising the whole of Rajputana incl. Ajmer-Merwara. It is a teaching and affiliating univ.

The univ. now controls univ. educn. only. With the establ. of the bd. of secondary educn. in the state of Rajasthan with effect from July 1957, the control of high sch. and inter. educn. has been transferred to that bd.

CONSTITUTION. The main authorities are senate, syndicate, academic council, facs., bds. of studies and bd. of inspection, etc. Senate is the senior body. No statute of the univ. can be operative unless sanctioned by senate, and ordinances are subject to its approval. The syndicate is the executive body which controls day-to-day admin. Bds. of studies report to the facs., facs. to the academic council and academic council to the syndicate. All other bodies report direct to syndicate.

INCOME (1958-59). Rs. 1,823,701 (exam. and other fees, 27.3 per cent.; state govt. grant, 47.4 per cent.; grant from Univ. Grants Commission and govt. of India, 10 per cent.; tuition and other fees (univ. depts.), 6 per cent.; misc., 9.7 per cent.).

FACULTIES AND DEANS. Arts, B. Sen; comm., I. D. Bhargava; educn., P. L. Shrimali; engin., V. Lakshminarayanan; law, Dr. G. S. Sharma; med., pharm. & vet. sci., .....; sci., .....

UNIVERSITY PRECINCT. The univ. with its depts. and library, hitherto housed in rented premises, has now moved to newly constructed bldgs. of its own in Gandhinagar, Jaipur. The depts. of econ., hist., law and philos. are located there, and the dept. of geol. at Udaipur, c/o M.B. Coll.

The univ. has taken over postgrad. teaching in chem., phys. and maths. at Jaipur and bot. and zool. at Jodhpur.

LIBRARY. 43,688 vols.

ADMISSION. Min. requirements for entry to inter. pharm. and pre-univ. is high sch. or exam. declared equivalent. For requirements for entry to degree courses, see below.

FIRST DEGREES. BA, 2 yrs. after inter. or equivalent; BSc, 2 yrs. after ISc or equivalent; BSc(Ag), 2 yrs. after ISc(Ag) or equivalent; BCom, 2 yrs. after ICom or equivalent or 3 yrs. after pre-univ. or equivalent; BPharm, 3 yrs., with 90 days' practical trg., after IPHarm or ISc (with phys., chem., maths.) or equivalent; BE (civil, electr., mech., mining, telecommn.), 4 yrs., with 6 mos.' practical trg., after ISc, or 5 yrs. after pre-univ. or equivalent (with phys., chem., maths.); BVSc&AH, 4 yrs. after ISc (biol.); MB BS, 5½ yrs., incl. 6 mos.' internship, after ISc (with phys., chem., biol.). No honours degrees are awarded.

Note.—The univ. introduced 3-yr. degree and pre-univ. courses in the facs. of arts, comm. & sci. in 1958 and 1959 respectively.

**HIGHER DEGREES.** BEd, 1 yr. after 1st degree ; LLB, 2 yrs. after bachelor's degree. Courses of instructn. for MA, MOL, MSW, 2 yrs. after bachelor's degree ; MSc, MCom, ME and MSc (Tech-Electronics), MD, MS, LLM, 2 yrs. after corresp. bachelor's degree ; MED, 1 yr. after BEd ; MSc(Med), 2 yrs. after MB BS. Facilities for res. in univ. depts. of econ., geol., hist., philos. PhD, 2 yrs.' res. (and thesis) after postgrad. degree ; DLitt, DSc, 2 yrs. after PhD ; LLD, 2 yrs. after LLM. The DLitt, DSc and LLD may also be conferred as honorary degrees. All degrees are open to grads. of other univs.

**STUDY LEAVE,** which is available to univ. teachers who have been on the staff for 5 or more yrs., is granted (for 1 yr. or, exceptionally, 2 yrs.) to an individual once only. An undertaking to serve the univ. for at least 5 yrs. on return is required. If the teacher has a scholarship or other financial assistance he receives a monthly allowance of not more than half his salary ; if he has no scholp. or other financial assistance he receives his full salary plus a monthly allowance of not more than a quarter of his salary.

UNIVERSITY PRECINCT. The govt. of Madhya Pradesh have transferred to the univ. 2050 acres of land, free of cost, at a site selected by the univ. for the founding of the univ. town. The permanent bldgs. of the univ. are being constructed on the new site, which is on a plateau commanding

extensive and beautiful views and more than 2000 ft. above sea level. A wide range of bldgs., incl. those for the library, geol. and pharm. depts., and students' health centre, have been completed on the new site.

LIBRARY. 58,012 vols., 5520 bound periodicals, 480 pamphlets.

LABORATORIES. Bot., chem., geol., pharmacy, phys., zool.

MUSEUMS. Anthropol., bot., geol., hist., zool. BOTANICAL GARDENS.

OBSERVATORY. Meteorol. observatory controlled by phys. dept.

ADMISSION. Students who have passed the higher sec. sch. cert. exam. of Madhya Pradesh, or an equivalent exam., are eligible for admission to the 1st yr. of the degree course at the univ. Those who have passed the univ. inter. cert. exam. or any exam. recog. by the univ. as equivalent are eligible for admission to the 3rd-yr. class, i.e. 1st yr. of bachelor degree course. Grads. of this univ., as well as of other recog. univs., are eligible for admission to the postgrad. degree courses.

NON-MEMBERS OF THE UNIV. are not admitted to classes.

FIRST DEGREES. 3 yrs. after Preparatory—BA, BSc, BPharm, BSc (appl. biochem. scis.), BCom, Indo-Iranian Studies, BSc(Agri); 4 yrs.—BE in mining & metall., civil, electr., mech., telecommn. engin. All degrees (incl. higher degrees) of the univ. may be taken externally by teachers in recog.

schools and colls. within the territorial jurisdiction of the univ., and by women candidates.

A course in general knowledge is compulsory for all undergrad. students.

## GENERAL INFORMATION

The S.N.D.T. Women's Univ. was founded by Dr. D. K. Karve in 1916 on the model of the Women's Univ. of Tokyo. Dr. Karve based his plan for the new univ. on the recognition of two principles : the use of the vernacular as the most natural and effective medium of instructn., and the differentiation in courses of study to suit the different roles played by men and women in the social life of the country. In 1920 the univ. was placed on a firm financial foundation by a munificent gift of Rs. 15 lacs from Sir Vithaldas Thackersey. The distinctive features of this univ. are that it is mainly concerned with the educn. of women (courses of study incl. such subjects as dom. sci., drawing, painting and nursing) and that all teaching work is carried on in Gujarati and Marathi.

The univ. was granted statutory recognition by the state govt. in 1951. It has 7 colls., 2 constituent and 5 affiliated.

**LOCATION AND BUILDINGS.** The univ. was originally located in Poona, but since 1936 the main office has been in Bombay. The univ. office and the coll. in Bombay are housed in a spacious bldg., constructed at a cost of about Rs. 10 lacs, which was inaugurated by Dr. S. Radhakrishnan, vice-pres. of the republic of India, in 1952. The other bldg. of the univ. is under constrcn.; its estimated cost is about Rs. 20 lacs.

**CONSTITUTION.** The supreme governing body of the univ. is the senate. The executive govt. is vested in the syndicate.

**INCOME.** The univ. receives a recurrent grant of Rs. 153,896 from the govt. of Bombay and has also recd. non-recurrent grant of Rs. 200,000 from the govt. of Bombay. Exam. fees, Rs. 258,131; annual endowment (from Thackersey trust), Rs. 45,000.

**ADMISSION.** The qualif. for admission is the S.S.C. exam. of the S.S.C. Bd., Poona, or any other exam. recognized as equivalent for the purpose.

**FIRST DEGREES.** BA—4 yrs. Home sci. (incl. elementary biol. & hyg.), home making, home management & cookery, food & nutrition, physiol., psychol., are compulsory. Ethics, philos., music, drawing and painting are optional subjects.

BSc Nursing (hons.)—4 yrs. Theoretical instructn. at the univ., practical trg. and demonstrations at the Bombay Hosp. Students also visit the various special instns. in the city for trg.

The establ. of a degree and coll. in home sci. is contemplated.

**HIGHER DEGREES.** Postgrad. courses are offered

leading to the degrees of MA (2 yrs.), BEd (1 yr.) and MEd (2 yrs. after BEd).

**EXTERNAL STUDENTS.** All univ. exams. may be taken externally except those for BEd and BSc Nursing (hons.).

**FEES.** Coll. fees, Rs. 100 per term.

**ACADEMIC YEAR.** Two terms: June 15 to Oct. 14, Nov. 15 to March 14.

**RESIDENCE.** No arrangements at present. Plans for a hostel are under consideration.

**STUDENT HEALTH.** No specific health service, but immediate first aid provided for in case of emergency.

**STUDENT ASSOCIATIONS.** A students' welfare bd. looks after student interests generally. There are also literary and sports bds. and unions.

**PUBLICATIONS.** Prospectuses of courses (publd. from time to time): *Civics*, *Dom. sci.* (both in Gujarati & Marathi); *Econ.* (in Marathi); *General Educn.* (both in Gujarati & Marathi); *Sociol.* (in Gujarati).

## GENERAL INFORMATION

Visva-Bharati grew out of Santiniketan Asrama, a retreat founded in 1863 by Maharshi Devendranath Tagore. In 1901 an experimental sch. was started at Santiniketan by Rabindranath Tagore, and since 1921 Santiniketan has been the seat of Visva-Bharati, which was incorporated as a univ. by Act XXIX (1951) of the Indian parliament. Visva-Bharati is an all-India instn. with students and teachers drawn from all over India, with a proportion of teachers, students and visitors from abroad. Univ. area occupies over 11 sq. mls.

The aims of the univ. are to study the mind of man in its realization of different aspects of truth from diverse points of view; to bring into closer relationship with one another, through study and research, the different cultures of the East on the basis of their underlying unity; to approach the West from the standpoint of such a unity of the life and thought of Asia; to seek to realize in a common fellowship of study the meeting of the East and the West, and thus ultimately to strengthen the fundamental conditions of world peace through the establishment of free communication of ideas between the two hemispheres; and with such ideals in view, to provide at Santiniketan a centre of culture where res. into and study of the religion, lit., hist., sci. and art of Hindu, Buddhist, Jain, Islamic, Sikh, Christian and other civilizations may be pursued along with the culture of the West, with that simplicity in externals which is necessary for true spiritual

realization, in amity, good fellowship and co-operation between the thinkers and scholars of both eastern and western countries, free from all antagonisms of race, nationality, creed or caste.

A scheme of agro-economic res. is being conducted at the univ. under the auspices of the Ministry of Food and Agric., govt. of India. The scheme has under its purview a considerable area consisting of West Bengal, Bihar, Orissa and Assam.

The Social Education Organizers' Trg. Centre, sponsored under the community project scheme, provides for trg. of 160 organizers from the states of the Indian union every yr. and has a twofold curriculum, theoretical and practical.

## DIVISIONS OF THE UNIVERSITY

UNIVERSITY OF MALAYA IN SINGAPORE : *see p. 609.*

UNIVERSITY OF MALAYA IN KUALA LUMPUR : *see p. 614.*

## GENERAL INFORMATION

The univ. was founded on Oct. 8, 1949, by ordinances enacted in the Fed. of Malaya and the Colony of Singapore. It was formed by the fusion of 2 existing colls. of higher educn. in Singapore, the King Edward VII Coll. of Med. (founded 1905) and Raffles Coll. (founded 1929). Full univ. teaching began in session 1949-50 on the Singapore sites. In 1954 a decision was taken to start univ. teaching in the Federation. A site at the Pantai Valley nr. Kuala Lumpur was acquired and 1st-yr. teaching in all arts subjs. began in Sept. 1957 in accomm. temporarily made available in the Govt. Tech. Coll., Gurney Rd. This was, however, discontinued in the session 1958-59. In July 1958 the entire dept. of engin. was transferred to the Pantai Valley site.

As a result of proposals emanating from the univ., the govts. of the Fed. of Malaya and of the Colony of Singapore set up in 1957 a commission 'to review the constitution, working and finances of the univ. in the light of the experience and rapid expansion of the last 7 yrs. and of the prospective expansion in the near future, including the plan for developing the univ. in Kuala Lumpur, and to make recommendations'. The commission, headed by Dr. R. S. Aitken, vice-chancellor of the Univ. of Birmingham, arrived in Aug. 1957 and its report was publ. in Nov. the same yr. As a result of this report the govts. apptd. jointly a cttee. to draft a constitution for the univ. which would take into account the

proposals aiming at creating 2 divisions of equal status, 1 in each territory, with the univ. as the supreme governing body of the 2 divs. Ordinances to give effect to these proposals were enacted in Nov. 1958 and came into force on Jan. 15, 1959.

**CONSTITUTION.** The amended constitution provides for the continuance of the Univ. of Malaya as a single univ., with a chancellor, a vice-chancellor, a central council, a court and a guild of grads., and for the establ. of 2 divs.—the Univ. of Malaya in Singapore and the Univ. of Malaya in Kuala Lumpur—each with its own principal, its own divisional council and divisional senate. The 2 divs. are equally represented on the central council. The central council and vice-chancellor are assisted by a central secretariat.

The univ. has power, amongst other things, to award degrees, to ensure the maintenance of academic standards, to regulate conditions of service of staff in the univ. and the divs. and to negotiate with the govts. on matters of finance.

The divisions make all appts. of teachers and control matters relating to univ. teaching and admission to courses of study.

**FINANCE.** On the recommendations of a jt. finance cttee. apptd. by the govts. of the Fed. of Malaya and Singapore, grants for annually recurrent costs of the univ. and the 2 divs. for the triennial period 1959-61 will be made jtly. by the

\* Member of the Association of Universities of the British Commonwealth

Fed. and Singapore govts. in the ratio of 2 : 1. After the triennium it is anticipated that each govt. will, with certain exceptions, be responsible for contributing to the annually recurrent costs of the div. in its territory. Capital grants during the triennium will be made by the 2 govts. on an equal basis.

INCOME (July 1, 1958 to Dec. 31, 1958). £537,136 approx. (govt. grants, 83.9 per cent.; tuition & other fees, 11.1 per cent.; rents, 2.5 per cent.; clin. fees, 1.7 per cent.; investment income,

0.3 per cent.; misc., 0.5 per cent.). With effect from Jan. 1, 1959, the financial yr. has been changed to Jan. 1 to Dec. 31.

GEOGRAPHICAL LOCATION. The offices of the univ. are located in the bldgs. of the Kuala Lumpur div. in the Pantai Valley.

**GENERAL INFORMATION**

The Univ. of Malaya in Singapore was establd. on Jan. 15, 1959, as a division of the Univ. of Malaya. See also under Univ. of Malaya, above.

The powers of the div. include the provision of courses of instructn., the admission of students thereto and the appt. of teachers.

CONSTITUTION. The divisional council is the executive body of the div. and exercises all the powers of the div. except those which are allotted by the constitution or by statute to another authority. The membership of the divisional council is widely representative. The divisional senate is the academic body of the div. and has control of the general direction of instructn. and res. It is composed of the profs. and hds. of depts. and some non-professorial members.

The chief executive and academic officer of the div. is the principal, who is *ex officio* a member of the divisional council and chairman of the divisional senate.

FINANCE. See under Univ. of Malaya, above.

FACULTIES AND DEANS. *Arts*, Prof. T. B. Lim (econ.) ; *law*, Prof. L. A. Sheridan ; *med.*, Prof. E. S. Monteiro (clin. med.) ; *sci.*, Prof. H. B. Gilliland (bot.).

UNIVERSITY PRECINCT. The bldgs. of the 2 former colls. in Singapore are still being used, but there has been considerable devel. on these sites.

New bldgs. completed on the Raffles Coll. site include part of a large new multi-storey sci. block with associated lecture theatres ; the addn. of new wings to the Oei Tiong Ham bldg. for use of the library and admin. ; 2 new student colls. (Raffles Hall for men and Eusoff Coll. for women). At the med. coll. site a pathol. bldg., built in conjunction with the Singapore govt., has been completed. The new inst. of health was opened in 1958 and is shared by the univ.'s dept. of soc. med. & pub. health, the Singapore govt. sch.

health services and the maternity & child welfare section of the city council. King Edward VII Hall, a residential coll. mainly for med. students in their clin. yrs., was formally opened in 1957. Remodelling of the main bldgs. provided addnl. space for the library and for lecture theatres.

**GEOGRAPHICAL LOCATION.** The facs. of arts, sci. and law and the admin. offices are on the Raffles Coll. site of about 80 acres at Cluny Rd. 10, while the fac. of med. is on the former coll. of med. site, 4 miles away at Sepoy Lines 3.

**LIBRARY.** Main library (for arts, sci., law), 86,000 vols. plus Chinese collection of 130,000. Med. and dent. library (on fac. of med. site), 30,000 vols. In addition, about 30 deptl. libraries with from a few hundred to a few thousand vols.

**LABORATORIES, MUSEUMS.** Zool. field labs. at King George V natnl. park, Pahang and Raffles Light, Singapore; pub. health museum; Keith (pathol.) museum; D.S.I.R. radio res. substation (in assocn. with dept. of phys.); art museum.

**TEACHING HOSPITAL.** The main univ. teaching hosp. providing facilities for undergrad. or postgrad. teaching is the Govt. General Hosp. in Singapore; other hosps. used for teaching purposes are: Kandang Kerbau Hosp. (obstet. & gynæcol.), Woodbridge Hosp. (mental dis.), Middle Road Hosp. (V.D.) and Tan Tock Seng Hosp. (infectious dis.). Certain govt. hosps. in the Federation of Malaya are recognized as providing facilities for trg. prior to registration.

**ADMISSION.** Candidates are ordinarily required to take the Camb. oversea higher sch. cert. exam. which is regarded as the univ. entrance exam. For admission to 1st-yr. courses, candidates must have passes in the gen. paper and either 2 subjs. at principal standard or one subj. at principal standard and 2 subjs. at subsidiary standard. For sci. and engin. the subjs. must be chosen from a list. Exemption from 1st-yr. and admission to 2nd-yr. courses in sci., med., dent. and pharmacy: candidates must have full cert. with passes in the gen. paper and either 3 subjs. at principal standard or 2 at principal standard and 2 at subsidiary standard, the subjs. being chosen from a list.

Non-graduating courses are provided in the facs. of arts and sci. and admission to these is subject to the approval of the dean concerned.

**FIRST DEGREES (of Univ. of Malaya).** BA gen. and hon.—3 yrs. Gen. degree in 2 principal subjs. and 1 subsidiary subj. **GENERAL INFORMATION**

The univ. began as a Jesuit coll. instituted in 1592 by Pope Clement VIII, who gave it the power of conferring degrees in philos. and in theol. It is still housed in a bldg. erected by the Jesuit Fathers. Its med. fac. originated in a sch. of anat. founded in 1674 by grandmaster Nicolas Cottoner in the great hospital of the

order, which accommodated 745 patients. Fra Emmanuel Pinto de Fonçeca, grandmaster of the order of St. John of Jerusalem, with authority from Pope Clement XIV, raised the coll. to univ. status in 1769.

CONSTITUTION. By an ordinance promulgated

in 1947, the univ. is governed by a council consisting of the chancellor as pres., the vice-chancellor and rector magnificus as vice-pres., a representative of the Inter-Univ. Council for Higher Educn. Overseas, 6 members from the legislature of Malta, 6 members elected by the senate of the univ., 1 member from the guild of grads. and 3 members appointed by the chancellor in consultation with the vice-chancellor. A senate consisting of 14 members, 12 elected by the facs. and 2 apptd. by the chancellor, to deal with questions regarding teaching and discipline, was also instituted by this ordinance. The council is the supreme authority of the univ.

**INCOME** (1958-59). Total, £81,068 (govt. grant, £74,450; students' fees, £5647; other sources, £971).

# UNIVERSITY INSTITUTIONS IN NEW ZEALAND

[Contributed by Dr. F. J. Llewellyn, Vice-Chancellor, University of Canterbury\*]

**HISTORY.** The University of New Zealand was established by act of parliament in 1870 and now comprises four constituent institutions and two associated colleges. The first of these was established by the Scottish pioneers in 1869 through an ordinance of the provincial council of Otago as the University of Otago at Dunedin. When the concept of one university for New Zealand developed almost immediately, the Scottish settlers, somewhat reluctantly, yielded their right to their own independent university which became in 1874 a constituent college of the University of New Zealand whilst retaining the name University of Otago. In 1873 Canterbury University College was established, largely through the efforts of the Canterbury Association, at Christchurch. In 1876 the Queen granted a charter to the University of New Zealand. Auckland, the original capital of the colony, established its University College in 1882, and Wellington set up Victoria University College in 1897. Canterbury Agricultural College, Lincoln (a few miles from Christchurch), was established in 1873 and was controlled by the council of Canterbury University College until 1896 when it became more directly associated with the University of New Zealand. Massey Agricultural College, Palmerston North, was established in 1926, becoming the centre of agricultural education in the north island.

In October 1957 the titles of Auckland, Canterbury and Victoria university colleges became 'University of Auckland', 'University of Canterbury' and 'Victoria University of Wellington', respectively. These are changes of title only, and there is no change at present in the powers of these three institutions.

In August 1958 senate approved the establishment of a university college at Palmerston North as a branch of the Victoria University of Wellington and in April 1959 government approved these proposals and made financial provision for the establishment of the branch in 1960. First-year English, education, geography, history and mathematics will be available for students of the Palmerston North Teachers' College and other students resident in the Palmerston North district as internal students of the Victoria University of Wellington and the college will also be responsible for extra-mural tuition in these subjects to students from all university districts. In April 1959 government approved the establishment of a university college at Hamilton in 1960 as a branch of the University of Auckland. Tuition in first-year

English and history will be available in 1960 to students as internal students of the University of Auckland.

**CONSTITUTION.** The university has a federal structure and is similar in certain respects to the universities of London and Wales. According to the provisions of the University Act, 1908, the principal duty of the university was the conduct of the examinations for the students of the colleges and for many years the scripts were sent to Great Britain to be marked by examiners appointed by the university. The act of 1926 laid stress on the function of the university as an examining body and developed still further the university as a federation of colleges teaching for common degrees whose structures were determined by the university. During the past ten to fifteen years much of this authority has devolved upon the colleges themselves and this process is likely to be accelerated until ultimately the four constituent institutions become autonomous degree-granting universities.

The governing body of the university is the senate, which includes representatives of the constituent institutions and associated colleges, of the government and of the graduate body. The senate exercises authority in general academic and administrative matters. It is advised on academic matters by the academic board, which is composed of the vice-chancellor of the university, the academic heads of the constituent institutions, the principals of the agricultural colleges, together with representatives elected by the professors, lecturers and professorial boards of the constituent institutions and agricultural colleges. By an act of 1954 the senate delegated to a curriculum committee, consisting of the vice-chancellor, the academic heads of the four constituent institutions, the director of education, four professors and two others appointed by the senate, authority to approve course regulations for the various degree courses taught in the constituent institutions and agricultural colleges. Course regulations approved by the curriculum committee supersede degree statutes of the university and are regulations of the sponsoring institution. Whilst the basic degree structure set out in the various degree statutes of the university has been retained in these course regulations, there are now variations between constituent institutions in prerequisites, prescriptions, compulsory subjects and some other matters of detail.

See footnote to p. 635

At the present time, then, the curriculum committee and the academic board work side by side on academic matters with which the institutions and the university are concerned. Whilst the academic board advises senate, the curriculum committee has executive powers under its own act.

Senate is advised on matters relating to university entrance and university scholarship examinations not only by the academic board but by the entrance board, which includes representatives of the academic board, the post-primary schools' association, the registered private secondary schools and the department of education. Entrance to the constituent institutions and the agricultural colleges is therefore determined on a national basis by examinations controlled by senate on the advice of the entrance board and the academic board.

The constituent institutions and agricultural colleges are governed by councils and boards of governors respectively which include representatives of the professoriate, lecturers, school teachers, education boards, the graduates and appointees of the governor-general. Councils and boards of governors are advised on academic matters by professorial boards which are in turn advised by faculties.

As devolution proceeds, more authority is being vested in the councils of the constituent institutions so that ultimately, when independent universities are established, the powers of ordinary unitary university governing bodies will devolve upon them. Senate has now set up a committee to make recommendations concerning the completion of the devolutionary process and to determine what functions should remain central.

**RELATIONSHIP TO GOVERNMENT.** The university and the constituent institutions and agricultural colleges are independent of government control in all academic matters except and in so far as any developments require the approval of parliament and consequent amendment to the university acts.

In financial matters, both with regard to annual grants (which are negotiated on a quinquennial basis) and grants for capital items including buildings, negotiations are conducted by the University Grants Committee with the minister of education. The grants committee is a body consisting of the vice-chancellor of the university *ex officio* and five persons not associated with any of the constituent institutions or agricultural colleges. The members are appointed by the senate after consultation with the ministers of finance and education. The financial needs of the institutions and colleges are put before the grants committee by the various councils and boards of governors and these are then sifted and collated by the committee before being presented to the government through the minister of education.

**FINANCE.** The total recurrent income of the university, the constituent institutions and the agricultural colleges for the year 1959 was approximately £2,150,000, of which £1,804,000 was from government sources, £30,000 from endowments,

£280,000 from fees and the remainder from miscellaneous other sources.

**PRE-UNIVERSITY EDUCATION.** The normal minimum pre-university education required is six years at primary school, two years at intermediate school (or, alternatively, eight years at primary school) followed by four years at post-primary school, at which time the university entrance examination is normally taken. A further year at post-primary school leads to a higher school certificate or to the competitive university scholarship examination. Students are strongly encouraged to spend this extra post-university entrance year at school and the majority do so.

The university entrance examination varies in scope and content from time to time and at present consists of English and three other subjects from a fairly wide list. Adequate provision is made for the recognition of the entrance examinations of other universities.

**ADMISSION.** Until recently all qualified applicants for admission to the university (i.e. those who have passed the university entrance examination or those who have been accredited by their schools with a pass in this examination or those who have secured an equivalent overseas qualification) have been accepted without any further selection. It is likely, however, that accommodation problems will require some selection to be made in the near future, particularly in science and engineering courses. Admissions to professional courses in medicine and dentistry are limited and from time to time competitive on the results of the first year (intermediate medical or dental) university examinations.

Candidates for university entrance may either sit the prescribed examination or be accredited by the headmaster of their school. Only certain schools, approved by the senate, have power to accredit. General liaison is maintained on the many questions relating to entrance, and on the accrediting process in particular schools, by liaison officers. One liaison officer is attached to the staff of each of the constituent institutions with the status of senior lecturer.

*Ad eundem* admission to postgraduate study and research is determined by senate following individual application. It is usual for applicants from Commonwealth and most other countries, who are adequately qualified to proceed to higher degrees in their own universities, to be permitted to register and pursue a course of study leading to a higher degree in the University of New Zealand.

**STRUCTURE OF DEGREE COURSES.** Each of the four constituent institutions provides degree courses in arts, commerce, law, music and science. Courses for various other professions are provided as follows: *Auckland*—architecture, engineering and fine arts; *Canterbury*—engineering and fine arts; *Otago*—dentistry, home science, medicine, mining and physical education; *Wellington*—political science, public administration and social science. See also p. 628.

Courses for the first degrees of BA, BSc and BCom require a minimum of three years' study and are made up of units. Each unit represents one year's work in a subject, *e.g.* eight units are required for BSc degree and nine units for BA degree. Honours are awarded for the bachelor's degree in architecture, engineering and music. Except at the University of Canterbury and the University of Otago, honours are not awarded for the other bachelor's degrees, but a candidate having graduated with a bachelor's degree may in certain faculties, *e.g.* arts, commerce, law, science, proceed to a course (one or two years), which is partly a lecture course and partly research or other original work, for a master's degree with or without honours, according to the standard of attainment.

The minimum number of years of study for other first degrees is as follows: BAg, three years; BHSc, BAgSc, BArch, BE (civil, electrical, mechanical, metallurgical, or mining), MusB, four years; LLB, BE(Chem), BE (hons.), BDS, BMedSc, five years; MB ChB, six years.

Professional courses in special schools are normally preceded by an intermediate course (one or two years) which may be taken at any of the constituent institutions. Courses in agriculture leading to BAg and BAgSc may be taken wholly at the agricultural colleges or alternatively the first year intermediate course may be taken at any of the constituent institutions. Examinations for bachelor's and master's degrees are taken annually in October/November.

Postgraduate study (*i.e.* post master's degree or post bachelor's honours degree) usually involves original supervised work together with some tutorial and discussion type instruction. Normally there is no organized lecture course leading to a written examination, although the candidate may be required, if his thesis or dissertation is not wholly acceptable, to subject himself to some further examination.

**TEACHING STAFF.** The grades of staff within the university are: (1) professors (who are also professors of the university, even though they are for all practical purposes members of the staff of the constituent institutions or agricultural colleges); (2) associate professors, who are lecturers of especial personal merit or distinction; (3) senior lecturers; (4) lecturers; (5) assistant or junior lecturers.

The usual teaching method is the formal lecture, but increasingly in the more advanced work seminars, tutorials and informal discussion methods are being introduced. In most departments there is reasonable time available for personal research and study, but the teaching load is generally somewhat greater than in universities in the United Kingdom.

Members of staff (1-4 *above*) may expect leave for up to one year for travel and study overseas every six or seven years. Conditions of leave vary somewhat from one institution to another, but usually provide for full salary, a travel allowance

and a maintenance grant dependent on the circumstances.

There is a national scale of salaries for university teachers which is determined by government on the recommendation of the University Grants Committee. Following the publication in January 1960 of the Parry report, government has approved the following salary scales as from April 1, 1960: Academic heads of: constituent institutions £3300, agricultural colleges £3100. Professors, £2800; associate professors, £2250; senior lecturers (heads of departments) ( $2 \times$  £100,  $1 \times$  £50), £1900-£2150; senior lecturers ( $2 \times$  £100,  $1 \times$  £50), £1750-£2000; lecturers ( $\times$  £75), £1250-£1700; assistant lecturers ( $\times$  £50), £900-£1100.

Superannuation is available under the N.Z. government superannuation scheme; at present there is no reciprocal arrangement with F.S.S.U. or other overseas schemes. The usual method of appointment is by advertisement; it is not usual for posts to be filled by invitation. Advertisements are normally placed in appropriate newspapers and journals in New Zealand and the United Kingdom and occasionally in other Commonwealth countries. Persons of foreign nationality are considered for appointment and there are no statutory restrictions as to nationality. An analysis of the 1959 full-time staff statistics for the four teaching universities shows that 68 per cent. secured their first degree in New Zealand and of these 72 per cent. did so in their employing university; 22 per cent. secured their first degree in the United Kingdom; 7 per cent. in Commonwealth countries other than the United Kingdom; 3 per cent. in other countries. Most of those who secured their first degree in New Zealand have read for a second degree in some overseas country.

**STUDENTS.** Whilst the university and the constituent institutions recognize the importance of full-time academic study, this ideal has not been fully realized, particularly in arts, commerce, law and music courses. It is virtually impossible to take degree courses in architecture, dentistry, engineering, home science, medicine, mining or science except as a full-time student. Of some fourteen thousand internal students, rather less than half are part-time; a further 1200 are external students registered with the university, but permitted to pursue their courses through private study, provided they pass the examinations conducted each year either by the university or by the constituent institutions on behalf of the university.

Relatively few students live in halls of residence, the proportion being highest in Otago and lowest in Auckland and Wellington. Student corporate life is focused on the students' union controlled by an elected student executive which organizes a full programme of cultural and sporting activities through the various societies and clubs. A representative of the students in each constituent institution sits on that university's council. Student health services exist in most of the universities and

there are usually also counsellors or tutors and lodgings officers. There is no appointments board or overseas universities information bureau.

Most fees range from £5:5s. to £10:10s. per subject per year. Thus, for example, total fees for a BSc course are approximately £70 plus small laboratory charges and student association fees (approximately £3 per annum). Students who have a university entrance qualification are entitled to bursaries which pay fees (but not for a repeat course necessitated by failure). Students with a higher school certificate are entitled to an additional monetary allowance, together with a boarding allowance if the student lives away from home, and students with scholarships obtained from high placing in the university entrance scholarship list receive a still higher monetary allowance in addition to free tuition and boarding allowance. Many students supplement their bursary incomes with vacation employment; some students who for one reason or another are ineligible for bursary awards are able, by working throughout the long vacation, to finance themselves for full-time study during the university session.

The approximate annual cost of study and residence for a full-time student from overseas is as follows: tuition, examination and miscellaneous fees, £30-£55; board (either private or hostel during term and private during vacation), £250; clothes, books, travel, etc., £150-£200.

A very considerable increase in the number of university students is expected in 1960 and subsequent years; this arises partly from the natural increase in the population, partly from the population increase due to immigration, but mainly from the high level of the birth-rate in the 1940s.

**ACADEMIC YEAR AND VACATION COURSES.** The academic year consists of three terms of approximately nine, eleven and six teaching weeks with short vacations between first and second and second and third terms. It begins in early March and ends in late November. There are no vacation courses for degree purposes, but engineering and some other students undergo practical training in works or field camps during the vacations.

**EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION.** Constituent institutions control, through the regional councils for adult education, various extension and other courses for non-university students within their respective districts. The universities also play some part in the activities of the Workers' Educational Association. For this work special grants are paid to the universities from the National Council of Adult Education, a body established under a separate act of parliament.

**INTER-UNIVERSITY ORGANIZATIONS.** The university, through the vice-chancellor and the academic heads of the constituent institutions, is seeking a closer liaison with the Australian vice-chancellors. The professors and lecturers are mostly members of the Association of University Teachers (secretary: E. M. Fraser, History Department, University of Auckland, Box 2553

C.P.O., Auckland) which is organized on a regional and national basis. The students' associations in the various centres adhere to the National Union of Students (address of secretary: P.O. Box 1884, Wellington, C.1).

**THE UNIVERSITIES TO-DAY.** A great increase in student numbers is expected in the next few years, and to cope with this an extensive major building programme is getting under way; this includes in its first phase a dental school at Otago, an engineering school at Canterbury, a science block at Victoria and probably a science block at Auckland.

The University of New Zealand is in process of devolution towards the establishment of separate universities which may grant their own degrees and in 1957 the titles of Auckland, Canterbury and Victoria university colleges became 'University of Auckland', 'University of Canterbury' and 'Victoria University of Wellington', respectively. These are changes of title only, there being no change at present in the powers of these three institutions. The next steps in the devolutionary process are now being considered.

The government, in close consultation with the University of New Zealand, set up a Committee on University Education to enquire generally into the needs of universities in New Zealand. It began its sittings in September 1959 and reported in January 1960. The committee consisted of three members: Sir David Hughes Parry (chairman), then director of the Institute of Advanced Legal Studies, University of London; Dean G. Andrew, deputy to the president of the University of British Columbia; and Dr. R. W. Harman, chairman of the New Zealand Atomic Energy Committee.

The report deals with almost every aspect of university education in New Zealand, including the role of the university in the New Zealand community; the universities and New Zealand's economic development; the demand for and supply of university graduates; university entrance; part-time and extra-mural study; scholarships, bursaries and other financial assistance to students; salaries and conditions of recruitment and employment; university staffing; buildings and equipment; science and technology; new developments and new institutions; the separate universities; the University Grants Committee; university finance. (Copies of the Report may be obtained from the government printer, Wellington, New Zealand).

**INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES.** The universities in New Zealand have a dominant role in higher and adult education. Some government departments, however, play a part in giving specialized technological training to employees, as also do some of the larger industrial enterprises. Nurses, dental nurses and teachers are trained by government departments or local authorities, although post-primary teachers, in particular, and many primary as well, also take university courses.

In addition to university courses for the professions, the technical school system, including the government's technical correspondence school, offers some professional courses, such as engineering and accountancy; the technical schools, however, are mainly concerned with vocational and apprentice training. There are no technical colleges at the higher education level.

There is a growing demand for some systematic training for technicians and other workers occupying a middle place between the university-trained technologist and the tradesman. In this field a significant start has been made with the recent introduction of a New Zealand certificate of

engineering for which courses are given at the large technical colleges and in 1960 it is proposed to begin a two-year full-time course in pharmacy.

The university is not responsible for teacher training, which is carried out under the control of the minister of education in teacher training colleges established for that purpose in the university centres and in Hamilton and Palmerston North.

## DIRECTORY TO SUBJECTS OF STUDY

(See also table on p. 628)

The following subjects may be studied, as part of the course leading to a first degree and/or at postgraduate level, at all of the constituent institutions of the University of New Zealand: accountancy, botany, chemistry, classics, economics, education, English, French, geography, geology, German, history, law, mathematics, music, philosophy, physics, political science, psychology, zoology.

For details of the agricultural subjects which may be studied at Canterbury Agricultural College and Massey Agricultural College, see the college entries on pp. 651-656.

The table on p. 628 shows which of the constituent institutions provide facilities for study or research in a number of other subjects. The symbol ✓ means that the subject can be studied at the university indicated *only* as a main or subsidiary part of the course for a first degree, or for a diploma, certificate, etc.; the symbol ✓ means that the subject can be studied at the university indicated at undergraduate *and* postgraduate levels; the symbol / means that the subject can be studied at the university indicated *only* at postgraduate level.

## GENERAL INFORMATION

(*see also* pp. 623-628)

The univ. was founded, as a purely examining univ., by an act of the colonial govt. in 1870. It received its royal charter in 1876. Its constitution is defined in the N.Z. Univ. Act, 1908, and subsequent amendments. One of the most important of these later amendments was that of 1926 by which the univ. was re-establd. as a federal univ. consisting of the 4 constituent instns. together with the 2 agric. colls. By amending legislation of Oct. 1957 the titles of Auckland, Canterbury and Victoria university colleges became 'University of Auckland', 'University of Canterbury' and 'Victoria University of Wellington', respectively.

The federal univ. is now largely concerned with wider problems of the promotion and co-ordination of univ. educn. and res. and, within recent years, has establd. a univ. press, a res. fund (at present £25,000 p.a.) and a univ. grants cttee. It supervises higher teaching appts. in the constituent instns., and the governing bodies of the

instns. cannot make any appt. to a chair without the prior approval of the senate. A prof. so apptd. becomes a 'prof. of the univ.'

The univ. owns, in Wellington, Univ. House, which contains its admin. offices and the senate room.

**CONSTITUTION.** The govt. of the univ. is vested in the senate, advised on academic matters by the academic bd., and on entrance matters by the entrance bd. The senate consists of the chancellor, pro-chancellor and vice-chancellor, 4 members nominated by the governor-general, 8 apptd. by the governing bodies of the constituent instns., 2 by councils of agric. colls., 1 by the senate, 5 by convocation, 3 by the academic bd., the vice-chancellors of the constituent instns. and the dir. of educn.

**ADMISSION.** The principal exam. qualifying for matric. is the entrance exam. held in Dec., when the candidate is required to pass in Engl.

and in 3 other subjects selected from appropriate groups of subjects. The entrance exam. is no longer in any way related to the sch. cert. exam. in New Zealand, that exam. normally being taken at least a yr. before the candidate takes the entrance exam.

Special provision is made for the admission to certain courses of students who have reached the age of 21 yrs. and who give evidence of some reasonable educnl. background though they have not passed the entrance exam. This admission is later confirmed on results gained.

Students from overseas are admitted at the discretion of a cttee. of the senate if they have passed an approved entrance exam. in a univ. overseas, or if they have passed such an exam. at a standard which appears to the cttee. to be the standard of univ. entrance in New Zealand.

'AD EUNDEM' RECOGNITION. Courses completed, or partly completed, at any British or other approved univ. may be accepted *ad eundem statum*.

EXTERNAL STUDENTS. Provision is made for the admission of students exempted from attendance at lectures, to the exams. for the degrees of BA, BSc, LLB, LL.M, BCom, MCom, MusB, and BD, except in those subjs. where practical cert. is required. Exemption in any subj. at stage III for BA and BSc is contingent on completion of 3 units (incl. one at stage II) as an internal student. Exemption is available only to students domiciled in N.Z. or in N.Z. island territories.

ACADEMIC YEAR. Three terms: autumn (March-May), winter (June-Aug.) and spring (Sept.-Oct. or Nov.).

FIRST DEGREES. 3 yrs.—BA, BAgr (4th yr. for BAgrSc provided candidate does not graduate BAgr), BAgr(Hort), BSc, BSc pass, hons., BPharm (except at Univ. of Auckland); 4 yrs.—BHSc, BAgrSc (incl. practical work on farm), BAgrSc(DairyTech), BAgrSc(Hort), MusB pass, hons., BArch (incl. 18 mos. practical work), BE (chem., civil, electr., mech., metall., mining, incl. from 9 to 18 mos. in shops, mines or surveying), BCom; 4 or 5 yrs.—BMedSc; 5 yrs.—LLB, BE (hons.), BDS; 6 yrs.—MB ChB.

The degree of BSc hons. (Univ. of Canterbury) may be awarded in one of the following: biochem., bot., chem., geog., geol., maths., microbiol., phys., physiol., psychol., zool.

BA, LLB and BCom can be taken largely or solely by pt.-time or evg. attendance and it is possible, but difficult because of the practical

work requirements, to take a BSc by pt.-time study.

The governing body of each constituent instn. and agric. coll. has power to make course regns. which must be complied with by students before degrees and dipl. of the Univ. of N.Z. may be conferred on them. One result is that the length of a degree course at a constituent instn. may differ from that stated above.

HIGHER DEGREES. For masters' degrees, i.e. MA, MSc, MCom, LL.M, ME, MHSc, MAgrSc, MAgrSc(DairyTech), MAgrSc(Hort), MMedSc, 1 or 2 yrs. of study beyond the bachelor's degree is required, with exams. and thesis; for doctors' degrees (except MD, ChM), i.e. LittD, LL.D, DSc, MusD, DDS, 5 yrs. standing as master, and an approved thesis; for MD, ChM, 3 yrs. standing, with approved thesis and exams.; for PhD, 2 yrs. standing, with approved thesis and exam.; for BD, 2 yrs. postgrad. work. All higher degrees are open to grads. of other univs. provided they have been granted 'ad eundem' admission with the prerequisite qualifs. and provided they are resident in N.Z. (except in the case of doctorates where publd. work only is acceptable).

HONORARY DEGREES. LL.D, DSc, LittD, MusD.

DIPLOMAS. Banking, fine arts, music, each 3 yrs.; educn., 1 yr. after BA; microbiol., 1 yr. after bachelor's degree; obstet., pub. health, 2 yrs. after MB ChB; town planning, 2 yrs. after BArch or BE. The constituent instns. and the two associated agric. colls. also award their own dipls.

PROFESSIONAL SCHOOLS. See p. 624.

'OPEN' POSTGRADUATE AWARDS. National Res. scholps., offered annually by D.S.I.R. to sci. grads. of N.Z. Univ. or other approved persons; about 6 res. fellowships (£450 p.a.) awarded annually from the res. fund, which, from time to time, may make awards of a higher value to sci. workers.

PUBLICATIONS. *Calendar* (Jan.), 4s. (plus postage); *Minutes of Proceedings of Senate*, free; entrance or entrance scholp. *Exam. Papers*, 3s. set; *Research in the Univ.*, 1946-49, 1950-52; J. C. Beaglehole: *The Univ. of N.Z., an Historical Study* (N.Z. Council for Educnl. Res., 1977) *Facts and Figures* (1959).

UNIVERSITY PRESS. Establd. 1947, by a grant from senate. Publishes text-books and works of scholarship.

## THE YEAR 1959

(see also separate entries for the constituent instns. and agric. colls.)

NEW DEPARTMENTS AND CHAIRS. Chairs: zool. (Auckland), architectural constrcn. (Auckland), fine arts (Canterbury), therapeutics (Otago).

HONORARY DEGREES. DSc—H. G. Forden, prof. of maths. at Auckland, 1934-56.

**GENERAL INFORMATION**

Establd. by act of the N.Z. legislature in 1882.  
Affiliated as a coll. of the Univ. of N.Z. in 1883.  
In 1885 an endowment of 30,000 acres was made  
available ; one-third of this was sold in 1915.

Lectures were offered in classics, Engl., biol.,  
geol., chem., mechanics, maths. and law at the  
opening of the coll. Others have been developed  
since then as funds and other circumstances have  
permitted. A sp. sch. of engin. was establd. in  
1906, and the sch. of archit. in 1917. In 1950 the  
existing Elam Sch. of Fine Arts was taken over by  
the univ. as a sp. sch. The postgrad. chair in  
obstet. & gynæcol., the first such chair in the  
S. hemisphere, was establd. in 1951, funds for its  
endowment having been raised by public sub-  
scription. The dept. of town planning was

formally approved in 1955, the salary of the 1st  
prof., who took up his duties in 1957, having been  
generously provided by Mr. N. B. Spencer for an  
initial period of 4 yrs.

A branch instn. of the Univ. of Auckland was  
establd. at Hamilton, 80 miles from Auckland.  
Lectures in stage I Engl. and stage I hist. were  
offered during 1960, and it is anticipated that  
further stage I subjs. will be offered in 1961.

**CONSTITUTION.** Under amending legislation of  
Oct. 1957, Auckland Univ. Coll. became the  
Univ. of Auckland, and was designated a con-  
stituent instn. of the Univ. of N.Z. The titles of  
the principal officers were changed to chancellor,  
pro-chancellor and vice-chancellor. The council

comprises 19 members, of whom 3 are apptd. by the governor-general, 2 by the professorial bd., 1 by the Auckland educn. bd., 1 by the Auckland city council, 1 by the executive of the students' assocn. and 6 elected by the grads., 1 by the sub-professorial staff, 2 by members of the House of Representatives and 1 by the principals of secondary schs., together with the vice-chancellor of the univ.

## GENERAL INFORMATION

Created by provincial ordinance, 1873; affiliated to Univ. of N.Z., 1874. First permanent bldg. opened in June 1877.

The chief special sch., that of engin., has developed greatly since its establ. in 1890. Among the other sp. schs., the sch. of art, opened in 1882, became a fac. of the univ. in 1950; and the sch. of agric., opened at Lincoln in 1880, was administered by the univ. until 1897, when it became a sep. instn. as Canterbury Agric. Coll.

CONSTITUTION. In Oct. 1957 Canterbury Univ. Coll. became the Univ. of Canterbury, a constituent instn. of the Univ. of N.Z., the rector becoming vice-chancellor and rector. Originally vested in a bd. of governors consisting of 23 members who were named and apptd. for life, the govt. of the univ. is now in the control of the univ. council, which consists of the vice-chancellor (*ex officio*) and 18 members apptd. or elected: 3 by the governor-general, 2 by Canterbury members of parliament, 5 by grads. of the univ., 1 by Canterbury primary sch. teachers, 1 by Canterbury post-primary sch. teachers, 1 by Canterbury educn. bd., 2 by the professorial bd., a member representing lectrs., a member representing the students' assocn., and the Mayor of Christchurch. A professorial council, set up in 1877 and reconstituted as the professorial bd. in 1896, includes all profs. and such lectrs. as are apptd. by the council.

INCOME (1959). Total income, £440,838 (govt. grants, 78 per cent.; fees, 12 per cent.; endowments, 4 per cent.; misc., 6 per cent.).

FACULTIES AND DEANS. *Arts*, Prof. N. C. Phillips (hist.); *comm.*, Dr. G. B. Battersby (accty.); *engin.*, Prof. S. R. Siemon (chem. engin.); *law*, Prof. H. R. Gray; *music & fine arts*, Prof. V. Griffiths (music); *sci.*, Prof. G. A. Knox (zool.).

UNIVERSITY PRECINCT. In 1949 the council decided to proceed with the transfer of the univ. to a new site of 150 acres, about 3 mls. from the centre of the city. A siting plan has been adopted which includes bldgs. for the facs. of arts, sci., engin. and fine arts and admin. The first major bldg., that of the sch. of engin., is now occupied. Sketch plans and working drawings for a series of bldgs. to accomm. the chem., phys., zool., bot., geol., maths., geog., psychol. and philos. depts. have now been prepared; bldg. will probably commence in 1961. The sch. of art is establ. on the new site.

LABORATORIES. Bot., chem., engin., educn., geol., phys., psychol., zool.

LIBRARY. Approx. 120,000 vols. The library of the Royal Soc. of N.Z., Canterbury branch, is at present merged with the univ. library. Macmillan Brown collection, approx. 15,000 vols., specializing in the Pacific ocean, anthropol. and ethiol. Deptl. libraries: engin., chem. and several minor collections. About 1200 periodicals.

FACILITIES OF SPECIAL INSTITUTIONS. Univ. of Canterbury industrial development dept.—to handle industrial research.

## GENERAL INFORMATION

Founded by ordinance of the Otago provincial council in 1869, with power to grant degrees in arts, med., law and music, the univ. was opened in 1871. By an agreement effected in 1874 the univ. agreed to hold in abeyance its power of granting degrees, and to become affiliated to the Univ. of New Zealand, in which it ranks as one of the four constituent instns. The law fac. originated in 1873, the med. sch. in 1874, the sch. of mines in 1878, the dent. sch. in 1907, accountancy lectures and the sch. of home sci. in 1911, the theol. fac. in 1945 and the sch. of physical educn. in 1948.

**CONSTITUTION.** The govt. of the univ. is vested in the council, on which are represented the professorial bd., teaching staff, students' assocn., grads. (convocation) and a number of educational and other bodies; the governor-general-in-council nominates two members. The council is advised on academic matters by the professorial bd.

**INCOME (1959).** Gen. univ. funds, £633,402 (govt. grants, 80 per cent.; student fees, 9 per cent.; endowment lands, gifts, bequests, 2 per cent.; other sources, 9 per cent.); res. scholps. and sp. funds, £179,695; allied instns. (adult educn.), £29,029; total: £842,126.

**FACULTIES AND DEANS.** *Arts & music*, Dr. A. Ross (hist.); *comm.* (acting), T. K. Cowan (acctg.); *dent.*, Prof. Sir John Walsh (oral surg.); *home sci.*, Prof. Elizabeth Gregory; *law*, Prof. F. W. Guest; *med.*, Prof. E. G. Sayers (therapeutics); *mining &*

*metall.*, Prof. G. J. Williams; *sci.*, Prof. H. N. Parton (chem.); *theol.*, Rev. Dr. J. Henderson. *Sch. of phys. educn.*, dir.: Assoc. Prof. P. A. Smithells.

**UNIVERSITY PRECINCT.** The main bldgs. are on the original univ. site, but the med. sch. has developed so as to be nr. the Dunedin hosp. about  $\frac{1}{2}$  ml. from the univ. site. The devel. of new bldgs. is being planned so that a continuous univ. precinct will link these 2 sections, using an existing public reserve on which the Otago museum stands. The whole area is in a residential district close to the shopping area of the town and the regional planning authority of the city council has approved the univ. plans and zoned the area accordingly. The univ. district incl. the city of Dunedin (pop. 100,400), comprises the provincial district of Otago (pop. 262,500), but students in considerable number come from all parts of N.Z. to attend the sp. schs.

**LIBRARIES.** Main library, incl. deptl. and clas libraries, 172,000 vols.; med. library, 40,000 vols.; also the Hocken collection of 23,000 books pamphlets and a large collection of MSS. relating to hist. of N.Z. and the Pacific.

**LABORATORIES, MUSEUMS, FIELD STATIONS** Labs. in all sci., med., dent., mining and home sci. depts. (see Teaching Staff). Deptl. museum in anat., pathol. and geol. Marine biological lab. Portobello (10 miles from Dunedin).

**TEACHING HOSPITALS.** Dunedin Public; Wakari; Queen Mary Maternity; Parkside; Ashburn Hall (psychiatric); Seaclyff Mental; Christchurch Public; Princess Margaret; Cashmere; Burwood; Sunnyside Mental; Wellington Public; Hutt; Auckland Public; and in Auckland city, Cornwall, Greenlane, Middlemore, National Women's.

**ENTRANCE REQUIREMENTS** (see Univ. of New Zealand—p. 629). Special conditions govern entrance to professional classes in the facs. of med. and dent., in which annual admissions are limited to 120 and 60 respectively, and entrance to the sch. of physical educn., which admits up to 50 students annually. Non-members of the univ., if over 16 yrs. of age, are admissible to most classes.

**FIRST DEGREES** (of Univ. of N.Z.). BA, BSc—3 yrs.; BSc hons., BCom, MusB, BHSc, LLB, BE mining & metall., BPharm—4 yrs.; BDS—5 yrs.; BMedSc—4 or 5 yrs.; MB ChB—6 yrs.

**HIGHER DEGREES** (of Univ. of N.Z.). MA, MCom, MHSc, LLM, ME, MDS, MMedSc—1 yr. from corresp. bachelor's degree; MSc—2 yrs. from BSc; BD—2 yrs. from 1st degree (all facs.); PhD—2 yrs. from 1st degree (all facs. except dent. and div.). Courses of instrcn. provided for these degrees except PhD for which facilities for supervised res. available. A 4 yrs. course of pt.-time study and res. required for members of staff proceeding to PhD. The degrees of ChM, MD and DDS, together with other doctorates of the Univ. of N.Z. (see p. 590), may be earned without attendance or res. within the univ. Grads. of other univs. are accepted as candidates for higher degrees by the Univ. of N.Z. if their qualifs. are deemed to be of equivalent standard.

**EXTERNAL DEGREES** (of Univ. of N.Z.). Extramural students are accepted only in certain courses (notably arts, comm. and law) and must reside within the Univ. of Otago district, comprising the provincial district of Otago.

**DIPLOMAS, CERTIFICATES, ETC.** Univ. of N.Z.: DipEd, DPH, DipMicr—1 yr.; DipMus—3 yrs. Univ. of Otago: courses for dipls. in land & mine surveying (3 yrs.), home sci. (3 yrs.), phys. educn. (3 yrs.); course for cert. in statistics (1 yr.); postgrad.: dipl. of diagnostic radiol. (2 yrs.), assoc. of Otago Sch. of Mines (thesis).

**SPECIAL RESEARCH FACILITIES.** Labs. of the med. res. council of N.Z., the British Empire cancer campaign (N.Z. branch), Empire rheumatism council and Travis trust (tuberculosis res.) are housed in med. and dent. sch. bldgs., and administered through the univ. Sp. coal res. labs. are associated with the sch. of mines. Hydatids res., under grant from the N.Z. govt., is associated with the sch. of med. A list of publications by members of staff and students appears in the annual Univ. Calendar.

**STUDY LEAVE.** Refresher leave is granted on salary, and normally a special travel grant is pro-

vided. In general, the council will regard as eligible for long leave (3 terms) an applicant who has completed 6 yrs. service before departure, and as eligible for short leave (2 terms) an applicant who departs during or after the last term of the 5th yr. of service.

**FEES** (approx.) for the course. Arts (3 yrs.), £55 (4th yr. for MA extra, £9: 9s.); sci. (3 yrs.), £70 (4th yr. for MSc extra, £12: 12s.); law (5 yrs.), £85; comm. (4 yrs.), £50; mining & metall. (BE) (4 yrs.), £175; home sci., dipl. (3 yrs.), £110, BHSc (4 yrs.), £145 (5th yr. for MHSc extra, £12: 12s.); med. (6 yrs.), £235; dent. (5 yrs.), £230; phys. educn. (3 yrs.), £100.

Exam. fees (not incl. above) up to £12 per yr.

**ACADEMIC YEAR.** March to Nov.: 3 terms of 9, 11, 6 weeks.

**ADULT EDUCATION.** This dept., financed through natnl. council of educn., undertakes general tutorial classes in Dunedin and Invercargill, and in country districts throughout the provinces of Otago and Southland. Through these, and specialized work carried out by drama, music and home sci. extension tutors, community activities and appreciation of the arts are developed. Special short 'summer schools' in poetry, drama and flower arrangement have been held, but no regular vacation courses are offered.

**AWARDS.** No 'open' awards.

**GRADUATES' ASSOCIATION.** Univ. of Otago graduates' assocn. publishes annually a *Vice-Chancellor's Newsletter to Graduates*.

**STUDENT RESIDENCES** (for wardens see 'Administrative and Other Staff', above). (Fees: from £4 to £5 per wk.) Selwyn Coll., Castle St., Dunedin, N.1 (tel.: 88-326) (Anglican), 90 men; Knox Coll., Opoho, Dunedin, N.E.1 (tel.: 39-102) (Presbyterian), 111 men; St. Margaret's Coll., Leith St., Dunedin, N.1 (tel.: 77-030) (Presbyterian), 122 women; Arana Hall, 110 Clyde St., Dunedin, N.1 (tel.: 78-135) (inter-denominational), 100 men; Carrington Hall, 57 Heriot Row, Dunedin, N.1 (tel.: 78-512) (inter-denominational), 57 men and 48 women; Dominican Hall, 44 Park St., Dunedin, N.1 (tel.: 70-388) (Catholic), 46 women; Studholme House, Clyde St., Dunedin (tel.: 80-891), 68 home sci. students; Aquinas Hall, 74 Gladstone Rd., Dunedin (tel.: 39-003) (Catholic), 85 men.

## GENERAL INFORMATION

Victoria Univ. of Wellington was establd. in 1957 by an amendment act which reconstituted Victoria Univ. Coll. and declared the univ. to be a constituent instn. of the Univ. of N.Z. The former instn., Victoria Univ. Coll., was the last of the 4 main constituent colls. of the Univ. of N.Z. to be establd. It thus completed, apart from special provision for agric. teaching, the general structure of the country's instns. for univ. work. In 1887 Sir Robert Stout, then premier, introduced a bill to found a coll. serving the Wellington, Hawke's Bay and Taranaki districts. It was Stout's hope that the Wellington coll., being at the seat of govt. and of the court of appeal, might specialize in the teaching of law, pol. sci. and hist., as well as in some depts. of sci. The bill passed the house of representatives, but was shelved by the legislative council. A new ministry coming into office in 1888, the matter lapsed for 7 more yrs., in spite of the constant urgings of the univ. senate and court of convocation. In 1894 Stout again came forward with a 'Middle District of New Zealand Univ. Coll. Bill'—the Middle District now comprising not merely Wellington, Hawke's Bay and Taranaki, but Nelson, Marlborough and Westland as well. No provision could be made in a private member's bill for the expenditure of money and though the bill was

finally passed and the govt. even apptd. certain members of a coll. council, no further action was taken. The final step was taken by Mr. Seddon, the premier, on his return from the diamond jubilee celebrations. His Victoria College Act, passed on Dec. 22, 1897, founded the coll. 'in commemoration of the 60th yr. of the reign of H.M. Queen Victoria'. It was to be a liberal foundation, bringing univ. educn. within the reach of the working classes. The coll. was affiliated to the Univ. of N.Z. in 1899. Endowed by govt. with 4000 acres. Coll. bldgs., towards which govt. gave £31,000, were opened in 1906; addnl. wings for library, etc., and for phys. erected 1921-22; new admin. and biol. blocks erected 1937-39; 3rd storey to biol. block completed in 1954. Six-storey sci. block completed in 1958.

The govt. approved of a grant to the univ. for the establishment in 1960 of a branch coll. at Palmerston North, a city some 95 miles N. of Wellington, where Massey Agric. Coll. is situated. This branch coll. is known as Palmerston North University College (for staff, see 'Associated College', above) and in its 1st yr. it offered to internal students instrcn. at stage I in the subjs. educn., Engl., hist., geog. and maths. Addnl. subjs. will be available in succeeding yrs. A dept.

of extra-mural studies will provide tuition to external students throughout New Zealand in a restricted number of subjs.

**CONSTITUTION.** The council, the governing body of the univ., consists of the vice-chancellor (*ex officio*) and 17 other members apptd. or elected as follows: 2 by the governor-in-council, 4 by the court of convocation, 2 by the professorial bd., 1 by the teaching staff, 1 by the Wellington city council, 2 by members of educn. bds., 1 by governing bodies of secondary schs., 2 by teachers in primary schs., 1 by teachers in secondary and day technical schs., 1 by the executive of the students' assocn.

**INCOME (1959).** Total income, £319,820 (govt. grant, £276,890; student fees, £41,930; other sources, £1000).

**FACULTIES AND DEANS.** *Arts*, Prof. I. A. Gordon (Engl.); *comm.*, W. G. Rodger (accty.); *gen.*, Prof. I. D. Campbell; *sci.*, Prof. D. Walker (phys.).

**LIBRARY.** Approx. 107,108 vols. Available to staff, students, grads. and others by arrangement at nominal fee. N.Z. Royal Soc. libr. also housed in univ. bldg. and available to staff and students.

**LABORATORIES.** Bot., chem., educn., geog., geol., phys., psychol., zool.

**ENTRANCE REQUIREMENTS.** As prescribed by Univ. of N.Z., see p. 629.

**FIRST DEGREES (of Univ. of N.Z.).** BA, BSc, 3 yrs.; BCom, LLB, MusB, 4 yrs. Also 1st yr. of degree courses in agric., dent., engin., home sci., med.

**HIGHER DEGREES (of Univ. of N.Z.).** MA, MSc, MCom, LL.M, 1 or 2 yrs.; PhD, 2 yrs.

**DIPLOMAS.** *Univ. of N.Z.*: educn., 1 yr postgrad. or 2 yrs. undergrad.; banking, music, 3 yrs. *Univ. of Wellington*: pub. admin., soc. sci., 2 yrs.

**FEES.** *Arts* (3 yrs.), about £55 (MA, £9: 9s. addtnl.); *sci.* (3-4 yrs.), about £70 (MSc, £12: 12s. addtnl.); *law* (4-5 yrs.), about £85; *comm.* (4 yrs.), about £60. Exact fees vary in accordance with subjs. chosen. *Dipls. in pub. admin. and soc. sci.*, each £10: 10s. p.a.

**ADULT EDUCATION.** Adult educn. has been provided for since 1915, when the W.E.A., then at the outset of its work in N.Z., establd. 3 tutorial classes in Wellington. In 1945 the Adult Education Act was passed, which set up a natnl. council and 4 regional councils. Regular classes and discussion groups are now arranged throughout the Middle District (1957: 364 classes or groups in 98 different communities).

**RESEARCH SCHOLARSHIPS.** (2) Univ. res. scholps. of £450 p.a. for 2 yrs. Sr. Jacob scholps for full-time postgrad. res.; value and duration determined by the council in each case.

**RESIDENCE.** Weir House, Salamanca Rd, Kelburn, accomm. for about 99 men students. Fees, approx. £4: 15s. per wk. Warden: I. A. McLaren.

**PUBLICATIONS.** *Calendar*, 3s. (Dec.); *Spike* (students' magazine), normally publ. towards end of each session; *The Middle District*, a publicn. issued to graduates.

**GENERAL INFORMATION**

In 1872 the provincial council of Canterbury set aside certain lands for the endowment of higher educn., incl. provision for a sch. of agric. Land suitable for the activities of such a sch. was bought at Lincoln in 1877 by the Canterbury Coll. bd., which was administering the endowments, and Lincoln Agric. Coll. was opened in 1880. By the Canterbury Agric. Coll. Act, 1896, control of Lincoln Agric. Coll. was removed from the Canterbury Coll. bd. and vested in a separate bd. of governors, the coll. thenceforth being known as Canterbury Agric. Coll. In 1913 a univ. degree in agric. was instituted and the coll. was recog. as a sch. of agric. by the Univ. of New Zealand. A series of amending acts was passed between 1922 and 1927, and by legislation passed in the latter yr. the coll. became a coll. of the univ. The coll. is situated nr. the township of Lincoln, about 13 mls. south-west of Christchurch, South Island.

**CONSTITUTION.** The Canterbury Agric. Coll. Act, 1930, with subsequent amendments, constitutes the present authority of the coll. It is governed by a bd. of governors consisting of the principal (director) and 15 members elected as follows: 1 by governor-general of N.Z., 3 by Canterbury members of the House of Representatives, 2 by council of Univ. of Canterbury, 1 by Council of Univ. of Otago, 1 by South Island agric. and pastoral assocns., 3 by South Island federated farmers of N.Z., 3 by grads., 1 by staff.

**INCOME (1958).** £270,000 (grant, 54 per cent.; fees and donations, 2 per cent.; endowments, 1 per cent.; trading, 43 per cent.).

**LIBRARY.** 10,000 vols. Subscribes to 300 journals.

**LABORATORIES, ETC.** Normal range of bldgs. to provide teaching & res. facilities in agric. econ., agric. engin., farm management & valn., hort., plant & animal scis., soil, vet. sci. and wool res.

The COLLEGE FARMS comprise approx. 2228 acres, 1350 acres being situated at the coll. and

878 acres 8 mls. distant at Ashley Dene farm. Special facilities are available for sheep and plant res. on a field scale. Full facilities are available for teaching hort.

The CROP RESEARCH AND BOTANY DIVISIONS (D.S.I.R.), which are the main centres in N.Z. for plant breeding and bot. study, are sited contiguous to the coll. Both these instns., together with other sub-stns. of D.S.I.R. associated with them, co-operate with the coll. in the provision of material for teaching and res.

**RESEARCH.** Investigations are proceeding in soil sci., the various major fields of plant sci. and animal sci., agric. econ., farm management & valn., and agric. engin. Facilities are available for postgrad. study and res. in these fields.

**ADMISSION.** See p. 629. Overseas students desiring to be admitted *ad eundem statum* to any of the degree courses at the coll. should supply full details of the undergrad. or grad. course already taken. Subsequently, formal applicn. must be made to the registrar of the Univ. of N.Z. Non-members of the univ. may be admitted to the dipl. courses, details of pre-requisite qualifs. being obtainable from the coll. registrar.

**FIRST DEGREES (of Univ. of N.Z.).** BAg, BAg(Hort)—3 yrs.; BAgSc, BAgSc(Hort)—4 yrs.

**HIGHER DEGREES (of Univ. of N.Z.).** MAgSc, MAgSc(Hort)—normally 1 yr. following the BAgSc course; PhD—a 2-yr. full-time course open to candidates who have been admitted to a master's degree of Univ. of N.Z. (either by exam. or by admission '*ad eundem statum*') at the standard of 1st or 2nd class hons.

**UNIVERSITY CERTIFICATE OF PROFICIENCY.** Any matriculated person may take a course in any one or more subjects of the degree courses for Univ. of N.Z. cert. of proficiency in that subject or subjects.

**COLLEGE DIPLOMAS, CERTIFICATES.** Dipl. in valuation & farm management, dipl. in agric. engin.—advanced courses of 1 yr. which must be taken after appropriate pre-requisite courses; dipl. in agric., dipl. in hort.—2-yr. courses together with addtnl. practical experience. Cert. course in wool-classing—1 session.

**OTHER COURSES.** Intensive general course in agric.—1 yr. after 3 yrs.' practical experience; sp. courses for 3rd-yr. trg. coll. students in agric. and for soil conservators; various short courses in agric. and hort. subjects.

**FEES.** Tuition fees: PhD, £21; master's degrees, £12:10s.; bachelor's degrees, dipl. courses and intensive course in agric., £22:10s.; wool-classing course, £12; short courses, £1 per wk

**ACADEMIC YEAR.** March to Nov., 3 terms of 9, 10 and 12 wks.

**STUDENT RESIDENCES.** Accommod. for approx. 300 men and women students in 3 residential halls. Fees: £4:15s. per wk.

**STUDENTS' ASSOCIATION.** The assocn. caters for the athletic and social side of the student's life. Normal facilities available for sport.

**PUBLICATIONS.** *Calendar* (5s.); *Rural Educn. Bulletin* (5s. p.a. for 10 monthly copies); *Annual Review* (7s. 6d.); *Chamber of Commerce Bulletin* (10s. p.a.); *Lincoln Coll. Farmers' Conference Proceedings* (7s. 6d.); *Life and Work at Canterbury Agric. Coll.* (the first 75 yrs. of the agric. coll. at Lincoln), compiled by I. D. Blair (Caxton Press, Christchurch, 1956).

## GENERAL INFORMATION

The college (named in honour of the Rt. Hon. W. F. Massey, prime minister of N.Z., 1912-25) was establd. under the New Zealand Agricultural College Act in Sept. 1926 as the result of an agreement between Victoria Univ. Coll., Wellington, and Auckland Univ. Coll. to amalgamate their respective schools of agric. and to establish the new coll. in the Palmerston North-Marton area. On July 29, 1927, an amending statute, the Massey Agricultural College Act, was passed, and the coll. establd. under its present title. A further amending and consolidating act, the Massey Agricultural College Act, 1952, was subsequently passed.

**CONSTITUTION.** The coll. is governed by a council consisting of the principal and 12 members elected as follows: 4 by the governor-general, 2 by council of the Univ. of Auckland, 2 by council of Victoria Univ. of Wellington, 1 by Palmerston North city council, 1 by grads., 1 by holders of dipls., 1 by profs. and lectrs.

**INCOME (1959).** Approx. £159,000 excluding hostels, farm and trading activities (govt. grants, 80.6 per cent.; fees, 6.2 per cent.; endowments, interest and rents, 3.7 per cent.; res. grants, 8.9 per cent.; misc., 0.6 per cent.).

**GENERAL INFORMATION**

The coll. was opened in 1948 with a provisional  
 scheme of govt. In 1954 assent was given by the  
 governor on behalf of H.M. the Queen to an  
 ordinance enacted by the legislature of Nigeria,  
 the purpose of which was to reconstitute the  
 coll. on a permanent basis and to lay down its  
 constitution and govt. Under this ordinance, the  
 coll. became a body corporate with perpetual  
 succession and a common seal.

CONSTITUTION. The coll. council is the sup-  
 reme governing body and is charged with control  
 of finance. The senate is an academic body  
 which, generally, manages, and where necessary  
 advises the council upon, the educnl. affairs of the  
 coll. In respect of each fac. there is a fac. bd.  
 which deals with courses of study and exams. and  
 matters of detail concerning the work of the fac.  
 Fac. bds. are required also to deal with matters  
 referred to them by the senate. The coll. is open  
 to all classes and communities 'without any dis-  
 tinction whatsoever'.

INCOME. A grant was made under the colonial  
 development and welfare act towards the cost of  
 the permanent bldgs. The Nigerian govt. has  
 endowed the coll. and makes an annual grant. In  
 addition, endowments amounting to £1,175,000  
 have been received from the Nigerian Cocoa  
 Marketing Bd. There is also an endowment fund.  
 Income (1958-59) : £1,039,711 (incl. Nigerian  
 govt. annual subvention, £484,880; endowment  
 interest, etc., £363,660; student fees, £115,330;  
 rents and misc., £35,841).

FACULTIES AND DEANS. *Agric.*, Prof. R. J.

LIBRARY. 123,000 vols., 2321 current serial  
 publicns. Sp. collections include W. African hist.  
 and ethnol. (including 150 Arabic MSS.), trop.  
*agric.* and trop. *med.* The library is the legal  
 depository for all Nigerian publicns.

**LABORATORIES, FIELD STATIONS, ETC.** The fac. of agric. has its teaching, res. and admin. bldgs. and its own farm on the coll. site. On the farm, grassland res., crop and animal production are actively proceeding and small herds of Zebu and Ndama cattle, as well as poultry, swine, sheep and goats, are maintained. A considerable area is under mechanized cultivation. As part of res. into moisture conditions in Nigeria, measurements of evapo-transpiration at 10 installations, covering the Niger delta to the northern frontier, are being made.

**BOTANICAL GARDEN** of 80 acres. Mainly W. African plants grown. Arrangement for exchange and testing of economic plants with U.S. dept. of agric. *Index seminum* publ. annually. 1-acre herbal gdn. to study med. herbs in Nigeria.

## GENERAL INFORMATION

The univ. is an independent inst. to be governed by a council establd. by the Univ. of Nigeria Law 1955.

**CONSTITUTION.** The paramount governing body of the univ. is the council which is composed of the chancellor, chairman, principal, vice-principal and such other persons not exceeding 15 in number as may be provided for by the univ. statutes. The senate, which deals with academic matters, consists of the principal, deans of the several facs., dirs. of the several insts., all profs. of the univ., the librarian, the dir. of extra-mural studies and 2 members of the academic staff to be elected by congregation.

**INCOME.** The income of the univ. is derived from a 'Univ. of Nigeria Fund' which consists of an annual grant of half a million pounds from the Eastern Regional Marketing Bd.—a statutory corporation created by the govt. of Eastern Nigeria. The fund, which was set up as a result of an Eastern Regional directive of 1955, totalled £2,500,000 at Dec. 31, 1959. An addnl. source of income is expected from the development of a

large acreage of land which is being allocated to the univ. for this purpose on the lines of the land grant colls. of the U.S.A.

**FACULTIES.** Arts.

**LOCATION.** The univ. town of Nsukka is 40 miles from Enugu, the admin. capital of Eastern Nigeria. A total area of 1000 acres of land has been acquired for use by the univ. and a further 15,000 acres is contemplated for use by the univ. as an agric. and commercial site.

**FEES.** Inclusive fee for tuition and residence for undergrads. : £135 per academic yr.

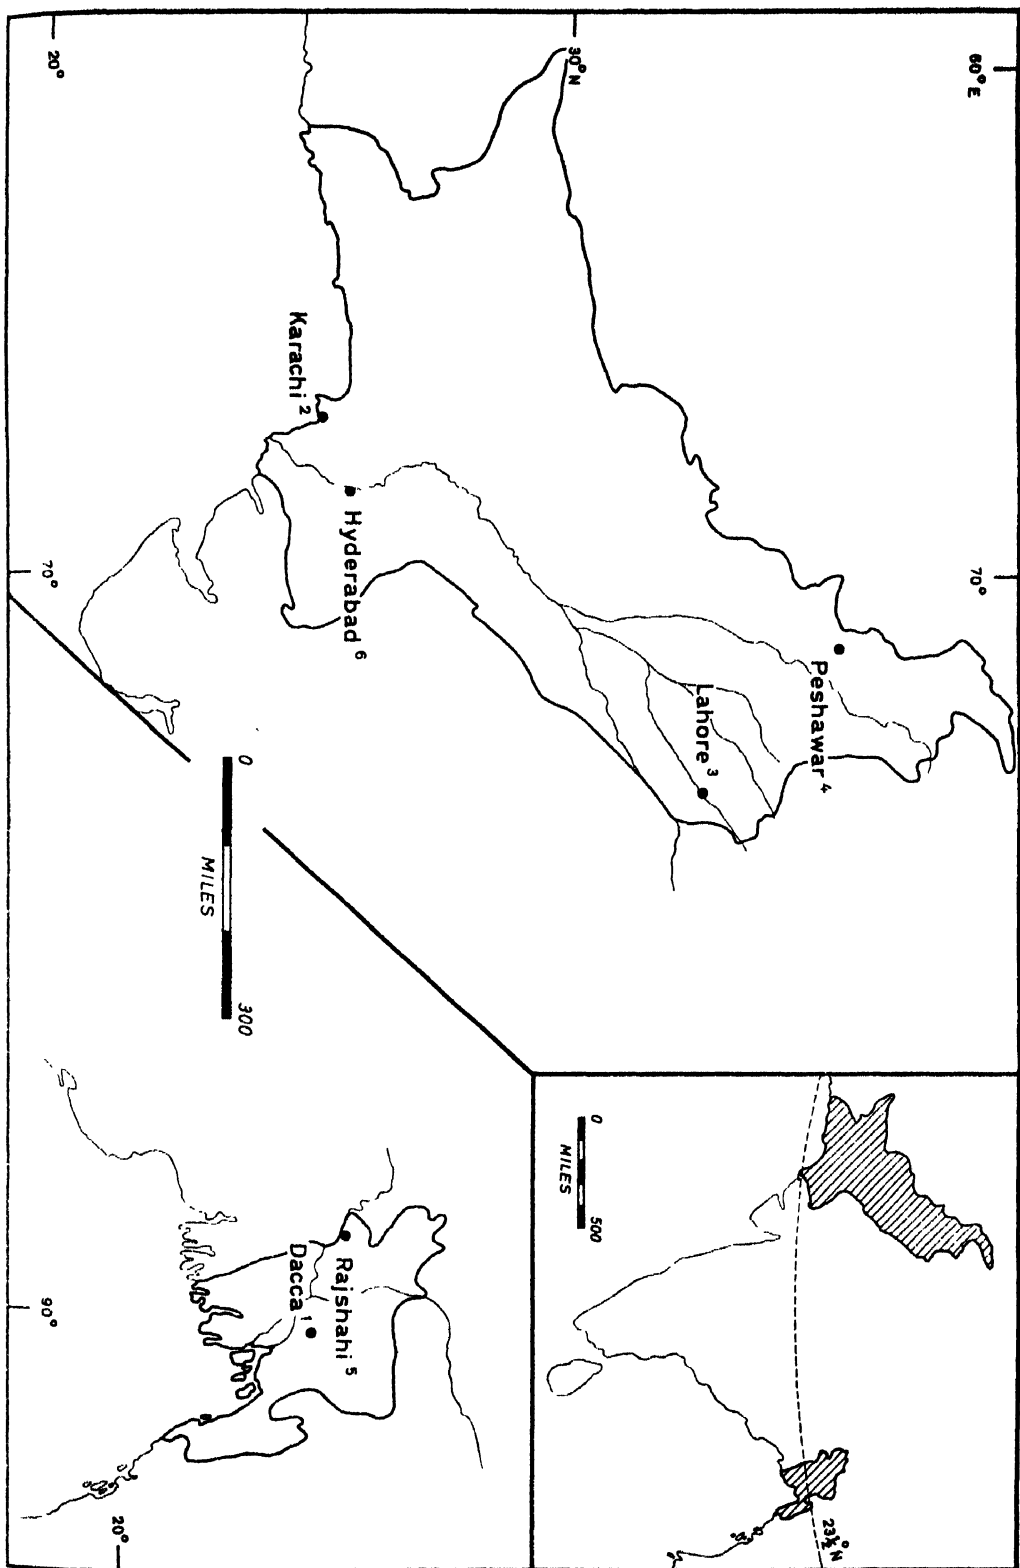

**ACADEMIC YEAR.** 3 terms of 10 wks. each, from Oct. 10 to June inclusive.

**LANGUAGE OF INSTRUCTION.** English.

**HALLS OF RESIDENCE.** The majority of students are accommodated in the univ. There are 2 halls of residence, one for men and one for women.

**STAFF RESIDENCES.** Staff accomm. is provided by the univ. at a rental not exceeding 7·7 per cent. of salary.

# THE UNIVERSITIES OF PAKISTAN

[Originally contributed by Dr. I. H. Zuberi, then Vice-Chancellor of Rajshahi University; subsequently revised by the Secretary of the Inter-University Board of Pakistan]

**HISTORY.** The universities of India and Pakistan have not developed from such famous ancient centres of learning and scholarship as Takshasila and Nalanda. Takshasila flourished as a centre of education only till the fifth century A.D., while Nalanda ceased to exist towards the end of the twelfth century.

In the mediæval period, while seats of Hindu learning remained in the east and south, the Muslim rulers evolved an elaborate system of higher education and encouraged the establishment of colleges at places like Delhi, Allahabad, Lucknow, Lahore, Rampur, Ajmer and Bidar. The curriculum in these colleges was somewhat similar to those in the mediæval European universities, that is, the *trivium*—grammar, logic and rhetoric—and the *quadrivium*—arithmetic, geometry, music and astronomy—and to these were added a study of philosophy, theology and Muslim law. Certain colleges specialized in particular subjects. For instance, the college at Lucknow specialized in theology and those at Rampur in logic and medicine; at Lahore, astronomy and mathematics were emphasized. The medium of instruction in these colleges (*madrasahs*) was mainly Arabic. Although most *madrasahs* disappeared or were absorbed in later institutions, some still exist and carry on the traditions of the older form of learning.

When the British succeeded the Muslims as rulers in India, they were slow to develop a distinctive system of higher education, and it was not until the beginning of the nineteenth century that English schools and colleges began to be established in presidency towns like Calcutta, Bombay and Madras.

In accordance with the recommendations of the famous despatch of Sir Charles Wood (1854), the court of directors of the East India Company established the universities of Calcutta, Bombay and Madras in 1857. The model for these universities was the newly established University of London, which was then a purely examining body. This has had an unfortunate effect on the development of higher education in the sub-continent, since the universities were slow to establish teaching departments of their own or to encourage intercollegiate instruction. It is significant that no other university was established till 1882, when the University of the Panjab was founded. The University of Allahabad was established in 1887 and thus there were only five universities till 1914. In 1914–20 a rapid development of higher education took place. Eleven

universities were established then largely because education became a provincial subject when provincial autonomy was granted in 1919, and there was democratic pressure in provincial parliaments for the rapid extension of facilities for higher education.

When Pakistan came into being on the partition of India, in 1947, there were only two well-established universities in the country, namely, the University of the Panjab (1882) and the University of Dacca (1920); the University of Sind had been created only a few months before partition and began to function at Karachi on April 3, 1947. Independence brought in its wake a significant movement for the development of higher education at an accelerated pace and three more universities were subsequently established, namely, the universities of Peshawar (1950), Karachi (1950) and Rajshahi (1953).

**STRUCTURE OF UNIVERSITIES.** There is no single pattern to which all the universities conform though all are now both teaching and affiliating institutions. The trend of present policy in the sub-continent is against the establishment of purely affiliating and examining universities.

Although Dacca began as a unitary teaching university whose jurisdiction was restricted to the city of Dacca, from 1947 it also assumed the functions of an affiliating university. Karachi is an affiliating university, whose jurisdiction is limited to the city of Karachi. It has, however, also organized teaching on a federative basis and all postgraduate and research teaching is under the direct control of the university. The structure of the Panjab is more complex. The university began as a purely affiliating institution but gradually developed its own teaching departments. It has three kinds of college under its jurisdiction: (i) university colleges which are maintained by the university itself; (ii) teaching colleges in Lahore which are maintained by the government of West Pakistan and private managing bodies (there is also a government technical college affiliated to the university but situated outside Lahore); (iii) affiliated colleges located in various districts. Peshawar is an affiliating as well as a teaching university; all the technical and professional colleges, in addition to the postgraduate teaching departments, are under its direct administrative and academic control. Sind has a limited number of postgraduate teaching departments of its own, most of the undergraduate teaching work being carried on in the affiliated

colleges. University teaching at *Rajshahi* is confined to the postgraduate level; all undergraduate teaching up to BA and BSc standard is carried on in the affiliated colleges.

**RELATIONSHIP TO GOVERNMENT.** All the universities were established by acts of provincial legislatures except Karachi, for which an act was passed by the central legislature since it is situated in the federal capital. All are corporate, autonomous bodies. All statutes and ordinances framed by the universities are subject to sanction by the provincial or federal government or the chancellor, as the case may be.

**FINANCE.** The annual grants made by provincial governments through their education departments constitute the main source of income of all the universities. University accounts are strictly audited by the accountant-generals of the provincial governments. During the last few years, the government of Pakistan have accepted the principle of making direct grants for various schemes submitted to them by the universities from time to time. These grants are not routed through the provincial governments and are at present awarded by an *ad hoc* committee appointed by the government of Pakistan on which the Vice-Chancellors' Committee of the Universities of Pakistan is represented.

The budgets of universities in Pakistan are formulated on an annual basis. They are first submitted to the syndicate or executive council, as the case may be, and then placed before a larger body called the senate or court. The ratio of government grant to total budget varies from one university to another, but the general pattern seems to be that government grants amount to more than one-half of the total annual income, the remaining income coming from such other sources as tuition fees, examination fees and fees for the registration of graduates.

**ADMISSION, STRUCTURE OF DEGREE COURSES, ETC.** After matriculation (which follows ten years of school attendance) students are admitted to intermediate or degree colleges where two-year courses lead to the intermediate examination in arts or science. BA and BSc pass degrees each take a further two years (three years for honours). The course for a master's degree in arts or science lasts for two years after the pass BA or pass BSc, or one year after an honours degree. The Inter-University Board of Pakistan has recommended the universities to adopt a three-year course for a bachelor's degree in arts or science, whether pass or honours, to be followed by a two-year course for the master's degree. In all universities the PhD course lasts for two or three years after the MA or MSc. Some universities do not hold their own entrance examinations but accept the intermediate certificate as a qualification for admission to a course leading to a pass or honours degree; others hold their own matriculation and intermediate examinations. Diplomas in education and foreign languages are awarded by some universities. English is the medium of

instruction in all universities and colleges (including intermediate colleges).

**TEACHING STAFF.** Professors, readers and lecturers are selected by committees which are usually composed of members of the faculties, academic board or council, and experts nominated by the chancellor. The appointments are made by the executive council or the syndicate of the university. There is no restriction with regard to the appointment of teachers of foreign nationality. Most of the teachers employed have gained their first degrees from universities in Pakistan or India and many have higher degrees from Europe, the U.K. or U.S.A.

The retiring age in most universities is sixty years. There is no pension scheme but the benefit of provident funds is available. There is no fixed provision for sabbatical leave but each university may grant study leave to its teachers for a period of two to three years.

Teaching at the undergraduate level is conducted by lectures and group discussions. The tutorial system has been introduced in all universities and at the honours and postgraduate level special attention is paid to tutorial and seminar work.

**STUDENTS.** The total student enrolment in 1956 was 87,554. This figure represents about 5 per cent. of those in high schools at the secondary level. In 1957, 45,631 students were enrolled at either undergraduate or postgraduate level (*i.e.* excluding intermediate students).

In Pakistan students enter college or university a little earlier than in the United Kingdom. The age of most students lies in the 16-19 range. On the basis of the 1951 census it has been estimated that the 16-20 age group forms about 10 per cent. of the entire population and that of this age group approximately 4 per cent. are students in intermediate or university classes.

The general level of fees is almost uniform and amounts to approximately £15 a year. Dacca, Panjab and Peshawar have hostels or halls of residence, while Karachi, Rajshahi and Sind are endeavouring to move to new campuses where similar facilities will be available. The cost of residence is about £57 a year.

**ACADEMIC YEAR.** At Dacca, Karachi and Rajshahi, the academic year normally begins in July and is divided into three terms: July-September, November-December and January-April. At Panjab and Peshawar the three terms are September/October-December, January-March, April-June. At Sind there are two terms: July-November, November-March.

**ADULT EDUCATION.** No adult education classes are conducted by the universities.

**INTER-UNIVERSITY ORGANIZATIONS.** The Inter-University Board of Pakistan was constituted in 1948 by the Ministry of Education, Government of Pakistan. The board consists of three members from each university, one being the vice-chancellor and the other two nominees of

and

the syndicate or the executive council (one of these nominees must be the principal of an affiliated college or the head of a teaching department). The chairman and the secretary of the board for 1961 are respectively Dr. M. Husain, Vice-Chancellor, University of Dacca, and Professor K. M. Hosain, MA *Alig.*, BA *Oxon.* (174-A Sindh Muslim Co-operative Housing Society, Karachi 3, West Pakistan.)

There is also a Standing Committee of Vice-Chancellors with well-defined powers. All the vice-chancellors are members *ex officio* of the Inter-University Board; the two other nominees of each university retire annually and are replaced by new nominees. The educational adviser to the government of Pakistan has the right to attend meetings of the board but has no power to vote.

The Inter-University Board created in 1953 an Inter-University Sports and Athletic Board which is responsible for organizing sports and athletics on a national basis.

A National Union of Students was formed in 1957.

**THE UNIVERSITIES TO-DAY.** The government of Pakistan have set up a planning board which has prepared an elaborate plan for the expansion and co-ordination of education over a five-year period. An attempt is being made to integrate all forms of higher education into one system in which educational standards will be comprehensively defined and maintained. It is being generally recognized in Pakistan that this can be achieved only by affirming the leadership of the universities in the cultural life of the nation and by making them the focal points of real and effective national policies for higher education. The planning board also recommended the setting up of a University Grants Committee on the model of the U.G.C. in Britain so that it may help the government as well as the universities in formulating long-range plans and in directing the expansion of the universities on a planned basis. The total expenditure on education by the central and provincial governments was raised from Rs. 62,294,000 (1948-49) to Rs. 130,138,000 (1953-1954); this represents an increase in the expenditure on education of from 5.3 per cent. of total revenue expenditure to 7.1 per cent. Subsequently this total expenditure rose to about Rs. 167,234,000.

Higher education in Pakistan is still based on the western concept of liberal education. Education is entirely secular, teachers and students being at liberty to pursue their studies or research free and unfettered from any political or theological bias. But with the phenomenal increase in student numbers the universities in Pakistan have become conscious of the role which they are destined to play in the national life of the country, and there is a general tendency to maintain and assert the continuity of Islamic traditions and idealism.

**INSTITUTIONS OF HIGHER EDUCATION OTHER THAN UNIVERSITIES.** Higher education in Paki-

stan is almost entirely confined to universities, there being hardly any independent professional or technical institutions providing postgraduate instruction. Medical, law and engineering colleges are constituent colleges of a university, are subject to the control of the university in academic matters but administratively are under the relevant government departments. The faculties and boards of studies relating to these colleges are formed according to university statutes and their conduct is regulated by the university's legislative and administrative organizations: the senate, the syndicate and the academic council. At present there are no teacher training faculties in universities but plans are being made for initiating courses in education as a part of the universities' teaching activity. Teacher training colleges, like the Central Training College, Lahore, are administered by the Government Directorate of Public Instruction and are intended to supply trained teachers for government secondary schools.

**NATIONAL EDUCATION COMMISSION.** The government of Pakistan has set up a National Education Commission, with wide terms of reference, which has been enquiring into the entire range of existing educational facilities in the country and has made recommendations for the reorientation and reorganization of the educational system, in the light of national needs. So far as university education is concerned, the commission was specifically asked to consider, *inter alia*, the constitution, administration, control and jurisdiction of universities; the finances of universities and colleges; admission requirements (including the place of the present intermediate courses); the length of degree courses (including post-graduate courses); advanced study and research; scientific and technological education; the need for the highest standards of teaching and research in the universities and colleges; the need for the co-ordination of specialist fields; the advancement of Islamic studies and oriental learning; the qualifications and conditions of service of university and college teachers; student discipline; the development of a tutorial system; and the system of examinations. The report of the commission has been published (*see below*). The chairman of the commission was Dr. S. M. Sharif, educational adviser and *ex-officio* secretary to the government of Pakistan, Ministry of Education, Karachi.

## DIRECTORY TO SUBJECTS OF STUDY

**RESEARCH DEGREES.** Most universities lay special emphasis on research. The following degrees are awarded: *Dacca*—PhD in arts or science, LLD, DLitt, DSc. *Karachi*—PhD in arts or science. *Panjab*—PhD in arts or science, LLD, DSc, DLitt, DOL. *Peshawar*—PhD in arts or science. *Rajshahi*—PhD in arts. *Sind*—DPhil, DEd.

**OTHER DEGREES, DIPLOMAS, ETC.** The following notes relate mainly to subjects that cannot be studied at all universities:

**Agriculture.** *Dacca*, *Panjab*, *Peshawar* and *Sind* award a bachelor's degree in agriculture; *Dacca*, *Panjab* and *Sind*, a master's degree also.

**Commerce.** All universities except *Peshawar* award a BCom; *Dacca*, *Karachi*, *Panjab* and *Rajshahi*, an MCom also.

**Dentistry** is taught at most universities only as part of the medical degree course; *Panjab* offers a BDS and MDS.

**Education.** The training of teachers for elementary schools is usually given in normal schools unconnected with the universities, but *Dacca* has a college for the training of teachers for primary schools (a diploma, and higher diploma, in education are awarded). Courses for teachers in secondary schools—*Dacca*, *Karachi*, *Peshawar* and *Sind* award the degree of bachelor of teaching (BT), *Panjab* the degree of bachelor of education (BED) and *Rajshahi* a diploma in education; the MEd is awarded by *Panjab*, *Rajshahi* and *Sind*, the MT by *Dacca* and the DEd by *Sind*.

**Engineering and Applied Science.** All universities except *Rajshahi* offer a bachelor's degree in engineering. In addition, a diploma in engineering is awarded by *Dacca* and an MScTech by the *Panjab*.

**Fine Arts.** MA course at the *Panjab*.

**Foreign Languages.** *Dacca*—junior and senior proficiency certificate in elementary German; *Karachi*—certificates in Bengali, French, German

and Spanish; *Panjab*—diplomas in French, German, Spanish and Turkish. *Peshawar*—diplomas in French and German.

**Forestry.** *Peshawar* offers a pass and an honours degree.

**Home Economics.** *Panjab* and *Peshawar* offer a bachelor's degree.

**International Relations.** *Dacca* offers an MA, and *Panjab* a postgraduate diploma (evening classes) in international affairs.

**Journalism.** A diploma is awarded by *Karachi* and *Panjab*.

**Law.** All universities award an LLB; *Dacca* and *Panjab* an LLM and LLD in addition.

**Medicine.** The degrees of MB BS are awarded by all universities except *Rajshahi*; *Panjab* also offers an MD and *Sind* a BUMS.

**Oriental Learning.** *Dacca* has a department of Islamic studies which offers courses leading to a bachelor's degree. *Karachi* has a faculty of Islamic learning. *Panjab* offers the following degrees in oriental learning: BOL, MOI, DOL. *Peshawar* holds examinations for proficiency, high proficiency and honours in oriental learning and has a department of Islamiyat which offers courses leading to the degrees of BA and MA in Islamiyat. *Sind* has a faculty of Islamic studies under which are grouped departments of religion, Islamic culture and Muslim history.

**Pharmacy.** *Panjab*—BSc.

**Public Administration.** *Karachi* has an institute of business and public administration and awards the degrees of master of public administration and master of business administration. Specialization in public administration forms part of course for MA in political science at the *Panjab*.

**Social Work.** *Panjab*—MA.

**Veterinary Science.** *Dacca*—BSc(AH), LVS (licentiate in veterinary science). *Panjab*—BSc(AH).

## GENERAL INFORMATION

The univ. was establd. in 1921 under the Govt. of India Act XVIII of 1920, which was based on the recommendations of the Calcutta Univ. Commission presided over by Sir Michael Sadler, as a unitary, teaching and residential univ. with a constitution similar in many respects to those of mod. English univs. Following the creation in 1947 of the province of E. Bengal as part of Pakistan, the E. Bengal educnl. ordinance, 1947, was promulgated, by which the univ., without prejudice to its original character as a teaching and residential univ., was entrusted with sole authority to recognize and affiliate all educnl.

instns. in E. Bengal above matric. and high Madrassa standard. Accordingly, in 1947, the univ. affiliated 55 1st and 2nd grade colls. throughout the whole of E. Bengal, as well as several other instns.

CONSTITUTION. The authorities of the univ. include the court, the executive council, the academic council and the facs.

The court consists of about 170 members, incl. *ex-officio* members, reps. of the registered grads., of the affiliated colls. and of assocns. approved by the chancellor, etc. It has the power of making

## GENERAL INFORMATION

Establd. in 1882, the univ. is the oldest in Pakistan and was the fourth to be establd. in the Indo-Pakistan sub-continent. Until 1919 the univ. confined its activities mainly to exams., the control of affiliated instns. and the provision of instructn. in its oriental and law colls. It has, since 1919, undertaken the maintenance of univ. teaching depts. for postgrad. instructn. and res. and co-ordination of advanced teaching. Besides the univ. profs., readers and lectrs., sr. teachers of the local colls. are associated with univ. teaching. The univ. also maintains colls. of comm., law and oriental studies, and holds classes in stats., journalism, Turkish, German, French, Russian and Spanish.

By the Panjab Univ. Act of 1954 the matric., inter., Pakistani and oriental langs. exams. were transferred from the univ. to the bd. of secondary educn., Lahore.

CONSTITUTION. Up to 1959, a cttee. apptd. by the chancellor exercised the powers and performed the duties of the various univ. authorities provided for under the Panjab University Act of 1954. Elections to the senate, the supreme body of the univ. which will superintend the univ.'s affairs and property, have now taken place, and the senate and 2 other bodies, the syndicate and academic council, have begun to function.

INCOME (1959-60). Total, Rs. 4,449,147 (govt. grants, 53.9 per cent.; fees and other sources, 46.1 per cent.).

FACULTIES AND DEANS. *Agric. & animal husb.*, Dr. Khan A. Rahman; *comm.*, Prof. M. Hassan; *educn.*, Dr. Jehangir Khan; *engin. & technol.*, S. Mahmood Alam; *European langs.*, Rt. Rev. L. H. Woolmer; *humanities & soc. scis.*, Prof. Kazi S. Ahmad; *Islamic studies & compar. religion*, Justice M. Sharif; *law*, Justice S. A. Rahman; *med.*, Dr. Col. E. Bakhsh; *military studies*, ....; *nat. scis. & maths.*, Dr. Niaz Ahmad; *oriental learning*, Dr. M. Shafi.

UNIVERSITY PRECINCT. The univ. is located in a congested area in the city and it has been decided to move to a new site outside Lahore. As a result of the efforts of the chancellor and the continued co-operation of the govt. of W. Pakistan and the central govt., it has been possible to acquire about 2300 acres of land at the new site. A master plan has been prepared for the new univ. campus. As a first phase, the univ. plans to implement a 4-yr. constructn. programme (ending May 1963) which will cost not less than 20 million rupees. The work of constructn. has begun. The project (dir. : Lt.-Col. Shahbaz Khan, MA) will reflect the most progressive trends in higher educn. and in its archit. blend the latest scientific building techniques with Pakistan's centuries-old traditions.

LIBRARY. Univ. library, 166,369 vols. plus 17,644 MSS. in Persian, Arabic and Sansk.; 437 periodicals. In addn., each teaching dept. has its own library.

MUSEUMS AND LABORATORIES. The univ. maintains well-equipped instns. of chem. and chem. technol., as well as the Kayshap Res. Inst. in bot. and phys. There are bot. and zool. labs. also in Govt. Coll., which the univ. shares. The depts. of bot. and zool. have museums.

TEACHING HOSPITALS. The following hosps. are recog. for providing facilities for undergrad. and postgrad. teaching in the fac. of med. Lahore: Mayo H., Lady Willingdon H., Sir Ganga Ram H. Multan: Nishtar Med. H.

ADMISSION. Students must have passed the inter. exam. of the bd. of secondary educn., Lahore, or equivalent exam. The univ. *Calendar*, vol. II, lists the exams. of other univs., etc., recog. as equivalent to the corresp. exams. of the univ. Exams. of other approved univs. are recog. by the syndicate and academic council. After passing the inter. exam. students join one of the colls. affiliated to the univ. in the various facs. Grads. are admitted by colls. for the master's degree, but postgrad. teaching is mainly on a co-operative basis for colls. in Lahore and is conducted under the auspices of the univ.

## GENERAL INFORMATION

Before the partition of Bengal in 1947 the Univ. of Dacca was purely residential and the jurisdiction of the Univ. of Calcutta extended throughout Bengal. In August 1947 the Univ. of Dacca assumed the responsibility of affiliating all those colls. in East Bengal which had formerly been under the jurisdiction of the Univ. of Calcutta; this resulted in the centralization of all higher educn. at Dacca, an immediate effect being overcrowding in degree and postgrad. classes. The need for another univ. was realized and the govt. chose as its location Rajshahi where the Govt. Coll., founded in 1828, had a high reputation. As long ago as 1917 the Sadler commission had indicated the suitability of Rajshahi as the site for a univ. in North Bengal.

The univ. was founded on July 1, 1953; the first vice-chancellor was Dr. I. H. Zuberi, who formulated the scheme for the establ. of the univ. and drafted the bill which was passed by the provincial legislature.

Rajshahi Univ. confines its activities to postgrad. teaching and res., pass and hons. courses in the facs. of arts and sci. being available in the affiliated colls. Postgrad. teaching has been organized in law, Engl., econ., comm., philos., psychol., hist., Islamic hist., maths., phys., chem. and geog.; also for BED. In addition, the univ. has started a sch. of scis. (econ., pol. sci., sociol., anthropol., psychol.) and a sch. of oriental studies

(Arabic, Persian, Urdu, Sansk., Pali); there is a separate dept. of Bengali lang. & lit.

CONSTITUTION. On the senate are represented deans of facs., hds. of depts., principals and governing bodies of all affiliated colls., and reps. of the provincial legislature and all registered grads.; the government nominates 20 members. The syndicate, a smaller body responsible for day-to-day admin., is composed of the deans, 2 representatives of the principals of affiliated colls., and reps. of senate incl. those of registered grads.; members of the syndicate *ex officio* are: the dir. of public instructn., East Bengal, the pres. of East Bengal secondary educn. bd. and the inspectress of schs.; the chancellor nominates 3 members. The academic bd. is responsible for organizing courses of studies, prescribing syllabuses and conducting exams. The vice-chancellor is chairman of all these bodies.

INCOME (1958-59). Rs. 1,467,872 (govt. grant, 75 per cent.; fees and other sources, 25 per cent.).

## GENERAL INFORMATION

Although the idea of a separate univ. for Sind was first broached in 1886, it was not until 1940 that the autonomous govt. of Sind apptd. a cttee. to go into the entire problem. The report of the Sind Univ. cttee., issued in 1941, covered the entire field of organizational and academic issues involved, but action was delayed until a regular bill for the creation of a separate univ. for Sind was introduced in the Sind legislature in 1945, and became an act in 1947.

Since a separate Karachi Univ. for the Karachi federal area was establd. as from session 1951-52, the headquarters of the Univ. of Sind were moved from Karachi to Hyderabad in May 1951.

The univ. is affiliating, examining and teaching. Undergrad. teaching is provided by the affiliated colls. and facilities for postgrad. study (incl. BA (hons.) and BSc (hons.) courses) and res. by the univ. itself.

## GENERAL INFORMATION

The coll., originally incorporated under the Southern Rhodesia 'University Charter and Inaugural Board (Private) Act, 1952', and known as the Rhodesia Univ. Coll., was establd. by royal charter in Feb. 1955. The charter establishes a council and an academic bd. which are in control of academic policy. The coll. is a multi-racial institution, open to all students without distinction on racial grounds. It is intended primarily to serve the higher educnl. needs of the Federation of Rhodesia and Nyasaland but admits students from other territories.

Towards the capital costs of bldg. and equipment H.M. govt. has given grants totalling £2,875,000. Private benefactions include a gift from the British S. Africa Co., Rhodesian Anglo-American Ltd., and Rhodesian Selection Trust, Ltd., of £200,000 for the bldg. of the library and a gift of £36,000 from the Beit trustees for the constrcn. of the Alfred Beit hall. The federal govt. makes a quinquennial grant towards recurrent expenditure.

The coll. has been admitted to special relation with the Univ. of London.\* Teaching began in 1957.

FACULTIES AND DEANS. *Arts* (incl. educn.),

Prof. N. H. MacKenzie (Engl.); *sci.* (incl. agric.),  
Prof. S. H. Harper (chem.).

COLLEGE SITE. The main site of 474 acres at Mount Pleasant, presented by the city authorities, adjoins and overlooks the northern residential area of Salisbury. It is being devel. in 3 sectors radiating from the high terrace which is in the centre of the north boundary. Eastern sector: students' halls of residence, and chapel; central sector: library, assembly hall, students' union and playing fields; western sector: circling Coll. Green, arts bldg., agric. lab., phys., chem., zool. and bot. labs. Part of the coll. site is reserved for a med. sch., and the federal govt. has given the coll. 1200 acres in the Mazoe valley for use as a teaching and exper. farm.

LIBRARY. 45,000 vols. and 800 current periodicals, incl. a considerable collection of Central African material.

ADMISSION. Candidates for admission to a first degree course must satisfy min. and direct entry requirements which are equivalent, with minor modifications, to those of the Univ. of London (see Appendix II); they must also pass a coll. test of proficiency in English.

\* For a note on these 'special relationship' arrangements, see p. 973

**FIRST DEGREES** (special relation with Univ. of London).§ Courses are provided for the following degrees of the Univ. of London. 3 yrs.—BA (gen.), BSc (gen.), BSc(Agric).

**DIPLOMA.** Coll. dipl. in appl. econ., 3 yrs. pt.-time.

**CERTIFICATE** (special relation with Univ. of London).§ Postgrad. cert. in educn., 1 yr.; open to grads. of any approved univ.

**RESEARCH.** The coll. is placing emphasis on the provision of res. facilities for members of its staff, for guest res. workers and for postgrad. students. Res. programmes are being devel. in the various depts. of the coll. The region is exceptionally rich in opportunities for res. in hist. and archæol.; in the pure and appl. scis.; and in the soc. scis., incl. educn. Students wishing to undertake res. at the coll. should write in the first place to the registrar, giving details of their academic qualifs., res. interests and experience.

**STUDY LEAVE.** Financial assistance is given to staff every 3 yrs. to assist them to visit other academic instns. in Africa or overseas, and every 6 yrs. addtnl. study leave is granted.

**ENTRANCE AWARDS.** Open entrance awards incl. 3 Fairbridge scholps. of £300 p.a. awarded annually to boys educated in the U.K. Others are the Bata, £200; Booker\*, £200; Haddon, £100; Horace Hickling, £200; Milward\*, £300; Nyasaland Agric. Prod. & Mktg. Bd.\*, £250; Patel, £200; Debora Tarica\*, £100; Three Feathers\*, £150. (\*=open only to candidates

resident in the Fed. of R. & N.) Govt. scholps. and grants are also available.

**POSTGRADUATE AWARDS.** Lever res. fellowship\*\*, £650 p.a.; Milne Munro fellowship\*\*, £500 p.a.; Cooper scholp.\*\*, £200 p.a. (\*\* open to grads. of any approved univ.); and certain of those given above. The federal govt. has establ. up to 12 awards a year, of £240 p.a. plus travelling expenses, to enable grads. of U.K. univs. to take the educn. course at the coll. on condition that they teach in the federation for 3 yrs.

**FEES.** Tuition fees: BA (gen.), £50 p.a.; BSc (gen.) and BSc(Agric), £60 p.a.; postgrad. cert. in educn., £50 p.a.; other postgrad. students, £25 p.a. (full-time), (pt.-time, £10 p.a.); dipl. in appl. econ., £30 p.a. (pt.-time).

Univ. of London matric. and exam. fees: matric. and exam. registration fee, £3 : 3s.; exam. fee, BA (gen.)—£18, BSc (gen.) (pt. I)—£8, (pt. II)—£12, BSc(Agric) (pt. I)—£8, (pt. II)—£4, (pt. III)—£9. Postgrad. cert. in educn.—£12. Dipl. in appl. econ.—£3 : 3s. (pt. I), £3 : 3s. (final). Students' union, £2 : 2s. p.a.

**ACADEMIC YEAR.** March to Dec.; three terms 1961: March 6–May 6; May 29–Aug. 12; Sept. 11–Nov. 18.

**RESIDENCE.** The coll. is mainly residential. Halls of residence have been built on the coll. site which, in addn. to common rooms, dining-hall, etc., provide each student with a separate furnished study-bedroom. Fees for residence and bd.: £115 : 10s. per yr. of 3 terms.

**PUBLICATION.** *Prospectus* (free on applicn. to registrar).

## THE YEAR 1959

**PRINCIPAL BENEFACTIONS.** Ford Foundation, \$215,000 for fac. development in the soc. scis.; Dulverton Trust, £10,000 towards establishment of inst. of adult educn.

(Total value of all benefactions received: £120,000).

**MAJOR BUILDING DEVELOPMENTS.** Bldgs. completed: extensions to Carr-Saunders hall of residence for men; library; agric. block. *Approaching completion*: sports pavilion; addtnl. staff housing accomm.

**RESIGNATIONS.** Dr. A. Harrison (bot.), apptd. res. fellow, Harv.; Dr. D. E. Moorhouse (zool.), apptd. to post in W.H.O.; Dr. S. C. Seagriff (bot.), apptd. sr. lect., Rhodes.

**GENERAL INFORMATION**

The coll. was founded by the Church Mission-  
 ary Soc. in 1827. In 1876 it became affiliated to  
 the Univ. of Durham. The coll. is an independent  
 instn., governed by a council, incorporated under  
 royal charter granted by H.M. the Queen on Jan.  
 11, 1960.

CONSTITUTION follows closely the pattern of the  
 English civic univs., with a council consisting of  
 lay and academic members as the governing body,  
 and a senate responsible for all academic matters.

FINANCE. Financial yr. changed in 1959 to  
 commence from Sept. 1 ; income for period of 8  
 months ending Aug. 31, 1959, was derived as  
 follows : Sierra Leone govt. grant, 76 per cent. ;  
 tuition & residence fees, 20 per cent. ; misc.,  
 4 per cent.

Colonial Devel. and Welfare grants together  
 with the Sierra Leone govt. contribution totalling  
 £935,000 have been made for stages I and II of  
 the coll. devel. programme which covers halls of  
 residence, sci. labs., dining halls and kitchen and  
 staff houses ; also substantial donations for  
 specific purposes have been received from private  
 firms and foundations.

FACULTIES AND DEANS. Appl. sci., E. M. R.  
 Smith (maths.) ; arts, A. T. Porter (hist.) ; econ.

stud., N. A. W. Cox-George ; educn., S. L.  
 Hockey ; sci., E. G. Dunstan (phys.) ; theol.,  
 Rev. H. A. E. Sawyers.

LOCATION. The coll. is situated on Mt. Aureol  
 overlooking Freetown. Many of the bldgs. are  
 still of a temp. nature though reblgd. is well  
 advanced. Sci. labs., women's hall, dining halls,  
 modern kitchens and 36 staff houses are already  
 completed. The next phase comprises men's  
 halls of residence, and at a later date the library,  
 arts and econ. teaching block, admin. offices,  
 chapel and other bldgs. Houses for extra-mural  
 tutors are being provided in provincial centres.

LIBRARY. 28,000 vols. Sp. Sierra Leone col-  
 lection. 850 serials received.

BOTANICAL GARDEN in process of development.

FIRST DEGREES (of Univ. of Durham). The  
 coll. provides courses for the BA (gen.), BA(Econ)  
 and BSc (gen.) of the Univ. of Durham. Hon.  
 schs. in econ., Engl. and maths. are being  
 instituted.

CERTIFICATES (of Univ. of Durham). The coll.  
 provides a 3-yr. course leading to the cert. in  
 biblical studies of the Univ. of Durham.

DIPLOMAS. The coll. provides courses leading

to the dipls. in theol. (2 yrs.), educn. (1 yr.) and pub. admin. (2 yrs.) of the Univ. of Durham. The coll. awards a dipl. in engin. (3 yrs.).

**ACADEMIC YEAR.** Three terms of about 10 wks. each. Michaelmas—Oct. to Dec.; Epiphany—Jan. to March; Easter—April to June.

**EXTRA-MURAL WORK.** Sessional classes, short residential courses, week-end conferences, occasional sp. lectures and annual residential sch.

**STUDENT RESIDENCES.** Students are in general required to reside full-time in coll.

**STAFF ACCOMMODATION** is provided at reason-

able rent (incl. charges for water supply and electr. appliances).

Residence, £80 per session. Tuition, £35-£55 per session.

**STUDY LEAVE.** Normal entitlement 1 term every 7 yrs., after 5 yrs.' service.

**STUDENTS.** At the beginning of the session 1959-60 the student population was made up as follows: *appl. sci.*, 15; *arts*, 111; *econ. stud.*, 98; *educn.*, 13; *sci.*, 88; *theol.*, 5. Total: 330.

Included in these figures are 147 students from Nigeria and 2 from Ghana.

# UNIVERSITIES OF THE UNION OF SOUTH AFRICA

[Contributed by Dr. T. Alty, Vice-Chancellor and Principal of Rhodes University]

**HISTORY.** Higher education in South Africa is a comparatively recent growth. It began during the nineteenth century with the formation of certain schools which, for the first time, made post-elementary education available. With the passage of time these institutions undertook and developed more advanced work until, finally, their work of university grade was separated from the school work proper and the first steps in the development of a university system had been accomplished.

The earliest such school was the South African College founded in Cape Town in 1829. From this has developed the University of Cape Town. There followed in 1855 St. Andrew's College, Grahamstown, from the post-matriculation classes of which Rhodes University College, and later Rhodes University, developed; and Grey College in Bloemfontein, which has given rise to the University of the Orange Free State. In 1866 was founded the Stellenbosch Gymnasium, from which arose the Victoria College of Stellenbosch, the forerunner of the University of Stellenbosch.

In 1858 a board of examiners in literature and science was established by the Cape legislature. The advanced students of the schools soon began to write the examinations of the board, which quickly took on a more university character. The competition between the schools in these external examinations proved stimulating, and their development was such that in 1873 it was found possible to institute South Africa's first university, the University of the Cape of Good Hope. This was a purely examining body and the students of the various developing colleges took its examinations instead of those of the earlier board, which in fact ceased to function in 1873.

With the development of the interior of the country, new institutions arose. Thus a state gymnasium was founded in Pretoria in 1893 and prepared students for the examinations of the University of the Cape of Good Hope, but its career came to an end with the outbreak of the Anglo-Boer war. Similarly the South African School of Mines, founded at Kimberley in 1896, was transferred to Johannesburg in 1904 as the Transvaal Technical Institute and later became successively the Transvaal University College, the South African School of Mines and Technology, the University College, Johannesburg, and ultimately the University of the Witwatersrand, Johannesburg. A Pretoria branch of the Transvaal University College was established in

1908 and, retaining this name when it was relinquished by the Johannesburg institution, developed into the University of Pretoria. Natal University College, predecessor of the University of Natal, was founded at Pietermaritzburg in 1909.

The next development came in 1916, by which time it was considered that the South African College, Cape Town, and Victoria College, Stellenbosch, had reached a stage of development justifying their recognition as independent teaching universities. Consequently three acts of the Union parliament were passed, one setting up the University of Cape Town, another the University of Stellenbosch and a third replacing the original University of the Cape of Good Hope by a new federal examining University of South Africa with six constituent colleges, viz. the South African School of Mines and Technology, Rhodes University College, Transvaal University College, Natal University College, Grey University College, Bloemfontein, and Huguenot University College.

In 1921 the teaching institution at Potchefstroom, originating in 1869, was admitted as a constituent college and in 1950 the Huguenot University College ceased to function.

In 1916 the South African Native College, developing to a considerable extent out of the Lovedale Missionary Institution, was set up. Its students, mainly non-white, wrote the examinations of the University of South Africa as external students.

The University of South Africa was purely an examining body. It was governed by a council, and by a senate composed of the principals and the heads of departments of the constituent colleges.

With the steady and rapid expansion of higher education since the end of the first world war, one after another of the constituent colleges of the University of South Africa became incorporated by act of parliament as independent universities. These changes were, in order of occurrence: 1923—the University College, Johannesburg, became the University of the Witwatersrand; 1930—the Transvaal University College became the University of Pretoria; 1949—Natal University College became the University of Natal; 1950—the University College of the Orange Free State became the University of the Orange Free State; 1951—Rhodes University College became Rhodes University, and Potchefstroom University College became Potchefstroom University for Christian Higher Education.

In terms of the Rhodes University Act (1949), the South African Native College became affiliated to Rhodes University, and shortly thereafter its name was changed to the 'University College of Fort Hare'.

An activity of the University of South Africa not yet mentioned was the examination of external students who prepared themselves for its examinations either privately or with the aid of correspondence or other establishments. In 1946 the university constituted within itself a 'division of external studies' to provide instruction, by correspondence or otherwise, for such external students of the university as might wish to take advantage of these facilities. In 1951, all the constituent colleges of the university having become independent and the federal nature of the university itself having consequently disappeared, an act was passed by the Union parliament reconstituting the university, under the same name, as a university for external students. The staff of the division, renamed the 'division of studies', continues to provide instruction as before to such external students of the university as elect to avail themselves of it. Although this instruction is at present largely limited to non-laboratory subjects, the newly constituted university retains all the powers of its predecessor to examine candidates and to confer such degrees in such faculties as it may deem expedient. At the same time the university organizes the examination of external students not entered in the division of studies for tuition, and conducts certain central examining activities such as the music examinations, etc. The registrar of the university is secretary of the Joint Matriculation Board and his office conducts the business of the board.

It will be clear from the above summary of development that there are now eight universities in the Union providing instruction mainly through the medium of lectures, seminars, etc., and the University of South Africa providing instruction mainly by correspondence. At each of the former group of universities a number (varying from one institution to another) of students are in residence, and for convenience these eight universities will be referred to in this *Introduction* as the 'residential universities'. Of these, four (Stellenbosch, Pretoria, Orange Free State and Potchefstroom) give instruction largely or wholly in Afrikaans, while the other four (Cape Town, Witwatersrand, Natal and Rhodes) do so in English.

Practically all the post-matriculation education in the Union is provided by the universities.

**STRUCTURE AND GOVERNMENT OF UNIVERSITIES.** Each of the universities in the Union is constituted by act of parliament. They are unitary institutions similar in general organization to the modern universities of the United Kingdom, with two modifications, viz. that the University of Natal has developed in the two cities of Pietermaritzburg and Durban, 65 miles apart, and the University College of Fort Hare, an affiliated

college of Rhodes University, is situated near Alice, 60 miles from the university itself, and is financed separately from the university.

Each university has a chancellor, a vice-chancellor and a principal or rector who is the chief administrative officer of the university. In some cases he is *ex-officio* vice-chancellor; in the others he is eligible for appointment as vice-chancellor.

The governing body of each university is the university council consisting of members appointed by the governor-general, and representatives of the benefactors of the university, its graduates and senate, and certain public bodies (e.g. city councils). The council administers all the property of the university and has general control of all its affairs, purposes and functions.

The senate of the university normally consists of the principal or rector, who is chairman, the professors and heads of academic departments, the librarian, representatives of council and of the lecturing staff, etc. The senate is responsible for the instruction, examinations and discipline of classes in the university.

The convocation of the university consists of the teaching staff of the university together with all its graduates. Convocation may discuss any matter relating to the university and make representations to senate or council.

The council and senate of the University of South Africa have a somewhat different composition from those of the residential universities. Its council consists of nominees of the governor-general, the principals of the residential universities and representatives of the senate. Its senate consists of the principal and representatives of the council, the professors and lecturers of the division of studies together with representatives of the senates of the residential universities.

**RELATIONSHIP WITH THE GOVERNMENT.** The universities are to a great extent autonomous institutions but are subject to the control of the Union minister of education, arts and science in certain matters. Thus all *new* faculties, departments, professorships or lectureships (but not the personnel appointed to these offices) require his approval. In other words, *posts* require approval, appointees do not. This control of departments is linked up with the method of government subvention of universities which follows the recommendations of a government commission on university finances and salaries in 1951 (the Holloway commission). This commission recommended that all universities be subsidized in accordance with a fixed formula, the subsidy depending partly on the number of basic departments in the university and partly on the number of students in it. The government accepted this proposal, and each university can therefore calculate the subvention due to it in any year. There is a University Advisory Committee appointed by the minister to advise him on general questions of policy, the institution of new faculties, etc., and such other matters relating to the universities as

the minister may refer to it. The committee is small and includes a representative of the Committee of University Principals.

**FINANCE.** The total income of the eight residential universities for 1958 was £4,688,476. This was derived from student fees, government subsidy and other sources including interest on investments, rent, annual grants from public bodies, etc., in the following proportions: student fees, 32.4 per cent.; government subsidy 62.7 per cent.; other sources, 4.9 per cent. The corresponding figures for the University of South Africa and the University College of Fort Hare for 1958 were (total income in each case): University of South Africa £364,408; University College of Fort Hare £118,600. This income is derived from the three main sources listed above in the following proportions: *University of South Africa*—fees 51.9 per cent., government subsidy 47.1 per cent., other sources 1 per cent.; *University College of Fort Hare*—fees 14.4 per cent., government subsidy 75.3 per cent., other sources 10.3 per cent.

**PRE-UNIVERSITY EDUCATION AND ADMISSION** (see also Appendix II). Admission to the South African universities is controlled by a Joint Matriculation Board consisting of representatives of each of the universities, the Union education department and provincial departments of education and of the schools. No person may be admitted to a degree course unless he is in possession of a matriculation certificate issued by this board or of its certificate that he has passed an equivalent examination and satisfied the board's conditions of exemption. A university may prescribe in addition, as a prerequisite for admission to any particular course, the attaining of a specified standard in specified subjects at the matriculation or equivalent examination; and, if it limits the number of admissions to any course, it may select the entrants from among those who are qualified for admission.

In general, school education throughout the Union stops at the matriculation level. Except in certain private schools, there is little post-matriculation work provided. Consequently students enter the universities immediately after matriculation and take three years to complete the pass degree course or four years for an honours course.

No student may be excluded from any university on grounds of his religious belief but, with this exception, a university council has the right to refuse admission to any student, should it consider it to be in the interests of the university to do so. This right has, in practice, been exercised mainly in deciding the question of the admission of non-white students. The decision reached has varied from one institution to another. Thus the universities of Cape Town and the Witwatersrand accept non-white students who attend lectures and laboratories along with the white students; the University of Natal accepts such students and provides separate

classes and laboratories for their use; Rhodes University accepts them at its affiliated college of Fort Hare, with provision for their acceptance at the university itself for advanced work; the universities of Stellenbosch, Pretoria, Orange Free State and Potchefstroom do not admit non-white students.

Admission as a candidate for the degree of master or doctor is, with some exceptions, limited to persons holding the honours degree of bachelor. A person holding the appropriate degree of another university is normally accepted as a candidate for a higher degree.

**STRUCTURE OF DEGREE COURSES.** As already stated, practically all students enter the universities without post-matriculation training and, in faculties such as arts and science, complete a pass degree in three years. The honours degree usually involves one further year of full-time study after completion of the pass degree. The minimum period of full-time study required for the bachelor's degree in other faculties is: divinity, music, commerce, economics, social science or military science, three years; engineering, surveying, agriculture, fine arts, architecture, dental surgery, four years; veterinary science, five years; medicine and surgery, six years. In education and law, the bachelor's degree is a postgraduate qualification requiring study for two years and three years respectively after a first degree in another faculty. The master's degree requires a minimum of one year's advanced study or research after the honours degree. The PhD is a research degree usually requiring a minimum of two years' research.

The Committee of University Principals (see below) may make joint statutes which, after approval by the minister of education, become binding on all the universities. These joint statutes concern matters of common interest to the universities and include provision for the movement of students from one university to another and for the minimum period of attendance required for degrees in different faculties of the universities. It is laid down that a university shall accept, as part of the attendance of a student working towards a degree of bachelor, periods of attendance as a registered matriculated student at any of the other residential universities, provided that his total period of attendance at the different universities is not less than the minimum specified by the joint statutes for admission to the degree, and provided further that he has attended at the university conferring the degree at least one-half of the courses prescribed for that degree.

**STAFF.** The academic staff includes professors, senior lecturers, lecturers and junior lecturers. The usual teaching method is by lectures augmented by seminars and tutorials. Members of staff are expected to engage in research, and, although the teaching load is not always light, time is normally available for research. The practice regarding sabbatical leave varies slightly from one institution to another, but the usual

pattern is that after completing five or six years' service, a member of staff is granted six months' leave. In some institutions study leave is also available.

The salary scales approved by the minister of education are as follows—professor: £1950 × £60–£2250; senior lecturer: £1530 × £60–£1950; lecturer: £1050 × £60–£1530. In practice, most of the universities pay salaries in excess of these standard scales. For non-medical professors the salaries vary up to about £2700, for senior lecturers up to about £2100 and for lecturers up to about £1700 p.a.

The superannuation scheme is administered by the Union commissioner of pensions. Contributions from the members of staff, the university and the government are paid into a provident fund and the sum so paid in, with interest, becomes the property of the member of staff on reaching the age of retirement. Persons coming from abroad and having insurance policies covering their superannuation benefits in another fund can, within certain limits, have these continued in the South African superannuation scheme.

The practice in filling vacancies varies somewhat from one institution to another. Cape Town, Stellenbosch, the Witwatersrand, Natal and Rhodes normally advertise at home and abroad. Pretoria, Orange Free State and Potchefstroom rely more on the method of private enquiry and internal advertisement. There is no restriction as to race or nationality in making appointments and the staffs of the universities include representatives of most of the countries of western Europe as well as South Africans who have received their first degree in the Union and then advanced degrees in Europe or America or in the Union.

**STUDENTS.** There are 27,381 students in the residential universities and 8128 external students working for the examinations of the University of South Africa. From the requirement of the joint statutes that no residential university shall grant a bachelor's degree to any student who has not completed three years' attendance, it follows that none of them can accept external students, and therefore that all such must register with the University of South Africa, the institution specially set up to deal with external students.

Short courses during the summer vacation, refresher courses, etc., are given by several universities. These are in the main directed to the general public. None of them counts for credit towards a degree. Evening courses are given at several universities for students employed during the day.

The proportion of students living in halls of residence varies greatly from one institution to another. In the larger centres the proportion is naturally smallest, as many students live at home; at the smaller centres the proportion of students in residence is much higher. The latest figures available show a variation from 7.8 per cent. in residence at Pretoria to 77.3 per cent. in residence

at Rhodes. Over the Union's residential universities taken together the distribution of students is as follows: in halls of residence, 35.3 per cent.; in approved lodgings, 21.7 per cent.; other (mainly at home), 43 per cent.

In each university, student activities are centred on the students' representative council, which approves and makes grants to the various student societies. The athletic union usually operates almost independently of the students' representative council and controls all sporting activities. Some universities operate a student health service and some a student advisory service, but practice varies from one institution to another.

Details of fees will be found in the sections on the individual universities. As they vary somewhat from university to university, average values might be misleading. In the same way the total cost of residence and study for a calendar year for an overseas student would vary considerably from centre to centre and from faculty to faculty. Including maintenance costs during the vacation, this total cost would be between £350 and £500.

Scholarships and bursaries are available from various sources—the Union government, local municipalities, the university's own funds and private donors. Most undergraduate scholarships are for relatively small amounts, e.g. £30, £40, £50 p.a. Until 1956 the Union government made no contribution to undergraduate scholarships but during that year the sum of £2500 was made available to the universities for this purpose. During 1959 this sum has been increased to £30,000 for award as bursaries of up to £100 each.

Many students undertake vacation employment, but most such arrangements are made privately and no figures are available as to the extent of the practice.

Immediately after the close of the second world war there was a large increase in student enrolment as the ex-service men returned to civil life. Thereafter, as these men completed their courses and left the universities, student numbers tended to decrease and then for a few years to remain almost stationary. Since 1956 there has been a sharp increase in numbers which is expected to continue over the next few years. The degree of expansion to be expected has been assessed as about 40 per cent.

**ACADEMIC YEAR.** The academic year extends from about the end of February or early March to the end of November or mid-December. There is a winter vacation of four to five weeks in July and a short (7–10 days) break about Easter and in September.

**COMMITTEE OF UNIVERSITY PRINCIPALS.** The Committee of University Principals was constituted by the Universities Act no. 61 of 1955 and empowered to take over the functions hitherto performed by the Vice-Chancellors' Committee. The committee consists of the principals of universities and, in an advisory capacity, such other persons as may be appointed by university councils. In the exercise of powers conferred by

the act of 1955 the committee may make recommendations to the minister of education, arts and science regarding any matter that it considers to be of common interest to the universities or which may be referred to it by the minister or the secretary for education, arts and science. It may also make joint statutes and regulations relating to the Joint Matriculation Board, the Joint Committee for Professional Examinations, the administration of the joint scholarship fund of the universities, the admission of registered students of any one of the universities to any of the others, and a minimum period of attendance and minimum fees for the degree of bachelor. The committee has power to formulate regulations dealing with any matters of common interest, such as the rotation between the universities of postgraduate scholarships administered by the committee and the conditions of award, etc.; the conditions and award of essay prizes, etc. The committee also acts as the advisory body for British Council scholarships and Imperial Relations Trust fellowships. The chairman of the committee for 1959-61 is Dr. H. B. Thom. The address of the secretary, Dr. A. V. H. Carter, is P. O. Box 594, Cape Town.

**STUDENT ORGANIZATIONS.** Since 1933 there has been no single national union of students which is supported by the students of all institutions. The Afrikaanse Studentebond (A.S.B.) was founded in 1916 and the National Union of South African Students (NUSAS) in 1924. At its inception NUSAS included all South African university institutions, including those supporting the A.S.B., but, in the period 1933-36, the Afrikaans-medium institutions withdrew from NUSAS and concentrated their support on the

A.S.B. Thus for the past quarter-century there have been in existence these two organizations, A.S.B. enjoying the support of the Afrikaans institutions and NUSAS that of those employing the English medium.

The addresses of these organizations are—the National Union of South African Students, 4th Floor, 148 St. George's Street, Cape Town, and Die Afrikaanse Studentebond, c/o Secretary, Students' Representative Council, University of Stellenbosch, Stellenbosch.

**PUBLICATIONS.** See Appendix V and the 'Publications' section in each university entry below.

**CURRENT DEVELOPMENT.** During the past year the Extension of University Education Act and the Fort Hare Transfer Act have come into operation. The former forbids the entry of non-white students to the 'white' universities, except with special ministerial approval, and makes provision for the establishment of new university colleges for the non-whites; the latter act disaffiliates the University College of Fort Hare from Rhodes University and sets it up as a university college preparing students for the degrees of the University of South Africa—on the same basis as that planned for the other new colleges. This group of colleges for non-whites now comprises: the University College of Fort Hare (Xhosa students), the University College of the North (Sotho students), the University College of Zululand (Zulu students) and the University College of the Western Cape (Cape Coloured students). The three new colleges commenced operations on January 1, 1960, and, along with Fort Hare, are now giving instruction and planning considerable development for the future.

## STATISTICS

[Source: Report of Department of Education, Arts and Science for 1959]

**TOTAL STUDENT ENROLMENT.** There were 27,381 students (including 7076 women) at the eight residential universities in 1958. Of these, 26,141 were full-time \* and 1240 part-time.† In addition, 438 students were enrolled at the University College of Fort Hare and 8128 external students (including 700 women) at the University of South Africa.

**NEW ADMISSIONS.** The number of students enrolling for the first time in 1958 was as follows :

	Eight Residential Universities	University of South Africa	University College of Fort Hare
Total	8316	1753	143
Men	5621	1594	123
Women	2695	159	20
Matriculated	7672	1008	121
Non-Matriculated	644	745	22

**STUDENTS FROM OTHER COUNTRIES.** Of the total enrolment of 27,381 in the residential universities in 1958, 1341 students had home addresses in countries other than the Union, South West Africa and the High Commissioner's territories; 855 of these 1341 students came from Southern Rhodesia, 217 from Northern Rhodesia and 76 from East Africa. Out of 8128 students enrolled in the University of South Africa, 416 have home addresses outside the territory defined above; of these, 306 came from Southern Rhodesia, 56 from Northern Rhodesia and 11 from East Africa. Out of the 438 students enrolled at the University College of Fort Hare, 24 came from outside the territory referred to; 16 of these came from Southern Rhodesia and 7 from Northern Rhodesia.

**DEGREES AWARDED** by the nine universities in 1958 (bachelor, master and doctor). *Agric., for. & vet. sci.*: 195, 25, 0. *Archit. & quantity surveying*: 78, 0, 0. *Arts (incl. comm., econ. & fine arts)*: 1605, 92, 31. *Dent.*: 53, 0, 0. *Div.*: 49, 0, 3. *Educn.*: 63, 23, 9. *Engin. **GENERAL INFORMATION**

The South African Coll., founded in 1829 as a private venture by the churches and citizens of Cape Town and its neighbourhood, was until 1874 a combined primary and secondary sch. with a tiny univ. section at the top. Although the coll. had always had a senate, it was only in 1879 that the governing power passed from the body of shareholders to a council. In 1887 College House, the first univ. residence south of the Sahara, was opened and in the same yr. the general admission of women was granted. Courses in law were added to the arts and sci. courses. From 1900 to 1918 the coll. expanded. There were the beginnings of the schs. of med., engin. and educn., the opening of the first women's residence and finally the incorporation of the coll. in the univ. which was created by Act 14 of 1916 and came into legal existence on April 2, 1918. The council took over a bequest by Sir Julius Wernher of £250,000 and a donation of equal amount from Sir Otto Beit, who added £50,000 to a lapsed bequest by Mr. Alfred Beit.

A site for the univ. was provided by govt. at Groote Schuur, Rondebosch. Over the past 40 yrs. this has been devel. (see 'Univ. Precinct and Location', *below*) by the erection of tuitional bldgs., several student residences and the Jameson Memorial hall. The univ. has expanded through the incorporation of the S.A. Coll. of Music, the creation of facs. of comm., soc. sci., schs. of African studies, fine art and archit. and the growth of existing facs. Further land adjacent to the site has been purchased and med. bldgs. erected. Greater expansion is envisaged in view of the post-war increase in population and rapid scientific devels.

The LANGUAGE OF INSTRUCTION is English.

CONSTITUTION. The hd. of the univ. is the chancellor; the chief academic officer is the principal, who is *ex-officio* vice-chancellor; the governing body is the council, which consists of the principal (*ex officio*), 5 members nominated by

the govt., 6 members elected by convocation, 3 by the old students' constituency, 1 by the diocesan coll. constituency, 3 profs. by senate, and 2 members elected by Cape Town corporation. The control and management of discipline and instructn. within the univ. is in the hands of the senate, which consists of the principal, the profs., 2 members elected by the council and 2 assessor members elected by the lecturers' assocn. of the univ.

Convocation, which consists of the profs. and lectrs. of the univ. and its grads., elects the chancellor, 6 members of the council, and a pres. of convocation; it may discuss any matter relating to the univ., and may communicate directly with the council or the senate.

INCOME. The total revenue for the year 1959 was £1,012,781 (govt. grants, 65.3 per cent.; fees, 31.6 per cent.; endowments, etc., 3.1 per cent.).

FACULTIES. Arts, comm., educn., engin., fine art & archit., law, med., music (incl. ballet and opera schs.), sci. and soc. sci. Deans, except of fac. of med., are apptd. annually.

UNIVERSITY PRECINCT AND LOCATION. The main bldgs., designed chiefly by Sir Herbert Baker, are set on the Cecil Rhodes estate, Groote Schuur, against the background of the eastern slopes of Table Mountain and Devil's Peak, approx. 5 mls. from Cape Town. The site commands a superb view. These bldgs. house all facs. except comm., med. and music, which are situated, respectively, in Cape Town, Mowbray (2 mls. from the main bldgs.) and Rosebank ( $\frac{1}{2}$  ml. from the main bldgs.).

LIBRARY. 306,000 vols., 35,000 pamphlets. Includes med. libr. (35,000 vols.); music libr.—books (4000), scores (10,000) and records (5000); archit. libr. (5000 vols.); Van Zyl law libr. (early Roman-Dutch law) and Bolus bot. libr. The Bolus herbarium includes the Guthrie collection of Cape flora.

**GENERAL INFORMATION**

Founded 1908, when univ. classes in arts, sci. and law were establ. at Pretoria by the Transvaal govt. and placed under the control of the council of the Transvaal Univ. Coll., Johannesburg, the constitution of that body being altered so as to give Pretoria equal representation. A separation took place in 1910, the Johannesburg section being reincorporated as the S.A. Sch. of Mines and Technol., whilst the Pretoria section retained the name of the Transvaal Univ. Coll. The facs. of agric. (1917), theol. (1918), comm. & pub. admin. (1919), vet. sci. (1920), music (1923), had also been establ. when by act no. 13 of 1930 the coll. was incorporated as the Univ. of Pretoria. The following facs. have been establ. since 1930: educn., med., dent. and engin.

CONSTITUTION. The univ. consists of the chancellor, the vice-chancellor, the rector, the council, the senate and convocation, together with

the profs., other teachers and students of the univ. The rector is *ex-officio* chairman of the senate.

INCOME. £1,125,119 (govt. grants, 68·2 per cent.; annual grants from public bodies, 0·6 per cent.; interest on investments, 0·2 per cent.; students' fees, 31 per cent.).

The fac. of agric. is one of 4 in S.A. Particular attention is paid to study of farming in summer rainfall area of S.A. There is an experimental

farm (tel. : 4-4517) 1 ml. east of main univ. site. The fac. has two functions: (a) it serves as teaching instrn. for trg. of agriculturists and agric. engineers. Courses for bachelor's degrees cover 4 yrs. and candidates may specialize in any branch of agric. Postgrad. work may be undertaken, and about 33 per cent. of students enrolled follow postgrad. courses. (b) It is also a res. inst. whose work falls under direct control of dept. of agric. of the union govt. In this respect it functions as a division of the dept.

The fac. of vet. sci. (tel. : 5-2411) was grafted on to the vet. res. lab. at Onderstepoort, one of the largest vet. res. insts. in the Commonwealth. The most important subjects of res. comprise protozool., virus and bacterial diseases, genesiol., helminthol., entomol., poisonous plants, mineral metabolism and other nutritional problems, sterility in cattle and sheep, and other obstet. and physiol. problems.

The clin. bldgs. of the fac. of med. are in the grounds of Pretoria General Hosp. (tel. : 2-9741). The inst. of pathol. is in Beatrix St., Pretoria (tel. : 3-0811). The Dental and Oral Hosp. is also in Beatrix St. (tel. : 2-6404).

## GENERAL INFORMATION

The beginnings of Rhodes Univ. date from 1855, when St. Andrew's Coll. was founded at Grahamstown. For many yrs. this sch. prepared students for degree exams., as well as for the usual sch. exams. In 1878 the sch. establd. a separate coll. dept. for the purpose of preparing students for the exams. of the Univ. of the Cape of Good Hope. In 1904, generous financial support from the Rhodes trustees, the citizens of Grahamstown and the public bodies of the Eastern Cape, made it possible to separate this coll. dept. from the sch., and it was incorporated by act of parliament as Rhodes Univ. Coll. The coll. continued to prepare students for the degrees of the Univ. of the Cape of Good Hope until 1916, when it became a constituent coll. of the Univ. of S. Africa. In 1949, parliament passed an act incorporating the coll. as Rhodes Univ., which came into being on March 10, 1951. From the same date (up to 1959), the S. African Native Coll. (now the Univ. Coll. of Fort Hare) was affiliated to the new univ.

The univ. now owns an impressive array of bldgs. erected progressively since 1914 on an excellent site, the nucleus of which was donated to the coll. by the govt. All the bldgs., which

comprise admin., academic and residential blocks, are situated within easy reach of one another, and of the univ. sports fields.

Grahamstown is a town with a population of about 24,000, of whom over half are non-Europeans. The students of the univ. are, however, drawn from all parts of the Union and the Fed. of Rhodesia & Nyasaland.

CONSTITUTION. The univ. consists of the chancellor, the principal, who is *ex officio* the vice-chancellor, the vice-principal, who is *ex officio* the pro-vice-chancellor, the council, senate and convocation, together with the profs., lectrs., other teachers and the students.

LANGUAGE OF INSTRUCTION. English.

INCOME (1959). £463,000 (govt. grant, 55 per cent.; hostel fees, 27 per cent.; academic fees, 16 per cent.; other sources, 2 per cent.).

FACULTIES AND DEANS (1960). *Arts*, Prof. R. K. J. E. Antonissen (Afrikaans-Nederlands); *comm.*, Prof. D. Liddell; *div.*, Prof. W. D. Maxwell; *educn.*, Prof. D. M. Morton; *law*, Prof. R. G. McKerron; *sci.*, Prof. D. W. Ewer (zool.); *soc. sci.*, Prof. J. Irving.

**LIBRARY.** Over 100,000 vols., excl. unbound periodicals, pamphlets, etc. The Cory library contains a collection of material relating to the hist. of the Eastern Cape Province.

**ADMISSION.** See Appendix II. Non-matriculated candidates may be admitted to certain dipl. and cert. courses.

**FIRST DEGREES.** BA, BSc, BSc(Pharm), BCom, BEcon, BSocSc—3 yrs.; BA(FA), BMus—4 yrs. 'The hons. degree in arts, fine arts, sci., comm., econ. and soc. sci. requires 1 yr. of study after the ordinary degree. In arts and soc. sci., however, an hons. degree may also be taken as a 1st degree after 4 yrs.' study, without obtaining the ordinary degree. In this course there is more specialization in the 3rd and 4th yrs. than in the more usual method of taking an ordinary degree first. Hons. degrees may be taken in the following subjects: a Bantu lang.; Afrikaans-Nederlands; appl. maths.; bot.; chem.; classics; comm.; econ.; Engl.; entomol.; fine art; French geog.; geol.; German; Greek; hist.; Latin maths.; pharm.; philos.; philos., pol. & econ. pol.; psychol.; sociol.; soc. anthropol.; zool.; or a combination of any 2 approved langs.

**HIGHER DEGREES.** BED, LLB, BD—2 yrs. of instructn. following an approved degree in another fac. By res.: MA, MA(FA), MSc, MCom, MEcon, MSocSc—1 yr. after hons. degree; MMus, MEd, LLM—1 yr. after BMus, BED, LLB, respectively; PhD (all facs. except law)—2 yrs. after master's degree or 3 yrs. after hons. degree; DLit, DSc, DEcon, LL.D, DD, DSocSc, DMus—4 yrs. after master's degree or 5 yrs. after hons. degree or BED, LLB, BD. All the doctorates may also be awarded as honorary degrees. The higher degrees are open to grads. of other univs. provided they attend Rhodes Univ. for an approved period.

**DIPLOMAS.** 1 yr.—leather sci., educn., soc. work, personnel welfare & management (all post-grad.). 2 yrs.—soc. studies (non-grad.). 3 yrs.—law, theol., music, lower secondary teacher (all non-grad.). 4 yrs.—fine art, art teacher (both non-grad.).

**CERTIFICATES.** 2 yrs.—religious knowledge, secretarial practice. 3 yrs.—higher primary teacher, theory of accty. 4 yrs.—art teacher. (All non-grad.).

**OTHER COURSES.** First-yr. courses are given for students proceeding to other univs. for degrees in engin., med., dent., vet. sci. and agric.; and a special BSc degree enables a student to obtain exemption from two yrs. of the course for a degree in surveying at certain other univs. The full courses of trg. for professl. dipls. in music are also given.

**RESEARCH.** The Leather Industries Res. Inst. (see 'Assoc. Instrns.', above) originated as a tanning res. section of the chem. dept. and gradually developed, until in 1942 it was able to move into a separate bldg. and became an indep. dept. In

1946 it was formally constituted as a res. inst. under the control of the Council for Scientific and Indust. Res., but it still remains closely associated with the univ.

The S.A. Wool Textile Res. Inst. (see 'Assoc. Instrns.', above), incorporated in 1953, is also under the control of the C.S.I.R. and closely associated with the univ.

Inst. of Soc. & Econ. Res. (see p. 762) was establ. in 1954 to co-ordinate and extend res. in soc. scis.

**FEES.** The following cover all charges for registration, tuition, labs., ord. exams., graduation, library and students' socs.: BA, BA(FA), BCom, BEcon, BSocSc, BMus, £60 p.a.; BSc, BSc(Pharm), LLB, £70 p.a.; BD, BED, £55 p.a. **GENERAL INFORMATION**

The Univ. of Stellenbosch had its origin in the Stellenbosch Gymnasium founded in 1866. In 1881, by private act of parliament, the arts dept. of the gymnasium was granted a charter as Stellenbosch Coll. In 1887 (the yr. of the golden jubilee) Her Majesty consented to the coll.'s being named 'The Victoria Coll. of Stellenbosch'. By the Univ. of Stellenbosch Act, No. 13 of 1916, the coll. was incorporated on April 2, 1918, as the Univ. of Stellenbosch, and in addition to fulfilling its previous functions is entitled to examine its own students and grant degrees.

By Act No. 45 of 1926, the Elsenburg Sch. of Agric. and the fac. of agric. of the univ. were amalgamated to constitute the Stellenbosch Elsenburg Coll. of Agric. of the Univ. of Stellenbosch, which 'shall be for all purposes the fac. of agric. of the univ. and shall have all such rights and privileges and be subject to all such duties as are laid down by the Univ. of Stellenbosch Act, No. 13 of 1916'. By this amalgamation the fac. of agric. was brought into more direct touch with practical farming.

In close connexion with the univ. is the Western Province Fruit Res. Stn. of the union dept. of agric., which offers facilities for postgrad. res. in all branches of fruit production and fruit and vegetable processing. Several members of staff of the res. stn. are members of the univ. teaching staff.

**CONSTITUTION.** The univ. consists of the chancellor, the vice-chancellor, the rector, the

council, the senate and convocation, together with the profs., other lectrs. and students of the univ. The rector is *ex officio* chairman of senate.

**INCOME** (1959). £1,003,314 (govt. grants, 49·8 per cent.; annual grants from public bodies, 0·6 per cent.; interest on investments, 0·2 per cent.; fees, 21·1 per cent.; other, 28·3 per cent. (incl. boarding fees)).

**GENERAL INFORMATION**

Founded in 1916 as the South African Native  
Coll. to provide, under Christian auspices, facili-  
ties for the higher educn. of Africans, the coll.  
offered courses for the external degrees of the  
Univ. of South Africa until 1951 when it became  
affiliated to Rhodes Univ.; the present title was  
adopted in 1952. As from Jan. 1, 1960, the college  
was transferred from the dept. of educn., arts &  
sci. to the dept. of Bantu educn. and courses for  
the external degrees of the Univ. of South Africa

## GENERAL INFORMATION

Makerere Coll. was founded in 1922 as a technical sch. under the educn. dept. of Uganda admin. Following the De la Warr report in 1937, which pointed to the future of the coll. as a centre of higher studies in E. Africa, under the inspiration of Sir Philip Mitchell the coll. was presented with land and an endowment and a nucleus of its bldgs. Work on the present admin. block was inaugurated by H.R.H. the Duke of Gloucester, and the block with its twin chapels was completed in 1941. Support and benefactions from African and European sources have consolidated the inter-territorial status of Makerere. On the recommendation of the Asquith commission in 1945 it was definitely decided that the coll. should become the centre of univ. studies in E. Africa. A scheme of special relationship with the Univ. of London\* was entered into at the end of 1949, whereupon the coll. assumed its present title. Courses leading to the general degrees of the Univ. of London in arts and sci. started at the beginning of 1950.

The coll. is wholly residential. It is open to all students, regardless of race, colour and religion, who have the academic qualifs. necessary for admission. Entries are accepted from any of the E. African territories, *i.e.* Kenya, Uganda, Tanganyika and Zanzibar. There is a limited number of places for students from other territories.

The coll. is situated on the outskirts of Kampala. The clin. section of the vet. sch. is at Kabete, near Nairobi. A coll. farm for the fac. of agric. has been establd. at Kabanyolo, 13 mls. from Kampala.

A major bldg. programme has been undertaken since 1948, financed mainly by grants of £2,200,000 from C.D. & W. funds. This includes a library, new teaching and res. bldgs. in all facs., 5 halls of residence, and accomm. for staff.

**CONSTITUTION.** This follows closely the pattern of the English civic univs., with a council consisting of lay and academic members as the governing body, and an academic bd. responsible for all academic matters.

**INCOME (1958-59).** £592,501 (endowment and grants, 3.5 per cent.; govt. grants, 90.5 per cent.; tuition fees, 4.5 per cent.; misc., 1.5 per cent.).

**FACULTIES AND DEANS (1959-60).** *Agric.*, Prof. F. B. Wilson; *arts*, Prof. D. Walker (econ.); *educn.*, Prof. E. Lucas; *med.*, Prof. A. Galloway (anat.); *sci.*, Prof. M. M. Crawford (chem.); *vet. sci.*, Prof. J. B. Polding.

**LOCATION.** The coll. is situated on Makerere hill, and the med. school (*address*: P.O. Box 2072, Kampala) on the adjacent hill of Mulago, both on the outskirts of Kampala. The clin. section of the vet. school is at Kabete, near Nairobi (*address*: P.O. Kabete, Kenya).

**LIBRARIES.** Main library, approx. 62,000 vols.; sub-library at med. sch., approx. 16,000 vols.

**CHAPELS AND MOSQUE.** There are 2 chapels (the chapel of St. Augustine for Catholics and the chapel of St. Francis for members of other branches of the church), and a mosque.

**TEACHING HOSPITAL.** Govt. African hosp. at Mulago, Kampala, on the same site as the med. sch.

**FACILITIES OF SPECIAL INSTITUTIONS.** The East African Inst. of Soc. Res. is administered by the coll. Its main function is field res. in Uganda, Kenya, Tanganyika and Zanzibar, covering anthropol. studies in particular tribes, or urban surveys and comparative studies of particular aspects of problems of interest to all E. African territories in the field of sociol., econ., psychol., public admin. and law, and linguistic res.

**ENTRANCE REQUIREMENTS.** For admission to degree courses in the facs. of agric., arts and sci. the entry requirements approximate closely to those of the Univ. of London. For admission to dipl. courses or the licentiatehip in med. & surg. (LMS(EA)) passes in appropriate subjects must have been obtained in the H.S.C. or G.C.E. (A level). Admission to the sch. of fine art is by a sp. entrance exam. and by passes in the sch. cert. or G.C.E. (O level).

**FIRST DEGREES (of Univ. of London).** The following degrees may be taken under the scheme of special relationship: BA (gen.), 3 yrs.; BA (hons.) in English, hist., geog., maths., 3 yrs.; BSc (gen.), BSc (spec.) in geog. & maths., 3 yrs.; BSc(Econ), BSc(Agric), 3 yrs.

**HIGHER DEGREES (of Univ. of London).** MA, MSc, 2 yrs. after first degree. Open to grads. of Univ. of London.

**DIPLOMAS, LICENTIATESHIP.** The coll. awards dipls. in vet. sci. (4 yrs.), educn. (non-grads., 2 yrs.; grads., 1 yr.) and fine arts (4 yrs.), and a licentiatehip in med. & surg. (5 yrs.). The LMS(EA) is a qualif. registrable by the General Med. Council.

**CERTIFICATES.** The coll. awards a cert. in fine arts (2 yrs., identical with first 2 yrs. of dipl. course), and a cert. in religious studies (3 yrs., may be taken concurrently with any final award).

**LEAVE** in the U.K. or at their homes for members of staff recruited from overseas: 3 months every 2 yrs. For locally recruited staff, 3 months in U.K. every 4 yrs.

**FEES.** Residence, £125; tuition, £30 (arts, sci., educn.) £40 (med., vet. sci.).

**ACADEMIC YEAR.** July to April. 3 terms of 10½ weeks.

1960-61: July 11 to Sept. 13; Oct. 3 to Dec.

\* For a note on these 'special relationship' arrangements, see p. 973

# THE UNIVERSITIES OF THE UNITED KINGDOM

[Contributed by Sir James Mountford, Vice-Chancellor of the University of Liverpool]

**HISTORICAL OUTLINE.** Diversity, rather than conformity to a pattern, is the key to an understanding of the universities of the United Kingdom. All are dedicated to the preservation and advancement of knowledge, to teaching and research, and to education for the learned professions; but in pursuit of these common purposes they exhibit great variety in their general organization, internal government, range and balance of studies, methods of instruction, and student life. The reason for this is not far to seek. The universities were founded at widely different dates, and have been influenced by and have responded in different ways to changing intellectual and social environments. Above all, they have always been autonomous bodies, evolving in their own ways, finding solutions wherever possible for their own problems, and remaining free from any attempt on the part of the state to impose uniformity on them or to subject them to a central control.

It is nevertheless possible and convenient to treat the universities as belonging to one or other of four main groups, the members of each of which have a more or less close family resemblance. These groups are: the two older English universities of Oxford and Cambridge; the four Scottish universities; the universities of London, Durham and Wales, all of which have federal constitutions; and the modern or 'civic' universities.

The universities of Oxford and Cambridge originated in guilds of teachers who settled in those towns in the second half of the 12th century. The early development of Oxford is closely connected with the expulsion in 1167 of foreign-born scholars from the University of Paris, while that of Cambridge is associated with a migration of scholars from Oxford in 1209. Quite early in the history of both universities, pious benefactors founded residential colleges for teachers and students; University, Balliol and Merton colleges in Oxford date from 1249-64, and Peterhouse in Cambridge from 1284. In succeeding centuries, colleges have continued to be established right up to the present time (e.g. St. Antony's at Oxford in 1959 and Churchill College at Cambridge in 1960). There are now at Oxford 26 colleges and 5 other recognized 'halls' for men and 5 colleges for women; at Cambridge there are 18 colleges and one other recognized 'house' for men, and for women there are 2 colleges and 2 recognized 'halls' (including New Hall founded in 1954). Most of the colleges have 300 undergraduates or

less; but a few, such as Christ Church at Oxford and Trinity at Cambridge, are very considerably larger. This collegiate system has long been the outstanding characteristic of Oxford and Cambridge. Each college is a completely autonomous body so far as its property, finances and internal affairs are concerned. The university has its own separate identity and its own constitution; and it would be quite misleading to think of it as a federation of colleges or as a body which, except within strict limits, has any control over the colleges. Although at Oxford and Cambridge it is the universities themselves which alone have the right to confer degrees and determine the conditions on which they grant them and which provide the central libraries and laboratories as well as much formal instruction, the vital focus of academic life is in the colleges: it is by being a member of a college that a student becomes a member of the university; for some part of his student career he resides in his own room in his college; he dines regularly in the college hall where the head of the college presides at the high table; though regular attendance is no longer compulsory, the college chapel fosters his religious observances; the college library provides a quiet haven where he can read seriously or browse at leisure; and his studies are to a great extent guided by the senior members (generally called 'fellows') of his own college who have rooms and (if unmarried) live within the college building. A student's loyalty to his college and affection for it continue throughout later life.

The history of these two universities and of the colleges is closely interwoven with the broad pattern of national development: at the Reformation, for example, they suffered confiscations of land and revenues; and in the 17th century Oxford so staunchly supported the king in the civil war that he made the town his headquarters. Through the centuries many of the leading figures in statesmanship, the law, the church and literature as well as in scholarship, were trained in one or other of these two universities, and the portraits of notable men which adorn the dining-halls and common-rooms of the colleges to which they belonged are an epitome of the annals of the nation.

The mediæval curriculum, based on the seven liberal arts (the *trivium*—grammar, logic and rhetoric—and the *quadrivium*—arithmetic, geometry, music and astronomy) with the addition of the higher 'faculties' of theology, law and

medicine, persisted up to the time of the Reformation and beyond; indeed even as late as the second half of the 18th century teaching was still largely traditional; and formal and written examinations for degrees were not introduced (first in Cambridge) until 1772. In the 19th century, however, and particularly after 1850, widespread reforms were inaugurated as the vigour of the two universities asserted itself, religious tests for membership of the university were abolished (the last in 1871), modern subjects of study were encouraged and developed, and to the prestige deriving from antiquity of foundation there was added the intellectual and educational primacy which in many fields is accorded to Oxford and Cambridge. In the session 1958-59 there were 8699 full-time students at Oxford and 8844 at Cambridge.\*

Three of the Scottish universities trace their origins to the 15th century, St. Andrews being founded in 1411, Glasgow in 1451 and Aberdeen in 1494. The fourth, Edinburgh, was established by the town council in 1583. As now constituted, St. Andrews incorporates three and Aberdeen two other foundations (all dating from the 15th or 16th centuries) which were at one time independent; and Queen's College, Dundee, founded in 1881, is also part of the University of St. Andrews. To Glasgow there is now affiliated the Royal College of Science and Technology.

Though it was John Balliol, father of a king of Scotland, who founded one of the oldest colleges in Oxford, the idea of colleges where senior and junior members live together communally did not take firm root north of the border; and apart from St. Andrews, where the newer type of halls of residence has been specially fostered within the last half-century, a long tradition within the Scottish universities has favoured the independence of the student in the matter of living accommodation. As in England the sons of Oxford and Cambridge have played a prominent part in the national life, so in Scotland the names of many who have moulded the fortunes of the northern kingdom or brought lustre to the name of Scotland in public life and in the learned professions are associated with the universities.

At this point of time it is hazardous to institute comparisons over the centuries; but it is clear that the Scottish universities in their teaching and curriculum freed themselves from the formalities of the mediæval scheme of studies rather sooner than did Oxford and Cambridge; and though the level of attainment for degrees fluctuated considerably from time to time, at no period in Scotland does the social side of university life appear to have predominated over the intellectual as it did in the two English universities in the 17th and 18th centuries. In the session 1958-59 there were 2418 full-time students at St. Andrews, 5583 at Glasgow (together with 1766 at the Royal College of Science and Technology), 1872 at Aberdeen and 5537 at Edinburgh.

The University of London, now the largest in the country with 20,993 full-time students in 1958-59, was not established until the 19th century. It was in 1826 that, in part as a protest against the denominational tests still imposed at that time for entry to Oxford and Cambridge, what is now known as University College, London, was founded; and as a counter-protest King's College, London, came into being in 1829. The University of London itself was constituted by royal charter in 1836 as a body empowered to examine and confer degrees on students of approved institutions, and until 1900 its work was restricted to these functions in the exercise of which, however, it influenced and co-ordinated the work of the various other colleges of university rank which were founded from time to time in London (*e.g.* Bedford College for Women in 1849). From 1858 its degrees, except in medicine, were made available for students other than those in certain recognized institutions and the external degrees of the university which were then instituted still continue to provide both at home and overseas an academic award of high standing for part-time students and others who are not enrolled in a university. London, too, in 1878 was the first university in the United Kingdom to admit women to its degrees. Since 1945 it has had special relationships with the new university colleges founded in colonial territories under the auspices of the Inter-University Council (*see* pp. 818 and 973).

In 1900 and again in 1926 the university's constitution and powers were revised and it is now not only a teaching as well as an examining body, but has become a federation in which are incorporated 13 medical schools associated with hospitals, 14 non-medical colleges (called schools of the university, and including *e.g.* University College and King's College), together with a number of postgraduate and other institutions. Some other centres of higher education in London are also affiliated to the university, and in still others certain members of staff are recognized as teachers of the university. The six largest schools of the university are University College (with 2938 full-time students in 1958-59), Imperial College of Science and Technology (2541), King's College (2105), London School of Economics (2062), Queen Mary College (1304) and Guy's Hospital Medical School (1048).

The University of Durham was founded in 1832 largely on the initiative of the cathedral authorities. The College of Medicine in Newcastle upon Tyne, established in 1834, was linked with the university in 1852 and in 1871 the College of Physical Science (later Armstrong College) in Newcastle was founded as part of the university. The university is now organized on a federal basis in two divisions, one consisting of the Durham branch and the other of the College of Medicine and Armstrong College in Newcastle amalgamated under the name of King's College. There are,

\* See footnote to p. 810

however, proposals afoot that the Newcastle division should become an independent university. From its inception the university in the city of Durham was influenced by the collegiate pattern of Oxford and Cambridge, and eight of its halls of residence, in which 64 per cent. of its students live, have the status of colleges of the university, the oldest dating from 1833. In 1958-59 there were 1398 full-time students in Durham itself, and 3556 in King's College, Newcastle. With the university there are affiliated Codrington College, Barbados, West Indies, and Fourah Bay College, Freetown, Sierra Leone, West Africa.

Like London and Durham, the University of Wales is federal. It was in 1872 that a university college was founded in Aberystwyth as the result of a movement for higher education supported, often from the most meagre resources, by all sections of the population of the principality. In 1883 a second college was established in Cardiff and a third in Bangor in 1884. The University of Wales was founded in 1893 with Aberystwyth, Cardiff and Bangor as its constituent colleges; a fourth college was established at Swansea in 1920; and in 1931 the Welsh National School of Medicine, originally an offshoot of the Cardiff college, was given the status of a school of the university. In 1958-59 there were 5851 full-time students in the university as a whole, Cardiff having 1819 and Aberystwyth 1433.

The modern or 'civic' universities of England, which collectively had 32,200 full-time students in 1958-59, gained their full status only in the present century. Their rise and development has profoundly modified the whole pattern of university education in England.

They mostly had their origin in the university colleges which, under various designations, were established in large centres of population in the second half of the 19th century. These colleges themselves were in many instances the inheritors and successors of more loosely organized literary, scientific and cultural societies, many of which had been influenced by the extension courses and lectures provided by Oxford and Cambridge. The primary purpose underlying the establishment of these colleges was to provide centres of higher learning at a university level for the young people of the area in which they were founded. By their very nature they were not conceived as being residential on the Oxford and Cambridge pattern; the idea of halls of residence took root slowly; and though the universities which have emerged from them now draw their students from all parts of the country, few provide accommodation for more than 25 per cent. of their undergraduates. In some places the driving force which led to their foundation was an individual benefactor, in others the local community as a whole was inspired to provide itself with a college. The earliest of these newer institutions was Owen's College in Manchester (1851), followed by the Yorkshire College of Science in Leeds (1874), University College, Bristol (1876), Firth College, Sheffield (1879), Mason Science College in Birmingham (1880),

University College, Liverpool (1881), University College, Nottingham (1881), Reading University College (1892) and Exeter University Extension College (1894). Within the 20th century Hartley University College was founded in Southampton (1902), a University College in Leicester (1918) and a University College in Hull (1927). Where there was also a local school of medicine, it generally became closely linked with the university college and so formed the nucleus of a future faculty of medicine.

Until they attained the status of full universities, these colleges prepared their students for the external degrees of the University of London. The first move was in the direction of federation. By a charter of 1880 the Victoria University was founded with a federal constitution and Owen's College, Manchester, was made the first constituent college, to be joined subsequently by University College, Liverpool (1884), and the Yorkshire College, Leeds (1887). In 1900, however, Mason College in Birmingham obtained its own charter as a university, and any trend towards federation was abruptly halted. Liverpool obtained its own charter in 1903, and Leeds in 1904, leaving the title of Victoria University in the sole possession of Manchester. Sheffield was granted a charter in 1905 and Bristol in 1909. The other university colleges had longer to wait, and apart from Reading, which obtained full status in 1926, no other universities were created until after the end of the second world war. There then followed in quick succession Nottingham (1948), Southampton (1952), Hull (1954), Exeter (1955) and Leicester (1957). In 1958-59 Manchester had 4626 full-time students, together with 1487 in the affiliated Manchester College of Science and Technology; Leeds had over 4500; Birmingham had nearly 4000, Liverpool over 3600 and Bristol over 3000; Sheffield exceeded 2700 and Nottingham had nearly 2400; Hull, Reading and Southampton had more than 1400 and Exeter more than 1200; and at Leicester there were more than 1000.

With the civic universities we can include the Queen's University of Belfast. It was founded by royal charter as Queen's College in 1845, and, together with colleges in Cork and Galway, became part of a federal Queen's University in 1850. In 1880 the title of the university was changed to the Royal University of Ireland; and in 1908 a fundamental reorganization led to the establishment in what is now Eire of a National University of Ireland consisting of University College, Dublin, and the colleges in Cork and Galway, and to the conferring of full and separate university status on the college in Belfast under its present title. The income of the Queen's University is now largely derived from the government of Northern Ireland, which since 1945 has relied on the advice given by the University Grants Committee. The number of full-time students in the university is in excess of 3200. (For the University of Dublin (Trinity College) see Appendix I.)

The University College of North Staffordshire

was founded in 1949 at Keele Hall near Newcastle-under-Lyme, largely on the initiative of the late Lord Lindsay of Birker, master of Balliol College. It is exceptional in several respects: its curriculum provides an integrated course of study in the humanities, the social sciences and the natural sciences; though not of full university status it is nevertheless empowered to confer the degree of BA; major academic matters are controlled by a board, the majority of whose members are representatives of the universities of Oxford, Manchester and Birmingham; and it is a self-contained and entirely residential academic community. In 1958-59 it had 689 students.

The youngest member of the university family is the University College of Sussex at Brighton which was formally constituted in 1959. It owes its origin to a scheme formulated locally, in support of which the University Grants Committee agreed to make grants for capital expenditure and maintenance. A draft constitution has been approved and Mr. J. S. Fulton, formerly principal of University College, Swansea, and vice-chancellor of the University of Wales, took up his duties as the first principal in October 1959. It is expected that sufficient progress will have been made with academic buildings and the recruitment of staff for a small number of students in arts to be admitted in October 1961 and a full entry of 200 in arts and science in October 1962. To begin with, students will be accommodated in lodgings in Brighton itself. The new college will grant its own degrees of BA and BSc and standards will be guaranteed by an academic advisory committee of five or six outside persons of recognized standing. A distinctive feature of the curriculum in arts will be the grouping of subjects under the headings: English studies, European studies and social studies.

The only other degree-giving institution in the United Kingdom is St. David's College at Lampeter in Wales. It was established in 1822 and its royal charter empowers it to confer bachelor's degrees in arts (BA) and theology (BD and LTh). It is entirely residential and in 1958-59 had 162 students.

It was only belatedly that women achieved full status within the universities. Although Bedford College for Women was established in London in 1849, it was not until 1878 that the University of London led the way for other universities by admitting women to degrees. At Oxford, Lady Margaret Hall was founded in 1878, Somerville in 1879, St. Hugh's in 1886, St. Hilda's in 1893 and St. Anne's (formerly the Society of Oxford Home-Students, established in 1879) in 1952. Of the Cambridge colleges, Girton originated at Hitchin in 1869 and was removed to the near neighbourhood of Cambridge in 1873. Newnham was founded in 1871. Oxford admitted women to examinations in 1884, to degrees and full membership in 1920 and to university teaching posts in 1927. Cambridge admitted women informally to tripos examinations in 1872 and to 'titles of degrees' in 1923; in 1926 women were declared eligible for university teaching posts and therefore for membership of boards of faculties, but not

until 1948 were they admitted to actual degrees and full membership of the university. Women have been admitted to the universities of Scotland since 1892, to Durham since 1896 and to all the modern civic universities from their foundation.

**UNIVERSITY CONSTITUTIONS.** All the universities of the United Kingdom exercise their rights and functions in virtue of royal charters, which in the case of the older English and Scottish universities superseded the earlier papal bulls which authorized their foundation. Supplementary to the charter of each university, and in conformity with it, are statutes (in Scotland, ordinances) which are approved by the sovereign in council. A charter defines the powers, privileges and constitution of the university in broad general outline; the statutes, which within the framework of the charter can be amended on the initiative of the university, provide for the more important and permanent details which, particularly in matters of constitution, need to be clearly set forth. Subsidiary to the charter and statutes, there are ordinances, decrees, graces and regulations which the university itself finds it convenient to promulgate from time to time for the orderly conduct of its affairs; and it is under these headings that, for example, the particular requirements for entrance and for the award of degrees are laid down.

Each university has as its official head a chancellor, a person distinguished in rank, in public service or in scholarship, who is elected for life by one of the statutory bodies of the university. Though the office is in the main honorific, the chancellor normally presides at the largely formal meetings of the supreme governing body of the university and at congregations where he confers degrees. Many universities provide for the election of one or more pro-chancellors for a limited period of years who act for the chancellor in his absence, except in the matter of conferring degrees, which then becomes a function of the vice-chancellor. In the four Scottish universities, in addition to the chancellor, there is also a rector elected for a period of three years by the matriculated students for the time being; he may be a person of great distinction, a popular figure, or a transient notoriety; he is *ex-officio* president of the university court, though in most instances he does not exercise this right; he also appoints to the court an assessor who may in fact act for a succession of rectors. In most universities the chief academic and administrative officer is the vice-chancellor, who holds a permanent appointment (except in Oxford, Cambridge, London, Durham and Wales, where his tenure is for two to four years); in Scotland the official title is principal, though the holder of the office is usually nominated as vice-chancellor by the chancellor; in London there is also a permanent officer with the title of principal who shares administrative and academic duties with the vice-chancellor. The chief executive functions are in the hands of the registrar or secretary, who prepares the official business for the university bodies, keeps the uni-

versity records and ensures the carrying out of official enactments. At both Oxford and Cambridge there are two proctors appointed annually from amongst the fellows of colleges whose primary functions are the care of undergraduate discipline but who are also *ex-officio* members of certain university bodies.

The academic side of university government is based on faculties each of which is concerned with the affairs of a group of related studies; and for the minor details a faculty is often advised by boards of studies. The number of faculties varies from one university to another as to some extent does the grouping of subjects within faculties of the same name in different universities. The work of the faculties is co-ordinated and approval given to their recommendations by some higher academic body, which in the majority of universities is called the 'senate'. The conduct of financial affairs is very generally entrusted by charter or statute to a university body for which the commonest name is the 'council'. Ultimate authority within the university is, in most instances, vested in a supreme governing body for which 'court' is the most usual name.

When we turn to the individual universities or groups of universities we find not only that there are many confusing divergences of nomenclature but that within the broad pattern outlined above the precise distribution of function as between the various bodies is far from being identical. Furthermore, very important distinctions can be drawn according to the size and composition of the university bodies and the powers and influence within the university constitution which is exercised by the academic staff, by the graduates of the university or by lay members nominated and appointed from outside the university.

At Oxford and Cambridge the government of the university is entirely in the hands of members of the university and there is no representation of any outside authority on any of the statutory bodies. At Oxford the chief legislative functions are in the control of the 'congregation', a very large body comprising the resident teachers and administrators in the university; every measure submitted to it, however, has to be initiated by the 'hebdomal council', a smaller body of between twenty and thirty members elected from within the university, which digests the great volume of business coming from the general board of the faculties. Financial administration, though not financial policy, is entrusted to the 'curators of the chest', an elected body of twelve academic persons, who must be consulted by the hebdomal council when finance is involved in its proposals. When a statute is passed by congregation by less than a two-thirds majority it must be submitted to 'convocation', a body to which belong masters of arts and holders of higher degrees who have kept their names on their college books and paid their dues. Convocation, however, has only a suspensory veto and that for a limited time. Its other functions are to elect the chancellor and to approve honorary and official degrees. In view of the fact that most

of its members reside far from Oxford, it is only rarely and only on the most controversial of issues that more than a fraction of its members assemble. At Cambridge the pattern is very similar to that at Oxford. The chief legislative body is called 'regent house', to which belong the teachers and administrators resident in the university. The much smaller initiating and executive body which sifts the proposals of the general board of the faculties is called the 'council of the senate'; it consists of the chancellor and vice-chancellor together with sixteen resident graduates elected by regent house. Corresponding to convocation at Oxford there is the senate, consisting of bachelors of divinity, masters of arts and doctors; apart from some formal duties, it elects the chancellor and is a court of appeal in certain cases from decisions of regent house. Financial affairs are in the hands of a financial board comprised of a small number of academic persons elected or appointed by the other university bodies.

In quite sharp contrast to the self-contained form of university government at Oxford and Cambridge are the constitutions of the modern 'civic' universities. At Oxford and Cambridge the government of the university has in essence evolved from the closed corporations or guilds of teachers and students. In the modern universities the pattern was determined by other considerations, not the least of which was the large spread of interested bodies which were concerned in their foundation and development. Here the three major bodies are the court, the council and the senate. The court is the supreme governing authority; it is a large body, often between 300 and 400 in number, containing not only the professors and representatives of the graduates of the university and heads of schools, but persons nominated by other universities, by local authorities and educational organizations within the university area, by religious denominations, and by learned societies. It meets annually to receive the financial accounts and other reports on the work of the university and to appoint certain university officers; it may also meet specially for other purposes; and in most cases it is the body which elects the chancellor, and in a few cases appoints the vice-chancellor. The council, generally containing between 30 and 40 persons, is the body which administers the finances of the university; it confirms the recommendations of senate for academic appointments; and it authorizes academic regulations proposed by senate; in most universities, generally in consultation with the senate, it appoints the vice-chancellor. The majority of its members are appointed by the court, a restricted number is nominated by senate or faculties from amongst the professoriate and other teaching staff, and some are nominated by local authorities; the chancellor and vice-chancellor are *ex-officio* members. The council is thus predominantly not an academic body, though some or many of its lay members may in fact be graduates of a university. Though it has wide powers which could be used to thwart the considered advice

and recommendations of the senate, it refrains in practice from interfering in matters of purely academic policy, and in academic appointments; and it is generally agreed that the worldly wisdom and experience of affairs collectively possessed by the council has in many ways brought very considerable advantages to the newer universities. The senate, of which the vice-chancellor is *ex-officio* chairman, is, subject to the powers of council, the chief academic body; it approves and co-ordinates the work of the faculties, makes recommendations for the filling of professorships and other academic posts, and is responsible for the teaching and discipline of the undergraduates. Its membership consists of the professors of the university with the addition in most cases of a limited number of representatives of the other teaching staff, who apart from their wide representation on faculties and boards of studies do not have a share in the university government comparable to that afforded by the congregation at Oxford or regent house at Cambridge. The graduates of a modern university are members of a statutory body generally called convocation which meets annually and may discuss and express an opinion on any matter concerning the university but has no powers corresponding to those of the convocation at Oxford or the senate at Cambridge.

The government of the Scottish universities is defined by the Universities (Scotland) Acts of 1858 and 1889, modified in the case of St. Andrews by an act of 1953. The supreme governing body is the court, which, unlike the body of the same name in England, is a small but powerful one consisting of the rector, the principal, the lord provost of the city, three members nominated by the chancellor, the rector and the lord provost, four members elected by the academic senate and four by the general council; it administers the property and finances of the university, makes academic appointments, and can review any decision of senate against which there is an appeal. In St. Andrews the court is of the same general pattern but consists of 21 persons. The 'senatus academicus', which has responsibility for instruction and discipline, and has the sole power of granting degrees, consists of the professors of the university together with a limited number of other members of the teaching staff; its *ex-officio* chairman is the principal, who is appointed by the crown except at Edinburgh, where his appointment (like that of a small number of professors) is in the hands of a special body of curators of patronage. The general council, which consists of the chancellor, the members of the court, the professors, the graduates, and readers and lecturers of one year's standing, meets twice annually and may make representations to the court on any matter affecting the university; it elects the chancellor and appoints its own four representatives to the court.

The underlying principle of the constitution of the federal universities of London, Durham and Wales is that in academic and financial matters which concern the whole university the central

authority has control, leaving the constituent colleges and institutions to manage all other matters for themselves. In London the court, which has 17 members including representatives of the senate, persons appointed by the crown and persons nominated by the London County Council, controls the finances; it is the body which applies to the University Grants Committee, local authorities and other public bodies for grants and distributes them to the constituent schools and institutes of the university. The senate is the supreme governing and executive body in academic matters, and appoints, in consultation with the school concerned, the professors, readers and all but the more junior members of the teaching staff. Its fifty or so members include representatives of the constituent schools, of the faculties and of the graduates; amongst its important standing committees are the academic council and the collegiate council. Convocation, which consists of the graduates who have paid a prescribed fee, elects 17 members to the senate, and may discuss and express its opinion on any university matters; it is a matter of importance that its elected chairman is *ex officio* a member of the court and of the senate. Each of the constituent schools of the university has its own internal form of government, consisting in general of a governing body with lay representation, an academic board composed from members of the teaching staff and a finance committee.

The governing bodies of the University of Durham are a court of about 30 members, the senate, boards of faculties and convocation, all of which have functions closely similar to the corresponding bodies in London. In the composition of these bodies the two divisions of the university at Durham and Newcastle have appropriate representation and the court contains a number of lay members. The warden of the Durham Colleges and the rector of King's College, Newcastle, alternately act for periods of two years each as vice-chancellor. For its internal affairs each division is governed by a council and an academic board.

The University of Wales is governed centrally by a large court of over 250 members, including representatives of local authorities and public bodies in Wales and of the graduates of the university. Its finances are controlled by a council of about 20 members, on which in addition to the vice-chancellor and heads of the constituent colleges there are members appointed by the court and by local authorities. Academic matters are in the hands of an academic board consisting of representatives of the faculties in the constituent colleges. The guild of graduates is constituted similarly to the convocation of the modern universities, and has the same right of expressing its opinion on university matters. Each of the constituent colleges has its own board of governors, council and senate for the conduct of its internal affairs. The principals of the four constituent university colleges act in rotation as vice-chancellor, each for a period of two years.

**RELATIONSHIP TO GOVERNMENT.** The universities of the United Kingdom are independent self-governing bodies which do not come within the jurisdiction or control of any ministry. It is from royal charters that they derive their rights and privileges; and any amendment of their charters or statutes is made by the crown acting through the privy council on the application of the universities themselves. It is true that, from time to time, royal commissions have been appointed and acts of parliament passed to deal with situations which the universities themselves for one reason or another were unable to resolve: such, for example, are the Oxford and Cambridge University Acts of 1854, 1856 and 1877, the Durham University Acts of 1861 and 1935, the London University Acts of 1808 and 1926 and the St Andrews University Act of 1953; but the initiative in setting these exceptional procedures in motion has generally come from within the universities themselves and they have always been adopted with the co-operation or at least the concurrence of the universities concerned. Furthermore, whatever changes may thereby have been effected in the constitution or structure of a single university, the essential autonomy of universities both individually and collectively has invariably been preserved: they alone decide what degrees they shall award and the conditions on which they shall grant them; they alone decide what students they shall admit and what professors and other academic staff they shall appoint; they can hold property and they have unfettered discretion in the use of their own funds.

This freedom of the universities from any form of governmental direction is all the more noteworthy when viewed against the background of financial assistance which is now given to universities by the Treasury. Until the end of the first world war, such grants as were made to universities from governmental sources were sporadic and inconsiderable in amount. Universities relied for most of their income on endowments and private donations, on the fees paid by their students, and in many cases on grants from local authorities. In July 1919, however, when the financial stability of universities was causing great anxiety, the Treasury established a standing committee with the title of 'The University Grants Committee' which had the following terms of reference: 'To enquire into the financial needs of university education in the United Kingdom, and to advise the government as to the application of any grants that may be made by parliament towards meeting them'. For the session 1919-20 the total of the grants made available to the new committee for distribution to the universities and the independent university colleges was £916,000; by 1929-30 the sum had risen to £1,800,000; and it increased slowly to £2,224,000 in 1939-40, by which time it represented just over one-third of the entire income of the universities. During the second world war, when the contribution of the universities to the national effort, especially on the scientific side, was

of paramount importance, the maintenance of the annual Treasury grant at much the same level saved the universities from undue worry about their finances.

By 1945 it had become clear that there would be in the future a greater demand and a greater need than ever before for university education; and that consequently not only must the subvention provided by the state be increased but also the nature of the partnership which, for a quarter of a century, had been developing between the universities and the University Grants Committee should be made more explicit. In 1946, therefore, the terms of reference of the University Grants Committee were significantly revised, and with the further amendments approved in 1952 they now read as follows: 'To enquire into the financial needs of university education in Great Britain; to advise the government as to the application of any grants made by parliament towards meeting them; to collect, examine, and make available information relating to university education throughout the United Kingdom; and to assist, in consultation with the universities and other bodies concerned, the preparation and execution of such plans for the development of the universities as may from time to time be required in order to ensure that they are fully adequate to national needs'. The declared function of the University Grants Committee is no longer formally restricted to the distribution of grants; and the co-ordinated development of the universities in the post-war years has been firmly founded on the information and advice which the committee has placed at the disposal of the universities and on the continuous consultations which have taken place on matters of broad policy no less than on details of planning. The extent to which parliamentary grants made available to the committee and so to the universities have increased in the post-war period is indicated by the following figures. Apart from grants for buildings and equipment, the amount given towards recurrent expenditure for the five-year period 1947-52 was £64,630,000; for 1952-57 it was £120,000,000; and in March 1957 the chancellor of the exchequer announced that the grants for 1957-62 would be £173,500,000, rising from £30,600,000 in 1957-58 to £39,500,000 in 1961-62. The recurrent Treasury grant in the session 1947-48 represented 55·8 per cent. of the total income of universities; in 1958-59 it accounted for almost 68 per cent.

There are three reasons why this vast increase in the actual sums given to universities and the striking change in the proportion such sums bear to total income have not brought with them any diminution in the autonomy of the universities. In the first place, informed public opinion is convinced that universities could not do their work effectively if there were any encroachment on their freedom; secondly, there is a firmly established feeling of confidence between the universities and the government; and thirdly, the wisdom and impartiality of the University Grants Committee

itself and the effectiveness of the committee's procedures in relation both to the Treasury and the universities have provided a practical solution for a situation which could have raised problems of great magnitude.

The University Grants Committee (abbreviated as U.G.C.) as now constituted has two full-time officers, a chairman (Sir Keith Murray, BSc PhD MA BLitt) and a secretary (Sir Cecil Syers, KCMG, CVO, MA), who are assisted by a small number of permanent officials. The sixteen other members of the committee are appointed by the chancellor of the exchequer after consultation with the minister of education and the secretary of state for Scotland, are part-time and unpaid, and individually serve for a term of years only. Rather more than half of these members are university professors or other persons of high academic distinction and sound judgment who have an intimate knowledge of universities; and though they are appointed as individuals and not as representatives of particular universities or of particular fields of study, they are so selected that collectively they can assess academic needs of all kinds. The other members of the committee include the headmaster of a famous school, a local authority director of education and prominent leaders of commerce and industry. Generally at least one member of the committee is a woman. From time to time the main committee appoints sub-committees consisting of a nucleus of its own members who sit with the appropriate experts to advise it on particular topics such as medical education, social science, slavonic studies, technology, halls of residence. The offices of the committee are at 38 Belgrave Square, S.W.1 (tel.: Sloane 9912). The committee publishes annually a statistical abstract entitled *Returns from Universities and University Colleges*, which deals with the various categories of students, the degrees and diplomas awarded and the staffing and finances of the individual universities. After the end of each quinquennium the committee also publishes a lengthy report entitled *University Development* which is much less statistical than the annual returns but provides an invaluable survey of the whole field of university affairs; it is here that one gets the clearest picture of the broad lines of progress, of the needs that are emerging and of the problems that still await solution.

The recurrent grants made through the University Grants Committee are based on a five-year period. A year or so before the beginning of each quinquennium members of the committee and of some of the sub-committees visit each university institution to gain by personal contact with the governing body, the professors, the non-professional staff and the students an insight into the working of the university, its achievements, its needs and its programme for development. So far from being inquisitorial, these visits are a fruitful source of mutual understanding. By a fixed date each university subsequently submits to the committee a detailed estimate of its income and

expenditure for the ensuing quinquennium, and on the basis of these estimates the committee makes its own consolidated recommendation to the Treasury. When on the advice of the chancellor of the exchequer, parliament has voted the money which he judges to be needed, the committee makes an allocation to each university in England, Scotland and Wales. In the case of Oxford and Cambridge the colleges do not participate in the allocation, which is made for university purposes only; in London, Durham and Wales the central university authorities distribute the allocation made to the university amongst the constituent colleges and institutions.

It is at this point that the freedom of the universities is made particularly manifest. The assistance provided is given as a block grant for each of the five years and is not divided under sub-headings; and apart from an understanding that academic salaries shall be paid within agreed ranges, each university expends its grant alongside its other income in the way it thinks best. For their part, the universities are very conscious and jealous of the trust thus reposed in them, and no one of them would contemplate embarking on a major change of policy involving heavy future commitments without previous consultation with the committee. This quinquennial system of grants also affords a valuable element of flexibility in the conduct of university affairs; within reasonable limits a university can plan with some confidence for five years ahead and husband its resources accordingly.

Non-recurrent grants made by the Treasury towards the cost of new buildings and their equipment, the adaptation of older structures and the acquisition of sites, are assessed on an annual basis, though the total amounts to be made available for each year are announced well in advance so that planning can proceed in an orderly fashion. The proposals made by the universities for such capital expenditure are given an order of priority by the University Grants Committee and approved within the limits of available finance. Before final approval is given, the plans for each separate building are scrutinized and commented upon by the committee with the assistance of the Ministry of Works; and a document known as the Gater Report, published in 1956 under the auspices of the committee, was intended to assist universities in ensuring the maximum economy in their building procedures. From time to time also, on the basis of its accumulated experience, the committee indicates what standards of accommodation for various purposes it considers reasonable in normal circumstances. In the earlier post-war years, when the resources of the universities were at a low ebb, most of the non-recurrent grants covered the whole cost of a project. More recently, as universities have in varying degrees been able to secure funds for themselves by public appeals, they have found it possible to contribute something towards the cost of new buildings from their own resources; but for the major part of such expenditure they

have still to rely on Treasury aid.

Between 1947 and 1957 approximately £42,000,000 was expended by way of non-recurrent grants; for each of the years 1958 and 1959 the sum of £12,000,000 was promised and for the years 1960-63 a total of £60,000,000.

**FINANCE.** In the session 1958-59, which is the latest year for which complete returns are available, the total income of the universities of Great Britain amounted to £52,273,306. The chief items within this sum were: interest on endowments, £1,795,344 (3·4 per cent.), of which £943,259 was for particular purposes and £852,085 for general purposes; donations and subscriptions, £479,093 (0·9 per cent.); grants from local authorities, £1,500,918 (2·9 per cent.); Treasury recurrent grants, £35,476,015 (67·9 per cent.); grants from other government departments, £972,103 (1·8 per cent.); tuition, examination and other fees, £5,739,316 (11 per cent.) including £209,466 from the Ministry of Education for the fees of teachers in training; payments for research, £3,657,530 (7 per cent.), of which £1,801,440 came from government departments and £1,856,090 from other bodies; and various miscellaneous items, £2,652,987 (5 per cent.).

For the same session, 1958-59, the total expenditure of the universities, apart from £403,186 allocated to reserves, amounted to £51,526,275. The major items within this sum were: administration, £3,529,171 (6·8 per cent.); salaries and payments for superannuation of teaching staff, £22,900,637 (44·4 per cent.); departmental and laboratory maintenance, including wages of technical staff, £10,326,286 (20·4 per cent.); libraries and museums, £2,155,268 (4·1 per cent.); repairs and maintenance of buildings, £1,763,843 (3·4 per cent.); other maintenance costs including light and heating, £4,988,764 (9·7 per cent.); capital expenditure met from income, £468,925 (0·9 per cent.); general educational expenditure including examinations, publications and student amenities, £3,201,703 (6·2 per cent.); and miscellaneous items, £2,191,678 (4·3 per cent.).

**PRE-UNIVERSITY EDUCATION.** All but a relatively small minority of the English and Welsh students who enter the universities have been educated up to the age of 18 or over in one or other of three types of grammar school. First there are the grammar schools maintained or assisted and controlled by local education authorities with the aid of grants from the Ministry of Education; pupils in these schools pay no fees and with rare exceptions will have had their primary education up to the age of 11 or 12 in a school maintained by a local education authority; they account for about 78 per cent. of the whole grammar school population; and pupils from such schools account for about 60 per cent. of the university population. Secondly, there are direct grant schools which receive aid directly from the Ministry of Education and not through a local education authority; it is a condition for receiv-

ing grant that at least one-quarter of the pupils shall have free education and that the fees payable by the remainder shall be related to parental income; these schools are controlled by a board of governors on which local education authorities must be represented; many, but not all, of the pupils will have previously attended a local education authority primary school up to the age of 11 or 12, which is the normal age for entry to direct grant schools; the pupils in these schools account for about 12·5 per cent. of the whole grammar school population; and pupils from such schools account for about 13·5 per cent. of the university population. Thirdly, there are the independent schools which receive no grant from the Ministry of Education or from local education authorities but depend on their endowments and fee income; the control of these schools is vested in a self-perpetuating governing body on which a representative of the Ministry of Education may in some instances be invited to sit; apart from the holders of scholarships awarded by the school, all pupils pay whatever fees may be fixed by the governing body; the age of entry to these schools is normally 13 and most of the pupils will previously have attended a fee-paying and privately owned preparatory school; the pupils in independent schools account for about 10 per cent. of the whole grammar school population; and pupils from such schools account for 18·5 per cent. of the university population.

Separate schools for boys and for girls is the predominant pattern of grammar school education; just over 30 per cent. of the local education authority schools, but less than 4 per cent. of direct grant and independent schools, are attended by both sexes. The local education authority grammar schools are almost exclusively for day pupils and the number of boarding places provided in such schools throughout the country is only about 1 per cent. The direct grant schools are also mainly for day pupils, but many of them have some boarding provision for pupils whose homes are outside the school area; all told, about 9 per cent. of the pupils at such schools are boarders. In the independent schools, on the other hand, 70 per cent. of the pupils are boarders. Transfer from one type of grammar school to another is always possible subject to a place being available, but in practice it is quite exceptional.

The frequently used term 'public school' is not current in the official documents of the Ministry of Education. It came into use in the early 18th century to describe those grammar schools of good standing, often originating in charitable foundations for poor scholars, to which well-to-do parents were beginning to secure entrance for their sons as boarders in preference to having them educated by a tutor or in a small private school. The term is now popularly used, with social as well as educational connotations, mainly in reference to the independent boarding schools for boys; but a more precise and generally agreed description, which includes most direct grant schools, defines a public school as one which is

represented on the Governing Bodies' Association or the Headmasters' Conference. There are in fact about 190 such schools and their eligibility for representation on the organizations just mentioned depends upon how free their governing bodies are from outside control, on the proportion of senior pupils in the school, and on the number of their former pupils who have gone on to universities. By analogy the term 'public school' is used, though much less frequently, in reference to girls' grammar schools of comparable standing.

The statutory age below which a pupil is not permitted to leave school is 15; but the full grammar school course extends to the age of 18 or a little over. The most important stage in the education of grammar school pupils is the VIth form, which is entered at about the age of 16 and extends over two or three years. It is here that pupils can begin to develop their own special interests, learn to some extent how to work by themselves, and prepare for entry to the universities or the professions. Generally the VIth form is organized in sections with distinctive titles, e.g. classics VIth, science VIth, modern VIth, according to the main emphasis on a particular field of study. Some form of daily religious observance is a feature of all grammar schools and some schools of all three categories are particularly associated with the Anglican, Methodist or Roman Catholic denominations. In day schools the activities of the day begin with a brief service of morning prayers conducted by the headmaster or headmistress in the school assembly hall; schools which provide for an appreciable number of boarders have their own chapel, sometimes a building of great beauty, where services are conducted by a chaplain who is generally a full member of the staff of the school.

Public education in Scotland, exclusive of the universities, is administered centrally by a government department, the Scottish Education Department, and locally by 35 education authorities. Many of the grammar schools in Scotland, though now often assisted from public funds, are old foundations endowed by benefactors by whose names they are still known (e.g. George Watson's College in Edinburgh); the newer ones, officially designated as senior secondary schools, have been established by the local authorities. Few of the older Scottish schools have developed a boarding side to any considerable extent. Some dozen or so schools (including several wholly for boarders and outside the official system) are represented on the Headmasters' Conference and are included in the list of public schools. Apart from the older grammar schools in the large cities, most schools are co-educational.

In Northern Ireland school education is administered by the Ministry of Education for Northern Ireland and by local education authorities. An important feature of the educational system is the number of schools which are managed by religious denominations though generously assisted from public funds.

**ADMISSION.** In Appendix II a comprehensive

and detailed account of university requirements for entry to first degree courses will be found; but something may here be said about the broad outlines. To qualify for admission to a university in order to read for a degree, a prospective student must have passed an examination or examinations which satisfy the minimum academic requirements for matriculation. At Cambridge a specific matriculation examination known as the 'previous examination' can be taken; at Oxford the corresponding examination, known as 'responsions', was held for the last time in 1960. Except for the Queen's University of Belfast, the other universities do not hold a separate matriculation examination of their own, but rely entirely upon the results of examinations conducted in England and Wales by nine examining bodies approved by the Ministry of Education for the General Certificate of Education (G.C.E.). In Scotland the Scottish Education Department awards a Scottish Leaving Certificate and in Northern Ireland the Ministry of Education awards a Senior Certificate; both of these are recognized by all universities as providing evidence which can be used for purposes of matriculation. In the case of the special matriculation examinations, the only question at issue is whether or not the candidate passes; if he does so, he thereby fulfils the minimum entrance requirements of the university concerned. But the General Certificate of Education, the Scottish Leaving Certificate and the Senior Certificate of Northern Ireland are intended to serve a variety of purposes, of which qualification for university entrance is only one; and it is only under specified conditions that these certificates are accepted by universities. Thus, the subjects for the General Certificate of Education are examined at three levels of attainment: the ordinary level, which is taken at about the age of 15 or 16, and the advanced and scholarship levels, which are taken two or three years later; and in general the minimum entrance requirements for universities when based on the General Certificate of Education involve the passing of five or six subjects selected from a prescribed list, two at least of which must be passed at the advanced or scholarship level. Similarly there are special conditions under which the Scottish Leaving Certificate and the Senior Certificate of Northern Ireland are accepted for university entrance.

Although the minimum entrance requirements of all universities are very much the same in principle, there are many differences in detail as between universities. The Scottish Universities Entrance Board, however, defines requirements which are common to the four universities in Scotland and the Northern Universities Joint Matriculation Board (which is also an approved examining body) defines those which are common to Manchester, Liverpool, Leeds, Sheffield and Birmingham. A partially successful attempt was made in 1948 to ensure interavailability of minimum entrance requirements; but it cannot now be assumed that the requirements laid down by one university will necessarily be accepted at

other universities. While it is still true to say that in many cases it will be found that the passing of examinations which satisfy the minimum of one university will also satisfy most other universities, it is always wise to enquire directly from the particular university concerned whether its own minimum entrance requirements have in fact been satisfied.

The satisfying of minimum entrance requirements does not for any university carry with it the right of entry; it is a general academic prerequisite and no more. Whether a person who has satisfied these minimum requirements will be admitted depends upon a number of factors. In the first place some faculties and departments require that particular subjects shall have been included in the qualifying examinations and often that they shall have been passed at the advanced level, e.g. mathematics at the advanced level is required generally for degrees in science and engineering and Latin at the ordinary level is widely, though not universally, required for an arts degree; and these particular faculty or departmental requirements can only be ascertained with certainty by consulting the calendars and prospectuses of the individual universities. Secondly, a bare pass even at the advanced level may not be thought to justify admission if the subject concerned is intended to be one of the candidate's main fields of study; the achievement in the qualifying examination must show promise of success in the university course. Thirdly, even though a student may have satisfied the general university and the particular faculty and departmental requirements, and have reached a respectable standard in the crucial subjects, the limited number of places available may introduce an element of competition between candidates; and special entrance examinations of a high standard are held by the majority of Oxford and Cambridge colleges and a few London ones to enable a selection to be made from amongst the applicants. Furthermore, consideration is always given to confidential reports from heads of schools; and personal interviews are very frequently arranged before a final decision is taken about admission.

For certain courses of study for a first diploma or certificate in some universities it is not necessary to have satisfied the same kind of academic requirement as is demanded for courses leading to a first degree; this is particularly so in the case of those courses in subjects such as social science which are intended to be taken by rather older persons whose formal education has not followed the normal pattern or whose personal experience gives them special claims for admission.

To be accepted for postgraduate study and research leading to a higher degree, a candidate must in general possess a first degree which is relevant to his proposed field of study, though that degree need not in most cases have been taken in the same university. Whether an applicant is admitted to postgraduate study and research is a matter which in the first instance is within the control of the head of department concerned, but

registration as a candidate for a higher degree has to be approved by the faculty or a special board of the university. The number of qualified applicants who can be accepted depends in departments of pure and applied science upon the accommodation available in research laboratories and in all departments on the number of members of staff who are free to supervise research.

Overseas students who wish to read for a first degree or a first diploma must submit evidence of academic attainments comparable to those demanded of British students and satisfy the university that their knowledge of English is adequate for the purposes of the course they wish to pursue; any documents they submit should be properly attested by a responsible educational authority in their own country. In the case of some countries, it is also advisable that applications should be submitted through the official representative in the United Kingdom of the country concerned. Each application is judged on its individual merits, but the number of vacancies is limited and, in general, overseas students are recommended wherever possible to take their first degree in their own country. Those who wish to pursue a course leading to a higher degree or diploma must submit evidence of their attainments to the satisfaction of the head of the department concerned and of the university.

**STRUCTURE OF DEGREE AND DIPLOMA COURSES.** In the interests of clarity it is essential to refer to the degrees awarded by United Kingdom universities as being either first degrees or higher degrees. In the actual nomenclature of degrees there is a very confusing diversity: for example, BA and BSc are the titles of first degrees in arts and science respectively in most universities, but at Oxford and Cambridge the BA is awarded to students of both arts and science; in Scotland the first arts degree is called MA; at Oxford the BSc is a higher degree; but at Cambridge the title BSc is not used at all; and at Oxford and Cambridge the MA is granted without any further course of study or examination to any BA of the university after a specified number of years and on payment of a fee. The courses of study for a first degree demand full-time attendance at the university except in the case of evening students at Birkbeck College of the University of London and candidates for the external degrees of London. The period of study for a first degree in arts and science is a minimum of three years and may be four; in other faculties and for some professional courses, such as architecture in the faculty of arts, the period is generally longer and in the case of medicine and dentistry may be as much as six years. Exemption from first-year lectures and examinations is sometimes available on the basis of passes at the advanced level of the General Certificate of Education; but no first degree is awarded until the completion of three years of university study. It is only very exceptionally that a student transfers from one university to another during his course of study for a first degree; the credit allowed for courses previously

taken depends upon the regulations of the university to which he transfers and upon the individual case; and in no circumstances, not even if he already has a first degree of another university, can he graduate without at least two years' full-time attendance at the university to which he goes.

In the faculties of arts and science the curricula and the first degrees awarded are of two main kinds: those which involve the study of a number of subjects not all of which need be pursued for the whole three years and in none of which is very highly specialized work required; and those which concentrate on a single field of study and its immediate ancillaries. The first of these types of degree is designated as *pass* or *ordinary*, and success depends upon the passing of the various subjects separately at the appropriate standards; failure in a subject can be retrieved by re-examination or by the substitution of another approved subject. The second type is called *honours* and is further particularized by mention of the field of specialization, e.g. honours in classics, history, natural science, physics, etc.; success depends upon the candidate's performance in a comprehensive final examination (known at Oxford as 'schools' and at Cambridge as the 'tripsos') which can be attempted on only one occasion; successful candidates are normally awarded their degree as class I, II or III, the second class often being divided into two sections; the unsuccessful are either awarded a pass degree or allowed some credit towards the requirements for such a degree. In some universities the two types of degree are known as *general* and *special* respectively, and it is there possible for distinction or honours to be awarded for exceptional merit in the examination for the general degree. Since the curricula for the two kinds of degree in arts or science diverge considerably, it is usual for a student to be admitted to an honours or special course immediately on entry to the university or possibly at the end of his first year. In other faculties the courses of study for the ordinary and honours degrees are not so distinctive in the earlier years at least, and in some instances, e.g. medicine, there is indeed a common final examination on the results of which a candidate of unusual merit may be awarded his degree with honours.

The courses for first diplomas and certificates are relatively simple in structure. Usually there is a closely defined curriculum covering one or two years which is followed by all candidates for a given award, though exemptions may be granted from particular parts of the course on the basis of previous attainments or experience. Most courses demand full-time attendance but some, e.g. in public administration, are part-time and extend over a longer period.

Higher degrees can be divided into three categories: masterships, the doctorate in philosophy (PhD or DPhil), and the senior doctorates. Candidates for a master's degree (e.g. MA, MSc, etc., with which should be classed the BPhil and BLitt of some universities) are normally required to

possess a first degree, though it need not have been gained in the same university. Work for the degree most generally involves full-time attendance at the university for two years; it may involve the taking of special courses of study and seminars; it almost always involves the writing under supervision of a thesis or dissertation on some particular topic within the student's special field of interest; a written examination is sometimes required in lieu of or in addition to a dissertation; and an oral examination is rarely dispensed with. It is possible, however, in many universities for a mastership to be awarded on the basis of a thesis to a person who has taken a first degree at that university (but not elsewhere) without further full-time attendance. The degree of PhD, which is common to all faculties and for which a first degree (or an approved equivalent, e.g. a diploma in technology awarded by the National Council for Technological Awards) is a prerequisite, is awarded after two or, more frequently, three years' full-time work within the university; though attendance at seminars may be required, the main test is the writing of a thesis which makes an original contribution to knowledge, an oral examination is very commonly required. In many universities members of the teaching staff are eligible for the degree of PhD under special conditions. The senior doctorates, which are designated on a faculty basis (e.g. DLitt, DSc, MD, etc.) and for which the possession of at least a master's degree is a normal prerequisite, are awarded to more mature and established workers on the basis of published contributions to knowledge.

Higher diplomas, e.g. in various branches of technology, in public health, etc., may be awarded, according to the subject and the university, either on a full-time or less frequently on a part-time basis. The possession of a first degree or first diploma is the normal prerequisite; attendance at formal courses of instruction with the passing of a written examination is the basis of the award, and a dissertation is not required. A certificate or diploma in education is awarded after one year of full-time study to graduates who are training to become teachers.

Except at Oxford and Cambridge where the examining is mainly done by panels of teachers drawn from the various colleges, one or more external examiners for each subject are appointed from the staffs of other universities to take part in the assessment of the work of candidates for a first degree or first diploma. This system helps to ensure a uniformity of standards throughout the universities. For all higher degrees a small panel of two or three persons, one at least of whom is from another university, is appointed to adjudicate on the dissertation or published work and, when necessary, to conduct an oral examination. For the PhD degree an oral examination is often required by regulations; for the DLitt, DSc and comparable degrees such an examination is very seldom held.

STAFF. The normal grades of the teaching staff are: professor, reader, senior lecturer, lecturer,

assistant lecturer and demonstrator. In most university departments there is only one professor who is responsible for the organization of the instruction given in his subject and, where laboratories are involved, for the requisitioning and proper use of materials and equipment. In some of the pure and applied sciences the various branches are organized as separate departments, e.g. physical chemistry alongside of organic chemistry. When there are two or more professors in a single department, one of them is either permanently or for a period in administrative charge. The titles 'associate professor' and 'assistant professor' have never had any wide currency in the United Kingdom and are now very exceptional. Until the end of the second world war, the title of reader was mostly conferred on persons in charge of a subject or branch of a subject for which a professorship and separate department were not yet provided or alternatively on persons who had quite unusual distinction in a particular field of work; and in status the reader had precedence of a senior lecturer. Since 1945, however, in some universities the title of reader is awarded more readily than formerly in recognition of merit in research and the distinction between the two grades in status and salary is becoming less significant. At present the number of readerships and senior lectureships combined is restricted, in accordance with an understanding reached with the University Grants Committee, to about 22 per cent. of the total full-time non-professorial teaching staff. Lectureships represent the career grade in university teaching and the maximum salary (now £1850) is reached at about age 40-45; but a lecturer has a reasonable prospect of securing promotion to a higher post in his own or another university. The post of assistant lecturer is usually held on an annual basis for three years and is regarded as being either temporary, and so not renewable after three years, or probationary, in which case promotion to a lectureship follows. Demonstratorships in most universities are temporary posts normally held for only one or two years. Most of the teaching work of the universities is done by full-time members of staff, of whom in 1958-59 there were in England, Scotland and Wales 1505 professors, 824 readers, 1247 senior lecturers, 5253 lecturers, 1249 assistant lecturers and demonstrators and 1047 in other subsidiary categories; these figures, however, exclude 719 lecturers, assistant lecturers and demonstrators at Cambridge, and 390 at Oxford, who combine university with college work; they also exclude those college tutors who hold no university appointment. In some special departments and faculties, notably in medicine, an appreciable amount of instruction is given by part-time members of staff. It is impossible, therefore, to give precise figures for staff-student ratios, but, taking full-time staff alone, the proportion varies from 1 : 7.5 to 1 : 10.5 according to the special circumstances of an individual university or faculty.

At Oxford and Cambridge the traditional

method of undergraduate instruction is the tutorial, a device which demands a high ratio of staff to students and imposes a heavy burden on the teacher. Every junior member of a college is placed by the college in the care of a senior member of the university who guides his studies, suggests to him what books he should read, what lectures if any he should attend, sets him essays and other written work, and week by week discusses with him, either individually or in small groups, what he has read and the work he has written. At the end of a term or vacation a more rigorous but still informal probing by the college may take place into a student's progress. Both the university and the colleges provide an abundance of formal lectures open to all members of the university, but attendance at them is not made compulsory by any regulation. In the case of science subjects involving experimental work in laboratories the instruction is inevitably more formalized than in the humanities.

In the other universities in general the basis of undergraduate instruction is the formal lecture, reasonable attendance at which is compulsory; in some of the more popular subjects in the larger universities a class of a hundred or more is not abnormal. The amount of written work which can be demanded from the students and dealt with by the staff differs greatly from subject to subject. The virtues of a more intimate form of instruction have, however, long been recognized, and wherever the ratio of staff to students permits, small tutorial groups to supplement or replace formal lectures have become a normal part of the programme of instruction. Written 'terminal' examinations are usually conducted by the departments at least once within the session and there is normally a statutory university examination in some part of the student's curriculum at the end of each session.

Candidates for postgraduate degrees involving research are in all universities assigned to the care of a supervisor who helps in the selection of a topic within the candidate's chosen field and places his experience as an original investigator at the disposal of the student. The departmental seminar for the reading and discussion of papers written by the students and for surveys of current progress in the subject is often an important part of the postgraduate training.

It is frequently stated that about a third of a university teacher's time is or should be available for his own researches. During term the pressure of teaching duties and, in the case of the more senior members of the staff, of administrative and committee work, often make it difficult to achieve anything like this standard, and investigations which demand continuous application have often to be reserved for vacations. Conditions differ, however, very greatly not only from university to university but from one department to another. In this connexion it may be noted that there is no established practice of granting sabbatical leave; but members of staff are fairly frequently released for a term or their teaching load is reduced in

order to enable them to finish a particular piece of original work or widen their experience.

The salaries of the academic staffs of universities are based on scales or ranges approved for purposes of grant by the Treasury after consideration of recommendations of the University Grants Committee to whom representations are made from time to time by the universities and the Association of University Teachers. At present in faculties other than medicine a professorial salary is within the range of £2600 to £3600, that of readers and senior lecturers may have a maximum of £2425 or in special circumstances £2525, that of a lecturer rises from £1050 by annual increments of £50 and later of £75 to £1850, and that of an assistant lecturer rises from £800 by £50 annually to £950. For posts in London an additional allowance of between £60 and £100 is paid, according to grade. The salaries of clinical professors rise to £3900. The salaries of medically qualified non-professorial teachers in the faculties of medicine are higher than those in other faculties and there is a uniform annual increment of £100.

Superannuation for members of the academic and senior administrative staffs of all United Kingdom universities has, since 1919, been dealt with under the Federated Superannuation System for Universities (F.S.S.U.). The institution contributes a sum equivalent to 10 per cent. of the member's salary, the member himself contributing 5 per cent. The combined sums are paid as premiums on insurance policies of various types (endowment assurances, deferred annuities, etc.). To meet his individual requirements, the member has the choice between a number of policies issued by an approved list of insurance companies. If he moves to another institution within the scheme he takes his accrued rights with him. The policies mature in the member's 60th year and the capital and further contributions then accumulate interest until the actual date of retirement (normally at 65 in most universities in England and Wales, but at 67 in Oxford, Cambridge, Liverpool, London and Manchester and, for professors, at 70 in the Scottish universities). The capital available on retirement is normally used for the purchase of an annuity of a kind appropriate to the circumstances of the member, though it is within the discretion of the institution to agree to other arrangements. It is inherent in the scheme that the amount of the annuity is directly related to the totality of a member's emoluments during his whole career as a university teacher, and bears no necessary relationship to his salary at retirement. To alleviate the hardships which arise under F.S.S.U. in a period when costs of living have been rising, the Treasury approved some years ago a scheme for a modest supplementation of F.S.S.U. annuities. In 1960 a new scheme was introduced whereby the supplementation is directly related to years of service and to the average salary received during the three years immediately preceding retirement.

When a person joins a university staff from some other service, any cash he is able to withdraw from another pension scheme may be accepted as a single premium under the F.S.S.U. towards an eventual annuity.

No generally applicable statement can be made about the method of filling vacant academic posts in universities. In the case of professorships at Oxford and Cambridge there is usually a formal announcement that a chair is vacant, and persons interested are invited to forward their names to the vice-chancellor for consideration by a duly constituted board of electors who need not confine their attention to the names submitted and whose decision is final. Elsewhere the particular circumstances determine whether a chair shall be advertised or filled on the basis of private enquiries, and a mainly or wholly academic *ad hoc* committee, variously constituted in different universities, makes a recommendation to be confirmed by the appropriate higher bodies. A small number of chairs (mostly in the older subjects) at Oxford and Cambridge and in the Scottish universities, known as regius professorships, are within the patronage of the crown, but it is believed that academic advice is normally sought before appointments are made to them. In all universities many chairs are specially associated with the names of benefactors, etc. (e.g. the Wykeham professorship of logic at Oxford). Many posts as reader, senior lecturer and lecturer are filled by promotion from within the university, but a considerable number are publicly advertised and appointments are made on the recommendation of a committee of the faculty concerned. The majority of posts as assistant lecturer are advertised. When an important post is advertised many universities take steps to ensure that the announcement is made not only at home but overseas. In no U.K. university is there any restriction as regards nationality, religious belief or political opinion to debar candidates from appointment. The overwhelming majority of university teachers have in fact taken their first or a higher degree in a U.K. university; but apart from Oxford and Cambridge, each university has on its staff a substantial number, and generally an appreciable majority, of teachers who have graduated at some other university in the U.K.

**STUDENTS.** In 1958-59\* there were 100,204 full-time students in the universities of the United Kingdom (apart from Belfast); of these 80,805 were reading for a first degree and 3928 for a first diploma; 14,839 were engaged in research or other advanced work (including 3185 who were taking the postgraduate course for a teacher's diploma); and 632 were attending courses not leading to a degree or diploma. Of these full-time students, 6084 came from overseas Commonwealth countries and 4116 from foreign countries. The

\* The latest detailed figures published by the University Grants Committee in their official *Returns* relate to 1958-59, see also 'The Year' section of each university entry below.

number of men students was 75,879 and of women 24,325. The over-all percentage of those in arts faculties was 43, in science and technology 38.4, in medicine and dentistry 15.3; but for the students engaged in research and advanced work (apart from teachers in training) the percentages were 35.4, 53.1 and 8.1 respectively.

The number of part-time students in 1958-59 was 15,879 of whom 2577 (mostly evening students) were reading for a first degree or first diploma, 5468 were engaged in research or advanced work and 7834 were 'occasional' students taking intra-mural courses (including 'refresher' courses) not leading to a degree. Of the part-time students 2270 came from overseas Commonwealth countries and 1944 from foreign countries. Of the 5468 part-time advanced students 46.1 per cent. were in medicine and dentistry, 39.3 per cent. in arts and 13.7 per cent. in science and technology.

The number of full-time students residing in colleges or halls of residence in 1958-59 was 26.6 per cent. of the total, in lodgings 49.6 per cent. and at home 23.8 per cent.; of the men 22.5 per cent. were in colleges or halls, 53.3 per cent. in lodgings and 24.2 per cent. at home; the percentages for women were 39.1 in colleges and halls, 38.2 in lodgings and 22.7 at home. These figures, however, need further interpretation. At Oxford and Cambridge (where the number of home students is quite insignificant) all lodgings used by students who cannot be accommodated within their college are approved by the authorities, and students who live in them dine regularly in their college, participate fully in the life of the college and are under the academic supervision of the college. At Oxford 49.7 per cent. live in college and 50.3 outside; at Cambridge the percentages are 54.3 and 45.7. Apart from Oxford and Cambridge (and Durham) the provision which universities themselves make for the accommodation of their students is by way of halls of residence which are in the charge of a resident warden appointed by the university; the warden is in most cases a full-time or part-time member of the academic staff of the university and is assisted in hall by a small number of resident tutors drawn from the staff. The students who live in hall take their main meals there, use the common-room and library facilities provided and enjoy the full benefits of a corporate life in a homogeneous community with an ethos of its own. There are two major respects, however, in which halls differ from the colleges of the older universities: the warden and tutors are not concerned as such with the academic work of the students, and though they take a keen interest in their personal welfare they do not supervise their studies; and when a student ceases to reside in hall he has no continuing rights or obligations, and, except in the most favourable circumstances, his connexion with it ceases, even though he may still be a student within the university. The provision of halls varies very greatly: e.g. at Durham 64 per cent. of all the students are in halls, at Reading 56.8, at Bristol 27, in Wales 25.1

(Aberystwyth 41, Cardiff 15.5), at Newcastle 20.5, in London 17.8, at Leeds, Liverpool, Manchester and Sheffield 14.5 to 17, in Scotland 12.7 (St. Andrews 40.2, Aberdeen 1.1), and at Birmingham 11.8. In a number of these universities, however, the percentage is likely to rise in the near future as new halls are completed. Outside of Oxford and Cambridge the lodgings used by women not living in hall or at home must be approved by the university; men are generally free to make their own arrangements, though lists of approved lodgings are usually available.

Social life at Oxford and Cambridge centres in the college, and within each college there are athletic, debating and other societies confined to members of the college. Almost all colleges have their own athletic grounds. There is also a great proliferation of university societies open to all members of the university who wish to join; some of them are of long standing, others exist for a brief space and are heard of no more. Apart from the athletic and boating clubs and the dramatic societies, the best known are the Union at Oxford and the Union Society at Cambridge, both of which provide for their members a good library and the usual amenities of a club, but which are even more famous for their debates at which many who later achieved eminence in public life have first made their quality known. In most other universities there is a guild of undergraduates or students' representative council, the establishment of which is prescribed by charter. The students themselves elect their own officers to conduct the affairs of the guild. The social activities of the guild are centred in a Union building, owned by the university but managed by the students themselves, in which are provided dining-rooms, cafeterias, a library for leisure reading, a hall for debates and dancing, a gymnasium, lounges and quiet rooms. Normally there is a single union for men and women; in some places student meals are provided in a refectory run by the university. Membership of the guild and the payment of the subscription to the union (at present about £6 per annum) are compulsory for full-time undergraduates. The major societies, debates and the athletic clubs are organized as part of the guild activities, and the other student societies, religious, political, literary, or departmental, hold their meetings in the union. Athletic grounds are provided by the university, but in large cities they are often some considerable distance from the union. In all universities there is an officers' training corps which is the responsibility of the army authorities and in some there is also an air squadron; membership of either of these is entirely voluntary.

Particularly since 1945 universities have developed student health services in order to ensure that a student's academic progress shall not be unnecessarily impeded through lack of medical attention; in some cases there are one or more full-time medical officers in charge of this work; the extent of compulsion imposed on students to avail themselves of these services varies, but at

least a general overhaul on admission and a chest X-ray are usually expected. Associated with the health services in almost all universities there is a voluntary or compulsory scheme of physical education for students. Care for other aspects of the personal welfare of students in non-residential universities is provided by some form of advisory service which ensures that a student who finds himself in some difficulty knows clearly to which member of the staff he may freely and confidently go for help and counsel. There is often a special adviser for overseas students. Most universities have at least one accommodation officer who has full charge of the lists of approved lodgings. There is also an appointments board with appropriate staff to help students to secure posts on graduation; the good relations established between these boards and prospective employers of all kinds are of very great benefit to all concerned.

At Oxford and Cambridge the fees payable by a student include university and college dues, tuition fees and (if he lives in college) charges for rooms and meals; some colleges are more expensive than others, and living in lodgings is not necessarily cheaper than living in college. It is scarcely possible to reside at either university for the three terms each of eight weeks for much less than £300 even on the most economical basis. In the other universities the tuition fees are around £50 per session for an arts first degree course and £60 for other faculties. Tuition fees for higher degrees average £30 per session, but £40 is charged when laboratory work is involved. In Scotland these fees are somewhat lower. The fees for first diploma courses are in general less than those for degree courses. The cost of residence in a hall for a session of thirty weeks is within the range of £140 to £160, but this sum often does not include the cost of lunches on weekdays. Reasonably good lodgings with partial board are not obtainable at much under £3:10s. per week, and in some places the minimum is above this figure. Apart from clothing, travel and personal expenditures, an overseas student would be well advised to plan on the basis that the *minimum* cost of a university session together with vacation expenses would be between £450 and £500 according to the university he attended and the course he was taking.

A considerable measure of financial assistance is now available for university students. Until the end of the first world war a poor student in England or Wales could not hope to get to a university unless he won a competitive scholarship offered by one or other of the universities, was awarded one of the few grants which his local education authority might provide, or gained a leaving scholarship from his school, if it had any to offer. The open entrance scholarships and exhibitions founded by benefactors at Oxford and Cambridge colleges were (and still are) the hallmark of brilliant promise and correspondingly difficult to win. The other universities also had a limited number of open scholarships. In Scot-

land the situation was somewhat easier because of the resources of the Carnegie Foundation, which has, as one of its objects, the helping of needy students. Between the wars, however, the Ministry of Education instituted a system of state scholarships tenable at any university, and local education authorities expanded their schemes for scholarships and grants. Since 1945 the number of state scholarships and corresponding awards in Scotland have been very greatly increased, as have the local education authority awards. The Ministry of Education now supplements the value of all university open scholarships and exhibitions to that of state scholarships, and many local education authority awards are within the same range. In 1959 the Ministry awarded about 2375 state scholarships and supplemented about 1600 open university scholarships, while local authorities awarded about 16,500 scholarships or grants for university students. There is now an hierarchy of academic merit: open award at Oxford or Cambridge, open award at other universities, state scholarship, local authority scholarship, local authority grant; but the actual financial reward which results is assessed in all cases according to the income of the family from which the student comes: to the poorer, more; to the richer, less. For a student who holds a state scholarship at Oxford or Cambridge the *maximum* maintenance allowance in addition to tuition fees is now £325, at London £280 and at other universities £255, but the rates are somewhat lower for students in lodgings and still less for those living at home; in addition, a vacation allowance of £25 or £30 per annum is paid in many cases and a higher rate is payable in special instances. The present system of awards from public funds to students is, however, under review as the result of the report (issued in May 1960) of a committee appointed by the Minister of Education in 1958.

Financial support is also available for postgraduate students. In 1958-59 the universities themselves made 1100 research awards (called postgraduate studentships or fellowships) from their general funds or special endowments, the Department of Scientific and Industrial Research 1000, and the Ministry of Education 250 (in addition to extending the tenure of a number of state scholarships). Most of these awards are of the value of £300 per annum or over, and parental income is generally not taken into account. Funds donated by various research associations and by industry in support of the academic research of individual departments in universities can often be used by agreement to finance postgraduate students.

There are two important consequences of these arrangements: first, straitened circumstances at home are no longer any serious barrier to a university education; and secondly, since the tenure of state and local education authority awards is not restricted to particular universities, students are free to go to the university of their choice if it is willing to accept them. Oxford and Cambridge can no longer be characterized as in the main the

universities for the prosperous; and the civic universities no longer draw as large a proportion of their students as formerly from their immediate area. In 1958-59 the percentage of full-time students in Great Britain who were being assisted (mostly from public funds) was 80.5; at Oxford the percentage was 79.6, at Cambridge, 78, at London, 73.8, at the other English universities 87.5, in Wales 92.4 and in Scotland 70.6. It should be emphasised, however, that the maximum maintenance allowance is not awarded to every assisted student. Exact statistics are not available; but it is known that only about one-sixth of state scholars receive the maximum and the proportion amongst holders of local authority awards is probably not in excess of one-third.

In recent years more and more students have taken paid employment during the long vacation: some, e.g. engineers, do work which has direct relevance to their studies, but some others undertake jobs which do little except exhaust them mentally and physically; some do the work to eke out their finances, some to secure the means for continental travel, some for the wider interest and experience they hope to gain thereby and some because of the sense of independence which the earning of money brings. The universities are alive to the dangers inherent in this trend, and, whenever possible, tutors seek to dissuade their students from unsuitable kinds of work and above all to restrict the number of weeks they devote to it at the expense of the reading they ought to do in connexion with their studies.

Since the length of first degree courses varies from three to six years it is not feasible to relate the proportion of students to national age groups in a really significant manner; it can be noted, however, that full-time students represent rather more than 1 in 600 of the whole population. By and large the universities at their present size are just about able to provide places for all applicants who can satisfy their standards for admission, though the competition for places is severe in a number of subjects.

**ACADEMIC YEAR.** The academic year is divided into three terms of which the first (called the Michaelmas, Martinmas or autumn term) begins, so far as students are concerned, in the first week of October, the second (the Hilary, Candlemas or Lent term) in the second week of January and the third (the Easter, Trinity, Whitsun or summer term) in the second or third week of April. At Oxford and Cambridge the required period of residence is eight weeks each term; elsewhere each term extends over nine or ten weeks. The programme of undergraduate instruction at Oxford and Cambridge continues for the full length of each term, since only a part of the student body will be sitting university examinations at any one time; elsewhere most undergraduates have examinations in the second half of the third term and formal instruction comes to an end by the beginning of June. Most honours students at Oxford who have taken their

final written examination in late May or early June have to present themselves for a *viva voce* examination in July, and it is only towards the end of that month that class lists are published; the Cambridge lists are made known about the middle of June; elsewhere examination results appear at the end of June. In all universities graduation ceremonies are held several times during each session; but except at the older universities of England the majority of degrees are conferred at large public ceremonies at the beginning of July.

**SUMMER SCHOOLS**, such as are a well-established feature of the academic year in the U.S.A., form no part of the British pattern. In a few instances and only rather sporadically special courses, e.g. in English studies for overseas students, are arranged; but whatever their content they do not count towards a United Kingdom degree or affect the number of normal terms to be kept before proceeding to such a degree. Students, however, who wish to continue their reading within the university during part of the long vacation can generally do so; and in the case of postgraduate students who need laboratory facilities arrangements are made for them to work throughout most of the summer.

**EXTRA-MURAL CLASSES AND UNIVERSITY EXTENSION.** The concept that universities had some obligation to spread the gospel of learning widely throughout the community took really practical shape in 1873 when James Stuart, fellow of Trinity College, persuaded the University of Cambridge to organize university extension courses to be delivered up and down the country by members of the university. The educational movement thus started was also fostered by Oxford and the newer university colleges, and additional momentum was gained when in 1903 Albert Mansbridge founded the Workers' Educational Association (W.E.A.). The *Final Report* of the adult education committee of the Ministry of Reconstruction published in 1919 (and recently reissued in an abridged form as *A Design for Democracy*) focused attention on the achievements up to that time and suggested many of the lines along which subsequent development has taken place.

Nearly all universities now have a department of extra-mural studies headed by a director who in a number of instances has the status of professor of adult education. The work of these departments is carried on partly by staffs of full-time tutors of whom there are over 300 in all, partly by part-time tutors (e.g. school teachers) and not least by members of other university departments. The courses, almost all of them conducted in the evenings, are arranged not only in university towns and the immediate vicinity but often in places at a considerable distance away, indeed wherever a need in adult education has to be met. Many universities have tutors resident in outlying areas, part of whose duty it is to assess and stimulate the demand for adult classes. In

many of their activities the extra-mural departments work in close collaboration with the W.E.A.

Broadly speaking, three types of course have been developed: extension courses consisting of something between 3 and 18 lectures on a particular topic given by a single lecturer or by a team of lecturers; sessional classes which, generally under the guidance of a single lecturer, have weekly meetings from the end of September to the end of March; and tutorial classes each of which is planned as a three-year course and involves not only lectures but discussions and written work. In the 1958-59 session almost 2800 extension courses and 1565 sessional classes were organized and 850 tutorial classes were in being; in all, nearly 100,000 students were enrolled. The fees charged to students are merely nominal. The courses most frequently given are in history, international affairs, government, social studies, philosophy, psychology, religion, musical history and appreciation, literature, the fine arts, and the physical and biological sciences. In recent years the departments have also organized 'refresher' courses for qualified scientists to help them to keep abreast of the newer advances.

It has hitherto been the policy of extra-mural departments and of the W.E.A. not to cater for vocational and professional qualifications or to duplicate the work of the evening classes provided by local education authorities; consequently, although written work is encouraged in the longer courses, only in a small minority of instances is any examination offered at the end of a course or any certificate awarded. There is no restriction on the membership of a course or any academic prerequisite: the sole requirement is a genuine interest in serious study; it is therefore not unusual to find the policeman, the housewife, the shop-assistant, the manual worker and the bank manager sitting side by side at an extra-mural class. A small number of scholarships are available, some of them provided by the Ministry of Education, to enable students who wish to carry their studies further to go on to universities. Mention should also be made here of the dozen or so residential adult education colleges up and down the country which provide full-time courses of a fortnight up to a few months' duration; with some of these colleges the extra-mural departments have a close though generally informal link.

The finances of the extra-mural work of the universities are somewhat complicated by the fact that some of the courses given qualify for a direct grant from the Ministry of Education or are assisted by local education authorities, but the proportion of the cost covered by the grants varies from case to case. When allowance is made, however, for such contributions it is estimated that the net cost met from general university funds is of the order of £250,000 to £300,000 per annum.

The *Universities Council for Adult Education* (hon. secretary and treasurer, W. E. Salt, OBE, MA BCom, department of adult education, University of Bristol, Bristol, 8) on which all univer-

sities are represented, publishes a brief *Annual Report* containing figures relating to the activities of extra-mural departments. The *National Institute of Adult Education (England and Wales)* has headquarters at 35 Queen Anne Street, London, W.1 (secretary, E. M. Hutchinson, MA; tel.: Langham 3155). It is an independent consultative body which has a council representing universities, local education authorities and voluntary agencies. It convenes an annual conference and publishes quarterly *Adult Education* (annual subscription, 10s. 6d.).

**INSTITUTES OF EDUCATION.** Since 1947 and arising out of the report of the McNair committee on *Teachers and Youth Leaders* (1944) most universities in England and Wales have established an institute of education to promote co-operation between the university, teacher training colleges, local education authorities and other educational agencies within the university area. The institute acts as an area training organization for the training of teachers on behalf of the Ministry of Education, conducts examinations recognized by the ministry for the teachers' professional qualification, arranges refresher and other courses, and fosters educational research. The director of the institute is a full-time university officer and often has the title and status of a professor. The committee of management of the institute includes representatives of the university, the training colleges, local authorities and practising teachers. The institute, however, has no responsibility for the control, financial or otherwise, of the individual colleges, which are maintained in the majority of cases by the local education authorities, though many are the responsibility of religious denominations. Throughout the country there are about 120 colleges, with a total of 26,600 students, which give a general course extending over two years. From 1960 the course of study in these colleges will be increased to three years; and a programme of building has been approved for a considerable increase in the number of places. A further 35 or so colleges, with a total of 4800 students, give more specialized three-year courses in, e.g., physical education, domestic science. The students who attend these various types of college are admitted at the age of about 18 in accordance with standards of achievement in the General Certificate of Education approved by the ministry and the institute; and they are financially assisted, on the basis of parental income, by grants from public funds. The university's department of education, which is itself a constituent member of the institute, provides a one-year course of professional training for graduates who frequently migrate to another university for this year of training; in 1958-59 there were 3185 graduates attending these one-year university courses in England and Wales.

In Scotland the work of the colleges and centres for the training of teachers is co-ordinated by provincial committees under the aegis of the Scottish Education Department. In 1957-58

there were just over 4800 students enrolled in 4 training centres and 3 training colleges for women.

In Northern Ireland about 1600 students are enrolled in 2 colleges for the training of teachers.

**INTER-UNIVERSITY ORGANIZATIONS.** The Committee of Vice-Chancellors and Principals of the Universities of the United Kingdom is a consultative body with no executive powers. It originated in occasional meetings of the academic heads of universities convened for special purposes and did not begin to take on its present shape and functions until after the first world war, when the need for more frequent inter-university consultation became apparent. It was formally established as a standing committee of what was then the Universities Bureau of the British Empire by the governing bodies of the universities in 1931, and its present constitution was approved and adopted in 1950. Its membership is confined to the vice-chancellors of the universities in England, Wales and Northern Ireland, the principals of the Scottish universities, the principal of the University of London, the principal of the University College of North Staffordshire, and the principal of the University College of Sussex. The pro-vice-chancellor of Durham, the principal of a second Welsh university college and the registrars of Oxford and Cambridge also attend. For a particular meeting a member may appoint a deputy to attend in his place, but rarely does so. The committee meets in London every month except in August. The chairman of the committee is elected annually and usually serves for three years in succession, the chairman for 1960-61 being Sir Robert Aitken, MD DPhil LLD DSc, FRCP, vice-chancellor of the University of Birmingham. The Association of Universities of the British Commonwealth (secretary, J. F. Foster, MA LLD) provides the secretariat for the committee towards the cost of which the home universities make a special contribution, and the official address for the committee is 36 Gordon Square, London, W.C.1 (tel.: Euston 8572).

The function of the committee is simply to consider matters of common interest to universities, but it is not restricted to topics specifically referred to it. It is not empowered to commit the universities in any way and it studiously refrains even from appearing to do so; when matters arise which call for positive action or the formulation of a policy, all the committee can do or desires to do is to seek special authorization or make a recommendation which the universities individually may accept or reject. By its consultative activities, however, the committee holds an influential and central position in university affairs; for, apart from the initiative it frequently takes in making recommendations regarding a common policy on matters of purely internal concern to the universities, it is the channel through which not only the University Grants Committee but many ministries (e.g. education, health) which have contacts with the universities can ascertain the reaction of informed and responsible university opinion to pro-

posals they have in mind or to problems they would like to discuss; and it is inevitable that the views which, within its terms of reference, the committee is willing to express should carry great weight with the outside agencies which consult the committee and with the authorities of the individual universities. The committee also, at its discretion, nominates representatives, not always from within its own membership, to outside bodies with educational interests; and from time to time it enters into informal discussions with such bodies as the Association of University Teachers and the Headmasters' Conference. Since 1946 it has organized an annual Home Universities Conference, held in London in December, at which a widely representative gathering of university teachers, administrators and members of governing bodies discusses broad topics of current interest. The committee issues no report or annual statement; occasionally it sponsors special inquiries which are published, e.g. *The Planning of University Halls of Residence* (Clarendon Press, Oxford, 1948), *Report on an Inquiry into Applications for Admission to Universities* (1957). A *Report of an ad hoc Committee on Procedure for Admission of Students* was published in 1958 and further *Reports* in 1960 and 1961. These reports (except the first) are published for the committee by the A.U.B.C. as are also the verbatim reports of the proceedings of the Home Universities Conferences.

The Association of University Teachers (A.U.T.), a professional association established at the end of the first world war, has as its objects 'the advancement of university education and research, the promotion of common action among university teachers, and the safeguarding of the interests of its members'. Membership is open to all full-time teachers (including professors) and research workers in institutions of university rank in the United Kingdom; the proportion of eligible members of staff who belong to the association varies from university to university, but the total membership is such that the association has been accorded the right of making direct representations to the University Grants Committee on salary matters. The work of the association is conducted through local branches and a central council. The hon. general secretary is K. Urwin, MA DU, Laurie House, 21 Dawson Place, London, W.2 (tel.: Bayswater 9011). The interests of the association range over a wide variety of topics including university entrance requirements, selection of students, organization of curricula, student health, inter-library services, sabbatical leave, international co-operation at university level, salaries, income-tax and superannuation. From time to time it issues reports to its members on these subjects, and it publishes twice-yearly a *Universities Review* (editor, Professor C. M. MacInnes) which contains articles on university matters and information about appointments to and resignations and retirements from university posts.

The National Union of Students (N.U.S.), founded in 1922, is a body to which are affiliated the guilds of undergraduates and student representative councils in most of the universities of England, Wales and Northern Ireland; to it also belong similar student associations in certain other institutions of higher education (teachers' training colleges, technical colleges). Its purpose is to provide a focus for the expression of the corporate opinion of students on matters which they feel to be particularly their concern; its main interests are in entrance requirements, curricula, maintenance grants and fees, student health, halls of residence and other student accommodation, and international co-operation at the student level; it also arranges for student travel and for vacation work. It has a small permanent secretariat (3 Endsleigh St., London, W.C.1; tel.: Euston 2184); its affairs are managed by a council on which the affiliated guilds are represented; and it organizes an annual congress, held in a university centre, at which several hundred delegates and others discuss current student problems. In Scotland there is a separate National Union of Students.

**THE UNIVERSITIES TO-DAY.** In the 1938-39 session there were 50,250 full-time students in the universities of Great Britain; of these 44.7 per cent. were in arts faculties, 25.9 per cent. in faculties of science and technology and 29.4 per cent. in the other faculties. Immediately after the war preference in admission was given to ex-service men and women and there was a great influx of such students, some of whom were returning to resume their interrupted studies while others were enabled by generous grants to embark upon a university course which they had not previously contemplated. By 1949-50 the total number of students had consequently risen to 85,400. It had at first been thought that the great increase in numbers would be temporary and that, allowing for some 'normal' expansion, universities would eventually settle down to a total of about 70,000. In May 1946, however, a government inter-departmental committee under the chairmanship of Sir Alan Barlow published a *Report on Scientific Manpower* which called for a drastic increase in science and technology graduates together with a corresponding increase in the humanities. From that time onwards the universities have accepted the need for a considerable permanent expansion; their numbers have never fallen below 80,600 (in 1953-54); and with the assistance of Treasury non-recurrent grants they have made some appreciable progress towards the provision of new academic buildings and halls of residence, though they are not yet satisfied that the rate of building has been sufficient to keep up with the demands that face them. The balance of the faculties has changed during these post-war years: in arts there are now 41.2 per cent., in science and technology 39.6 per cent. and in the other faculties 19.2 per cent.

In October 1956 the government published a

report on *Scientific and Engineering Manpower* which emphasized once again the need from the point of view of the national welfare for a further increase in the number of university persons trained in the pure and applied sciences. The target for expansion was then fixed as 124,000 to 125,000 full-time students by the middle 1960s, and it was proposed that two-thirds of the expansion should be in science and technology. Early in 1960, after a reassessment of the probable need for university places, the University Grants Committee was authorized to discuss with the universities the practicability of providing 170,000 to 175,000 places by the early 1970s as a minimum first instalment; and plans for expansion on this scale are under urgent consideration. This could mean that by 1970 in arts there would be about 35 per cent., in pure and applied science 52 per cent. and in the other faculties 13 per cent. In other words, science and technology would then occupy the predominant position which arts had in 1938-39; but the humanities themselves would nevertheless be stronger in absolute numbers than the pure and applied sciences are at the present time. Nevertheless the prospect is one which causes some anxiety in many university circles, and much thought is being given to the problem of ensuring that, whatever faculty a student enters, his education at the university shall be as broadly based as possible. In this connexion considerable attention is being paid to the relation between studies in the VIth form at schools and the university curriculum.

The future supply of students who can meet the standards set by the universities for admission will be affected by two important factors. In the early 1960s the effects of the war-time increase in the birth-rate will be felt at the university age; for every 100 people aged 18 in 1957 there will be 144 in 1964. And since 1956 the annual number of births has again shown a marked upward trend. The other factor is that in recent years there has been an annual increase of 5 per cent. in the number of grammar school pupils who stay on to complete the VIth form course and so qualify for university entrance. The cumulative effect of these two factors is likely to be such that the problem of the universities will not be the supply of applicants but the selection of those best fitted to enter. This question of selection procedures is one which has engaged the attention of the universities continuously since 1945 and is still a perennial topic of discussion and investigation. What is beyond doubt is that the development programmes of the universities as regards both academic buildings and halls of residence are urgent; and even the increased provision for capital expenditure recently announced for 1960-1963 will do no more than meet the cost of top-level priorities. It is anticipated also that there will be real difficulty in recruiting a sufficient number of properly qualified staff, especially in the sciences, in the face of competition from industry and government departments; yet the universities must have the teachers to enable them

to cope with the increased numbers from whom eventually an enhanced supply of university teachers may be expected.

Finally a word may be said about the distribution amongst the universities of the forthcoming expansion. A simple uniform percentage increase is scarcely feasible. Oxford already has 3676 and Cambridge 2913 more students than they had in 1938-39, and it is realized that any further large increase would either wreck the collegiate system or involve the foundation of new colleges. In 1958 proposals were approved at Oxford for the establishment of a new college as a development of the existing St. Catherine's Society and at Cambridge for a new foundation to be called Churchill College. Each of these will provide for about 400 students and each will cost between £2,000,000 and £3,000,000 to build and endow. An effective solution of the general problem of university expansion, however, cannot be found on as high a cost basis as £5000 per student place. On the other hand, there are 10 institutions including constituent colleges of federal universities (apart from London) whose present student population lies between 1000 and 1600; but even if these were willing to double their capacity within the next few years and given the resources to do so, there would still be a prospective deficiency of the order of 50,000 places. The immediate burden of meeting the growing demand is therefore likely to fall on those institutions which now have between 2000 and 4500 students. Developments along these lines have been agreed by the universities and the University Grants Committee, and their implementation now depends on the provision by the Treasury of funds for the building of laboratories, classrooms, libraries, halls of residence and student amenities.

A more fundamental alleviation of the problem will have to be found in the foundation of new university colleges analogous to the new University College of Sussex at Brighton. The granting of a charter to a new institution of university rank is a matter for the royal prerogative. The financing of such an institution, however, would in modern conditions fall mainly on the Treasury, which would wish to satisfy itself about the proposed location, the availability of a suitable site and the measure of local enthusiasm and support on which the institution could rely. The University Grants Committee has therefore set up its own sub-committee on new university colleges and in March 1960 recommended to the Treasury that steps should be taken to establish new university institutions in Norwich and York. In both cases academic planning boards, consisting of eight or so persons most of whom are eminent in education, have already been appointed to be responsible for the preliminaries necessary for the effective inauguration of the institutions. Formal applications are also being considered from Gloucester, Cheltenham, Warwickshire, Essex and Kent; and similar applications are expected to be made by other localities in England and Scotland. In general the policy is that new institu-

tions should be multi-faculty and should from the start have the power, under proper safeguards for academic standards, to grant both first and advanced degrees.

**OTHER PROVISION FOR HIGHER EDUCATION.** An entirely false impression would be formed if it were thought that higher education in the United Kingdom is confined to the provision made in universities; indeed an appreciable amount of work which is elsewhere done within universities is here done in other institutions. In England and Wales alone, in addition to students in universities and in teacher training colleges associated with university institutes of education (*see above*), there were in 1959, of the age of 18 or over, 43,000 full-time, 224,000 part-time day students and 532,000 evening students taking courses in colleges of technology, technical colleges and other recognized vocational institutions (*e.g.* colleges of art, of agriculture, of commerce). When these figures are compared with the 15,000 or so full-time students of technology in universities, the importance of this other provision in the educational system of the country will be realized. Apart from the Manchester College of Science and Technology, which is partly financed through the University Grants Committee, there are 6 specialized 'national colleges' (*e.g.* for horology, rubber technology), 8 institutions designated as 'colleges of advanced technology' and 22 regional colleges of technology; in addition there are over 500 other recognized establishments of higher education which vary considerably in size and importance. All, however, are maintained or aided from the public funds administered by the Ministry of Education and local education authorities. In order to improve and expand the provision for technical education, especially where advanced work is or could be done, the government embarked in 1956 on a five-year building plan (including some provision for hostel accommodation) which will cost £70,000,000. In Scotland and in Northern Ireland also, comparable provision is made for higher education in institutions other than universities.

Though there are in general no formal academic prerequisites for entry to technical colleges corresponding to the minimum university entrance requirements, many full-time students with suitable attainments are assisted financially, the Ministry of Education having increased in 1958 the number of their technical state scholarships to 254 and the local education authorities the number of their awards to 12,000. Of the part-time day students over the age of 18 about 80 per cent. are released by their employers to attend vocational and other courses for one or more days each week. Most of the senior and advanced courses prepare students in a wide range of subjects for the examinations of the City and Guilds of London Institute or the regional Examining Unions, or for an Ordinary or Higher National Certificate. In a minority of instances students present themselves for an external degree of the University of London.

In 1956 there was also established on a national basis a diploma in technology (DipTech) which is intended to represent a level of achievement comparable to an honours degree in a university; and universities in general have agreed to regard the holder of the diploma as being *prima facie* qualified to enter on a course leading to a higher degree in pure or applied science.

In Scotland, corresponding broadly to the colleges of technology and similar institutions south of the border, there are 16 institutions (including the Glasgow Royal College of Science and Technology, which is on the University Grants Committee's list) which arrange advanced or specialized courses and about 75 other further education centres. In all, some 12,000 full-time students over the age of 18 are enrolled, together with about 35,000 part-time day students and 212,000 evening students.

In Northern Ireland nearly 3500 full-time, more than 6000 part-time day students and more than 35,000 evening students are enrolled at 165 centres of technical instruction.

INTER-UNIVERSITY COUNCIL FOR HIGHER EDUCATION OVERSEAS, 29 Woburn Square, London, W.C.1 (tel.: Museum 8916). *Chairman*—Sir Charles Morris, MA LL.D. *Secretary*—I. C. M. Maxwell, MA. The Inter-University Council was constituted in 1946, at the invitation of the secretary of state for the colonies, by the universities of the United Kingdom and colonial institutions of full university status. Its terms of reference are those recommended by the Asquith commission on higher education in the colonies. The general purpose of the council is threefold:

- to strengthen co-operation between the universities of the United Kingdom and the universities already existing in colonial territories;
- to assist in the development of university colleges in the colonies with a view to the attainment of full university status;
- to assist generally by giving advice and by taking other action to promote university education and research in the colonies.

In 1954 the responsibilities of the council were extended at the request of the secretary of state for Commonwealth relations to include university education in the Federation of Rhodesia and Nyasaland. More recently countries such as Ghana and Nigeria have achieved independence within the Commonwealth but the relationship between the university institutions in those territories and the Inter-University Council remains close.

The council consists of one representative of each of the universities, together with co-opted members and the educational adviser to the secretary of state for the colonies, Sir Christopher Cox.

COLONIAL UNIVERSITY GRANTS ADVISORY COMMITTEE, 29 Woburn Square, London, W.C.1 (tel.: Museum 8916). *Chairman*—Sir Hector Hetherington, KBE, MA LL.D. *Secretary*—I. C. M. Maxwell, MA. The committee was constituted in 1946 by the secretary of state in accordance with a recommendation

of the commission on higher education in the colonies. It is charged with the duty of advising the secretary of state on expenditure of United Kingdom funds on the development of higher

education in the colonies. The committee works in close co-operation with the Inter-University Council, upon which it relies for advice on the academic aspects of proposals under consideration.

## DIRECTORY TO SUBJECTS OF STUDY\*

**FIRST DEGREES.** *All universities* award first degrees with honours, or special degrees, in the following subjects: botany, chemistry, classics (Greek and Latin), economics, English, French, geography, geology, German, history, mathematics, philosophy, physics, zoology.

The Table on pages 820-823 shows which universities provide first degree courses in certain other subjects. In some cases, courses of instruction leading to degrees which, though having the title of bachelor, are in fact open only to graduates are also indicated in the table, e.g. references have been included to degrees of bachelor of education and bachelor of divinity.

The symbol ✓ means that the subject mentioned may be studied as part of the course leading to a first degree.

The symbol ✓ means that the subject forms a main part of the course leading to a first degree, and that a degree (usually—but not always—a degree with honours or a special degree) can be obtained in that subject either alone or in combination with one or two other principal subjects. The symbol ✓ has not been used for subjects taken only in a course for a general degree or a general degree with honours.

Each subject indicated in the column for the University of London may be studied at one or more schools of the university; see the special London Table on pp. 968-970. A pamphlet entitled 'General Information for Internal Students', which gives details of the schools of the university and the particular subjects which can be studied at them, may be obtained from the Academic Registrar, University of London, Senate House, Malet St., London, W.C.1.

The Table on pp. 820-823 does not purport to be anything more than a signpost to direct the reader to the 'General Information' sections of the appropriate university entries, where further particulars as to title of degree, length of course, etc., will be found.

**DIPLOMAS, CERTIFICATES, ETC.** The following lists show which universities offer diplomas, certificates, testamurs, licences, etc., in the subjects named. In some cases the qualification is awarded by a constituent college of the university mentioned and not by the university itself.

The title of the qualification is given in each case. It should be noted that some of these qualifications are open to graduates only. In-

formation as to whether particular qualifications are postgraduate or not and as to length of courses will be found in the 'General Information' section of the entry for each university or college.

For the convenience of the reader the qualifications have been grouped under general headings, which are not, however, necessarily identical with the names of the faculties under which the subjects fall in any particular university.

STATISTICS. For statistical information see above, especially the sections on 'Finance' and 'Students'. For particulars of overseas students

enrolled at universities in the United Kingdom, see Appendix III.

POSTGRADUATE AWARDS. The Association of Universities of the British Commonwealth publishes every two years a 130-page booklet entitled *United Kingdom Postgraduate Awards (Fellowships, Scholarships, Grants, etc.)* which contains lists of

'open' awards tenable at U.K. universities and of the more important 'open' awards tenable outside the United Kingdom by U.K. graduates. The 1960-62 edition can be consulted in university and other principal libraries.

## GENERAL INFORMATION

Mason Science Coll., founded in 1880 by Sir Josiah Mason, was renamed Mason Coll. in 1892 when it merged with the med. fac. of Queen's Coll. In 1894 the Birmingham Training Coll. for teachers in elementary schs. was transferred to Mason Coll., which was incorporated by act of parliament 3 yrs. later as 'The Mason Univ. Coll.'. This instn. was absorbed in the Univ. of Birmingham, incorporated by royal charter in 1900. The univ. had then a staff of 70 and 678 students of whom only 189 were registered undergrads.

Considerable addns. to bldgs. and facilities were made from 1900 to 1913 and between 1926 and 1939, and nos. of undergrads. increased steadily. In June 1939 the academic staff numbered 159 and there were 1469 full-time students. During the war of 1939-45 devel. continued and a considerable contribution was made to the war effort by res. conducted at the univ. From 1946 to 1959 expansion both in bldgs. and numbers proceeded at such a rate that in Oct. 1959 there was an academic staff of 548 and 4094 full-time students registered for courses during the 1959-60 session.

UNIVERSITY PRECINCT. The bldgs. of the univ. are at Edgbaston, about 3 mls. from the centre of Birmingham, on a site which now covers nearly 240 acres. The first bldgs. at Edgbaston were completed in 1909.

Bldgs. for arts, maths./phys., chem., civil engin., and law, together with an extension to the students' union, were opened in 1960. A new refectory and staff house were started in 1959 for completion in mid-1961, and a new bldg. for biol. scis. was started in 1960.

The new phys. educn. centre and a large hall of res. are to be started in 1960, and a new bldg. for comm. & soc. sci. will be started in 1961. Accommod. for mining and minerals engin. is to be extended, and new accomm. is to be provided at Edgbaston for educn. Further extension of the clin. res. annexe is to be started in 1960.

CONSTITUTION. The governing body of the univ. is the court of governors (presided over by the chancellor), whose executive cttee. is the council, which submits an annual report to the court; the senate, which consists of the vice-chancellor and principal, vice-principal, deans of

all facs. and all profs., regulates academic matters and its activities are subject to review by council. The pro-chancellor presides over the council and the vice-chancellor over the senate. There are 5 facs., presided over by the deans, which have their own advisory bds. and ctees. The delegacy of the inst. of educn. reports direct to senate.

**INCOME (1958-59).** Total income, £2,290,210 (endowment, donations and subscriptions, £135,786; grants from local authorities, £65,016; parliamentary grants, £1,645,751; students' fees, £219,749; contributions for services of staff, etc., £6594; research grants, etc., £216,481; other income, £9833).

**FACULTIES AND DEANS (1960-61).** *Arts*, Prof. D. R. Dudley (Latin); *comm. & soc. sci.*, Prof. T. W. Hutchison (econ.); *law*, Prof. O. Hood Phillips (jurisp.); *med.*, Prof. A. L. d'Abreu (cardiac surg.); *sci.*, Prof. S. G. Ward (mining & minerals engin.).

**LIBRARY.** About 500,000 vols., incl. Barnes lib. (med. sch.), 70,000 vols.; Harding law lib., 10,000 vols.; music lib. (Barber Inst.), 35,000 items; other sections in depts. of bot., biochem., geol., Russian econ. and mining. The fine arts lib. is part of the Barber Inst. *Special features*: papers of Joseph Chamberlain and Sir Austen Chamberlain, Wedgwood philol. lib., Wigan lib. of 17th- and 18th-cent. theol. works, lib. of St. Mary's Church, Warwick, and Baskerville collection.

**MUSEUMS.** Anat., dent., geol., mining, pathol., physiol., zool.; herbarium (bot.).

**LABORATORIES.** Chem. (special org., phys., electro-chem., analyt. and pub. health depts.); phys. (incl. electron phys.), biol., genetics, engin. (incl. electr., mech., prodn., civ. and chem.), metall. (phys. and indust.), mining & minerals engin. (exceptionally well equipped, exper. coal-mine), malt. & brew.; biochem.; anat.; physiol.; pathol.; cancer res.; pharmacol.; bacteriol.; power-station supplying whole univ. with lighting, heat and power. A small **OBSERVATORY** is attached to the dept. of phys. **HOSPITALS** recog. for clin. instructn.—United Birmingham H. (General, Q. Elizabeth, Birmingham and Midland Hosps. for Women, Children's, Nerve and Dental) and 14 other hosps. for sp. teaching, under the control of the Birmingham Regional Hosp. Bd.

**BARBER INSTITUTE OF FINE ARTS**, Edgbaston, Birmingham, 13 (tel.: Selly Oak 0962; music dept.: Selly Oak 0622). The inst. was founded by the late Dame Martha C. H. Barber, who created a trust to promote the study of the fine arts and of music in the univ. Courses in fine arts are given for the cultural benefit of all students, and in some cases form pt. of work required for degrees in other depts. Concerts of chamber music are arranged by the prof. of music, and the univ. musical soc. holds midday concerts during term. The inst. contains several galleries and rooms for the exhibition of paintings, drawings,

prints, furniture, art-objects and tapestries; a small concert hall; and libraries and admin. offices. (For dir., see p. 827).

**INSTITUTE OF CHILD HEALTH.** The Nuffield Provincial Hospitals Trust has agreed to provide an inst. which will be completed in 1960. The inst. co-ordinates the activities of the univ. dept. of paediatrics & child health, the Birmingham Children's Hosp., the Birmingham maternity & child welfare and sch. health services, and the coll. of General Practitioners. Principal functions are undergrad. and postgrad. teaching, paediatric res. and liaison with local authority med. officers and general practitioners.

**SHAKESPEARE INSTITUTE**, Stratford-upon-Avon, Warwickshire (tel.: Stratford-upon-Avon 3138). The purpose of the inst. is primarily to encourage and promote advanced work in Shakespearian studies and in related subjs.—the Elizabethan age, drama and theatre. See also pp. 829-830.

**INSTITUTE OF EDUCATION** (see also 'Teaching Staff', above). The inst. exists primarily to co-ordinate the training of teachers in the W. Midlands area under the general responsibility of the univ., and to recommend to the Ministry of Educn. for qualification those students who have satisfactorily completed their training. A cert. in educn. is granted to students after 1-yr., 2-yr. and 3-yr. courses of trg. A 1-yr. full-time or 3-yr. pt.-time course for dipl. in educn. has been instituted, and is open to qualified teachers with not less than 5 yrs.' approved professional experience. A supplementary cert. is offered to candidates who successfully complete 1-yr. full-time supplementary courses. The inst. also offers courses in youth service (2 yrs. full-time) & sch. librarianship (2 yrs. pt.-time).

The inst. maintains a strong res. dept., the staff of which are members of the univ. educn. dept. The res. dept. is situated at Selly Wick House, Selly Wick Rd., Birmingham, 29, and includes a dept. of child study. The inst. publishes a journal, *Educational Review*, 3 times a yr. The governing body of the inst. is the delegacy, which is responsible to senate.

Constituent and associated colls. of the inst. (a) *Constituent colls.*: Anstey Coll. of Phys. *Associated Colls.*: Birmingham and Midland Institute Sch. of Music, Paradise St., Birmingham, 1; William Temple Coll., Rugby; Wolverhampton & Staffordshire Coll. of Technol.

The Inst.'s headquarters are at Institute House, 50 Wellington Rd., Edgbaston, Birmingham, 15 (tel.: Calthorpe 2332).

INSTITUTE FOR ENGINEERING PRODUCTION, Southfield, Norfolk Rd., Edgbaston, Birmingham, 16 (tel.: Edgbaston 0390). The inst., which is under the direction of the hd. of the dept. of engin. production, was opened in 1953, and provides a series of short courses of study and discussions on a residential basis for sr. production engineers and indust. managers. *See also* p. 829.

ADMISSION. *See* Appendix II.

NON-MEMBERS OF THE UNIVERSITY. Occasional students, who are not matriculated or of grad. status, who wish to enter the univ. for the purpose of attending individual courses, must supply evidence, satisfactory to the dean of the fac. and the hd. of the dept., that they are qualified to enter upon such courses. Such students will be subject to the univ. regns., but are not entitled to wear academic dress.

FIRST DEGREES. 3 yrs.—BA (spec.), BA (combined subjs.), BSc in pure sci., BSc in appl. sci., BCom, BSocSc, LLB; 3 or 4 yrs. according to qualifs. on entry—BMus; 5½ yrs.—BDS; 6 yrs.—MB ChB.

Candidates who do not reach the required standard for an hon. degree in any fac. may qualify for an ord. degree.

BA with hon. may be obtained in any one of the following sp. schs.: classics, Latin, Greek, anc. hist. & archæol., anc. & mediæv. hist., mediæv. & mod. hist., Engl., French, German, Italian, Russian, Spanish, philos., soc. & polit. philos., maths., geog., theol., linguistics. Hon. may also be obtained in the exam. for the BA degree in combined subjects.

BSc hon. in pure sci. may be taken in any of the hon. schs. in maths., mathl. phys., phys., chem., zool., bot., genetics, bacteriol., geol., geog., anatomical studies, physiological studies, medical biochemical studies. BSc hon. in appl. sci. may be taken in engin. (mech., civil, electr., chem., petroleum, prodn.), metall. (phys. or indust.), mining (coal or metal) and biochem. Courses in mining involve practical work underground.

Candidates who, before admission, pass certain exams. of other approved univs. in sci. or engin., may be permitted to take the final exam. for the BSc (hon.) at the end of their 2nd yr., and to do advanced or res. work in their 3rd yr.

Subject to certain provisos, grads. of Oxford with hon. in the final hon. sch. of nat. sci. (engin. sci.) or of Cambridge with 1st or 2nd class in mech. scis. tripos are eligible for the BSc degree in mining after 2 yrs.' study at Birmingham; suitable engin. grads. of other approved univs. are also eligible for the degree under similar conditions.

*Prelim. science year.* There are sp. arrange-

ments whereby candidates who have taken arts subjs. as their main subjs. at sch. may obtain a univ. trg. in the scis. Consideration for admission to this 1st yr. (of a 4-yr. degree course) may also be given to candidates from schs. where the facilities for teaching sci. are limited.

BCom with hon.: (a) general course, (b) sch. of Russian studies, (c) for qualified sci. students.

BSocSc with hon. in schs. of econ., pol. & sociol.; soc. study; Russian studies; maths., econ. & statistics; geog.

Med. students may spend their 1st yr. at any sch. or schs. of med. recog. by the univ., and the senate may recognize exams. passed therein as exempting from the 1st med. exam. They may obtain the BSc as well as their med. degrees by devoting 7 yrs. instead of 6 to study in the univ.

HIGHER DEGREES. MA (by thesis resulting from res., or by prescribed course of study and exam.), MEd (1 yr. full-time or 3 yrs. pt-time prescribed course, exam. and thesis), MCom, MSocSc (by prescribed course of study and exam.), MMus, 1 or 2 yrs. after bachelor's degree; MSc (may be taken in appl. geophys., electr. machinery, radioactivity, radiobiol., thermodynamics, coal preparation, reactor phys. & technol., foundation engin. & highway engin., information engin., operational res., biol. engin., as well as in other sci. subjects), 1 yr. after BSc hon. or 2 yrs. after BSc in sci.; several depts. provide courses of study and exams. (as distinct from res. facilities) for MSc; LLM, 2 yrs. (exceptionally, 1 yr.) after LLB; BD, not less than 2 yrs. after a bachelor's degree approved by the fac. of arts; MD, ChM, MDS, 5 yrs. after bachelor's degree; PhD (in any fac.), 2 yrs.; DLitt, DMus, DSc, LLD, DD.

The DMus or LLD may be taken 3 yrs. (DLitt 5 yrs.) after the MA, MMus, MSc or LLM, or 5 yrs. (DLitt 7 yrs.) after the corresp. bachelor's degree; DSc, 4 yrs. after MSc, or 3 yrs. after PhD, whichever time is shorter; grads. of other approved univs. after not less than 2 yrs.' postgrad. work in this univ. provided that at time work is submitted for degree they are at least of 5 yrs.' standing from bachelor's degree; DD, 5 yrs. from date of BD or other second degree.

The univ. does not award EXTERNAL DEGREES.

DIPLOMAS. Theology, normally 2 yrs. for grads. of approved univs.; education, 1 yr. full-time or 2 yrs. pt-time; psychol. of childhood, 1 yr. for grads. and other approved persons; educnl. psychol., 1 yr. postgrad., for grads. of approved univs. who have obtained BA or BSc hon. in psychol. or who have pursued approved courses in psychol. and who have had not less than 1 yr.' teaching experience; for teachers of educationally sub-normal children, 1 yr.; commerce, 1 yr. for grads. of approved univs. subject to approval by fac.; pub. admin., 1 yr. for grads. (in any fac.) of univs. in the United Kingdom; soc. study, 1 yr. for grads. preparing for work in the soc. services; soc. work, 1 yr. for grads.; malting & brewing, 3 yrs., grads., 1 yr.; engin.

production & management principles, 1 yr. postgrad. course; dipl. in grad. studies; biol. engin. (1 yr.); chem. engin. (1 or 2 yrs.); indust. metall. (1 yr.); thermodynamics & related studies (1 yr.); mathl. phys. (1 yr.); civil engin., foundation engin. & highway engin. (1 yr.); mathl. statistics (1 yr.); electr. engin. (information engin. & electr. machin.) (1 yr.); mining (1 yr.).

**CERTIFICATES.** Education (1-yr. postgrad. and 2-yr. non-grad. courses), malting & brewing (2 yrs.), malting (2 yrs.); soc. study (2 yrs. for non-grads.); child service (1-yr. course to train suitably qualified persons as children's officers and their assts.); supplementary certs. in divinity, local studies and for teachers of blind children (1-yr. courses). *See also* Institute of Education, *above*.

**RESEARCH.** A jt. standing cttee. of senate and council co-ordinates res. work in all facs., formulates policies of res., obtains funds and co-operates with govt. agencies and external bodies. *Annual Report* gives general summary of each yr.'s deptl. res., lists publ. work and titles of theses approved for higher degrees.

**STUDY LEAVE** is given as frequently as possible, usually for 1 term.

**FEES.** *Composite annual fees* (covering tuition, exam. and graduation fees, and membership of guild of undergrads.). Bachelor's degrees: BA and BMus, £56; BD, £42; BSc, £66; MB ChB, £66; BDS, £66 (6th yr., 1 term: £22); BCom and BSocSc, £56; LLB, £56. Higher degrees: MA, MMus, MCom, MSocSc, LL.M, MSc (without lab. facilities), £42; MSc (with lab. facilities) and MSc (grad. studies except in engin. prodn. & radiobiol.), £81; MSc (grad. studies: engin. prodn. & radiobiol.), £95; PhD (without lab. facilities), £42; PhD (with lab. facilities), £81. Dipls. and certs.: dipl. in theol., 1st yr.—£34, 2nd yr.—£6; dipl. in psychol. of childhood, £51; dipl. in educnl. psychol., £66; dipl. for teachers of educationally sub-normal children, £58; dipl. in engin. prodn. & management principles, £95; dipl. in grad. studies, £81; dipl. in mathl. phys., £58; dipl. in malting & brewing, £54; postgrad. dipl. in malting & brewing, £54; cert. in malting & brewing, £54; cert. in malting, £54; graduates' commerce dipl., £41; dipl. in pub. admin., £41; soc. study dipl., separate class fees with an addtnl. charge of £7:5s.; soc. study cert., £36; child service cert., £66; dipl. in soc. work, £70; cert. in educn., £60; dipl. in educn., £42; supplementary certs. in divinity, £51; in local studies, £60; for teachers of blind children, £70; and in maths., £31.

**VACATION COURSES.** A 6 wks.' summer sch. on Shakespeare and Elizabethan lit. is held annually at Stratford-upon-Avon during July and Aug. It is concerned with the detailed study of Elizabethan and Jacobean drama and theatre with particular reference to Shakespeare, together with the historical and cultural background of the plays. The

summer sch. is primarily intended for grads. and other advanced students from British, American and European univs. who have specialized in Elizabethan and Jacobean lit. The dept. of extra-mural studies also possesses its own archaeol. centre based on work at the Roman city of Viroconium nr. Shrewsbury; during the summer a no. of residential courses in excavation techniques and ancillary subjs. are held. Other courses are arranged at Attingham Park and Westham House, the 2 residential colls. for adult educn. in the W. Midlands. An annual summer sch. is also held, in England or on the continent, in conjunction with the W.E.A., usually during the first 2 wks. in Aug. Study tours are arranged annually.

**UNIVERSITY BOARD OF ADULT EDUCATION** (*see also* 'Teaching Staff', *above*). The bd. supervises all the extra-mural work of the univ. Univ. extension courses, tutorial, sessional and short courses, summer schs. and other residential courses are held in Birmingham and at centres throughout the W. Midlands. There is a jt. cttee. for work with the W.E.A., and another for services educn.

**POSTGRADUATE AWARDS** open to grads. of other univs.: *see p.* 825.

**APPOINTMENTS BOARD.** (For officers, *see* 'Admin. and Other Staff', *above*.) The functions of the bd. are to provide information and advice on careers and to assist grads. of the univ. to obtain suitable employment. The services of the bd. are available without charge to all grads. and undergrads. of the univ. *Postal Addresses:* (sec.), The Univ., Birmingham, 15; tel.: Selly Oak 1301.

**GUILD OF GRADUATES.** The guild is entitled to appoint one rep. for every 250 of its members to serve on the univ. court of governors, the present number of reps. being 31. One rep. of the guild is a member of the univ. council. A *News-letter* is circulated annually to all members.

**UNIVERSITY OF BIRMINGHAM OFFICERS TRAINING CORPS.** Cadets may join for various periods of service which are flexible to enable them to undertake trg. without interfering with their univ. degree course. The contingent comprises the following sub-units: Royal Signals, Infantry, Royal Electrical and Mechanical Engineers.

Minimum trg. obligations are laid down for each yr. Suitable cadets may be recommended to War Office Selection Bd. Further information from the adjutant, U. of Birm. O.T.C., Edgbaston, Birmingham, 15 (tel.: Selly Oak 0249).

**UNIVERSITY OF BIRMINGHAM AIR SQUADRON.** The purpose of the U.A.S. is to provide facilities for the trg. of internal male members of the univ. who wish to prepare themselves for commissioned service in the R.A.F., the Royal Navy, the R.A.F. auxiliary and reserve forces, the air branch of the R.N.V.R., or in the regular or auxiliary air forces of the Commonwealth. Further information from the C.O., Univ. Air Squadron, The Univ., Edgbaston, Birmingham, 15 (tel.: Edgbaston 4053).

**UNIVERSITY HEALTH SERVICE.** The purpose of this service, which is administered by a full-time univ. medical officer with one full-time asst. med. officer and two dent. surgeons, is to reassure students about the state of their health, to offer them opportunities for maintaining and improving it, and to help to secure early treatment for any disorders which may occur. All freshmen, excepting those eligible for exemption under the regns., are required to attend for a routine med. overhaul and to have a chest X-ray; the X-ray is repeated annually. Ophthalmic treatment under the national health scheme is also available.

**GUILD OF UNDERGRADUATES.** The guild, establd. under charter of univ., is the organized assocn. of the undergrads. for furtherance of their common interests, recog. by court, council and senate of univ. for this purpose; represented by 3 members on court of governors. Income of guild, derived from membership fees, is applied to upkeep of the union, univ. guild club and univ. athletic union. There is full, assoc., external and hon. life membership.

**UNION AND UNIVERSITY GUILD CLUB.** All members of guild of undergrads. are entitled to use of the union, which adjoins the univ. bldgs. at Edgbaston.

**UNIVERSITY ATHLETIC UNION.** Membership of union open to full and assoc. members of guild of undergrads. provided they are amateurs. The union includes following clubs: *For men*: assocn. and rugby football, boxing, cycle-racing, golf, rowing, cross country running. *For women*: lacrosse, netball. *For men and women*: athletics, basketball, badminton, cricket, hockey, judo,

tennis, swimming, table tennis, sailing, squash racquets, fencing, gymnastics, rifle. Extensive grounds, with pavilions, are at the service of the athletic union.

**UNIVERSITY STAFF CLUB,** Westmere, Edgbaston Park Rd., Edgbaston, Birmingham, 15 (tel.: Edgbaston 0290).

## GENERAL INFORMATION

Univ. Coll., Bristol, was establd. in 1876 and in 1893 the Bristol Med. School, which dates from 1833, became incorporated in it. The univ. received its charter in 1909.

**CONSTITUTION.** The court, comprising some 400 reps. of local authorities and organizations, learned institutions, benefactors, staff and grads., meets annually to receive a report from council, pass accounts and a balance sheet, appoint univ. officers and amend ordinances. Executive control rests during the yr. with council, whose 46 members are nominated by court, the local authorities of the region, the Soc. of Merchant Venturers, senate, the non-professorial teaching staff and convocation. Senate, numbering over 50 and consisting of the profs. and a no. of other members of the teaching staff, controls, under council, the academic affairs of the univ. and receives reports from the fac. boards. There are 5 facs. (*see below*) each having at its head a dean, who holds office for 2 or 3 yrs. The principal academic officer of the univ. is the vice-chancellor, whose appt. is permanent. The grads. of the univ. form convocation, which meets annually and may discuss and pronounce an opinion on any matter relating to the univ.

**INCOME (1958-59).** Total income, £1,549,962 (Treasury grants, 69 per cent.; other grants and contributions for services rendered, 13 per cent.; fees, 12 per cent.; grants from local authorities, 3 per cent.; other sources, 3 per cent.).

**FACULTIES AND DEANS (1959-60).** *Arts*, Prof. D. Douglas (hist.); *engin.*, Prof. J. L. M. Morrison (mech. engin.); *law*, Prof. J. A. Coutts (jurisp.); *med.*, Prof. A. V. Neale (child health); *sci.*, Prof. C. F. Powell (phys.).

**UNIVERSITY PRECINCT.** The facs. of arts and law are chiefly housed in the main bldg., which was opened in 1925; it includes the library and admin. offices and its tower occupies a commanding site close to, but well above, the centre of the city. In the same area are most of the scientific depts., incl. the H. H. Wills phys. lab. (opened in 1927 and now extended) and Queen's Bldg. (opened in 1958 and housing the depts. of maths., geol., civil engin., mech. engin., electr. engin., aero engin. and theoret. mechs.), and the site for a new med. sch. Canynge Hall, within easy reach, accommodates the depts. of pathol., publ. health and bacteriol. The vet. field station, opened in 1952, is at Langford, Somerset.

**LIBRARY.** 244,600 vols. other than pamphlets (including arts 135,350; sci. 52,750; med. 41,050; engin. 11,400; law 4050). Sp. collections: British local hist. and records; early Engl. novels; Engl. philos. writers; courtesy books; hist. of educn.; early Engl. dictionaries; cartography; landscape gardening; Maria Mercer phys. libr.; Exley mathl. libr.; Worsley chem. libr. (including early works on chem. and

alchemy); Wigglesworth ornithol. collection; early med. books and works on mineral waters and spas.

**LABORATORIES, ETC.** *Anat.*, bacteriol., bot., org. chem., phys. & inorg. chem., engin. (civil, mech., electr. & aeron.), geol., pathol., pharmacol., phys., physiol., vet. anat., vet. physiol., vet. surg., zool.; geol. museum. Long Ashton res. stn. (agric.), *see* p. 851. Hort. sci. labs. Univ. bot. garden at Bracken Hill.

**TEACHING HOSPITALS.** Clin. study is undertaken in the United Bristol Hosps. (comprising the Bristol Royal H., Univ. of Bristol Dental H., Bristol Royal H. for Sick Children, Bristol Eye H. and Bristol Maternity H.) and partly in the following hosps. under the control of the S.-W. Regional Hosp. Bd.: Southmead H., Ham Green H., Bristol Mental Hosps., Stoke Park Colony and Winsley Sanatorium.

**INSTITUTE OF EDUCATION** (*see also* p. 850) Founded in 1947 to supervise the trg. of teachers and generally to foster work in the field of educn. in the region. *Associated institutions*: Univ. ## KING'S COLLEGE

Founded in 1441 by King Henry VI. Under the founder's statutes, which remained in force until 1861, every vacancy had to be at once filled by the admission of a scholar from the sister foundation of King Henry VI at Eton. In 1861 provision was made for the admission of undergraduates other than scholars of Eton. Junior members in residence (1959-60), 434. Telephone: Cambridge 50411.

## TRINITY HALL

Founded in 1350 by William Bateman, Bishop of Norwich, and especially designed by him for the study of law. This has been recognized by the establishment of law lectureships, law studentships, open scholarships for intending students of law, and foundation scholarships; but members of the college are not restricted to any particular subject of study, and a normal balance of numbers is maintained among all the usual subjects. Junior members in residence (1959-60), 365. Telephone: Cambridge 59447.

## GENERAL INFORMATION

The univ. received formal recognition as a *studium generale* from Pope John XXII in 1318, but it was well established by that time and had already been given important privileges by King

Henry III. Its origins probably date from 1209 when, following disturbances at Oxford, a number of scholars migrated to Cambridge. The first coll., Peterhouse, was founded by Hugh

de Balsham, Bishop of Ely, in 1284, and was followed by most of the others in the next three centuries.

In the period from the foundation of King's Coll. (1441) to the foundation of Trinity Coll. (1546) the univ. expanded considerably, and achieved a European reputation. The high-water mark was perhaps reached during the chancellorship of John Fisher (1504-35), who introduced Erasmus to Cambridge. The Reformation, and in particular the dissolution of the monasteries, had a disturbing influence, and ushered in a series of constitutional changes, the chief result of which was to give the colls. a more important place in the constitution of the univ. The constitution of the univ. was stabilized when it received a new code of statutes from Queen Elizabeth in 1570, and was incorporated by act of parliament in 1571. Under the new statutes, which remained in force for nearly 300 years, all students had to be members of colls., and the govt. of the univ. was largely in the hands of the heads of colls.

There were few major developments in the 17th or 18th centuries. No new colls. were founded between 1596 (Sidney Sussex) and 1800 (Downing). The decline in the number of students which was brought about by the civil war was temporarily checked by the Restoration, but in the next hundred years the average number of students matriculating each yr. fell by two-thirds. But a number of professorships were founded, and under the influence of Sir Isaac Newton, who was Lucasian prof. of maths. for 33 yrs., maths. became the main subject of study; from 1750 onwards it was compulsory.

By the end of the 18th century written exams. had taken the place of the earlier 'disputations'. Most of the teaching was done in colls. There were a few endowed univ. professorships and univ. lectureships, but the trust deeds governing them were often out of date, and the stipends attached to the posts very low. The Elizabethan statutes were so far unrelated to the conditions of the time that many were ignored.

Changes were urgently required, and the univ. did not escape the reforming agitation of the 19th century. Its affairs were investigated by royal commissions in 1850 and 1872, and the univ. statutes were subsequently revised by statutory commissions. The classical tripos was introduced in 1824, and, after the maths. tripos had ceased to be compulsory in 1850, the range of subjects of study was steadily widened. In 1856 nonconformists were allowed to graduate; in 1858 the local exams. (for schools) were instituted; in 1869 the first women's coll., Girton, was founded; in 1871 all religious tests were abolished by the Universities Tests Act, and in the same yr. the Cavendish physics lab. was established; in 1872 the hd. of extra-mural studies was instituted to organize univ. extension lectures. During the century the average annual total of admissions increased by nearly 6 times.

In the early yrs. of the present century the univ.

was in serious financial difficulties, which were aggravated by the war of 1914-18. The univ. received a Treasury grant in 1919 on the condition that there should be an enquiry into its resources and organization. A royal commission appointed in 1920 recommended that the univ. (but not the colls.) should receive an annual Treasury grant, and should be reorganized so as to take over some of the teaching previously done by colls. In consequence the statutes were again revised, the facs. reorganized, and many more univ. lectrs. appointed; thenceforward lectures, etc., were organized solely by the univ. instead of partly by the colls. The univ. has continued to expand, especially since the end of the 1939-45 war.

**CONSTITUTION.** The univ. is a self-governing body; the legislative authority is the *regent house*, which consists of those members of the teaching and admin. staff of the univ. and colls. who have the MA or a higher degree. The *senate*, which consists of all the holders of the MA or higher degrees, has the right of voting on certain formal matters. The chief admin. body of the univ. is the *council of the senate*, which is elected by the regent house. The *general board of the faculties* co-ordinates the educational policy of the univ. and the *financial board* supervises its financial affairs.

The nominal and ceremonial hd. of the univ. is the chancellor, who is elected for life. The vice-chancellor is a head of a coll. who normally holds office for 2 yrs. He presides over *congregations* (meetings of the regent house or the senate) and is chairman of the council of the senate and the more important of the many *boards* and *syndicates* which manage the affairs of the univ.

Changes in the *ordinances*, or regulations of the univ., are proposed by the board or syndicate concerned in the form of reports which, after being approved for publication by the council of the senate, are published in the *Cambridge University Reporter*. Such reports can be criticized by members of the senate at *discussions* which are held once a fortnight in full term. A report may be amended after remarks made in the discussion. Subsequently a *grace*, which is a motion for the approval of its recommendations, is submitted to a vote of the regent house. Minor amendments of ordinances are proposed in *graces* which the council of the senate submit for the approval of the regent house without the formality of report and discussion. Ordinances may not infringe the *statutes*. Procedure for amendments of statutes is the same, but such amendments require the approval of the Queen in Council, after the approval of the regent house has been obtained.

The COLLEGES are independent self-governing corporate bodies quite distinct from the univ., with their own property and income. Their affairs are regulated by their own statutes, though these cannot be altered without the approval of the univ. and the Queen in Council, and they are also bound by some of the univ. statutes. The

governing body of a coll. consists of a *master* (or *provost* or *president*) and a group of *fellows*. Most of the fellows are also members of the staff of the univ.; most of the staff of the univ. are either fellows or members of colls.

There are 19 colls. for men and 4 colls. (or similar institutions) for women. In addition there is a collegiate institution for men, Fitzwilliam House, which is under the direct control of the univ. With the exception of Hughes Hall, which is reserved for women reading for the cert. of educn., all colls. accept both undergraduate and postgraduate students in any subject. The colls. provide lodgings, corporate life and personal tuition. All students are required to be members of a coll. (or one of certain recognized institutions); all the univ. lectures, labs., libraries, exams. and degrees are open to members of any coll., whether men or women.

The principal coll. officers are the *tutors*, who are responsible for the welfare and discipline of the students assigned to them and advise them about their studies and any other problems that may arise. Each student is also allotted a *supervisor*, who gives him personal tuition, and corrects his written work.

The coll. bldgs. are usually grouped round one or more courts. Each coll. has a hall (in which meals are served), a chapel, a library, and jr. and sr. common-rooms. The rest of the bldgs. are divided into rooms for students and fellows. Because of the increase in the numbers of students in recent years, only about half are able to live in rooms in their coll. The rest live in lodgings (which must, for undergraduates, be recognized by the lodging-houses syndicate), but they continue to have access to all the other facilities of their coll. Usually undergraduates are able to live in coll. for one or two of the three yrs. required for a degree.

DISCIPLINE outside the colls. is maintained by the *proctors*, who are responsible for enforcing the *edicts* of the univ. Proctorial permission is required for such purposes as running a motor vehicle, holding a party for more than 15 persons, or organizing a club or society. Students are required to have gowns, which must be worn at most lectures, in the univ. library, in the streets after dusk, for dining in hall and for official visits to members of the staff.

There is no UNIV. PRECINCT in the accepted sense. The colls. and univ. bldgs. are spread out on the west side of the town. Bldgs. under construction include extensions to the new chem. and engin. labs. and improved accomm. for arts facs.

FACULTIES. Teaching and res. are organized in 20 *faculties*, each under the supervision of a *faculty board*. The facs. are: classics, div., Engl., fine arts, mod. & mediæv. langs., music, oriental studies, econ. & pol., hist., law, moral sci., engin., geog. & geol., maths., phys. & chem., agric., archæol. & anthropol., biol. 'A' (comprising bot. & zool.), biol. 'B' (comprising anat., biochem.,

pathol., etc.), and med. Several of the facs. are further divided into depts., and there are also the following depts. independent of any fac.: educn., estate management, chem. engin. and the observatories.

The INCOME of the univ. is derived mainly from the Treasury grant, partly from the fees of students, grants for res., endowments and contributions from the colls. which are graduated according to coll. revenues. In 1958-59 the income was £4,297,742, of which £2,433,950 was from the Treasury recurrent grant, £459,651 from fees, £409,640 from grants for res., £281,732 from endowments, £121,160 from colls. and £591,609 from other sources.

THE UNIVERSITY LIBRARY (tel.: Cambridge 56261) contains about 2,000,000 vols., including many early printed books, and over 10,000 MSS. and 350,000 maps. It is entitled under the Copyright Act to a copy of every book published in Gt Britain & Ireland, and a large number of foreign books and periodicals are acquired by purchase. It contains, amongst others, the following notable collections: Acton libr. (mediæv., eccles. and mod. hist., 60,000 vols.); W. G. Aston's Japanese libr.; Sir T. Wade's Chinese books; J. W. Clark collection (Cambridge books, pamphlets, papers, etc.). Annual budget: about £100,000.

In addition there are over 50 fac., deptl. and sp. libraries, containing in all about 500,000 books. Among the most important are the Balfour libr. (zool.), the Marshall libr. (econ.), the Seeley memorial libr. (hist.) and the Squire law libr. The Philosophical libr. is the libr. of the Philosophical Soc., but other members of the univ. may consult its books on maths. and the scis.

The colls. have their own libraries for the use of members of the coll. only. In addition to modern text-books for the use of students, most also contain important collections of old books or MSS.; these include: the Robertson Smith collection of oriental books in Christ's Coll.; the Matthew Parker MSS. in Corpus Christi Coll.; 800 MSS., 60 incunabula, heraldic collections of Dr. John Knight (17th cent.) and 1300 books and pamphlets of Dr. Wm. Branthwaite (d. 1619) in Gonville & Caius Coll.; the Rowe music libr. and the Keynes libr. (which contains Newton MSS.) in King's Coll.; the Pepys libr. in Magdalene Coll.; the Perne libr. in Peterhouse; and the Capel collection of Shakespeariana in Trinity Coll.

MUSEUMS. *The Fitzwilliam Museum* (Dir.—C. Winter, [Trin.], MA), Trumpington St., Cambridge (tel.: Cambridge 50023), contains extensive art and archæological collections. The chief collections comprise Egyptian, Greek and Roman antiquities, coins and medals, paintings, prints, mediæv. and mod. MSS., ceramics, textiles, mediæv. and Renaissance objects of art. The collection of paintings includes examples of the Italian, Flemish, Dutch, French, British and Spanish schools, among which are a number of masterpieces. The library contains about 25,000

vols. incl. 12,000 relating to the arts, a collection of early printed books and the music collection. The museum is open free to the public.

The *Museum of Classical Archaeology* (Curator—Prof. Jocelyn M. C. Toynbee, [Newn.], MA), Little St. Mary's Lane, Cambridge (tel.: Cambridge 52410), contains a collection of casts illustrating the hist. of Greek sculpture.

The *Museum of Archaeology and Ethnology* (Curator—G. H. S. Bushnell, [Down.], MA PhD, Asst. Curator—Mary D. Cra'ster, [Girton], MA Oxon. & Camb.), Downing St., Cambridge (tel.: Cambridge 50937), has a large and increasing collection, incl. Saxon urns and ornaments, casts of central American monuments, Egyptian stone implements, unique Fijian collections and numerous others resulting from scientific expeditions by Cambridge men.

The *Museum of Zoology* (Dir.—F. R. Parrington, [Sid.], ScD), Downing St., Cambridge (tel.: Cambridge 58717).

*Sedgwick Museum of Geology* (Curator—A. G. Brighton, [Chr.], MA), Downing St., Cambridge (tel.: Cambridge 50129).

*Whipple Museum of the History of Science* (Actg. Curator—G. Buchdahl, [King's], MA Melb. & Camb.), Downing St., Cambridge.

LABORATORIES. The principal labs. are: agric., anat., biochem., biol. and parasitol. (Molteno Inst.), bot., chem., chem. engin., colloid sci., engin., ethmol., exper. phys. (Cavendish), genetics, human anat., maths. (for res. on computing machinery), med., metall., mineral. & petrol., pathol., phys. chem., physiol., psychol., statistical, vet. sci., zool.

BOTANIC GARDEN (Dir.—J. S. L. Gilmour, [Cla.], MA, FLS), Bateman St., Cambridge (tel.: Cambridge 50101).

OBSERVATORIES (for staff, see *Astrophys.*, p. 857), Madingley Rd., Cambridge (tel.: Cambridge 52413), are about a mile from Cambridge and have a 36-in. reflector, a 17-in. Schmidt telescope and a 12-in. horizontal solar telescope with spectrographic equipment. There are a number of smaller instruments, a well-equipped workshop, a small optical shop and a good library.

SCOTT POLAR RESEARCH INSTITUTE (Dir.—G. de Q. Robin, [Cai.], MSc Melb., PhD Birm., MA), Lensfield Rd., Cambridge (tel.: Cambridge 56457), is the most important repository in the Commonwealth of information about arctic and antarctic regions.

MADINGLEY HALL (Warden—F. R. Salter, [Magd.], OBE, MA), Madingley, Cambridge (tel.: Madingley 307). A large country house, dating in part from 1540, about 4 mls. west of Cambridge. In term time accommodates about 50 grad. students (who must be members of one of the colls.) in study-bedrooms. In vacations the hall is made available to the bd. of extra-mural studies (see below) for residential courses.

DEPARTMENT OF EDUCATION (for staff, see *Educn.*, p. 860), 17 Brookside, Cambridge (tel.: Cambridge 55271). Prepares students for the cert. in educn. awarded by the Cambridge Inst. of Educn. (see below). The 1-yr. course includes 1 term's teaching practice and is open to grads. of any univ. Candidates must obtain admission to a coll. (in the case of women, to Hughes Hall) before applying for admission to the dept.

The univ. dept. of educn. is a corporate member of the Cambridge Institute of Education, 2 Brookside, Cambridge (tel.: Cambridge 56207/9). Dir.: W. O. Bell, [Cath.], MA; Sec.: F. F. C. Edmonds, [Qu.], MA.

ADMISSION. See Appendix II. Students must be admitted to a coll.; admission to a coll. automatically secures admission to the univ. Most colls. have entrance exams., but they may admit persons who have exceptional qualifs. without requiring them to take an exam. Enquiries should be addressed to the sr. tutor of the coll. concerned (to the sec. of Girton or Newnham Coll.). Candidates for admission to courses of res. must also obtain the status of res. student (see below).

The *Adviser to Overseas Candidates for Admission* (N. S. Wilson, [Pemb.], MA), at 1A Rose Cresc., Cambridge (tel.: Cambridge 58933), is able to give information and advice to applicants for admission resident outside the U.K., and to govt. depts. acting on behalf of such students.

NON-MEMBERS OF THE UNIVERSITY. Certain classes of persons who are not members of the univ. may be admitted to lectures or allowed to work in univ. labs. for limited periods. Enquiries should be addressed to the registry.

FIRST DEGREES. The BA is the first degree in all subjs. The qualifs. for the BA honrs. are: (i) 9 terms' residence; (ii) reaching the honrs. standard in any 2 of the exams. known as 'tripos' exams. (in certain cases, noted below, one such exam. is a sufficient qualif.). In most subjs. there are 2 tripos exams., the first of which (pt. I) is taken after a 2-yr. course of study, and the 2nd (pt. II) after 1 yr. of more specialized study in certain aspects of the subj. It is possible to take the 2 tripos exams. in certain different subjs.

There are the following tripos exams.: Anglo-Saxon (which consists of one pt. only); archaeological & anthropological, pts. I & II; archit. & fine arts, pts. I & II; chem. engin. (which consists of one pt. only and can only be taken after obtaining honrs. in certain other exams.); classical, pts. I & II; econ., pts. I & II; Engl., pts. I & II; geographical, pts. I & II; historical, pts. I & II; law, pts. I & II; mathematical, pts. I, II & III (pt. II qualifies for the BA without further exam., pt. III is normally taken only by the most advanced students who have omitted pt. I); mech. scis. (engin.), pts. I & II (pt. I qualifies for the BA without further exam.); mod. & mediæv. langs., pts. I & II; moral scis., pts. I & II; music, pts. I & II; nat. scis., pts. I & II (pt. I qualifies for the BA without further exam. In

pt. I a student must read 3 or 4 scientific subjs., in pt. II he specializes in one scientific subj.); oriental studies, pts. I & II; and theological, pts. I, IA, II & III (pt. IA is intended for those who have previously obtained hons. in another subj.).

There are also exams. in agric., engin. studies, estate management and Christian theol., leading to the ord. BA degree. Outside these subjs. only students intending to follow an hons. course are normally admitted. If a student fails to reach the standard required for hons. in his first tripos, he will not be admitted to a 2nd tripos, but may be given an allowance towards the ord. BA degree and, after passing one or two of the special exams. which are held in most of the subjs. covered by the triposes, be admitted to that degree.

Most exams. are held at the end of the Easter term.

**TRANSFER YEAR.** I.C.I. transfer bursaries may be awarded by colls. to students admitted to read an arts subj. who wish to transfer to reading nat. or mech. scis. The bursaries are tenable for 1 yr. preliminary to a normal 3-yr. degree course. Enquiries should be addressed to tutors of colls.

**AFFILIATED STUDENTS.** Grads. of many other univs., having degrees approved for the purpose by the council of the senate, may be allowed to proceed to the BA degree after 6 terms' residence and obtaining hons. in one tripos exam. only, usually a pt. II. (For details, see *The Student's Handbook*.)

**HIGHER DEGREES.** Without taking any further exam. a BA may be admitted to the degree of MA after 6 yrs. have elapsed from the end of his 1st term, provided that at least 2 yrs. have elapsed from his admission as BA. The MA does not represent any addtnl. academic qualif., but confers seniority, including membership of the senate and certain privileges in the use of the univ. library and other univ. institutions. An MA is conferred on the principal members of the staff who have degrees of other univs. (in some cases after an interval of 3 yrs.). Other members of the grad. staff have the status of MA, which confers most of the privileges of the MA except membership of the senate and regent house.

Graduates of Oxford or Trinity Coll., Dublin, who become members of the staff, may by 'incorporating' be admitted to a degree which corresponds to that which they already hold and confers the same seniority.

The main res. degrees are the PhD, MLitt and MSc. See Research Students, *below*.

**Law.** A person may be a candidate for the LLB exam. if he has obtained hons. in either pt. of the law tripos, or if he is a BA and qualified to practise as a barrister or solicitor in England or Ireland or as an advocate or law agent in Scotland, or if he has passed a law exam. in another univ. approved by the fac. bd.

**Medicine.** The course leading to the degrees of MB BChir normally lasts 6 yrs. At least 9 terms must be spent at the univ., during

which the candidate must complete the 1st MB exam., the qualifying exam. in anat. and physiol., the exam. in pharmacol., and obtain hons. in a tripos (usually pt. I of the nat. scis. tripos). At this stage he is usually qualified to proceed to the BA. He must then spend at least 2 yrs. 9 mos. in clinical study at a hosp. (usually in London) and pass the final MB exam. before proceeding to the degrees of MB BChir, which are qualifs. for provisional registration under the Medical Act, 1950. Not less than 2 yrs. after passing the final exam. for the MB BChir, a person may be a candidate for the degree of MChir.

**Music.** The qualifs. for the MusB are: (i) 9 terms' residence; (ii) passing 2 sections of the MusB exam. Candidates must first have obtained hons. in one pt. of the music tripos.

**Veterinary Medicine.** The course leading to the degree of VetMB normally lasts 6 yrs. The candidate must first complete the 1st MB exam., the qualifying exam. in vet. anat. and vet. physiol., the exam. in pharmacol., and obtain hons. in a tripos (usually pt. I of the nat. scis. tripos). He must then spend 3 yrs. completing specified courses at the school of vet. med. and obtaining practical experience before being admitted to the final vet. exam.

The *other higher degrees*, which are open only to members of the univ., are: MusM—3 yrs. from MusB; LLM—2 yrs. from BA or LLB (but at least 6 yrs. from first term of residence); BD—5 yrs. from BA; DD, LLD, MD, ScD, LittD, MusD—8 yrs. from BA or other first degree.

**HONORARY DEGREES** may be conferred on persons who have done good service to the univ. or are of great distinction. They are normally one of the following: DD, LLD, ScD, LittD, MusD or MA.

The univ. does not award **EXTERNAL DEGREES**.

**DIPLOMAS.** The following dipls. are open to grads. of any univ. whose qualifs. are approved (usually a degree in the same subj. is required): agric. sci., 1–2 yrs.; agric., 2 yrs.; anthropol., 1 yr.; classical archæol., 1 yr.; mathl. stats., 1–2 yrs.; numerical analysis and automatic computing, 1 yr.; oriental studies, 2 yrs.; prehistoric archæol., 1 yr.; Roman law, 1 yr.; and slavonic studies, 1 yr. Candidates are required to become members of the univ. and reside for 3 terms.

The dipls. in archit. and estate management are open only to persons with the Cambridge BA degree in those subjs. The dipl. in educn. is open only to persons who have previously obtained the cert. in educn. at Cambridge.

The dipls. in compar. legal studies, econ. and internat. law are open only to registered res. students. See Research Students, *below*.

Officers of any of the public services of the Commonwealth, not normally resident in the U.K. having exceptional qualifs., may be candidates for

the dipls. in anthropol. or prehistoric archæol. after 1 term's residence.

**CERTIFICATES.** The following certs. are open to grads. of any univ. whose qualifs. are approved: advanced study in engin. (either in theory of structures and strength of materials, or in control engin.), postgrad. study in nat. sci. (in biochem., chem., metall. or phys.), and hist. and philos. of sci. Candidates are required to become members of the univ. and reside for 3 terms. For the cert. in educn. see Dept. of Educn., *above*. Certs. of proficiency are awarded with degrees in agric., Christian theol., engin. studies and estate management.

Certs. of competent knowledge in mod. langs. are open to any member of the univ. who has resided for 2 terms.

**RESEARCH STUDENTS.** Grads. of any univ., and in exceptional cases non-grads., who can give evidence of ability to profit from a course of supervised res. may be admitted as candidates for the degrees of PhD, MLitt or MSc. They must first obtain admission to the status of res. student, and become members of a coll. or Fitzwilliam House. Enquiries about admission to the status of res. student should be made to the sec. of the Bd. of Res. Studies (L. M. Harvey, [Cath.], MA), The Old Schools, Cambridge (tel.: Cambridge 58933). Res. students are admitted to work in any fac.

Candidates for the degree of PhD are required to pursue a course of res. for 3 yrs.; for the degrees of MSc and MLitt for 2 yrs.; and for the dipls. in compar. legal studies, econ. and internat. law or the certs. of postgrad. study in nat. scis. for 1 yr.; they are placed under the direction of a supervisor, and are required to reside in the univ. during full term, save that in certain cases a candidate for the PhD may be allowed to spend 1 yr. working under supervision elsewhere, or may be granted exemption from 1 yr. on the ground of res. done before admission to Cambridge. After completing the course, candidates are required to submit a dissertation, or thesis, embodying the results of their res., and also (except for the dipls.) undergo an oral or written exam.

Res. students may be admitted, normally for a period of not more than 1 yr., as candidates for degrees of other univs.

**TERMS.** The academic yr. is divided into 3 terms. Michaelmas term: Oct. 1–Dec. 19; Lent term: Jan. 5–March 25; Easter term: April 10–June 18. In order to count a term towards the qualifs. required for a degree, a student is required to reside in the univ. precincts for three-quarters of the term. Most students therefore reside during *full term*, which also lasts for three-quarters of each term, since regular teaching and lecturing are only given in full term. Dates of full term for academic yr. 1961–62: Oct. 9–Dec. 7; Jan. 16–March 16; April 24–June 15. During a period from the Thursday following July 6 to the Saturday following Aug. 12 there are addtnl. lecture courses in agric., engin., law

and most scientific and med. subjs., which students may attend. Students in other subjs. may come into residence in this period to use libraries, etc., but will not receive formal teaching.

Most libraries and labs. are open throughout the yr. except for short periods at Christmas, Easter and in Sept.

**SCHOLARSHIPS AND STUDENTSHIPS.** There are a limited no. of univ. awards, but most are for postgrad. study and are open only to members of the univ. A larger no. of awards are offered by the colls. These include many open entrance scholps. and exhibitions, which are competed for by exams. held in Dec. (Feb. for Fitzwilliam House and March for St. Catharine's and Selwyn Colls.). Full details are given in a sp. number of the *Camb. Univ. Reporter* publ. annually in May and obtainable from the univ. press (for addresses, see p. 889) price 6d.

Trinity Coll. offers exhibitions to enable students of Commonwealth univs. outside the U.K. to read for a BA, LL.B or dipl. at Cambridge; particulars from the sr. tutor, Trinity Coll. Applicants must be made through the principal authority of the student's univ., and must reach the sr. tutor by May 1. For postgrad. awards open to grads. of other univs., see p. 825.

**EXPENSES.** Students are required to pay both univ. and coll. fees. The only recurrent univ. fee is the univ. composition fee (£11 a term in arts facs. and £19 a term in sci. facs.). Since coll. fees vary from coll. to coll., it is not possible to give precise information. Total annual term-time expenditure is likely to be about £400; this would include some allowance for personal expenses. Attendance at long vacation courses would be addtnl., and since the univ. terms only cover about half the yr., a student who has to maintain himself during vacation will usually need about £600 a yr. The following initial fees must be paid before coming into residence: coll. admission fee (£2 to £5); univ. matric. fee (£5); and, at most colls., 'caution money'. The latter is a sum of about £30 (increased by some colls. in the case of students not normally resident in the U.K.) which is returned when the student completes his course. The univ. BA degree fee is £3.

The BOARD OF EXTRA-MURAL STUDIES undertakes the liberal educn. of adults, mainly in the eastern counties, and in a few centres farther afield. The Workers' Educnl. Asscn., together with other voluntary assocns. and the local educn. authorities, are represented on the bd. and are closely associated with the arrangement of its teaching work. Consultation also takes place through the East Anglian Regional Advisory Council for Further Educn. The teaching of the bd. consists mainly of: (a) univ. tutorial classes, extending over 3 winter sessions; (b) univ. sessnl. classes, usually of 20–24 meetings; (c) univ. extension lecture courses, usually of 10–12 meetings; (d) other special courses, many of a pioneer type. Bursaries are awarded annually to men and women in the adult educn. movement

who have shown themselves to be capable of profiting by a course of univ. study, but who, for various reasons, have not had the opportunity.

**Summer Schools.** The bd. holds vacation courses, incl.: (a) an annual summer sch., in co-op. with the W.E.A., mainly for students from tutorial and sessnl. classes, incl. a trg. course for potential tutors in adult educn.; (b) vacation courses for students from overseas, mainly Europe; (c) occasl. summer schs., in co-op. with facs. or depts. of the univ. to meet special requirements. For an experimental period the univ. has placed Madingley Hall at the disposal of the bd. in vacations, and the bd. has arranged there a considerable no. of residential courses for adults. These include courses for army and R.A.F. officers and also for members of the U.S.A.F., for managers, supervisors and apprentices in industry, for trade unionists and for teachers.

Further particulars from the sec., G. F. Hickson, [Cla.], MA, Stuart House, Cambridge (tel.: Cambridge 56275). Asst. secs.: J. M. Y. Andrew, [Cath.], MA; F. V. H. Ramsbottom, [Cath.], MA; A. A. M. Stripp, [Trin.], MA. For names of full-time tutors, see p. 869. The bd. also has the services of about 90 pt.-time tutors and lectrs.

**APPOINTMENTS BOARD.** The bd. helps undergrads. to decide upon the careers which might suit them, and brings together employers seeking recruits and undergrads. seeking employment. 941 permanent appts. were obtained in 1958. For officers, see 'Admin. and Other Staff', p. 870. Address: 6 Chaucer Rd., Cambridge. Telegrams: Appointments, Cambridge. Tel.: Cambridge 54242.

**THE WOMEN'S APPOINTMENTS BOARD** is also at 6 Chaucer Rd., Cambridge (tel.: Cambridge 52629). 55 permanent appts. were obtained in 1958.

**THE UNIVERSITY HEALTH SERVICE** (tel.: Cambridge 58217) is part of the dept. of human ecol. (For staff, see *Human Ecology*, p. 867). All students are invited to attend for a med. exam. in their 1st term. The Univ. Health Centre includes a gymnasium, and is situated at *Fenner's*, the univ. cricket, tennis and athletic grounds.

**GRADUATE ASSOCIATIONS.** There is no soc. of univ. grads., but each coll. has its own grads. assoc.

**UNION SOCIETY.** The Cambridge Union Soc. is open to all male members of the univ. Its best-known activity is debating, but it also contains a libr., restaurant and rooms for soc. activities.

**THE OXFORD AND CAMBRIDGE SCHOOLS EXAMINATION BOARD**, established 1873, examines or inspects and reports on the work of schools which provide educn. of the highest grade. It also holds yrly. exams. and awards a General Cert. of Educn. (G.C.E.) which exempts the holder, under certain conditions, from responsions and the previous exam., the min. entrance requirements of London and other univs., and the prelim. exams. of various

professional bodies, etc. Its exams. are held at schs. in the British Isles, and also in the Middl East, the W. Indies and British Guiana. The regns. of the bd. are publ. by the Cambridge Univ. Press (post free, 2s. 6d.); for addresses see p. 889. Secs.: at Cambridge—A. E. E. McKenzie, [Trin.], MA, 10 Trumpington St (tel.: Cambridge 50658); at Oxford—G. J. R. Potter, MA *Oxon.*, 74 High St. (tel.: Oxford 43549).

**THE UNIVERSITY OF CAMBRIDGE LOCAL EXAMINATIONS SYNDICATE** is one of the examining bodies in England and Wales approved for sec. sch. exams. by the Ministry of Educn. Its membership includes univ. members, principals of schs. and reps. of local educn. authorities. The syndicate conducts sch. exams. in Gt. Britain and overseas, and exams. in Engl. for foreign students.

**General Cert. of Educn.** The exam. for the G.C.E. (at advanced and scholp. levels in June and at ord. level in July and Dec.) is entrusted to a sch. exams. cttee., one-half of whose members are teachers apptd. by the Jt. Cttee. of the Four Secondary Assocs. Sch. teachers, as members of subj. cttees., and as examiners, take a prominent part in this exam. The cert. exempts the holder under certain conditions, from univ. entrance requirements and the prelim. exams. of various professional bodies, and is endorsed by the Ministry of Educn. This exam. is not held in this form outside Europe. Special arrangements are made for the examination of members of H.M. Forces.

**School Exams. Overseas.** The jt. exam. for the sch. cert. and G.C.E. and the higher sch. cert. exam. is held in Dec. in India and Pakistan, Malaya, W. and E. Africa, the Fed. of Rhodesia and Nyasaland, the W. Indies, Mauritius and elsewhere in conjunction with the educn. authorities and in schs. for the British community in some foreign countries. In Malaya, the H.S.C. exam. is conducted jointly with the Univ. of Malaya. The exam. for the Federation of Malaya cert. of educn. is held in conjunction with the sch. cert. exam. in the Federation of Malaya. In W. Africa the sch. cert. is awarded jtlly. with the W. African Exams. Council and is named West African Sch. Cert. In the Sudan it is awarded jtlly. with the Sudan Exams. Council and is named Sudan Sch. Cert. Govt. scholps. to univs. in Gt. Britain are awarded on the syndicate's exams. in a number of countries of the British Commonwealth. The subjs. of these overseas sch. exams. correspond closely to those of the G.C.E. and normally carry the same exemptions in the U.K. In most areas where the exam. is taken candidates can obtain a G.C.E. cert. as well as or instead of a sch. cert. if they reach the necessary standard in 3 subjs.

**Exams. in English.** These exams. for foreign students, which are conducted in assocn. with the British Council, are held in Gt. Britain and about 50 countries overseas. The cert. of proficiency in English\*, which exempts the holder from the

entrance test in English at certain univs., and the dipl. of English studies, which is intended to be of the same standard as a first exam. for a univ. hons. degree, carry the official approval of the Ministry of Education. There is also an exam. for a lower cert. in English.

The exam. for the *Cambridge Cert. in Religious Knowledge* is held in June; this cert. is designed for teachers, church workers and others who desire a satisfactory proof of their knowledge of the subj.

§ The warden of the Durham Colls. and the rector of King's Coll. are alternately vice-chancellor and pro-vice-chancellor for 2-yr. terms.

## GENERAL INFORMATION

The univ. was establd. in 1832. The Coll. of Medicine, founded in Newcastle in 1834, was associated with the univ. first in 1852 and more closely in 1870. The Durham Coll. of Physical Sci., later Armstrong Coll., was founded in 1871 in Newcastle as a part of the univ. The reconstitution of 1908 brought the Durham Colls., the Coll. of Medicine and Armstrong Coll. into a closer relationship. The reconstitution of 1937 carried the process further, establishing a central financial control. It also merged the two Newcastle colls. in King's Coll., Newcastle upon Tyne.

**CONSTITUTION.** The univ. is governed by a visitor, chancellor, vice-chancellor, pro-vice-chancellor, convocation, court, senate and bds. of facs. It includes two divisions, namely, the Durham division and the Newcastle division. The Durham division is governed by a council, an academic bd. and a warden; the Newcastle division by a council, an academic bd. and a rector. The warden and rector are alternately vice-chancellor and pro-vice-chancellor of the univ. for 2-yr. terms.

Convocation is the body of grads. which may make representations to the univ. on any univ. matter. The court appoint profs. and readers on the recommendation of senate, determine the allocation of all funds at the disposal of the univ. and represent the univ. in all negotiations for obtaining grants from public bodies. Senate determine the conditions on which academic distinctions are awarded and are the supreme governing and executive body of the univ. in all academic matters. The central activities of the univ. controlled by senate and court include all degree exams. and a number of specialized activities such as the appts. bd., publicns. bd., sch. exams. bd., inst. of educn., computing lab. and the museum of Roman British antiquities.

The divisions control admission to courses and all teaching. The councils are the governing and executive bodies of the divisions and are advised on academic matters by the academic bds.

For the divisions and affiliated colls., *see below* and p. 891.

**INCOME (1958-59).** £2,790,143, incl. recurrent Treasury grant allocated to the divisions (Durham division, £356,514; Newcastle division, £1,161,602).

## LICENSED HALLS OF RESIDENCE

(Training colls. under Ministry of Educn. licensed by the council of the Durham Colls. as places of residence for students reading for degrees in the Durham division of the univ.)

ST. HILD'S COLLEGE (for women). Founded 1858. Univ. students in residence (1959-60), 44.  
 Telephone: Durham 3491.

Principal—Nina M. E. Joachim, MA *Oxon.*

NEVILLE'S CROSS COLLEGE (for women). Founded 1921. Univ. students in residence (1959-60), 34.  
 Telephone: Durham 2325.

Principal—Mary Whitley, BA *Liv.*

## GENERAL INFORMATION

The univ. was founded in Durham in 1832 after two abortive attempts in earlier centuries. Halls of residence were opened and were later recog. as constituent colls. at various times during the course of the last hundred yrs. Women have been admitted to Durham since 1896 and non-collegiate students since 1871. Until 1946 all Durham

Colleges' students lived in coll., but post-war expansion has made this impossible, and approx. one-fifth of the total number live in licensed lodgings as members of St. Cuthbert's Soc. (men) or St. Aidan's Soc. (women). Teaching is organized centrally, and all colls. and socs. take students for all courses. St. Chad's and St. John's Colls.

are also recog. theol. colls. of the Church of England, and provide full postgrad. trg. for ordination candidates.

Various depts. of the division are now housed in different parts of the city, and a plan showing their position is publ. in the *Durham Colleges Handbook*.

INCOME (1958-59). £506,000.

**LIBRARY.** Contains more than 210,000 vols., incl. 199 incunabula and extensive collections of older books, notably on patristics and Engl. hist. 2 large sections, for sci. and oriental studies, the latter of which contains valuable sp. material, are separately housed.

**LABORATORIES.** Appl. phys., bot., chem., geol., phys., radiochem., zool. at South Rd.; psychol. at Kepier Terrace.

**OBSERVATORY.** Erected in 1841; equipped for work in astron., meteorol. and seismol.; library includes valuable collection of periodicals and other publicns. on these subjects.

**BUSINESS RESEARCH UNIT IN DEPT. OF SOCIAL STUDIES.** Establ. 1960 on exper. basis for 5 yrs. to investigate problems in field of industr. organization, with sp. reference to the N.E. region.

**GULBENKIAN MUSEUM FOR ORIENTAL ART AND ARCHÆOLOGY.** Opened 1960. Elvet Hill, Durham.

**ADMISSION.** Those wishing to read in the Durham Colls. for a degree (awarded by the Univ. of Durham) must satisfy the univ. matric. requirements (see Appendix II). Applicns. for admission should be made to the hd. of one of the colls., and not to the univ. office or to one of the depts.

The normal last day for the receipt of applicns. is Jan. 31.

**FIRST DEGREES** (of Univ. of Durham). Courses are provided for degrees of the Univ. of Durham as listed below. 3 yrs.—BA in gen. studies, BA in soc. studies, BA hons. (in classics, Engl., French, geog., German, hist., maths., music, oriental studies, philos., pol. & econ., psychol., Spanish, theol.), BSc in gen. studies (may be awarded with hons.), BSc hons. (in appl. phys., bot., chem., geog., geol., maths., phys., psychol., zool.).

No pt.-time courses.

**HIGHER DEGREES** (of Univ. of Durham). BD, DD, MA, MA(EconStudies), MLitt, MEd, DLitt, MSc, DSc, MMus, DMus, PhD. For details, see p. 892.

**DIPLOMAS.** Postgrad.: univ. dipls. in anthropol. (2 yrs.), Arabic (3 terms), biblical studies (3 terms), theol. (6 terms); univ. inst. of educn.'s dipl. in educn. (1 yr.).

**CERTIFICATE.** Univ. cert. in bibl. studies (3 terms).

**ALLIANCE.** Relationship with fac. of letters, Clermont-Ferrand, for annual exchange visits of members of staff, exchange of publicns., and possible provision of lecteurs and lectrices.

**STUDY LEAVE.** There is a scheme by which

members of staff may obtain sabbatical leave from time to time.

**FEES.** *Annual charges* (incl. tuition, bd. and lodging, and subs., but excl. non-recurrent registration fee of £1). University, Hatfield and Grey Colls.: caution money, £10; arts, £240; geog., maths. and psychol., £245; sci., £250. St. Chad's and St. John's: caution money, £5; arts, £247: 10s.; geog., maths. and psychol., £252: 10s.; sci., £257: 10s. St. Mary's: caution money, £10; arts, £240; geog., maths. and psychol., £245; sci., £250. Resident students of St. Cuthbert's Society pay: arts, £210; geog., maths. and psychol., £215; sci., £220. Resident students of St. Aidan's Society pay: caution money, £10; arts, £231; geog., maths. and psychol., £236; sci., £241. Some of these charges will be increased in Oct. 1961. For fees for matric., exams. and degrees, see under Univ. of Durham, above.

**AWARDS** open to students entering the Durham Colls. to read for a first degree. 10 Foundation scholps. or exhibitions are awarded by exam. each yr. The annual value of a scholp. is £70, and of an exhibition, £40. Other scholps. available are the Pears, £40; Pemberton, £40; Wansbrough, £50; Horsfall (3), £40; Christopher Mather, £40; Organ (2, one each in Univ. C. and Hatfield C.), £40 each; Winifred Foster, £40; Ellerton, £40; Winchester, £40; Hatfield, £40; Harris, £40. All may qualify for supplementation by the Ministry of Educn.

**POSTGRADUATE AWARDS** open to grads. of other univs.: see p. 825.

**GRADUATES' ASSOCIATIONS.** All the colls. in Durham have old students' assocns. under various titles. Further information may be obtained from the sec. of the assocn. at the coll. concerned.

**STUDENT RESIDENCES.** All the colls. provide residential accomm. in coll. In addition, accomm. is available for 30 men students of St. Cuthbert's Soc. in the soc.'s premises in South Bailey; and for 46 women students of St. Aidan's Soc. in the soc.'s premises in North Bailey and at Shincliffe Hall.

**STUDENTS' SOCIETIES, CLUBS, ETC.** The Durham Colls. students' representative council sponsor a considerable no. of socs. and clubs covering a wide field of activities. The Durham Union Soc. (for men) and the Durham Women's Union Soc. organize debates and lectures by outside speakers and provide club facilities.

**STUDENTS' ATHLETIC FACILITIES.** Two groups of sports grounds are available for outdoor activity, and every coll. has its own boat-house.

**PUBLICATIONS.** *Warden's Report*; *Durham Colleges Handbook* (Sept.); *The New Durham* (students); *Palatinate* (students' newspaper).

## GENERAL INFORMATION

The Newcastle upon Tyne Sch. of Med. & Surg. was founded in 1834, became associated with the Univ. of Durham in 1852 and adopted the title of Univ. of Durham Coll. of Med. in 1870. Armstrong Coll., Newcastle upon Tyne, so named in 1904, was founded in 1871 as the Univ. of Durham Coll. of Physical Sci. In 1937 the two colls. were merged to form King's Coll., Newcastle upon Tyne, in the Univ. of Durham.

INCOME (1958-59). £1,604,851.

DEVELOPMENT OF COLLEGE AREA. Devel. is taking place on a site not far from the city centre, around the original bldgs. of Armstrong Coll. New bldgs. completed since the war include chem. block, Stephenson bldg. (various engin. depts. and maths.), civil engin. bldg., a new arts block, an extension to the chem. block, an extension to library and a new phys. bldg. A new phys. res. block is being built and there are plans for addnl. halls of residence, extension of students' union and a new staff club.

LOCATION OF DEPARTMENTS, etc., not in main college area. Cockle Park Exper. Stn. (agric.), Morpeth, Northumberland; Dove Marine Lab. (zool.), Cullercoats, Northumberland; dept. of educn., 11-13 Leazes Terrace, Newcastle upon Tyne, 1; Nafferton Farm, Stocksfield, Northumberland; Sutherland Dental Sch., Northumberland Rd., Newcastle upon Tyne, 1.

LIBRARY, approx. 250,000 vols. and approx. 65,000 pamphlets (incl. the med. libraries). There are also deptl. libraries. Sp. collections: Heslop, Engl. dictionaries (277 vols.); Merz, philos., math. and general (3940 vols.); oriental, with sp. ref. to India (2762 vols., 2082 pamphlets); Gertrude Bell, oriental (1963 vols.); Robert White (c. 4000 vols.), Engl. and Scottish ballads, border hist.

MUSEUMS. Anat., pathol., dent., zool., geol., mineral., chem., mining, anthropol., Roman-British archæol. Technol. specimens.

LABORATORIES with spec. facilities for res. in mech., marine, civil, electr. and chem. engin., naval archit., mining and metall.; in chem., phys., geol., bot. and zool. (incl. marine biol. at Dove marine lab.); and in agric. (incl. agric. engin.).

The agric. dept. manages the coll. farm at Nafferton, Prudhoe stn., and the coll. exper. stn. at Cockle Park; it also has the use of other county and crown estates for teaching, res. and demonstration purposes.

ADMISSION. Those wishing to read in the coll. for a degree (awarded by the Univ. of Durham) must satisfy the univ. matric. requirements (see Appendix II). There are reduced requirements for admission to study for the univ. dipls. in econ. studies, pub. admin., for the univ. cert. in soc. studies, and for the coll. certs. in archit., fine art and town planning; candidates for admission to the cert. in soc. studies course should be over 20.

Enquiries concerning admission to non-med. depts. of the coll. should be addressed to the Registrar, King's Coll., Newcastle upon Tyne, 1; students wishing to read med. should write to the Asst. Registrar, the Med. Sch., King's Coll., and dent. surg. to the Asst. Registrar, Sutherland Dent. Sch., Northumberland Rd., Newcastle upon Tyne, 1.

The last dates for receipt of applicns. are, for med., Nov. 30; for all other courses, incl. dent. surg., Jan. 31, preceding the Oct. of entry.

FIRST DEGREES (of Univ. of Durham). The coll. provides courses for degrees of the Univ. of Durham as listed below. 3 yrs.—BA (hons. may be taken in Latin & Greek; Latin lang. & lit. ## GENERAL INFORMATION

The Univ. of Exeter had its origin in the local demand for a centre for higher educn. in the S.W. of England in the yrs. following the great exhibition of 1851. The successful establt. of a sch. of art in 1851 was followed by the erection in 1865 of a bldg. to house a county museum, library and sch. of art as a memorial to the Prince Consort.

Univ. extension lectures were organized in this bldg., and candidates prepared for South Kensington sci. and arts exams. In 1895 classes were extended and Exeter Tech. and Univ. Extension Coll. was establd., becoming in 1895 the Royal Albert Memorial Coll. The preparation of students for London Univ. external degrees began

in 1901. In 1922 the coll. was reconstituted as the Univ. Coll. of the South West of England, and received its first Treasury grant as a recog. univ. instn. The residential nature of the present univ. was early establ., and there are now 9 halls of residence. In 1955 a royal charter founding the Univ. of Exeter empowered the univ. to incorporate the univ. coll.

**UNIVERSITY PRECINCT.** Accommod. was originally provided in extensions of the Royal Albert Memorial Bldg. in Queen St. In 1906 the univ. was moved to a new bldg. in Gandy St., which is now occupied by the fac. of law, the dept. of extra-mural studies, the psychol. section of the dept. of educn., and the inst. of educn. In 1922 the Streatham estate was acquired, partly by gift of W. H. Reed, former mayor of Exeter. To this site, which now covers 200 acres on the northern side of the city, the univ. is being gradually transferred. Bldgs. already erected incl. the Washington Singer labs. (1931), the Roborough library (1940), the Hatherly biol. labs. (1952), the Maiv Harris chapel (1958) and the Queen's bldg. (1958) housing the facs. of arts and soc. studies and the dept. of geol. Northcote House (admin. depts.), Devonshire House (guild of students) and the univ. refectory were completed and occupied in the summer of 1960.

**CONSTITUTION.** The supreme governing body of the univ. is the court, comprising some 230 reps. of local authorities and organizations, learned bodies, benefactors and local schs., the officers, officials and reps. of staff and grads. The court meets annually to receive reports of council and senate, pass the audited statement of accounts, appoint univ. officers, and amend or repeal statutes. The chief executive body is the council, whose members include the officers of the univ., reps. of court, senate, convocation and local authorities. Academic matters are controlled by the senate, which comprises the profs. and hds. of all teaching depts. and 6 reps. of the non-professorial staff. The bds. of the 4 facs., under the chairmanship of their deans, are responsible to the senate for teaching and exams. within the facs. The deans, elected by general meetings of facs., hold office for periods of 1 to 4 yrs. The chancellor, as chief officer of the univ., presides over court and council. In her absence, a pro-chancellor acts as chairman of these bodies. The vice-chancellor, the chief academic officer, is *ex officio* chairman of senate. The registered grads. of the univ. form convocation, which elects reps. to serve on court and council, and meets annually to discuss and comment on any matters concerning the univ.

**INCOME (1958-59).** £439,205 (Treasury grant, 71.6 per cent.; grants from local authorities, 6 per cent.; fees, 16 per cent.; misc., 6.4 per cent.).

## GENERAL INFORMATION

The Univ. Coll. of Hull, incorporated in 1927 and opened in 1928, was founded through the generosity of the Rt. Hon. Thomas Robinson Ferens, High Steward of Hull and a leading industrialist in the city, who in 1925 donated £250,000 to endow a univ. coll. This was followed by grants from the corp. of Kingston upon Hull who gave £150,000 towards the cost of bldgs. and equipment and also an annual grant towards maintenance; and from another industrialist, Mr. G. F. Grant, who donated £100,000. In 1945 it was recognized by the Univ. Grants Cttee. for state grants and in 1954 was merged in the Univ. of Hull on the grant of a royal charter.

**CONSTITUTION.** The supreme governing body of the univ. is the court, presided over by the chancellor and consisting of about 280 members rep. of educnl. bodies, local authorities, parliament, benefactors, churches, learned socs., professional bodies, comm. and industry. The executive body is the council, which consists of academic and lay members under the chairmanship of one of the pro-chancellors. The academic authority is the senate, presided over by the vice-chancellor, and consisting of all profs. and hds. of depts. of the univ. and 4 elected members of the non-professorial teaching staff. The fac. bds. are responsible under the senate for the teaching and exams. within the facs.

**INCOME (1959-60).** Total income, £581,832 (Treasury grant, 75.7 per cent.; local authorities' grants, 2.8 per cent.; fees, 14.7 per cent.; endowments, 5.8 per cent.; other sources, 1 per cent.).

**FACULTIES AND DEANS.** *Arts*, Prof. R. L. Brett (Engl.); *sci.*, Prof. N. B. Chapman (chem.); *soc. scis. & law*, Prof. H. R. Wilkinson (geog.).

**UNIVERSITY PRECINCT.** The main site of the univ. is in Cottingham Rd., about 2½ miles from the centre of the city, and includes teaching and res. accomm. for all depts. except educn., maths. and adult educn., which occupy houses adjacent to the main site. The original bldgs. for arts and sci. were erected about 1928. Permanent bldgs. erected since the war include a chem. block, students' union and refectory, boiler house, changing rooms, extensions to halls of residence, and a new hall of residence completed in 1957. Extensions for chem., a new bldg. for bot. and zool. and a new bldg. for phys. are now in hand. The univ. has ample space on its present site

for all foreseeable development in teaching and res. accomm. The univ. halls of residence are all situated in the village of Cottingham, some 2-3 miles from the univ. The univ. coll. was developed on a fully residential basis, and although this is no longer possible with increasing nos. in the univ., it is hoped to continue to develop as a residential univ. in the future. The sites in Cottingham have ample space for bldg. addnl. halls, and new halls and extensions to the present halls are planned in the next few yrs. A new library bldg. was opened in Oct. 1959. Future plans on the main site include a new hall of residence for postgrads., an exam. hall and an arts bldg.

**LIBRARY.** Over 130,000 vols.; includes material for advanced res. More than 550 current issues of learned periodicals and scientific proceedings.

**LABORATORIES, ETC.** Bot., chem. (org., phys. & inorg.), geog., geol., phys., psychol., zool.; teacher trg. lab.; bot. garden; bot. field station, Spurn Head; coastal res. unit (geog.), Spurn Head; marine biol. lab. (zool.), Scarborough.

**ADMISSION.** See Appendix II.

**FIRST DEGREES.** BA—joint and special; BSc—pass, joint and special; LLB—hons.; BSc(Econ)—hons. Degree courses ordinarily cover 3 yrs. In final exam. for BA spec., candidates are examined in one main subj., and for the jt. degree in 2 main subjs. Subjs. offered—classics, Engl., French, geog., German, govt., Greek (with Latin), hist., Latin (with Greek), law, maths., music, philos., psychol., soc. studies, sociol., Swedish, theol. In final exam. for BSc spec., candidates are examined in one main subj., and for the jt. degree in 2 main subjs. Subjs. offered—bot., chem., geog., geol., maths., philos., phys., psychol., zool. Under certain conditions candidates for the BA spec. (geog. & psychol. only) and the BSc spec. and jt. degrees may be allowed to transfer to a course for the BA or BSc pass degree. Hons. can be obtained in either jt. or spec. courses for BA and BSc. Candidates at final exam. may be examined orally or by practical exam. in addition to written papers. The dept. of law prepares candidates for the bar and solicitors' exams. as well as for the univ.'s degrees. Candidates for BSc(Econ) take a qualifying exam. after 1 yr., and must ordinarily pass in this before proceeding to the 2nd yr. Candidates for final exam. for LLB and BSc(Econ)

## GENERAL INFORMATION

The Leeds Sch. of Medicine, founded in 1831, and the Yorkshire Coll. of Science, founded in 1874, were united in 1884. The coll. formed part of the Victoria Univ., Manchester, from 1887 to 1904, when a univ. was establd. in the city of Leeds by royal charter.

The univ. has for many years maintained the balance of its facs., arts being at present the largest numerically. Through close connexions with and generously sustained help from industry, however, special strengths in pure and appl. scis. have been developed. In recent yrs., the use of special supplementary Treasury grants for the devel. of higher technol. educn. has made possible further major advances in these fields. Recent devels. incl. a high energy radiation lab. at Cookridge and a fully staffed and equipped electronic computing lab.

**CONSTITUTION.** The court is the governing body of the univ. and is empowered to regulate and determine all univ. matters in the ways required by the charter and statutes. It includes in its membership the council, reps. of the senate, teaching staff, convocation, professional bodies, local authorities, other univs., colls. and sche.

The council also has a widely representative membership and is the executive body of the univ., exercising such powers as are granted to it by the court and by statute, incl. the institution, after a report by senate, of teaching offices, and management of the financial affairs of the univ. Subject to statutes and ordinances and to review by the court, the senate controls and generally regulates instructn. and educn. The chancellor is the hd. and chief officer of the univ. and is pres. of court and council. In her absence, the pro-chancellor presides at meetings of these two bodies; the vice-chancellor is *ex-officio* chairman of senate. The chancellor, pro-chancellor and vice-chancellor are elected by the court on the nomination of council.

**INCOME (1958-59).** Total income, £2,160,306 (parliamentary grants, 71 per cent.; local authorities grants, 3 per cent.; fees, 12 per cent.; interest on investments, 1 per cent.; other sources, 13 per cent.).

**UNIVERSITY PRECINCT.** In May 1960 the univ. publ. a report on its future physical devel. prepared by its consultant architect, Mr. Peter

Chamberlin. His main proposals include the sinking of part of the inner city ring road below ground and building above the road a new med. centre for Leeds incorporating 4 hosps. and new med. and dent. schls. The area of the precinct would be increased from 30 to 90 acres, and would include residential accomm. for 2500 students.

**FACULTIES AND DEANS.** *Arts*, Prof. W. Walsh (educn.); *econ. & soc. studies*, L. F. Henriques (soc. studies); *law*, Prof. P. S. James; *med.*, A. B. Pain (surg.); *sci.*, Dr. F. E. Hoare (phys.); *technol.*, Dr. A. S. Leah (mech. engin.).

## GENERAL INFORMATION

Univ. Coll., Liverpool, founded by royal  
 charter 1881, was admitted into the Victoria Univ.,  
 Manchester, in 1884. In 1903 the Univ. of Liver-  
 pool was established by royal charter and the coll.  
 was absorbed in it. Expansion was rapid, both  
 in bldgs. and in numbers of students. To the  
 older degrees in arts, sci., med. and law, degrees

in archit., dent. surg. and engin. were soon added.  
 A sch. of vet. med. was establd. in 1904, affiliated  
 to the Royal Coll. of Vet. Surgeons, and in 1914  
 degrees in vet. sci. were establd. Devel. was  
 halted by the outbreak of the first world war,  
 towards the prosecution of which the univ. made  
 notable contributions in the fields of sci. and med.

Between 1918 and 1939 the numbers of students and staff increased steadily, and despite financial stringency, devel. included the bldg. of a geol. lab., an animal hosp., the extension to the students' union, a new lib. and a hall of residence for men students. From 1945 to the present day the univ. has been engaged in an unprecedented expansion, and in addn. to other bldgs., new chem. labs., a new med. sch., phys. bldg., civil engin. and bldg. sci. labs. and 2 halls of residence (one for men and the other for women) have been erected.

**CONSTITUTION.** The supreme governing body of the univ. is the court which, subject to the charter, statutes and legislation, has absolute power within the univ. It consists of the members of the council and senate, reps. of local authorities, professional bodies, schools, colls. and convocation, and of certain officials *ex officio*. It meets annually to consider the report of the council and of the univ., and to approve the accounts and alterations to ordinances.

The council is the executive body of the univ. and consists of the officers of the univ. and reps. of the court, city council, senate, facs. and convocation; it administers the whole revenue and property and conducts all affairs of the univ., and, on nomination of the facs. and senate, appts. profs., officials and members of the teaching staff.

The senate is responsible to the council for the general regulation of discipline, instructn., res. and exams. within the univ. and for recommendations for degrees, dipls., certs., scholps. and prizes.

Each of the facs. of the univ. is responsible to the senate for courses of study and regns. as to awards, and, in general, the various business transactions falling within each fac.'s province.

**INCOME** (yr. ended July 31, 1959). Total income, £1,941,101 (Treasury grants, 69.8 per cent.; other govt. depts., 4.5 per cent.; local authorities, 2.6 per cent.; endowments, 8.5 per cent.; fees, 11.6 per cent.; other sources, 3 per cent.).

**FACULTIES AND DEANS** (session 1960-61). *Arts*, Prof. K. Muir (Engl. lit.); *engin.*, Prof. J. M. Meek (electr. power engin.); *law*, Prof. D. R. Seaborne Davies; *med.*, J. M. Leggate; *sci.*, Prof. K. F. Bowden (oceanog.) (full-time sub-dean: Dr. V. J. Occleshaw); *vet. sci.*, Prof. J. G. Wright (vet. surg.).

**UNIVERSITY PRECINCT.** The older bldgs. of the univ. are situated in and around Brownlow Hill within a mile of the city centre. A long-term bldg. programme has been initiated and in this univ. has been greatly helped by the corporation of Liverpool, which has reserved for its use an area of 84.8 acres around the present site in Brownlow Hill. Bldgs. already completed include those for nuclear phys., civic design, inorg. & phys. chem., med. sch., the univ. press, dental sch. extn., civil engin. and bldg. sci., and phys. Bldgs. in course of constrcn. include those for vet. anat. & pathol., maths. & oceanog., and org. chem

**LIBRARY.** About 450,000 vols. Most important collections received by gift or bequest: Thomas Glazebrook Rylands (1900), rich in early geog., astron., matha. and British local hist.; William Noble (1912), containing most of the finely printed books published in England since about 1880; R. A. Scott Macfie (1935), entirely devoted to the gypsies. The library possesses a small but fairly representative collection of mediæv. MSS, including an important text of *Piers Plowman*, and about 250 incunabula. In addition to the Harold Cohen library, opened in 1938, there are numerous deptl. libraries, all administered by the univ. librarian.

**LABORATORIES, ETC.** Equipment for advanced study and res. in all depts. There is a marine biol. stn. at Port Erin, Isle of Man; univ. bot. gdns. at Ness, Wirral; and a vet. field stn at Neston, Wirral. The Liv. observatory & tidal inst. at Bidston, Wirral, is maintained by the univ.

## GENERAL INFORMATION

*The univ. authorities wish it to be clearly understood that they can accept no responsibility for any information concerning exams. or procedure except*

*that contained in the latest edition of their own official regns., which can always be obtained on applicn. at the univ. offices, Senate House, London, W.C.1.*

\* Not in receipt of U.G.C. grants

The univ. was constituted by royal charter in 1836 as a body empowered to grant degrees to students of approved institutions after exam. and, until 1900, its work was confined to the examination of students. The system whereby entrance to its exams. was restricted to students of certain affiliated colls. was abolished, except for exams. in med., in 1858. In 1878 its degrees were thrown open to women, London being the first of the univs. of Gt. Britain to adopt this policy.

In 1900 the univ. was reconstituted so as to strengthen the ties between it and the institutions engaged in higher educn. in the London area. The senate was empowered to admit as *schools of the univ.* institutions, situated within the admin. county of London and not carried on for the private gain or profit of the owners, which provide educn. of univ. standard, and was required to obtain reports at prescribed intervals on the efficiency of such schs. A sp. form of recognition could be given to an institution within the same area founded for res. or the cultivation of any sp. branch of sci. or learning, and the Lister Inst. of Prev. Med. has been admitted in this category.

The two original colls. of the univ. have been incorporated in it, Univ. Coll. in 1907 and King's Coll. in 1910, by special acts of parliament.

There are now 14 non-med. and 15 med. schs. (incl. 2 postgrad.) in receipt of U.G.C. grants, and 4 schs. not in receipt of U.G.C. grants. In addn. there are 10 univ. institutes. There are 18 non-univ. instns. having some *recognized teachers*.

**CONSTITUTION.** The univ. is governed under statutes made under the Univ. of London Act, 1926.

The court has the custody, control and disposition of all the property, funds and investments of the univ. and controls its finances. It comprises the chancellor, vice-chancellor, chairman of convocation and 14 other members, of whom 6 are apptd. by the senate, 4 by H.M. in Council and 3 by local authorities, 1 member being co-opted. One of its most important duties is to apply for the grants for univ. purposes to the Univ. Grants Cttee., the London County Council, county councils and county borough councils of the home counties, and other public bodies, and to distribute the sums so received between univ. instns. and those schs. which receive financial aid from the univ.

The court is also responsible for the devel. of the univ. precinct (*see below*).

The senate is the supreme governing and executive body of the univ. in all academic matters. It is composed of reps. of the facs. and of convocation, the principal, and certain hds. of schs. All *appointed teachers* at schs. of the univ. are apptd. by the senate, which also has power to recognize as teachers of the univ. members of the teaching staff of certain approved public educnl. instns., whether schs. of the univ. or not.

Convocation consists of grads. of the univ. who have attained the age of 21 yrs., together with members of the 5 standing cttees. of the senate,

who have paid the prescribed fees. It elects the chancellor, and 18 members of the senate in addn. to the chairman of convocation, who is *ex officio* a member of the senate and court. Convocation may discuss any matter relating to the univ. and declare its opinion thereon to the court or senate.

**UNIVERSITY PRECINCT.** The administration of the univ. is centred at the Senate House, W.C.1, which provides accomm. for offices and the univ. library, as well as for the Insts. of Educn., Historical Research and Slavonic Studies. The bldg., designed by Charles Holden and opened in 1936, was erected on part of the Bloomsbury site, an area of 11½ acres purchased in 1927. A further 13½ acres were purchased from the Bedford estate in 1951. Substantial purchases of property have also been made on behalf of Univ. Coll., which now owns the greater part of the rectangle in which it is situated. This rectangle, together with the original Bloomsbury site and the areas purchased from the Bedford estate since the war, provides a compact area between the British Museum and the Euston Rd. for development for univ. purposes and a comprehensive outline development plan for the area has been prepared by Prof. Sir Leslie Martin.

**INCOME (1958-59).** The total income for recurrent purposes of the univ., incl. all its schs. and instns., was £14,839,428 (Treasury grants, 71.7 per cent.; grants from other govt. depts., 0.1 per cent.; grants in aid from local authorities, 2.9 per cent.; fees (incl. Ministry of Educn. tuition grants for teachers in trg.), 9.9 per cent.; endowments for both particular and general purposes, 1.6 per cent.; donations and subs., 0.6 per cent.; grants for res. and income from res. contracts, 7.6 per cent.; contributions for services rendered, 3.2 per cent.; other sources, 2.4 per cent.).

The **UNIVERSITY LIBRARY** is a general library incl. all subjs. studied in the univ., but it is specially strong in the humanities, particularly in Engl. lit., incl. large Shakespeare collection. It contains about 700,000 vols. and 4000 current periodicals, and provides reading accomm. for 450 readers and an extensive loan service for members of the univ. Among its sp. collections are the Goldsmiths' libr. of econ. lit. (c. 70,000 vols. & pamphlets); the Durning-Lawrence libr., containing an important collection of books by and about Sir Francis Bacon, and a good working libr. on Shakespeare including the four folios; the De Morgan libr. of mathl. and astronomical books; the Quick memorial libr. of books on educn., especially rich in old text-books for the school-room; the Harry Price libr. of magical lit.; the Eliot-Phelps collection of Spanish books and works on the history of Spain; and the Sterling libr. of rare Engl. books.

The music libr. contains books and periodicals on music, music scores, gramophone records and pianola rolls, and is equipped with audition rooms. The photographic dept. is equipped to produce photostats, microfilms, enlargements, reflex and

diaz copies, and work is undertaken both for instns. and members of the univ. and also for those unconnected with the univ.

Each sch. and institution of the univ. has its own library, and some particulars of these will be found in the respective *Yearbook* entries below. For further details of the libraries of the univ., see R. A. Rye: *Students' Guide to the Libraries of London*, 1927; R. Irwin: *The Libraries of London*, 1949; and L. M. Harrod: *The Libraries of Greater London*, 1951.

**FACULTIES AND DEANS.** *Arts*, Prof. J. S. Spink (Bedford Coll.); *econ. (incl. comm. & industry) and pol. sci.*, H. Tout (Univ. Coll.); *engin.*, Prof. J. Greig (King's Coll.); *laws*, Prof. G. D. Nokes (King's Coll.); *med.*, Dr. H. B. May (London Hosp. Med. Coll.); *music*, Dr. W. Dunwell (Trinity Coll. of Music); *sci.*, Prof. J. A. B. Gray (Univ. Coll.); *theol.*, Rev. G. F. Nuttall (New Coll.).

**TERMS** for univ. and inter-collegiate courses, 1959-60: Oct. 7-Dec. 16; Jan. 13-March 23; April 27-July 6. 1960-61: Oct. 5-Dec. 14; Jan. 11-March 22; April 26-July 5.

**ADMISSION.** Intending students who are suitably qualified (see Appendix II) must apply to the sec. to the univ. entrance requirements dept., on form M (obtainable from the sec.), for a 'statement of eligibility'. They must apply to the sch. of their choice (see pp. 962-963) for admission. The admission of students, provided they satisfy univ. entrance requirements, is entirely a matter for the individual schs. In all facs., except theol., med., laws and econ., fac. requirements (see Appendix II) must also be satisfied.

**DEGREES.** BD, MTh, DD; BA, MA, DLit; LLB, LL.M, LL.D; BMus, DMus; MB BS, MD, MS; BDS, MDS; BVetMed, MVetMed; BPharm, MPharm; BSc, MSc, DSc; PhD (in all facs.).

The BSc and DSc are granted in the facs. of sci. (incl. agric., hort., and, for internal students, BSc in household sci. and in nutrition), engin., and econ. (incl. estate management); the MSc in sci. (incl. agric., hort., and, for internal students, household sci. and nutrition), engin. and econ. (incl. estate management).

**EXTERNAL STUDENTS** are permitted to proceed to the degrees of BD, BA, LL.B, BMus and BSc (in the facs. of sci. and econ.) without restriction on the nature of the course of study, which may be pursued in a teaching instn. in London (not forming part of the Univ. of London); in a teaching instn. situated elsewhere in the United Kingdom or overseas; or by private study. Exams. are held each yr. at centres located in many parts of the U.K. and in many countries overseas.

External students are also permitted to proceed to the degrees of MB BS, BDS, BPharm and BSc (in the fac. of engin.) provided that an approved course of study has been completed in a teaching instn. which has been recognized by the Univ. of

London for the purpose of these exams. (With very few exceptions, all such instns. are situated in the U.K.)

External students who wish to proceed to the degree of BA or BSc with sociol. as the principal subj. are normally required to pursue their studies in the U.K. and to attend course at approved instns., but exceptions may be made in sp. cases.

A student who wishes to proceed to the external higher degrees of MTh, MA, LL.M, MD, MS, MDS, MPharm and MSc (in the facs. of sci., engin. and econ.) and/or to the external degree of PhD (in all facs.) must normally already possess an appropriate bachelor's degree of the Univ. of London.

The degrees of DD, DLit, LL.D, DMus and DSc (in the facs. of sci., engin. and econ.) are not differentiated between internal and external students, but all candidates for these degrees are required to hold at least one degree of the Univ. of London in the appropriate fac.

All external students are required to register, and all must previously have matriculated or must satisfy the min. entrance requirements of the univ. at the time of first registration and the addnl. requirements prescribed before admission to the exams. for the particular degree. Copies of all regns. may be obtained from the external registrar.

An **INTERNAL STUDENT**, before being allowed to enter as such for any exam., must, unless specially exempted, have attended courses in all the subj. thereof. For a 1st degree in any fac. he must have completed an approved course of study extending over at least 3 yrs. which must, ordinarily, have been continuously pursued, but not necessarily all at one institution. As a general rule, hons. may be taken at the final exams. A course of study extending over not more than 1 yr. taken in another univ. approved for the purpose subsequently to a student's passing the inter. may be accepted, subject to regns., in lieu of a course taken in this univ.

**INTERNAL DEGREES.\*** Courses for internal degrees are provided at the following:

*Theology.* King's Coll. Theol. Dept., New Coll., Richmond Coll.

*Arts.* Courtauld Inst. of Art, Sch. of Slavonic and E. European Studies, Bedford Coll. (for women), Birkbeck Coll. **MEDICINE.** MB BS degrees: the course for the MB BS degrees extends normally over 5½ yrs. The 1st exam. for med. degrees (chem., phys. and biol.) is taken after 3 terms. G.C.E. at advanced level or inter. in sci. or higher sch. cert. may carry exemption from whole or part of 1st MB. The 2nd exam. for med. degrees (human anat., physiol. and pharmacol.) is normally taken 5 terms after passing the 1st exam. The course for the 3rd (final) exam. for med. degrees extends over 3 yrs. and is divided as follows: pt. I: pathol.; pt. II: med., appl. pharmacol. and therapeutics; pt. III: surg.; pt. IV: obstet. & gynæcol. Pt. I may normally be taken after 30 mos.' course, but after completing the full 36 mos.' clin. course a candidate must enter for all the pts. of the exam. which he has not already passed.

From the following institutions outside the U.K. and the Republic of Ireland, the Univ. of London accepts, subject to a yr.'s study in the U.K., certs. for the complete course of med. educn., incl. clin. med. and surg. preparatory to the MB BS degrees for external students: univs. of Dalhousie, McGill, Toronto, Adelaide (with infirmary), Melbourne (with Melb. and Alfred hosps.), Sydney (with infirmary and Prince Alfred hosp.), New Zealand (with Dunedin hosp.); Univ. of Ceylon; Univ. of Malta; following Indian and Pakistan med. colls.—Grant (Bombay), Seth Gordhandas Sunderdas (Bombay), Bengal (Calcutta), Lahore Univ. Med. Coll., Lucknow Univ., Madras Univ. Med. Coll.

*Higher degrees in med. & surg.* PhD in med. MD: consists of a thesis which may be submitted not less than 7 yrs. after obtaining full registration with the General Med. Council (4 yrs. in certain exceptional circumstances); a candidate must hold the MB BS degrees of the Univ. of London. MS: consists of a thesis which may be submitted not less than 5 calendar yrs. after candidate has obtained MB BS degrees of the Univ. of London.

**BDS degree:** the course for the BDS degree normally extends over 5½ yrs. The following exams. are taken: 1st exam. for med. degrees after 1 yr.; 2nd exam. in dent. surg. (gen. anat., physiol. and sp. anat.), 1 yr. after passing 1st MB; 3rd exam. in dent. surg.: pt. I (prosthetic dent.), 1 yr. after passing 2nd BDS; pt. II (med., surg., pathol. and bacteriol., pharmacol. and therapeutics), 28 mos. after passing 2nd BDS; pt. III (dent. surg. incl. sp. pathol., and orthodontics), 3½ yrs. after passing 2nd BDS.

**MDS degree** is open only to persons who have obtained BDS degree of this univ. as internal students. The exam. is in 2 pts., of which pt. I may be taken not less than 2 calendar yrs., and pt. II not less than 5 calendar yrs. after the candidate has obtained BDS degree. Pt. I of the

exam. consists of 2 written papers in dent. surg. and pathol., and clin., oral and practical exams. Pt. II consists of a thesis. A candidate may also be examined orally.

**BPharm degree:** the final exam. is in two pts. Pt. I is taken at the end of the 2nd yr.'s course, and includes pharmaceuticals, pharm. chem., pharmacognosy and pharmacol. Pt. II is taken at the end of the 3rd yr.'s course, and consists of any 2 of the following: pharm. chem., pharmacognosy, pharmacol., pharmaceuticals or pharm. engin. sci.

**MPharm degree:** a candidate must normally have obtained BPharm degree (revised regns.) of the univ. and pursue a course for not less than 2 yrs. (1 yr. for a candidate who obtained hons. at the BPharm exam. as internal student and offers for MPharm either of the subjs. taken at pt. II of BPharm). MPharm is conferred in following subjs.: pharm. chem., pharmaceuticals, pharmacol., pharmacognosy, or pharm. engin. sci.

**BVetMed degree (internal only):** the course for the BVetMed degree extends over 5 yrs. 1 term. The vet. pre-clin. exam. pt. I is taken after 3 terms' course at the Royal Vet. Coll. and the vet. pre-clin. exam. pt. II after a further 5 terms' course. The course for the final exam. for the BVetMed degree extends over 8 terms at the Royal Vet. Coll.

**MVetMed degree (internal only):** candidate must have obtained BVetMed of this univ. or BSc(VetSci) or some other degree of this univ. which is deemed suitable. Candidates with a degree in vet. med. or vet. sci. of another univ. may be required to pass a qualifying exam. All candidates must hold a qualif. which entitles to registration as vet. surgeon by Royal Coll. of Vet. Surgeons. Degree may be obtained either by exam. or thesis.

*Diplomas.* Academic postgrad. dipls. in animal health, bacteriol., clin. pathol. (also for external students), pub. health, trop. med. & hyg., 1 yr.; in appl. parasitol. and entomol., 8 mos.; in dietetics, 2 terms and 6 mos.' practical work; psychological med. (pt. I after not less than 6 mos.' course and pt. II after a course of study extending over 3 academic yrs.). For dipl. in nursing, see Extra-Mural Studies, below.

**Music.** The subjs. for the inter. exam. are harmony and counterpoint, form and analysis, and hist. of mus. For the BMus exam.: harmony and counterpoint, fugue including canonic writing, orchestration, hist. of music, 2 sp. subjs. selected by the candidate, oral exam. and practical test. For the DMus candidates must have obtained the BMus degree of the Univ. of London normally not less than 3 yrs. previously. There is a written and an oral exam. and a musical exercise.

**ENGINEERING.** The following degrees are conferred in the fac. of engin.: BSc(Eng); BSc(Eng) in chem. engin.; BSc(Eng) in metall.; BSc(Eng) in mining; MSc(Eng); PhD; DSc(Eng). The course of study for the final exam. for a bachelor's

degree extends over not less than 3 yrs.\* Before entry on a course of study for the final exam. for the BSc(Eng) degree or the BSc(Eng) degree in mining, internal and external candidates must pass at advanced level in pure maths. and appl. maths. (or maths. (pure and appl.)) and phys. and at ordinary level in chem. at a G.C.E. exam. or an approved equivalent; for the BSc(Eng) degree in chem. engin. and metall., chem. and phys. must be at advanced level but either pure or appl. maths., if taken as 2 subjs., may be at ordinary level. Candidates who have passed at advanced level in 3 of the 4 subjs. pure maths., appl. maths., phys. and chem., may be allowed to enter on the course and to complete the entrance qualifs. by passing at the appropriate level in the 4th subj. before taking any part of the final exam.

The gen. internal, sp. and external final exams. in *engin.* and *metall.* and the external final exam. in *mining* are divided into 3 pts. The gen. internal and external final exams. in *chem. engin.* are divided into 2 pts., pt. I being divided into 2 sections. There are two sp. exams. in *chem. engin.*, one divided into 2 pts., the other into 3 pts. There is a sp. exam. in *mining*. The sp. exams. are confined to internal students of certain schs. of the univ.

Internal candidates for the MSc(Eng) degree are required to have graduated as internal students in the Univ. of Lond. at least 1 yr. (or in the case of other grads. at least 2 yrs.) before entry to the MSc(Eng) exam., but grads. of other univs. are debarred by statute from proceeding direct to higher degrees as external students. The exam. is by thesis or dissertation and there is an oral exam. The examiners may also require a written exam.

Internal and external candidates for the DSc(Eng) degree must have obtained in this univ. the BSc(Eng) degree, MSc(Eng) degree or PhD degree in the fac. of *engin.* The degree is awarded only for publ. work of a high standard such as would give the candidate an authoritative standing in his particular field of res.

**ECONOMICS. First degrees.** The following are awarded: BSc(Econ). Normally 3 yrs. Prelim. qualifs. : candidates must have passed an inter., prelim. or first exam. or possess a G.C.E. with 3 subjs. at advanced level. The final exam. is in 2 pts. and candidates must normally pass pt. I before entering for pt. II. Pt. I covers 6 compulsory papers (principles of econ., appl. econ., pol. hist., econ. hist., elements of govt., hist. of pol. thought) and 2 alternative subjs. chosen from a list of 13. Pt. II consists of 5 papers on a sp. subj. chosen from a list of 15.

Under revised regns. for internal students registering in and after Oct. 1961, pt. I covers 3 compulsory papers (econ., British govt., hist. (econ. hist. or pol. hist.)) and 2 alternative subjs. chosen from a list of 15. Pt. II consists of 8 papers as prescribed for each of 14 sp. subjs.

BSc(Soc). Normally 3 yrs. Prelim. qualifs. : Candidates must have passed an inter., prelim. or 1st exam. or possess a G.C.E. with 3 subjs. at advanced level. A candidate who has obtained a BA hons. degree in sociol., or BSc(Econ) with sp. subj. sociol. or soc. anthropol., will not be admitted. The final exam. consists of 9 papers from 2 groups. Candidates must also pass in econ. as a subsidiary subj.

BSc(EstMan). Normally 3 yrs. 1st exam. in 4 subjs. No exemptions granted. Final exam. consists of 11 papers chosen from either the urban group or the rural group of subjs. Course work must be submitted for both exams.

**Higher degrees.** The following are awarded: MSc(Econ), MSc(EstMan), PhD, DSc(Econ). Admission to master's degrees is normally 2 yrs. after passing the appropriate 1st degree. Candidates who have obtained the BSc(Econ) with 1st or 2nd class (upper div.) hons. as internal students may be admitted after 1 yr. They will be required to take the MSc(Econ) by 4 written papers and, at the discretion of the examiners, an oral exam. For the MSc(Econ) candidates are examined in 1 subj. to be selected from a lengthy list (4 papers or a dissertation and 2 papers). The MSc(EstMan) exam. consists of 2 papers on a selected, approved general subj. and a dissertation on an approved sp. subj.

DSc(Econ). Candidates must hold the BSc(Econ) or MSc(Econ) or BSc(Soc) or BSc(EstMan) or BCom or MCom or PhD in the fac. of econ. and must submit publ. work.

**Diplomas.** Academic dipl. in pub. admin., normally 2 yrs.; dipl. in soc. studies (external), normally 2 yrs.

**SCHEMES OF SPECIAL RELATION WITH UNIVERSITY COLLEGES OVERSEAS.** These schemes originated in proposals made by the Commission on Higher Education in the Colonies which was apptd. by the secretary of state in 1943 under the chairmanship of Mr. Justice, later Lord, Asquith. The report of the commission (cmd. 6647 of 1945) explains the background to the proposals and the broad outline of the schemes. Their purpose is to enable univ. colls., during their transition to full univ. status, to enter their students for degrees of the Univ. of London which are awarded upon the results of special exams. The syllabuses of these exams. are adjusted to the geographical, linguistic and educnl. conditions of the territory, but represent no relaxation in the standards of the univ.

Certain conditions are laid down limiting the admission of univ. colls. to these schemes. A coll. must satisfy the univ. that its staff, resources, equipment and machinery of government are appropriate to an instn. aspiring to univ. status, and in particular that it possesses an academic body charged with the duty of formulating academic policy. This policy must include the encouragement of the pursuit of a regular and liberal course of educn. and of a corporate life

\* External students are required to pursue the course at an institution recognized for the purpose unless excused by reason of approved trg. and experience elsewhere.

among its students, the promotion of res. on the part of staff and postgrad. students, and willingness to accept the responsibilities of intellectual leadership in the community it serves. The conditions for the admission of students must also be considered appropriate.

The main objects of these schemes of 'special relation' may be summarized as follows: (1) the establ. of direct and easy co-operation between the academic boards of the overseas colls. and the univ.; (2) the institution of a regular system of consultation between the authorities of the univ. and the staffs of the colls. on questions of syllabus and exam. requirements; (3) the promotion of personal contact between the examiners appointed by the univ. and the teachers in the colls.; (4) the participation by members of the staff of the colls. in the actual work of examining their own students; (5) the interchange of visits and the giving of assistance and advice by the univ. on such matters as the colls. overseas may desire.

There are at present schemes with: the Univ. Coll. of the West Indies; Univ. Coll., Ibadan, Nigeria; the Univ. Coll. of Ghana; Makerere Coll., the Univ. Coll. of East Africa; the Univ. Coll. of Rhodesia and Nyasaland.

Each set of exam. regns. has been approved by the senate of the univ. on the initiative of, or in consultation with, the individual coll. concerned. All exams. held at a coll. are conducted in accordance with the regns. approved for that coll.

**POSTGRADUATE STUDY AND RESEARCH.** In most schs. of the univ. sp. arrangements are made for res. students, and the facilities offered are not restricted to internal grads. of the univ. External grads. and grads. of other approved univs. are allowed, under certain conditions, to enter as internal students for the degree of bachelor or of PhD in the several facs., and for the degree of MTh, MA, LL.M., MSc or MSc(Eng). Every candidate must submit evidence of graduation, etc., together with a cert. from the authorities of the sch. or institution of the univ. at which he proposes to study, stating that the student is, in their opinion, a fit person to undertake the proposed course of study and res., and that they are willing to supervise his work. An overseas student may himself submit an applicn. on the prescribed form, and the univ. will, if so requested, advise on the selection of the sch. or institution at which, and teacher under whom, he should study. Applicn. for such advice should be addressed to the academic registrar of the univ. Overseas students should apply for registration before coming to London, and their applicns. should reach the univ. if possible 12 mos. before the commencement of their course, and at the latest by March 1, to enable them, should their applicns. be successful, to enter upon their course of study in the following Oct., i.e. at the beginning of the session. Students whose applicns. are approved are required to pursue a course extending over at least 2 yrs.

An internal student who is a candidate for the

PhD degree must have graduated in the univ. or have been registered as a candidate for the degree after passing approved exams. for a degree in another univ. An internal student is further required to pursue a course of study of not less than 2 yrs.' full-time, or 4 yrs.' pt.-time, training in res. and res. methods. Any grad. of the univ. may become a candidate for the PhD degree in his first degree fac. as an external student on receiving the approval of the council for external students. It should be noted that only grads. of the Univ. of London may register as external students for a master's or PhD degree.

Particulars of UNDERGRADUATE SCHOLARSHIPS, etc., awarded on the results of exams. held by the London Intercollegiate Scholps. Bd., may be obtained from the sec. of the bd., R. B. P. Wallace, LLB MA, Univ. of London, Senate House, W.C.1.

POSTGRADUATE AWARDS open to grads. of other univs.: see p. 825.

**FEEs.** *Registration* (non-recurrent and incl. matric.)—internal: normal 1st degree 3 gs., postgrad. 6 gs.; external: normal degree 5 gs., postgrad. 2 gs., advanced students 5 gs. *Exam. fees* (no graduation fees)—arts and sci., from £18 to £20; med., vet. med., and dent., from £33 to £47. Details of *annual tuition fees* are given in the sections relating to the schs., below.

**BOTANICAL SUPPLY UNIT,** Elm Lodge, Englefield Green, Surrey. The univ. botanical supply unit was establ. in 1950 to provide schs. and instns. of the univ. with bot. material. The grounds now cover an area of about 13 acres. The unit is able to produce a large variety of material in bulk for class purposes, and numerous specimen plants can be lent to schs. and instns. for class demonstration. It is also able to supply some types of material for res. Curator: J. I. H. Rees, BSc.

**COMPUTER UNIT,** 44 Gordon Square, W.C.1. The Univ. of London computer unit is equipped with a Ferranti Mark II Mercury computer. Dir.: R. A. Buckingham, PhD.

**ADVISORY SERVICE FOR EXTERNAL STUDENTS.** Any external student who is duly registered for an external degree or dipl. and experiences any difficulty in connexion with the appropriate studies may apply to the external registrar for guidance. Such guidance may take the form of detailed schemes of study or personal discussion with an adviser.

**ADVISER TO OVERSEAS STUDENTS.** Students from outside the British Isles may obtain general information, advice on personal problems and in emergencies, from the Univ. of London Adviser to Overseas Students, Univ. of London Union, Malet St., W.C.1. Tel.: Langham 5035.

The **COMMERCE DEGREE BUREAU** exists to help in their studies external (especially extra-London) students proposing to take the BSc(Econ) degree (for which postal courses of study may be pro-

vided), to provide a reference and lending library for students and generally to promote the value and usefulness of the degrees. The bureau is administered by a senate cttee. Prospectus and enquiry forms obtainable on applicn. to the sec., Commerce Degree Bureau, Senate House, W.C.1. Tel.: Museum 2843.

**MILITARY EDUCATION.** War studies is one of the optional subjs. for the final BA (general) for internal students only.

The Univ. of London contingent of the O.T.C., authorized by the Army Council in 1909, is open to internal students, both men and women. Its main purpose is to train students for commissioned service in the army. Information from the adjutant, Univ. of London contingent, O.T.C., 16 Chenies St., W.C.1 (tel.: Museum 1015).

**AIR SQUADRON.** The Univ. of London air squadron was founded in 1935 by the Air Ministry with the assistance of the univ. authorities. Its main object is to promote a serious interest in flying and its allied subjs. Applicns. for membership should be addressed to the sec., U. of L. Air Squadron, 48 Princes Gdns., S.W.7 (tel.: Kensington 2433).

The UNIVERSITY APPOINTMENTS BOARD exists to obtain appts. for grads. Address: 49 Gordon Square, W.C.1 (tel.: Euston 7489).

**RESIDENCE.** (For wardens, see 'Admin. and other Staff', p. 962.) Halls of residence provided by the senate: Canterbury Hall, Cartwright Gardens, W.C.1 (tel.: Euston 5526), for 218 women students (fees, £129:15s. and £140:5s. per session of 30 weeks); Connaught Hall, 15-20 Torrington Sq., W.C.1 (tel.: Museum 6674), for 81 men students (fees £120 to £135 per session of 30 weeks), and Nutford House, Brown St., W.1 (tel.: Ambassador 4431), for 190 women students (fees, £115 and £130 per session of 30 weeks). Other hall of residence recognized by the senate: College Hall, Malet St., W.C.1, for 220 women students (fees, £132:6s. and £148:1s. per session).

Residence is also provided at or in connexion with the Inst. of Educn., Imperial Coll., King's Coll., London Sch. of Econ., Queen Mary Coll., Univ. Coll. and Wye Coll.; Guy's, London, Middlesex, St. Bartholomew's, St. Mary's, St. Thomas's, Univ. Coll. Hosp. med. schs. and Westminster Med. Sch.; the theol. colls. and the women's colls. (see coll. entries). London House, Guilford St., W.C.1, provides accomm. for 275 Commonwealth men students, including some from the U.K.

**LODGINGS BUREAU,** Univ. of London Union, Malet St., W.C.1 (tel.: Museum 2818). Enquiries to be addressed to the lodgings officer.

**UNIVERSITY UNION** (founded 1921), Malet St., W.C.1 (tel.: Langham 9551). Most of the schs. and colls. of the univ. also have their own unions. The univ. athletic ground is at Motspur Park, Surrey (tel.: Malden 0661), and the univ. boat-

house at Hartington Rd., Chiswick (tel.: Chiswick 5562).

**EXTRA-MURAL STUDIES.** The area of operation of the council for extra-mural studies includes the counties of London, Middlesex and Surrey, S.-W. Essex and S. Hertfordshire, and the county boroughs of Croydon, E. Ham, W. Ham and Southend-on-Sea. The work is divided into 4 sections and the chief admin. officers of the dept. are: dir. of dept.—A. McPhee, MA BCom *Edin.*, PhD; academic adviser for tutorial classes—H. C. Shearman, MA *Oxon.*; dep. dir. (extension)—C. P. Thomas, BA *Wales*; sec. for tutorial classes—F. G. Brook, BSc(Econ) PhD; hd. of vocational dipls. section—R. A. S. Knowles; hd. of sp. courses section—Winifred Bamforth, MA.

(a) *Univ. Extension Courses* have been carried on since 1902 (prior to that, 1876-1902, by the London Soc. for the Extension of Univ. Teaching). The sessl. and terminal courses provided cover various fields of knowledge—archæol., hist., lit., econ., sociol., bibl. studies, internat. affairs, music, visual arts, geog., phys. and biol. sci., and allied subjs. Short courses of a pioneer or illustrative kind are also arranged. An exam. is held, where reqd., at the end of a sessl. course. Continuous study is encouraged by the *dipls. in the humanities* (hist., lit., econ., sociol., hist. of art, biblical and relig. studies, internat. affairs, visual arts, archæol., hist. of music) awarded to students who complete approved courses of study, usually covering 4 yrs., and pass annual exams. and by 5-yr. course for the *cert. in transport studies*. Provision is made, where required, for post-dipl. study. Vacation courses and study tours at home and abroad are arranged. More than 30 week-end courses are held each yr. Work is carried on mainly by pt.-time lectrs. There is a staff lectr. in phys. scis.: H. G. Frost, BSc.

(b) *Tutorial Classes* have been provided since 1909 in close co-operation with the W.E.A. The classes extend over 3 yrs., usually with a max. membership of 24 students. Sessl. classes and advanced classes lasting one session are also provided. Summer schs. and week-end courses are held each yr. There are no exams. but all students undertake to do written work arranged with the tutor to suit individual needs. The subjs. include archæol., art, econ., hist., internat. relations, lit., music, philos., pol. and psychol. Work is carried on partly by pt.-time tutors but also by staff tutors: G. Bush, MA DMus *Oxon.*; D. Butt, BA *Oxon.*; J. P. Carruthers, MA *Glas.*; J. X. W. P. Corcoran, MA PhD *Manc.*; E. M. Eppel, MA EdB *Glas.*; H. Fyrrh, BSc(Econ); W. J. A. Harris, BA *Wales*, MSc(Econ); Mrs. Joy MacAskill, MA BLitt DipEd *Oxon.*; Elizabeth Monkhouse, BA *Oxon.*, DUPoitiers; L. Speak, MA *Leeds*; Lois Spencer, BA *Oxon.*, PhD; L. G. Stone, BSc(Econ); C. G. Stuttard, MA *Camb.*; J. R. Williams, BA *Leeds*.

(c) *Vocational Dipls. and Certs.* The council for extra-mural studies also administers the

following dipls. and certs. which are, broadly speaking, vocational in purpose: dipls. in dramatic art, nursing, pub. admin., theol. and sister-tutor's dipl.; certs. of proficiency in diction & drama, Engl. for foreign students\*, mod. foreign langs., natural hist., and religious knowledge.

Exams. are held once a yr. in London and, in certain cases, also in the provinces and overseas. An annual 4-wk. residential summer course in Engl. for foreign students is held, designed to widen the student's knowledge not only of contemporary Engl. lang. and lit. but of Engl. instns. and art, by means of lectures, classes and visits.

(d) An annual residential summer school, lasting 6 wks., is held for American, Commonwealth and European students (grad. or sr. undergrad.) as part of a programme arranged jtly. with other univs. The jt. programme usually includes courses in lit., hist., art.

(Further information and copies of regns. may be obtained from the dir., dept. of extra-mural studies, Univ. of London, Senate House, W.C.1.)

**SCHOOL EXAMINATIONS.** The univ. conducts exams. for the General Cert. of Educn. for candidates in approved schs., and for private candidates.

The exam. is held at the ordinary and the advanced levels in June and in Jan., and scholarship papers are set in conjunction with the advanced level June exam. There are no group requirements, and candidates may offer one or more subjs. up to certain maxima.

The univ. is prepared to hold the exam. at schs. and for private candidates overseas, provided that from schs. in other parts of the Commonwealth, the applicn. is received through the govt.; or in

the case of schs. in foreign countries, through H.M. representative.

Regns. (price 1s. 6d.) are obtainable from the Univ. of London publicns. dept., 1 Malet St., W.C.1.

**OFFICIAL PUBLICATIONS.** The following are obtainable from the Univ. of London publicns. dept., 1 Malet St., W.C.1:

*Calendar*, 21s. incl. postage. *Gazette*, 9 issues per yr.; annual sub., 10s., single no., 1s. 3d., incl. postage. *Annual Report by the Principal. Univ. of London Act, 1926, and Statutes*, 3s. 6d. *Exam. Papers*, publ. as soon as possible after the several exams.; prices vary from 6d. to 5s.

**Regulations.** The following may be obtained on applicn. to the central office of the univ.: regns. for internal and for external students (publd. separately) for degrees in arts, sci., agric., etc.; for the various dipls. and certs. in sp. subjs.; for PhD degree; scholps. pamphlet; pamphlets of *General Information* for internal students and for external students.

**ATHLONE PRESS**, 2 Gower St., W.C.1 (tel.: Langham 9535-6). The press was establd. in 1950, its functions being to publish univ. lectures, the work of grads. of the univ. and of teachers of the univ. or of its schs. and central institutions, and such other works as the bd. of management may accept.

**UNIVERSITY BOOKSHOP.** In conjunction with Miss Una J. Dillon, the univ. has formed a company, trading under the name of Dillon's University Bookshop Ltd., to operate a bookshop at 1 Malet St., W.C.1. The bookshop is designed to meet in particular the needs of students and others who are sitting for the exams. of the univ.

## GENERAL INFORMATION

The inst. was establd. as pt. of the post-war expansion of the Univ. of London and occupies premises near the Senate House. Its aim is to act as a focal point for legal res., to provide seminar classes for students reading for higher degrees in law at a sch. of the univ., and to build up a good working res. library in law. The inst. has collated particulars of legal res. undertaken in Britain and the Commonwealth, and is in a position to pass this information on to res. workers and other enquirers. An annual list of topics in progress is prepared.

Teaching at the inst. is undertaken by members of the law teaching staffs of colls. and schs. in the univ. with a fac. of laws, in addn. to the dir. of the inst.

**LIBRARY.** The library now consists of over 57,000 items. The inst. has acquired practically all U.K. law reports and statutes and basic works, particularly those of use for seminar purposes. Through continued purchases made possible by the generous gift from the Nuffield Foundation, the Nuffield library of Commonwealth law is nearing the stage when it can be regarded as comprehensive. The U.S. holdings continue to increase. Over 100 U.S. law reviews are received regularly, about two-thirds of which are not known to be taken elsewhere in Britain. Earlier vols. are being acquired whenever possible.

**ADMISSION.** Admission to the inst. may be granted, without fee, to teachers of law in univs. and univ. colls., both in the U.K. and overseas, and to teachers in other law schs. who are qualified to become members of the Soc. of Public Teachers of Law; to postgrad. students engaged on approved res., and to other univ. students attending a class or seminar at the inst.; and to other

persons by permission of the dir. Persons who already hold a res. degree or have publ. the results of their researches, or have had considerable trg. or practical experience in the law, may be admitted to the use of the inst., either on payment of a fee, or without fee, if duly invited and willing to assist in the work of a seminar held at the inst.

Postgrad. students, whether reading for a degree or dipl. or not, must register at a coll. or sch. of the univ. with a fac. of laws (i.e. at King's Coll., Univ. Coll., L.S.E. or the Sch. of Oriental and African Studies). When so registered, they will become eligible, on the recommendation of their teachers, for admission to the inst.

**PUBLICATIONS.** *Annual Report* presented to the senate; annual and consolidated lists of *Legal Research Topics* in British and Commonwealth univs.; *Univ. of London Legal Series*; library publicns.: No. 1, *A Survey of Legal Periodicals: Union Catalogue of Holdings in British Libraries* (2nd edn., 1957, 17s. 6d.); No. 2, *Union List of Commonwealth Law Literature in Libraries in Oxford, Cambridge and London* (1952, 0/p.); No. 3, *Union List of United States Law Literature in Libraries in Oxford, Cambridge and London* (1954, 12s. 6d.); No. 4, *Union List of Air Law Literature in Libraries in Oxford, Cambridge and London* (1956, 12s. 6d.). Jointly with the U.K. National Cttee. of Comparative Law: *A Bibliographical Guide to the Law of the U.K., the Channel Islands and the Isle of Man* (1956, 30s.; interleaved copies, 36s.). *A Manual of Legal Citations*. Pt. I: *The British Isles* (1959, 21s.) (Pt. II: *The Commonwealth*, in preparation). In co-operation with the American Assocn. of Law Libraries: *Index to Foreign Legal Periodicals* (1960, 3 quarterly issues with annual cumulation, annual sub. £9).

## GENERAL INFORMATION

The inst. was establd. in 1949 to promote advanced study of the Commonwealth. Its field of interest is primarily, but not exclusively, that of the soc. scis. It encourages collaboration at postgrad. level between workers who are employing different techniques of res. in the study of Commonwealth problems. It provides a meeting-place both for postgrad. students and members of the academic staffs of univs. and res. institutions in the U.K. and overseas countries of the Commonwealth. Seminars are held for advanced students during the univ. terms. Admission to them is on recommendation by supervisors of studies or at the discretion of the dir. Meetings on sp. topics are arranged during univ. terms for members of staff and other specially invited persons.

**LIBRARY.** Approx. 25,000 vols. and papers. The library does not set out to compete with the great collections but selects material of sp. value for res. and postgrad. teaching. It places particular emphasis upon primary material relating to govt., econ. and soc. devel., race relns. and demography, and with this object it acquires official publicns., stats., guides to archives, etc., of the U.K. and other Commonwealth countries. It is also acquiring a good selection of secondary

works on the devel. of the Commonwealth during the past century. It subscribes to periodicals of significance for the study of the Commonwealth.

A strong bibliog. section is being built up by the acquisition of bibliogs., indexes to periodical lit., guides and indexes to official publicns. and parliamentary papers of the U.K. and Commonwealth countries, and similar aids to res. A bibliog. of bibliogs. in the library and a register of deposited theses in London and other U.K. univs. are maintained.

**ADMISSION.** The following persons may be admitted to the inst.: grad. res. workers and members of the academic and sr. admin. staff of the Univ. of London and of other univs. and univ. colls. in the U.K. and Commonwealth; other persons approved by the dir. or cttee. of management. Forms of applicn. may be obtained from the secretary and the librarian.

**PUBLICATIONS.** The inst. publishes an *Annual Report* and a series of *Commonwealth Papers*, and issues a series of *Reprints*; a *Guide to Resources for Commonwealth Studies* and a *Union List of Commonwealth Newspapers* have also been publ.

## THE YEAR 1959

**RESIGNATIONS.** A. R. Hewitt (sec.-librarian).

## GENERAL INFORMATION

London Day Training Coll. was founded by the L.C.C. in 1902 as an instn. in connexion with the univ. working under the regns. of the bd. of educn. for the trg. of teachers. The first principal (1902-22) was Prof. (later Sir) John Adams. From 1909 to 1932 the coll. was a sch. of the univ. in pedagogy, and as such was governed by a coll. council composed equally of reps. of the L.C.C. and of the senate. In 1932, as the result of an agreement between the bd. of educn., the L.C.C. and the univ., the coll. was transferred to the

educnl. and financial control of the univ., and its title was changed to 'Univ. of London Institute of Education'. The inst. was administered as a 'central activity' of the univ. by a delegacy apptd. by the senate, and composed of reps. of that body, of the L.C.C. and of the teaching staff, together with certain co-opted members. In 1938 the inst. was transferred to the new bldg. on the Bloomsbury site provided by a sp. grant from the council to the univ.

In accordance with the recommendation of the

McNair cttee. on the trg. of teachers and youth leaders, the Univ. of London Inst. of Educn. now comprises the 'central activity', two constituent depts. and 34 constituent colls. The inst. is the area trg. organization for the counties of E. Sussex, Essex (except Mid-Essex and N.E. Essex), Kent, London, Middx., Surrey and the county boroughs of Brighton, Canterbury, Croydon, Eastbourne, E. Ham, Hastings, Southend and W. Ham. Its purpose is to advance the knowledge and practice of educn. by res., to encourage the univ. study of educn., and to improve, co-ordinate and extend the provision for the trg. of teachers within the area.

Students are trained under the Regns. for the Training of Teachers (H.M.S.O., Kingsway, London, W.C.2) for primary and secondary schs. Grads. may devote themselves continuously for a yr. to the theory, etc., of educn. and obtain the univ. postgrad. cert. in educn.

Particulars of the courses provided in the constituent depts. and colls. may be obtained from the sec. of the inst.

**FIRST DEGREES.** No courses provided for first degrees.

**HIGHER DEGREES** (of Univ. of London). *At central inst.*: MA and PhD in educn.

**DIPLOMAS, CERTIFICATES, ASSOCIATESHIPS, ETC.** (at central inst.). 1 yr.—postgrad. cert. in educn., art teacher's cert., music teacher's cert., sp. over-sea profess. cert. course, adv. course in the dept. of child devel., educn. of children in the jr. sch., dipl. in Engl. educn. thought & practice, dipl. in the teaching of Engl. as a foreign lang., dipl. in the educn. of maladjusted children, dipl. in the teaching of educationally sub-normal children, dipl. in religious educn., dipl. in the content & methods of health educn., academic dipl. in educn. 2 yrs. (pt.-time evg. courses)—cert. in theory & practice of jr. sch., cert. in teaching of

maths., cert. in teaching of sci., cert. in theory & practice of sec. sch., cert. in teaching of Engl.

An associateship of the inst. has been establd. and may be awarded to students who have completed at least 1 full session of work other than for a dipl. or higher degree in educn. Applicants for the award of the associateship must be recd. not later than Dec. 1 in the session in which they are to be considered. A fee of 3 gs. must accompany each applicant.

'Recognized' students taking one of the following: postgrad. cert. in educn., art teacher's cert., music teacher's cert., dipl. in the educn. of maladjusted children, dipl. in teaching of educationally sub-normal children or the adv. course in the dept. of child devel., under Ministry of Educn. regns. for the trg. of teachers, receive financial assistance towards fees and maintenance as set out in the current regns.

**FEES.** Annual tuition fees: 1 yr. and associateship courses, £62:10s.; 2 yr. evg. courses, £22:1s. p.a.; music, £85.

**RESIDENCES.** College rooms: 12-15 and 35-37 Bedford Way, London, W.C.1; 48-49 Coram St., London, W.C.1; 35 Gower St., London, W.C.1; 25-26 Woburn Square, London, W.C.1. Places available for 105 women and 81 men.

**GENERAL INFORMATION**

Founded by Dr. George Birkbeck in 1823 'for the purpose of giving educn. to students in the principles of the arts they practise, and in the various branches of sci. and useful knowledge'. The principal aim of the coll., which was admitted as a sch. of the univ. in 1920, is to enable men

and women engaged in full-time occupations during the day to employ their leisure in reading for first degrees in arts and pure sci. or to engage in res. with a view to taking higher degrees in these facs. While the coll. is primarily intended for evg. and pt.-time students, undergrads. may in

their final yr. be admitted to full-time study and postgrad. students wishing to devote the whole of their time to their res. are also accepted.

FACULTIES AND DEANS (1960-61). *Arts*, Prof. A. C. Taylor (French); *sci.*, Dr. R. G. Cooke (maths.).

LIBRARY. 76,000 vols.

## GENERAL INFORMATION

The coll. was founded by royal charter in 1907  
 'to give the highest specialized instructn. and  
 to provide the fullest equipment for the most  
 advanced trg. and res. in various branches of sci.,  
 especially in its applicn. to industry'. It is a  
 federation of 3 instns. of earlier origin—the  
 Royal Coll. of Science, the Royal Sch. of Mines  
 and the City and Guilds Coll. The coll. was  
 admitted as a sch. of the Univ. of London in 1908.

The three constituent colls. have kept their  
 identity, and, closely linked within the Imperial  
 Coll. framework, they divide the work of the  
 Imperial Coll. between them. The Royal Coll.  
 of Science conducts the work in pure scis. :  
 chem., phys., maths., bot., zool., geol. and  
 meteorol. ; the Royal Sch. of Mines concentrates  
 on mining, mineral dressing, metall., mining geol.,  
 oil technol. and appl. geophys. ; the City and  
 Guilds Coll. is concerned with the main branches  
 of engin. : aeronaut., chem., civil, electr. and  
 mech.

The coll. was selected in 1953 to be the spear-

head of the national attack on the problem of pro-  
 viding more univ.-trained scientists and engineers.  
 The coll. agreed to double its size, to provide for  
 3000 students and to carry out this operation in  
 10 yrs. By the beginning of the session 1959-60  
 student numbers had risen to a total of 2665 and  
 over 40 new posts as prof. or reader in the Univ.  
 of London had been establd. and filled at the coll.

The main academic devel. is taking place on  
 the 16-acre site bounded by Queen's Gate, Prince  
 Consort Rd., Exhibition Rd. and Imperial Insti-  
 tute Rd. The expansion plan involves major new  
 bldgs. and many alterations and adaptations in  
 those existing. The first new bldg., to house the  
 depts. of aeronautics and chem. engin., was  
 opened in 1957, while 2 further projects, a new  
 bldg. for phys. and the first section of a very large  
 new mech. engin. block, were completed and  
 occupied during the session 1959-60. New bldgs.  
 for the depts. of civil engin. and electr. engin. as  
 well as the second stage of the new mech. engin.  
 block are in the course of constructn., and are

scheduled for completion in the session 1961-62. A large scheme for new halls of residence was made possible by the acquisition in 1956 of the neighbouring Prince's Gdns. The first new hall, provided through the generosity of Messrs. Vickers Ltd., was opened in Sept. 1959, and, on the south side of Prince's Gdns., work is now in progress on 4 more halls and gen. refectory facilities which are due for completion in the summer of 1962.

**ADMINISTRATION.** The admin. of the Imperial Coll. is vested in a governing body of 52 members representing the crown, the self-governing countries of the commonwealth, the Minister of Educn., the Univ. of London, the London County Council, the City and Guilds of London Inst., the Royal Commissioners for the Exhibition of 1851, the Royal Society, the teaching staff of the Imperial Coll., and professional socs. The rector of the Imperial Coll. and the deans of the 3 constituent colls. are members *ex officio*.

**LIBRARIES.** 180,000 vols. Each dept. has a sp. library (those of the engin. depts. are incl. in the Unwin library). The Haldane library (incorporating the students' union library) provides books of a more general nature. In addn. the library of the Science Museum is available for the use of students.

Large FIELD STATION at Silwood park nr. Ascot; MINE at Tywarnhale nr. Truro.

**INCOME (1958-59).** Total income: £2,059,610 (govt. grants, 74 per cent.; self-balancing res. contracts, 15 per cent.; fees, 7 per cent.; other sources, 4 per cent.).

**ADMISSION.** See p. 965 and Appendix II. The conditions of admission are in accordance with univ. requirements and the procedure is in general accordance with the recent recommendations of the Cttee. of Vice-Chancellors and Principals; as regards addnl. requirements for entry to specific degree subjects, the coll. has laid down a preference for certain subjects; details in coll. prospectus.

The min. age for admission is 17. Women are admitted on the same terms as men.

**FIRST DEGREES (of Univ. of London) AND DIPLOMAS.** The same courses and exams. serve for the coll. associateship and for the BSc (spec.) or BSc(Eng) degree of the Univ. of London. Courses for degrees with honrs. (each 3 yrs.) are as follows: BSc (spec.) and ARCS in bot., chem., geol., maths., phys., zool.; BSc (spec.) and ARSM in mining geol., oil technol.; BSc(Eng) and ARSM in metall., mining, mineral dressing; BSc(Eng) and ACGI in aeronaut. engin., chem. engin., civil engin., electr. engin., mech. engin.

A *prelim. science year* has been introduced for those who have done well in arts subjects at sch. but wish to change to sci. or engin.; this is a sp. course in chem., phys. and maths. enabling students to enter one of the hon. courses after 1 yr.; for admission, candidates must have qualified for

univ. entrance and have passed in at least 2 arts subjects at advanced level and maths. at ordinary level.

**HIGHER DEGREES (of Univ. of London) AND DIPLOMAS.** Courses of res. and advanced study open to grads. of other univs. and leading to the PhD in a min. of 2 calendar yrs. from BSc, to the MSc and also to the DIC, are given in the following depts. and sub-depts. of the coll.: aeronautics (aerodynamics, aeronaut. structures and aircraft propulsion); bot. & plant technol. (bacteriol., biochem., microbiol., plant pathol., plant physiol.); chem. engin. and chem. technol. (chem. engin. sci., combustion, fuel, high pressure, low temperature, ceramic & nuclear technols., chemical phys.); chem. (agric., food & drugs, analyt., inorg., org., phys.); civil engin. (concrete technol., engin. hydrol., highways, hydraulic engin. & fluid mechanics, hydro power, pub. health, soil mechanics, struct. engin.); electr. engin. (appl. electron. phys., automatic control systems, communics. & electronics, electr. machines & power systems, electr. traction); geol. (appl. geophys., engin. geol., geochem., micropalaeontol. & palaeo-ecol., mining geol., mineral exploration, oil technol., petroleum reservoir engin.); maths. (mathl. phys., pure maths., appl. maths., stats., numerical analysis); mech. engin. (appl. mechanics, gas turbine technol., heat transfer & combustion, nuclear power, prodn. engin.); metall.; meteorol.; mining (mining, mineral dressing); phys. (theoret. phys., instrument technol., spectroscopy, tech. optics, high temperature phys., cloud phys.); zool. & appl. entomol. (entomol., appl. entomol., parasitol., nematol.).

Postgrad. courses open to grads. of other univs. and leading to the DIC normally in 1 yr. from BSc and in some cases to the MSc are given in: aeronautics; bot. and plant technol. (microbiol., plant pathol.); chem. engin. (chem. engin., chem. technol., indust. safety, nuclear technol. (chem.)); chem. (agric. chem., analytical chem., analysis of food, drugs & water); civil engin. (struct. engin., concrete technol., hydro-power engin., engin. hydrol., highway engin., pub. health engin., soil mechanics); electr. engin. (electr. machines & power systems, communics. & electronics, automatic control systems & allied subjects, appl. electron. phys., electr. traction); geol. (engin. geol., micropalaeontol. & palaeo-ecol., mineral exploration, appl. geophys., petroleum reservoir engin.); maths. (mathl. phys., pure maths., appl. maths., numerical analysis, stats.); mech. engin. (appl. mechanics, gas turbine technol., heat transfer & combustion, nuclear power, prodn. engin.); meteorol.; mining; phys. (tech. optics, photo-electronics); zool. (appl. entomol., nematol.).

**Other postgrad. studies.** In collaboration with L.S.E. the coll. arranges postgrad. studies in technol., econ. and admin.

**ASSOCIATIONS WITH OTHER INSTNS.** An arrangement has been made for the exchange of staff and students with the Swiss Federal Inst. of Technol.,

Zürich; and for exchange studentships with the Techn. Hochschule Aachen, and the Techn. Univ. of Berlin, Charlottenburg. The Massachusetts Inst. of Technol. also stands in special relationship to the coll.

**FEES.** Registration (undergrad.), £2; entrance (postgrad.), £2; tuition, undergrad. and postgrad. res. and courses (incl. union membership): sci. and engin., £64 p.a. (postgrad. course in nuclear power, £124 p.a.).

**ACADEMIC YEAR.** Oct. to June, 3 terms of 10 wks. each.

**SCHOLARSHIPS.** Royal scholps., entrance scholps. and exhibitions for undergrad. courses awarded on an exam. held at schs.; sp. scholps. available in mining. Entrance and I.C.I. transfer scholps. available for those taking the prelim. sci. yr.

**POSTGRADUATE AWARDS** open to grads. of other univs.: see p. 825.

**APPOINTMENTS BOARD.** The coll. appts. bd. assists associates and members of the coll. to find employment on the completion of their coll. courses.

**GRADUATES' ASSOCIATIONS.** Each constituent coll. has its own old students' assocn., namely, the Royal Coll. of Science Assocn., the Royal Sch. of Mines Assocn. and the Old Centralians Assocn. The latter perpetuates the original name of the City and Guilds Coll. and has branches in many parts of the world.

**RESIDENCE.** Beit Hall, Prince Consort Rd., London, S.W.7 (tel.: Kensington 5111), for 96 men, 17 women; fees, £50-£60 p.a. Weeks Hall, Prince's Gdns., London, S.W.7, for 67 men; fees, £66 p.a. Garden Hall, 12 Prince's Gdns., London, S.W.7 (tel.: Knightsbridge 7466), for 26 men; fees, £50-£53 p.a. Catering is available for residents of these halls in Imperial Coll. refectories at a cost of about 9s. per day. In addn.,

Selkirk Hall, 50 Holland Park, London, W.11 (tel.: Park 7041), accommodates 15 students. All enquiries to the clerk for the halls of residence, Imperial Coll., Prince Consort Rd., S.W.7.

**STUDENT HEALTH SERVICE.** The coll. health room at 13 Prince's Gdns. has 2 full-time nurses and a doctor attends during certain hours each day. Non-European students are required to undergo a med. exam. on entry to the coll.

**STUDENTS' UNION.** The Imperial Coll. union bldg. in Prince Consort Rd. is the home of various students' orgns. incl. the Imperial Coll. union, the Royal Coll. of Science union, the Royal Sch. of Mines union and the City and Guilds Coll. union. Accommod. includes refectories, reading rooms, cttee. rooms, a concert hall and a gymnasium. The coll. bookstall is in the Beit bldg., adjoining the union.

The Imperial Coll. union, guided by the union council, whose members are mainly present students, looks after the leisure side of the student's life and controls and encourages the clubs and socs., about 100 in all, which among them cover all sides of athletic and soc. activities.

**PUBLICATIONS.** *Calendar* (5s.); *Prospectus*; *Postgrad. Courses* (2s.); individual pamphlets on postgrad. courses; *Careers Pamphlets*; *Annual Report*; *Res. Reports* of the three constituent colls., the Royal Coll. of Science, the Royal Sch. of Mines and the City & Guilds Coll. (publ. by the colls. in turn, each coll. issuing a report every 3rd yr.); *Inaugural Lectures*, 1955 and 1956 (on applicn. to registrar), 1957 to date (on sale through Modern Book Co. Ltd., 19 Praed St., W.2); *Code of Practice against Radiation Hazards* (2s.); *Annual Report of vacation trg. cttee.*; *A Short History of the Coll. 1845-1945* (publ. on the occasion of the centenary of the Royal Coll. of Chemistry); *The Royal Charter of the Imperial Coll. of Sci. and Technol.* (publ. on the occasion of the charter jubilee, 1957).

## THE YEAR 1959

**MAJOR BUILDING DEVELOPMENTS.** See p. 1002.

**NEW DEPARTMENTS AND CHAIRS.** Conferred titles of prof. of phys.: M. Blackman; prof. of phys. chem.: F. C. Tompkins.

**RETIREMENT.** H. E. Park (electr. engin.).

**RESIGNATIONS.** Prof. P. V. Danckwerts (chem. engin.), apptd. Shell prof. of chem. engin., Camb.; H. Charnock (meteorol.), to NATO appt.; J. A. Kingston (chem.), to Morgan Crucible Co.; K. W. H. Foulds (electr. engin.), to Battersea Coll. of Technol.; Mrs. F. Leasman (maths.).

**DEATHS.** Sir Henry Tizard (late rector, Imperial Coll.); Sir Alfred Egerton (late professor of chem. technol. and sr. res. fellow); Sir Ian Heil-

born (late prof. of org. chem.); Dr. A. Morley Davies (asst. prof. in geol. until retirement); F. W. James (coll. librarian).

**GENERAL INFORMATION**

Founded by royal charter in 1829 for 'instrucn. in the various branches of literature and sci. and the doctrines and duties of Christianity', King's Coll. consisted at first of a sch. and depts. of general lit., sci. and med., to which were added successively engin., theol. and oriental depts. The hosp. was built in 1839; the evg. classes were started in 1856, and a women's dept. in 1881. In 1910 the coll. sch. became a separate corporation, the hosp. and advanced med. sch. were made indep., the other depts. (except the theol.) doing work of univ. standard were incorporated in the Univ. of London with the name of Univ. of London King's Coll., while the council remained the governing body of the theol. dept., which became a sch. of the univ. The coll. as a whole retained the name of King's Coll., London. In 1915 the arts and sci. depts. of King's Coll. for Women, previously housed in Kensington, were transferred to the Strand bldg. of King's Coll., and the household & soc. sci. dept. to new bldgs. on Campden Hill. The dept. of household & soc. sci. became a separate instn. in 1928 under the title of King's Coll. of Household and Soc. Sci., now Queen Elizabeth Coll. In 1917 the oriental dept. was transferred to the new Sch. of Oriental Studies. The Sch. of Slavonic and East European Studies, founded in 1915, was constituted a separate dept. of the univ. in 1932.

**CONSTITUTION.** Univ. of London King's Coll., consisting of the five facs. named below, is incor-

porated in the Univ. of London, and is governed by a delegacy of the senate. It is also, with King's Coll. Theol. Dept. (see p. 1045), an integral part of King's Coll. London. The principal of King's Coll. London is apptd. by the crown; the dean of King's Coll. Theol. Dept., elected by the council, is equally dean of the whole coll. The sec., librarian and registrar also serve the whole coll. and are apptd. by the governing bodies jointly. The fac. of arts includes profs. of div. and eccles. hist.

**FACULTIES AND DEANS.** *Arts*, Prof. G. S. Graham (hist.); *engin.*, Prof. A. D. Ross (civil engin.); *laws*, Prof. R. H. Graveson; *med. sci.*, Prof. T. Nicol (anat.); *nat. sci.*, Prof. H. Bondi (maths.).

**LIBRARIES** (about 200,000 vols.). In addn. to the general library there are the following sp. libraries: (1) the Marsden (philol.), (2) Wheatstone (electr. and kindred subjects), (3) Skeat and Furnivall (philol. & Engl. lit.), (4) Ronald Burrows library (mediæval & mod. Greek), (5) Frida Mond (Goethe & German lit.), (6) T. R. R. Stebbing (zool.), (7) F. D. Maurice collection, (8) the Box library (Semitic studies). There are also the following deptl. libraries: anat. & physiol., bot., chem. engin., chem., classics, educn., electr. engin., engin. (civil & mech.), French, geog., geol., German, hist., imperial hist., laws, maths., war studies, palæog., pharmacol., phys., Portuguese, Spanish, zool.

**LABORATORIES AND MUSEUMS.** Anat. (Hughes collection), comp. anat., biol., bot., chem., chem. engin., engin., geol. & mineral., mat. med., metall., pharmacol., phys., physiol. **ADMISSION** (see p. 965 and Appendix II). Applicants for admission to the French or German honours sch. or for chem. are required to take an entrance test in their schs. Applicants for bot. or zool. have a practical test when called for interview. In general the coll. does not admit students who have still to comply with the univ.'s requirements for entry on their respective degree courses, but it does admit to inter. courses in fac. of laws.

Applicns. from Indian or Pakistani students, whether for undergrad. or for postgrad. work, must be made through the office of the appropriate high commissioner.

Owing to restrictions on space, occasl. students cannot be admitted to undergrad. courses unless they are from univs. with which King's Coll. has exchange arrangements in mod. langs.

**FIRST DEGREES** (of Univ. of London). The coll. provides 3-yr. courses for degrees of the Univ. of London as listed below. BA (gen.), BSc (gen.), BA (hons.) in classics, Greek (with Latin), Latin (with Greek), Engl., French, geog., German, hist., maths., philos., Portuguese, Spanish; theol. may be taken for BA (gen.); LLB; BSc (spec.) in bot., chem., geog., geol., maths., phys. or zool.; psychol. for BSc (gen.) by inter.-coll. arrangement; BSc(Eng).

Pre-clin. courses for 2nd MB BS (5 terms). Clin. med. trg. at King's Coll. Hosp., St. George's Hosp. or Westminster med. schs.

Evg. classes in fac. of laws.

**HIGHER DEGREES** (of Univ. of London). MA, LL.M, MSc, MSc(Eng), PhD in above 1st degree subs.; MA in educn.; MSc and PhD also in biochem. or pharmacol.

**GENERAL INFORMATION**

Queen Mary Coll. derives from the New Philosophical Institute founded in the earlier part of the 19th cent. by J. T. Barber Beaumont to provide educn. for people of the East End. He died in 1841, providing in his will a trust fund for continuation of the inst. The trustees later became associated with the Drapers' Co., with whose assistance the People's Palace Technical Schs. were opened in 1887, superseding the New Philosophical Inst. and later known as East London Technical Coll. With addn. of arts courses, the

name was changed to East London Coll. In 1907 univ. recognition was granted for instructn. for bachelor's and higher degrees in arts, sci. and engin. and in 1915 the coll. was admitted as a sch. of the univ. A royal charter was granted in 1934 when the coll.'s name was altered to Queen Mary Coll. in acknowledgment of the honour accorded by Queen Mary in presenting the charter. Queen Mary became the first patron and hon. fellow of the coll.

Governed by governors who incl. master and

clerk of Drapers' Co. and reps. of L.C.C., univ. and staff. A sch. of the univ. in arts, sci. and engin.

**GENERAL INFORMATION**

The Veterinary Coll. of London was formed in 1791 under the presidency of the Duke of Northumberland, beginning with 14 students upon the site at Camden Town that it occupies to-day. The coll. received its first charter of incorporation from Queen Victoria in 1875 and is now governed under a charter granted in 1956 by H.M. Queen Elizabeth. With the help of govt. grants and other donations the coll. was entirely rebuilt, and the new bldg. was officially opened in 1937. The coll., which since 1906 has had recog. teachers of the Univ. of London, was admitted as a sch. of the univ. in the fac. of med. with effect from Oct. 1949.

The LIBRARY (7000 vols.) includes a wide range of books and periodicals on vet. and allied subjects.

**GENERAL INFORMATION**

As a result of the recommendations of the Reay Cttee. in 1908, the sch. was establd. by royal charter in 1916 as the 'School of Oriental Studies, London Institution', in Finsbury Circus; it was granted the status of a sch. of the univ. and was later allocated space for a permanent (not yet fully

completed) bldg. on the Bloomsbury site of the univ. In 1938, among other amendments to the charter, the title of the sch. was changed to 'School of Oriental and African Studies'. During the second world war a large number of intensive courses were given for service personnel, esp.

in Chinese, Japanese, Burmese, Arabic, Turkish, Persian and Urdu, and much translation work was done for the various ministries as well as censorship duties. Largely as a result of the sch.'s initiative an inter-deptl. commission was set up under the Earl of Scarbrough's chairmanship to report on the provision for teaching and res. at univ. level in Oriental, Slavonic, E. European and African studies. The commission recommended \* a substantial expansion of existing facilities, and from 1947 large grants for Oriental and African studies have been made by the U.G.C. In accordance with the commission's recommendation that the whole field of Oriental and African studies should be developed in London, as against a more restricted devel. in other univs., the sch. devoted its energies in the first post-war quinquennium to building up strong, coherent academic depts., in which a proper balance is sought as between linguistic and cultural studies and the classical and mod. aspects of those studies. During the quinquennium 1952-57 expansion continued steadily, though at a slower rate, and the staff was strengthened by numerous new appts.

A sch. of the univ. in facs. of arts and laws.

**INCOME** (1958-59), £433,823 (principal sources : govt. grants, 87.2 per cent. ; contributions from official, foundation and private sources, 6.5 per cent. ; fees, 4.3 per cent. ; endowments, 2 per cent.).

**PERCIVAL DAVID FOUNDATION OF CHINESE ART**, 53 Gordon Square, London, W.C.1 (tel. : Euston 3909), attached to and administered by the sch., comprises collection of Chinese ceramics and associated library presented to univ. by Sir Percival David in 1950, to which was added in 1952 a large collection of Chinese monochrome porcelains given by the Hon. Mountstuart W. Elphinstone. Its object is promotion and teaching of art and culture of China and surrounding region.

## GENERAL INFORMATION

The sch., founded by the Pharmaceutical Soc. of Gt. Britain in 1841, was admitted as a sch. of the univ. in 1925. Control of the sch. was transferred from the Pharmaceutical Soc. to a company limited by guarantee in 1949. A royal charter of incorporation was granted to the sch. in 1952. The council of the sch., as now constituted, includes reps. of the Univ. of London, the Pharmaceutical Soc. and the academic bd., as well as certain co-opted members. There is an academic bd. which acts in an advisory capacity.

The sch. is now housed in a new bldg. in Brunswick Sq. which was officially opened by H.M. The Queen Mother in April 1960.

**LIBRARY.** All students are entitled to use the library of the Pharmaceutical Soc. in Bloomsbury Sq.

**ADMISSION.** The sch. is open to men and women students. For admission requirements

see p. 965 and Appendix II. Foreign students are admitted on the same terms as British, but are expected to produce identification papers.

**FIRST DEGREE** (of Univ. of London). All undergrad. entrants to the sch. work for the BPharm hons. degree (3 yrs.).

**HIGHER DEGREES** (of Univ. of London). MPharm and PhD in pharmaceutical chem., pharmaceutics, pharmacol., pharmacognosy, pharmaceutical engin. sci. All depts of the sch. are available for postgrad. and res. work, and the respective profs. and hds. of depts. are always prepared to advise students wishing to undertake res.

**FEES.** Composition fee (incl. union membership), £64 p.a.

**PUBLICATIONS.** *Prospectus*; *Calendar*.

## GENERAL INFORMATION

University Coll., London, was founded in the year 1826 and opened on Oct. 1, 1828, under the title of the University of London. It was incorporated as University Coll., London, by royal charter dated Nov. 28, 1836. This charter was annulled by act of parliament, passed June 24, 1869, whereby the coll. was reincorporated with addtnl. powers and divested of its proprietary character. On Jan. 1, 1907, in accordance with the provisions of the University Coll. London (Transfer) Act, 1905, passed July 11, 1905, the coll. was incorporated in the Univ. of London. The facs. of arts and laws, and med., were establd. in 1832, the fac. of sci. in 1870 and the fac. of engin. in 1908; the Slade Sch. of Fine Art in 1871, the Bartlett Sch. of Archit. in 1913, and the Sch. of Librarianship in 1919. Full admission of women to the coll. was permitted in 1878.

INCOME. Total income (1958-59), £1,605,090 (govt. grants, 84.1 per cent; fees, 10.2 per cent.; endowments, 2.9 per cent.; misc., 2.8 per cent.).

## GENERAL INFORMATION

Originally founded by cardinal archbishop John Kempe in 1447 as a secular foundation, the coll. continued as a teaching instn. until 1893, as part of the original foundation consisted of a grammar sch. In 1893 it was reorganized as an agric. coll. for men under the principalship of the late Sir A. D. Hall. In 1945 Swanley Hortic. Coll. (for women) was incorporated.

Closely associated with the coll. is the S.E. sub-provincial headquarters of the national agric. advisory service (N.A.A.S.), the central offices and labs. of which are located on the coll. estate.

**CONSTITUTION.** Sch. of Univ. of London since 1900, and now the dept. of agric. & hortic. for the univ. Royal charter granted in 1948. Governing body of 32 members, incl. reps. of univ., Ministry of Agric., coll. staff, S.E. counties, Oxford and Cambridge univs., old students' assocns., etc.

**INCOME (1958-59).** Approx. £252,000 (univ., 54 per cent.; govt. depts., 21 per cent.; fees, 20 per cent.; other sources, 5 per cent.).

**COLLEGE PRECINCT.** The bldgs. of the original 15th-cent. foundation remain in use, with considerably extended teaching and residential accomm. added mainly in the present cent. In addn. there is a mod. hall of residence at Withersdane, about a quarter of a ml. from the coll. The estate comprises approx. 850 acres, incl. farm, hortic., hop res., etc.

**LIBRARY.** Approx. 12,000 vols.

**LABORATORIES.** Bot., chem., geol., hop res., hortic., pathol., phys., zool. **MUSEUM** of agric. implements (at Court Lodge Farm, Brook, Wye).

**ADMISSION.** See p. 965 and Appendix II. The requirements of the fac. of sci. must be satisfied.

**FIRST DEGREES** (of Univ. of London). The coll. provides courses for the following degrees of the Univ. of London: BSc(Agric), BSc(Hortic), BSc(Agric) with hons., 3 yrs. Hons. degree re-

quires higher pre-entry standard in chem. and bot. or zool. or biol., and course proceeds to greater depth in pure sci. subjects.

**HIGHER DEGREES** (of Univ. of London): MSc, 2 yrs. from BSc, in agric., hortic. and allied sci. subjects by res., or exam. and dissertation; MSc in poultry sci., 2 yrs. from BSc(Agric), zool., or vet. sci. by exam. PhD, 3 yrs. from BSc by res.; candidates normally required to register first for MSc.

**RESEARCH.** Facilities for postgrad. res. in agric., hortic., agric. chem., bot., zool., geol., agric. econ., hops.

**FEES PER SESSION.** Tuition—undergrad., £60; postgrad., £30. Student union sub. (compulsory), £4.

**ACADEMIC YEAR.** Oct.—June, 3 terms of 10 weeks each.

**ADULT EDUCATION.** Lectures given to agric., hortic. and sci. socs., farmers' clubs, etc.

**COLLEGE APPOINTMENTS BUREAU** assists in placing qualified students in suitable employment.

**GRADUATES' ASSOCIATION.** Agricola club and Swanley guild (men and women).

**STUDENT RESIDENCES.** Main coll. bldgs. and Withersdane Hall for 135 men and 50 women; Squires residence for 12 postgrad. men. Fees, £165 per session (30 wks.) for full bd. residence.

**STUDENT UNION.** All students belong to the union, which has an elected pres., vice-pres., and council.

**PUBLICATIONS.** *Prospectus*; *Annual Report*; various occasl. publicns., esp. on econ. and hops; reprints from scientific journals and other publicns.; student magazine (3s. per term).

**OTHER FEATURES.** Agric. Res. Council growth substance & fungicide unit & plant morphogenesis unit housed at the coll.

## GENERAL INFORMATION

King's Coll. Hospital Med. Sch. was founded in 1831 and was admitted as a sch. of the univ. in the fac. of med. in 1909. The med. sch. provides the clin. trg. for students reading for the degrees of London, Oxford and Cambridge univs. Under the conditions of the incorporation of King's Coll. in the univ., the univ. continues to teach in the King's Coll. bldgs. the prelim. and inter. med. studies leading to the MB BS and BDS degrees of the Univ. of London.

The new bldgs. of the med. sch. were opened in 1933, and the new dent. sch. in 1940. A further extension to the med. sch. was completed in 1958. The present bldgs. incl. a library (7000 vols.) and reading-room and a pathol. museum. The students' hostel is within 5 minutes' walk of the hosp. and med. sch., and the athletic ground is within 10 minutes' walk. There is a 2nd athletic ground near by.

## ADMINISTRATIVE AND OTHER STAFF

Accountant : N. D. Stone. Librarian : Jean Hickling, FLA.

## GENERAL INFORMATION

The sch. was built as a complete med. sch. for the teaching of anat. and physiol., chem., phys. and biol. in 1835, but teaching in the wards had begun in the earliest days of the hosp.'s existence, nearly 100 yrs. before.

The first section of the new pre-med. and pre-clin. sch. was occupied in Jan. 1960. It comprises large teaching labs. and lecture theatres.

The second section will contain professorial rooms, res. labs., dining hall, admin. rooms, etc., and the final phase will be the residential coll. for 175 students which will also contain student amenities.

The theoretical and practical teaching of all the

2 M

subjects of the med. curriculum, incl. chem., phys. and biol. for the 1st MB exam., is carried out within the sch., which contains the Bland-Sutton Inst. of Pathol., with museum and labs.; Barnato-Joel res. labs. (phys.); S. A. Courtauld Inst. of Biochem.; Ferens Inst. of Otol.; Meyerstein Inst. of Radiotherapy; clin. res. inst.; professorial med. unit and surg. unit.

**LIBRARY.** The Boldero library (5015 vols.) is open to all students of the sch. and contains the latest med. text-books and the leading med. journals.

**ADMISSION.** See p. 965 and Appendix II.

**RESIDENCE.** There is limited accomm. for resident students. Surgical dressers live in during their 'emergency week', as do the extern clerks during their course in midwifery.

**SCHOLARSHIPS AND PRIZES.** Numerous scholps. and prizes are awarded annually to a total value of over £1000. These incl. 2 entrance scholps. to the value of £100 each; 2 scholps. value £100 each for Univ. of London students of the med. sch. who have completed studies in anat. and physiol.; and 2 open to students of the univs. of Oxford and Camb. who have completed the curriculum for, or passed, the exams. in anat. and physiol.

**POSTGRADUATE AWARDS** open to grads. of other univs.: see p. 825.

**FEES.** Entrance, £15:15s.; annual tuition fee, £60 p.a.; clubs' sub. (compulsory), £7:7s. p.a.

**ALLIANCE.** An exchange scheme exists at consultant and professorial level with the med. fac. of the Univ. of Toronto.

**STUDY LEAVE.** Applicns. for study leave are considered individually by the sch. council.

**PUBLICATIONS.** *Med. School Prospectus* (annually in mid-Sept.); *The Story of the Middlesex Hosp. Med. School 1835-1935*, by Dr. H. C. Thomson (written for sch.'s centenary); *Middlesex Hosp. Journal* (produced by students bi-monthly).

## THE YEAR 1959

**MAJOR BUILDING DEVELOPMENTS.** *Bldgs. completed:* phase I, new pre-med. & pre-clin. teaching block.

**NEW CHAIR.** Biol. as appl. to med.

**RETIREMENTS.** Prof. J. H. Woodger (biol.); H. W. Breese (cons. dent. surg.).

**RESIGNATIONS.** N. G. Harris (cons. psych. med.); R. V. Hudson (cons. surg.); P. Wiles (cons. orthop. surg.).

**DEATHS.** Dr. B. R. M. Johnson (cons. anæsth.); Sir Robert Young (hon. cons. med.); Prof. J. Kirk (emer. prof. anat.).

**GENERAL INFORMATION**

St. George's Hosp. was opened in 1734 and the physicians and surgeons were permitted to have a limited number of pupils from its inception. The sch. has been unchanged since 1868 until the present rebuilding scheme was begun. Since 1906 the teaching in the sch. has been devoted entirely to the clin. subjects, although recently univ. units in med. and surg. have been set up and a prof. has been apptd. to a chair of med. By arrangement, students entering for the full course do the pre-clin. work at King's Coll., London, but clin. students are also accepted from the univs. of Cambridge and Oxford. The numbers entering are deliberately kept small, and, in spite of recent increases, it has been possible to maintain the old tradition of individual teaching.

**LIBRARY, MUSEUM, ETC.** The sch. library (5848 vols.) contains text-books and journals dealing

with all branches of clin. study. The pathol. dept. contains labs. of morbid anat., bacteriol., hæmatol. and chem. pathol.

## GENERAL INFORMATION

The sch. was founded in the 13th cent. and is now an incorporated sch. of the Univ. of London. The governing body of the sch. is the sch. council and there is also an advisory academic bd. The

pre-med. and pre-clin. depts. are well equipped, and there are full professorial units in med. and surg. The hosp. has over 700 beds available for teaching.

St. Thomas's Hosp. and Med. Sch. occupy an extensive site on the south bank of the river Thames, opposite the Houses of Parliament.

**LIBRARY.** Nearly 19,000 med. books and pamphlets. There is an extensive pathol. MUSEUM.

**ADMISSION.** Students entering the pre-med. period must have fulfilled the univ. entrance regns. (see p. 965 and Appx. II) and those entering pre-clin. period must have passed 1st MB exam. or achieved exemption from it.

**COURSES.** Full instructn. for the whole course for MB BS Lond. (5½ yrs.). Students for this degree join the pre-med. or pre-clin. periods in Oct., but those from Oxford or Camb., who wish to do their clin. work in London for their own univ. degrees, may join in April or Oct. A final FRCS course is held twice a yr., starting in March and Sept. and lasting 8 weeks. Women students are accepted up to 15 per cent. of the annual entry.

**FEES.** Tuition, £60 p.a.; club sub., 6 gs. p.a.

**SCHOLARSHIPS.** Entrance scholps. into the pre-clin. period include 2 open scholps. in nat. sci., value £60 and £40 p.a. for 5 yrs., and 2 Home Counties scholps. in nat. sci., value £50 and £40 p.a. for 5 yrs. For entry into the clin. period

there are 2 univ. scholps., value £50 and £40 for 3 yrs. There are many internal scholps. and prizes open for award. Res. facilities and scholps. are available for postgrads.; 2 scholps. may be awarded annually to enable selected students to take a BSc hon. degree in physiol. or anat. before proceeding to clin. period. For postgrad. awards, see p. 825.

**STUDENTS' HOSTEL.** St. Thomas's House, Lambeth Palace Rd., London, S.E.1 (tel.: Waterloo 4625). At present there are 34 single rooms available for men only; room and breakfast, £3 per week.
